DELINEATOR FOR NOVEMBER

With its new dress of color throughout the fashion and advertising sections, the November Delineator presents a most attractive appearance. The Autumn Fashions have a large place in the number, being illustrated and described in detail interpreted by such authorities of dress as Helen Berkeley-Loyd and Edouard La Fontaine. The table of contents contains, among its many features of interest, an article, the second of two, by Dr. William H. Maxwell, Superintendent of Schools, New York City, on "Education for Life through Living," which describes the routine of a great public school. "A Run in Ireland" is a delightful travel sketch by Neumas MacMann, the well-known Irish author. N. Hudson Moore writes of "Tables

and Sideboards" in "The Collector's Manual," and "The Child's Dress" is the subject of Dr. Garce Peckham Murray's paper. "The Romance of a Gospel Singer" is a timely contribution describing some interesting events in the life of Charles M. Alexander, the revivalist. The Lucky-Piece, Albert Bigelow Paine's novel which has been running in the magazine is brought to an end in this number, and "Spinsters Farm," by Helen M. Winslow is continued. A delightful story of boy life "The Exaltation of William Henry" is from the pen of Hermine Templeton. There is a great deal of interest and value to housewives in the departments and for the little folks stories and pastimes.

The Arab Pony.

The Arab is virtually a pony, standing 14 1/2 hands, often under that over. He is not fast, even at the gallop; indeed, he is slow. He is a very poor trotter, both as regards speed and action; a bad hack, and cannot walk without continually sticking his toe in the ground. He is totally unfitted for harness and is uncomfortable to ride except at the gallop; this is his natural gait, and in his movement is free, smooth, delightful and easy.—Sporting News.

School Teachers Poorly Paid. Austria pays less to teachers than is paid in France, and the Parliament has refused to consider the needs of the teachers. The highest salaries in the empire are paid in Bohemia, where, by placing an extra tax on beer, the government raised enough money to increase the salary of its teachers. The lowest are paid in the Turkish empire, which were under the Turkish government.

Emulating Her Father. At a recent children's party, given on the Hill, the little people were discussing, during refreshment time, what they intended "to be" when they grew up. One little girl announced that she "expected to marry a handsome man," whereupon her partner straightened up and remarked, "And I shall follow my father's example and be a bachelor."—Brooklyn Life.

Butterfly Farm. Yorkshire possesses a farm for the rearing of moths and butterflies. Half an acre of land has been planted with trees and shrubs for the purpose. In their season the stock of caterpillars is 20,000. From 30,000 to 40,000 preserved insects are kept in reserve, so that butterflies and moths can be supplied irrespective of the time of year.

Children Have No Footwear. Italian children of the poorer classes can neither hang up their stockings at Christmas nor put their shoes out the window at Twelfth night for the wise men to fill. For when the weather is too cold for them to go barefoot they wear rag bound around their feet for coverings.

Belgium Egg Exports. Belgium exports annually \$6,500,000 worth of eggs. The shipments are almost entirely to England, where the demand is for eggs which run seven and a quarter to the pound. The Mediterranean breeds—Leghorns, Spanish Minorcas and Andalusians—are the most popular.

Sunday School Enrollment. There are within three million of as many persons enrolled in the Sunday schools of this country as in the public schools, there being thirteen million in the former and sixteen million in the latter. The total Sunday school membership throughout the world is twenty-five billion.

Split Wood by Machine. A machine has been invented which is capable of splitting wood two feet long and eighteen inches thick. It is run by a three horsepower gasoline engine, and consists of a huge knife which works through the knotless wood at the rate of sixty strokes a minute.

Total Output of Books. A Brussels expert, M. Paul Otlet, estimates that from the invention of printing, in the middle of the fifteenth century, to January, 1900, 12,163,000 different books have been issued. He also estimates that about 200,000 books are now annually issued.

Slight Sounds Carried Far. In the Abbey church at St. Albans is a curious echo. The tick of a watch may be heard from one end of the church to the other. In Gloucester cathedral a gallery of octagonal form carries a whisper seventy-five feet across the nave.

Be Not Rash in Criticism. Beware of rash criticisms, the rough and stringent fruits you condemn may be an autumn or winter pear and that which you picked up beneath the same bough in August may have been only its worm-eaten windfalls.—Holmes.

