

IMPORTANT TURKEY HEALTH PROBLEMS - 1981 - (TABLE 1)

Replies - States Represented in survey (16)

Arkansas, California, Colorado, Georgia, Iowa, Indiana, Massachusetts, Minnesota, Missouri, North Carolina, Ohio, South Carolina, Texas, Utah, Virginia, Wisconsin.

PRIORITIES FOR RESEARCH

1. Respiratory diseases (Respiratory system)

1. Colibacillosis
2. Turkey Coryza Syndrome
3. Pasteurellosis
4. Avian Influenza
5. Aspergillosis
6. Mycoplasmosis (MM, MS, MG)
7. Newcastle disease
8. Ornithosis

2. Skeletal Problems (Skeletal system)

1. Osteomyelitis (E. coli, staph.)
2. Nutritional disorders (Field Rickets)
3. Tibial dyschondroplasia
4. Mycoplasmosis (MM & MS)
5. Mycotoxicosis
6. Vertebral Fractures
7. Tibial rotation

3. Enteric Disorders (Gastro-intestinal system)

1. Salmonellosis-Arizonosis
2. Viral enteritis (rota; Reo)
3. Hemorrhagic enteritis
4. Coccidiosis
5. Mycosis

4. Systemic Infections (Generalized infections)

1. Erysipelas
2. Transmissible Neoplasms (Leukosis)
3. Turkey Virus Hepatitis

5. Parasitic Problems

1. External parasites
2. Internal parasites

6. Miscellaneous

1. Roundheart (Cardiovascular system)
2. Muscle dystrophy (Muscular system)
3. Aneurysm
4. Reproductive disease(s)
5. Drug/chemical Residues
6. Litter Eating Syndrome
7. Immune System
8. Vent Gleet

IMPORTANT CHICKEN HEALTH PROBLEMS - 1981 - (TABLE 2)

PRIORITIES FOR RESEARCH

Health Problems - Broiler Breeders

1. Skeletal problems
 1. Viral arthritis
 2. Femoral head necrosis
2. Immune diseases (Immune system)
 1. Infectious bursal disease
 2. Hemorrhagic enteritis virus
3. Respiratory diseases (Respiratory system)
 1. Infectious bronchitis
 2. Colibacillosis
 3. Infectious laryngotracheitis
 4. Infectious coryza
 5. Newcastle disease (VVMND)
 6. Fowl cholera
 7. Mycoplasmosis
 8. Adenovirus (EDS-76)
4. Enteric disorders (Gastro intestinal system)
 1. Coccidiosis
 2. Salmonellosis
 3. Ulcerative enteritis
 4. Clostridial infections
5. Mycotoxicosis
6. Neoplasms
 1. Lymphoid leukosis
 2. Marek's disease
7. Miscellaneous
 1. Drop in egg production
 2. Osteoperosis
 3. Fatty liver syndrome
8. External Parasites

IMPORTANT CHICKEN HEALTH PROBLEMS 1981 - (TABLE 3)

PRIORITIES FOR RESEARCH

Layer Health Problems - Egg Type

1. Immune diseases (Immune system)
 1. Infectious bursal disease
 2. Hemorrhagic enteritis virus
2. Respiratory diseases (Respiratory system)
 1. Infectious bronchitis
 2. Mycoplasmosis
 3. Colibacillosis
 4. Newcastle disease (VVND)
 5. Infectious laryngotracheitis
 6. Infectious coryza
 7. Fowl cholera
 8. Adenovirus (EDS-76)
3. Enteric disorders (Gastro intestinal system)
 1. Coccidiosis
 2. Salmonellosis
 3. Ulcerative enteritis
 4. Clostridial infections
 5. Mycosis
4. Neoplasms
 1. Lymphoid leukosis
 2. Marek's disease
5. Mycotoxicosis
6. Miscellaneous
 1. Egg shell quality
 2. Osteoperosis
 3. Fatty liver syndrome

IMPORTANT CHICKEN HEALTH PROBLEMS - 1981 - (TABLE 4)

PRIORITIES FOR RESEARCH

Broiler Health Problems

1. Respiratory diseases (Respiratory system)

1. Colibacillosis
2. Infectious bronchitis
3. Newcastle disease (VVND)
4. Infectious laryngotracheitis
5. Mycoplasmosis
6. Aspergillosis

2. Skeletal problems (Skeletal system)

1. Femoral head necrosis
2. Tenosynovitis (Viral arthritis)
3. Tibial dyschondroplasia

3. Enteric disorders (Gastro intestinal system)

1. Malabsorption Syndrome (Pale Bird Syndrome)
2. Coccidiosis
3. Salmonellosis
4. Clostridial infections
5. Viral enteritis (Reo, Rota)

4. Immune diseases (Immune system)

1. Infectious bursal disease
2. Hemorrhagic enteritis virus

5. Mycotoxicosis

6. Neoplastic disorders

1. Marek's disease

7. Oily Bird Syndrome