Beetles Destroy Trees in Germany. In 1873, in Germany, 1,500,000 trees are said to have been destroyed in the Harz forest alone by two small species of beetles. The larvae burrow beneath the bark and thus cause the injury to the growing trees.

Cost of Feeding Royalty. The imperial kitchen of the Austrian Emperor at Vienna costs about \$250 a day, says a German contemporary. In this sum, however, are included the extra expenses for court dinners, etc.

To Reclaim Everglades.

There is a movement in Florida to reclaim the Everglades, which comprise 2,000,000 acres of marsh and/or lagoons, covered with primeval forest trees. It is proposed to drain at least the more accessible marshes and clear away the trees and tangled semitropical vegetation. It is believed the lands, if once thoroughly reclaimed, would be very fertile and valuable.

Style in Africa.

The natives of Kilimay, in the East Africa, protectorate, go about well armed. They carry a stout, acorn-shaped spear, a long buffalo-horn shield, a heavy, double-edged short sword, a club and several strong sticks. Their principal "garment" is a plentiful coat of terra cotta earth, and they wear numerous articles of metal as ornaments.

Typographical Error.

Some typographical errors compel a correction. A Tennessee paper that announced the introduction of a bill to put a tax of \$500 on dealers in furniture hastens to explain that it meant dealers in futures.

With Only One Toe. It is not generally known that the small foot of Chinese ladies have commonly but one toe. This is, however, the fact. The great toe of the females of the first rank, and some of the inferior classes also, is the only one left to act with any freedom; the rest are doubled down under the foot in their tenderest infancy, and retained by compressed and tight bandages till they unite with, and are buried in, the sole.

The finest specimens of humanity in Europe are the gypsies of Hungary. Both men and women are shapely in face and form, with large, clear eyes and rosy complexions, and they are seldom ill.

At a recent dinner of the Geodetic Club, Professor Shaler, of Harvard, told the following story on himself: "I still remember a mental slip I made nearly thirty years ago when in Washington attending a large educational conference. I was alone in the hotel parlor waiting for two of my friends when a rather short, bearded man entered, and, seeing me, advanced to shake hands with a cordial, 'Glad to see you, Professor Shaler.' At the moment I was unable to place him, and had to confess my lapse of memory. I explained that I was meeting so many people that I could not remember the name of each, though the face might be very familiar. He smiled and said he quite understood, and drew out his card. On it was engraved 'General Ulysses S. Grant,' and then I understood why his face was so very familiar."

Cream, Ark. Oct. 9th.—(Special.)—After eighteen months suffering from Epilepsy, Backache and Kidney Complaint, Mr. W. H. Smith of this place is a well man again and those who have watched his return to health unhesitatingly give all the credit to Dodd's Kidney Pills. In an interview regarding his cure, Mr. Smith says: "I had been low for eighteen months with my back and kidneys and also Epilepsy. I had taken everything I knew of and nothing seemed to do me any good till a friend of mine got me to send for Dodd's Kidney Pills. I find that they are the greatest medicine in the world, for now I am able to work and am in fact as stout and strong as before I took sick." Dodd's Kidney Pills cure the kidneys. BIG PUBLISHER SUED.

Chicago, Oct. 16.—The Peruna Drug Manufacturing Company, manufacturers of a widely known proprietary medicine, has brought suit in the Superior Court of the City of Chicago against the Curtis Publishing Company of Philadelphia, alleging that it has been damaged to the extent of \$250,000 by a recent article in the Ladies' Home Journal.

The suit is based on a statement recently made in that journal that a testimonial as to the merit of the remedy manufactured by the plaintiff, alleged to have been given by Congressman George H. White of South Carolina, was fraudulent, denial from Mr. White that he ever gave such a testimonial also being printed.

The Peruna company declares that Congressman White did give the testimonial in good faith, and that it has two original letters from Mr. White. It declares that Mr. White was led to repudiate the testimonial through a misunderstanding.

This is the second large damage suit that has been filed against the Curtis Publishing company since it inaugurated its attacks on "Patent Medicines."

Madam—"Be sure to put plenty of nuts in the cake." Cook—"I'll crack me some nuts to-day." My jaw hurts me already.—Harpers' Bazar.

When King Edward was Prince of Wales, his habits and movements were marked by a simplicity which would doubtless characterize them still if he were not obliged, by reasons of state, to submit to another and more ceremonious existence. But in the days before his majesty's accession, he was one day driving a dog cart alone and unattended, when he encountered on a country road an old woman coming back from market, carrying a heavy basket. She seemed almost ready to drop, and the prince stopped and talked to her. Then he offered to give her a lift, which the good dame gladly accepted. Chatting as they went, his highness asked the old woman what she had in her basket. "Eggs, butter and vegetables, which I hope soon to find customers for," was the reply. "I like fresh eggs," said the prince, "and if you'll let me have the lot I'll give you the portrait of your mother." "The portrait of your mother?" exclaimed the poor woman, in astonishment, "what good would that do me?" "Well, you never know," said the Prince of Wales, smiling; "just you let me have the eggs. And as they were nearing the old woman's cottage, his highness laid his hand on the basket, took one half a dozen eggs, and handed the astonished market-woman a gold coin bearing the effigy of the late Queen Victoria.

"GOLD GOLD."

"Good," he says, "But Comfort Better."

"Food that fits is better than a gold mine," says a grateful man.

"Before I commenced to use Grape-Nuts food no man on earth ever had a worse inflection from catarrh of the stomach than I had for years. "I could eat nothing but the very lightest food and even that gave me great distress."

"I went through the catalogue of prepared foods but found them all (except Grape-Nuts) more or less indigestible, generating gas in the stomach (which in turn produced heartache and various other pains and aches) and otherwise unavailable for my use. "Grape-Nuts food I have found easily digested and assimilated, and it has renewed my health and vigor and made me a well man again. The catarrh of the stomach has disappeared entirely with all its attendant ills, thanks to Grape-Nuts, which now is my almost sole food. I want no other."—Bottle Creek, Mich.

"TOM" DENNISON IS A FREE MAN

No Charge of Any Kind Remains on the Docket.

JUDGE GREEN DISMISSES CASE

It Has Cost the State of Iowa \$16,000 to Prosecute the Nebraska Man for Alleged Complicity—State Had No New Evidence.

Red Oak, Oct. 12.—Judge Green yesterday morning dismissed the second indictment against Tom Dennison on a charge of receiving diamonds stolen from W. L. Pollock, the New York diamond broker.

The motion to dismiss was made by Attorney Greenlee, acting for County Attorney Fallon. The motion to dismiss was made on the ground that the state had no important evidence other than that offered at the first trial of Dennison, in which he was acquitted.

Elmer Thomas representing the Civic Federation of Omaha, opposed the motion. He claimed that there was sufficient evidence to warrant a second trial and intimated that Dennison had something to do with the dismissal of the charge against him.

Judge Green, however, held that the new affidavits were not sufficient to cause Harrison county the heavy expense of a second trial. He did not believe a conviction could be secured with the evidence submitted, and dismissed the indictments.

Dennison, who was here, was much pleased with the result, and said: "I hope this satisfies the clique that has been trying to down me. It has been simply a plot on the part of Omaha politicians, anyway."

FRANK CALLAHAN WAS KILLED FOR MONEY

Des Moines, Oct. 12.—The coroner's jury in the case of Frank Callahan, whose body was taken from the Des Moines river below Levy a few weeks ago, yesterday returned a verdict of murder, again pointing a hidden cause at the detective department.

The verdict here is not so pointed a censure, for the reason that the body was found outside the city limits, and does not actually come within the jurisdiction of the local officers, though the fact that the drowning or suicide or murder, whatever it was that caused the death, occurred in Des Moines, centers the work on the case in this city.

The verdict reached by the jury was based partly on the report of Chemist Kinney, but more largely on the condition in which the body was found when taken from the river. Professor Kinney's report was to the effect that no water was found in the lungs, but that a woody fibre had adhered in a number of places to the membrane.

Went on a Long Journey.

Grinnell, Oct. 11.—Tina, of life, Dan Patton, a prominent farmer residing southwest of this city, took poison and died a few hours later. He sent a note to one of his friends saying that he wished that he would do the chores for him that evening as he was going on a long journey. Thinking something wrong, a party was summoned. Patton was found lying in a chair on the front porch, where he had seated himself after having taken the poison.

DRUG STORE ROBBER MAKES A BIG HAUL

Des Moines, Oct. 10.—A lone masked highwayman entered the Hufford drug store at Ninth and School streets at 10:30 last night and at the point of a gun relieved the proprietor W. S. Hufford, of a roll of bills amounting to \$450, a gold watch and chain, valued at \$100, and a diamond ring worth \$200. He backed out of the store with the revolver pointed at the druggist's heart. He turned when he reached the street and ran south. His identity is not known to the police, save as the mysterious drug store robber, the same man who entered the Phillee store, East Sixteenth and Walnut street, Sunday morning, and has been peering into other windows.

The detective department was apprised of the fact and the matter was directly told to all of the patrolmen, with notice to watch for the stranger, described as being short, wearing a sandy mustache and wearing a cap. It is certain that the man is an experienced hand at the business, and may be the same thief who held up a number of drug stores during the summer. His methods are so bold and his actions so cool that it indicates he is an old hand at the business.

Mason City Man Killed.

Mason City, Oct. 13.—John Lee, thirty years a resident here, was killed by a Milwaukee freight at 4:50 yesterday at the Austin bridge, one mile north of the city. Lee was a wealthy pioneer hardware merchant. Of late years he had the matter health and was out for a walk near a curve in the track. His head was severed from the body and part of the skull was left on the bridge. The body will be sent to New York for interment.

Colfax Man Gives \$30,000

Colfax, Oct. 10.—W. A. Winder, a wealthy citizen of Colfax, once a prominent member of the Baptist church, has recently bequeathed \$30,000 to the Baptist Home Mission society at his death. Mr. Winder has a wife but no children.

STORM LAKE BANKER IS FOUND GUILTY

Sioux City, Oct. 11.—W. R. Brown, president of the defunct First National bank of Storm Lake, this afternoon was found guilty of fraudulent banking by making false entries in his books and false reports to the government.

The trial has been in progress in the federal court for a week. There were two indictments and thirty-one counts, on thirty of which Brown was found guilty. The minimum sentence is five years. It would be possible for the court to sentence the prisoner to ten years for each count.

Sentence will be pronounced Friday. Brown will probably take an appeal. The banker was in the court room when the jury returned its verdict at 5:25 o'clock yesterday afternoon, after having been out seven hours, but he made no demonstration.

THE GRAND CHILDREN GET RAND ESTATE

Burlington, Oct. 11.—The will of the late Mrs. E. D. Rand, mother of Mrs. Geo. B. Herron, made five years ago at Grinnell, was filed yesterday for record. Most of the estate goes to the grand children and will be held in trust until they successively attain their twenty-eighth year.

Mrs. Carrie Rand-Herron and John J. Fleming of this city were named as trustees without bond. No statement of the total value of the estate is given. Mrs. Herron receives \$200,000 as her share. Mrs. Rand's two brothers are given 150 shares of bank stock. The remainder of the estate will be held in trust for Mrs. Rand's grand children.

One-half of the net income from the property is to be used in educational work in which Mrs. Rand was interested in the latter years of her life. This amount will reach \$10,000 annually. The other half of the income will accumulate for the benefit of the grand children.

W. V. WILLCOX GETS PENSION AGENCY

Des Moines, Oct. 8.—W. V. Willcox has been appointed pension agent for the Iowa-Nebraska district. President Roosevelt yesterday announced the appointment and Mr. Willcox, within a day or two, will receive his bond to be filled out and returned to Washington. As soon as it is approved his commission will be forwarded to him and he will assume the duties of the office. This will not be later than Oct. 12, probably.

This appointment is for the term ending with December, 1906, but it is generally conceded that the appointment will be perpetuated into the four year term succeeding that date.

D. B. HENDERSON IS RAPIDLY FAILING

Dubuque, Oct. 13.—Col. D. B. Henderson is resting easier, but the dread paralysis has its grip and death is certain. Fear of another stroke of paralysis hangs over the wife and daughter, who remain by the bedside of the patient.

The doctor has announced that another stroke would hasten death. If the disease takes its course he will be dead within two years. Irrational in his statements, he talks about more deaths, but his mind fades away and he is lost.

Whitmer To Fight For Honors.

Sheldon, Oct. 11.—It has been given out here yesterday as authentic that Hon. George R. Whitmer, formerly representative of this county, but now living in Sioux City, will contest the seat of George Young, nominated as his successor last week.

Hon. James A. Parsons, the well known democratic lawyer of Rock Rapids, is counsel for Mr. Whitmer, and will fight his cause before the next house of representatives, and gives out that he is confident of success.

Murderess Moved to Asylum.

Clinton, Oct. 11.—Physically weak and ill and a mental wreck as well, Mrs. Edward H. Thurston, nee Annie Crawford, has been removed from the penitentiary at Anamosa, where she was serving four years for the murder of John Dillor of this city. She was taken to the state hospital for the insane at Independence, where her death is momentarily expected. She has been declared to be hopelessly insane by the board of the state prison and her removal to the state hospital ordered.

First Sues Then Shoots Him.

Maloy, Oct. 12.—J. F. Woodside of this place was shot last night at Blackton by Jim Henderson. It is supposed to be the outgrowth of a standing trouble between them. Papers were served on Woodside on Tuesday for \$10,000 damages for alleged alienation of the affections of Henderson's wife and the shooting is supposed to have been the outgrowth. Woodside was shot once in the side. His condition is serious.

Tramp Killed at Ames.

Ames, Oct. 12.—Henry Boyle, a tramp whose home is said to have been in Wisconsin, jumped in front of a Northwestern passenger train yesterday morning and was instantly killed. Two other tramps were with him and one of his companions was badly injured. "No cause for their strange actions is known."

Shame Causes Suicide.

Dubuque, Oct. 11.—Because she was accused of theft, Mae Steffens, a hotel domestic, drank two ounces of carbolic acid yesterday and will die.

THE BUMPER WHEAT CROP OF CANADA.

100,000,000 Bushels of Wheat from 4,000,000 Acres of Land.

In order to secure the attention of the reader to any special article that is brought before the public, it is often the custom to lead the reader on by the introduction of an interesting story until by one bold jump, he is introduced to the subject that it is desired shall be brought to his notice. This is not fair to the reader, and it is not the intention to do that in this article. It will discuss in the briefest way "Western Canada" and its possibilities for settlement. For the past six or seven years the Government of the Dominion of Canada has talked of the resources of Western Canada to the readers of this and thousands of other papers throughout the United States. The quality of the soil was spoken of, the large area of fertile lands was discussed, the possibilities of the country as a grain-growing district were talked of, and the story of the success of farmers in the United States was told. The story is not yet an old one. The two hundred thousand from the United States, who have made Western Canada their home, who have taken advantage of the 150 acres of land that the Government gives free to actual settlers are telling the story to-day to their friends. They have proven the statements made through these columns and by the Government Agents. They have produced from their lands, twenty, thirty, forty and more bushels of wheat to the acre, and netted profits ranging from three to ten and more dollars on every acre sown. They have found the climate fully as good as they were told to expect, the schools were convenient and easily organized, railways were not far distant, and markets close at hand. The social conditions were such as they chose to make them, and law and order were observed. Many of them bought land, because it was low-priced and good, and hundreds of cases could be cited where the purchase price of the land was paid out of the first crop. The writer knows of cases this year where the farmer, as a result of the yield on his farm, was put in a position that would enable him to increase his holdings three extra acres for every acre cropped and pay cash for it. Is it any wonder that one grows enthusiastic when speaking about Western Canada?

But what may be said of this year. We are now in a position to speak regarding it. The conditions throughout Manitoba and the new provinces of Alberta and Saskatchewan have been remarkably favorable. Had conditions been no better than in past years there would have been every cause for congratulation. We find that all previous records broken, and that from a four million acre crop of wheat there will be one hundred million bushels of a yield—of 25 bushels to the acre. Could anything better be desired? Covering the entire country the same splendid reports are being received. The following dispatch was sent by Mr. F. W. Thompson, Vice President of the Ogilvie Milling Co., one of the most careful grain men in America:

"Have just returned from covering several hundred miles of the crop district. I never saw anything like it in this country before. The average yield and quality far exceeds our earlier expectations. It is an immense crop. The weather is extremely favorable." Up to three weeks ago it was Mr. Thompson's opinion that the crop would not reach general expectations. "F. W. Thompson sends another telegram from Winnipeg to-night, saying that his estimate of the wheat crop is now one hundred millions bushels. Before he went west he thought it would 'fall considerably short of that figure."

The moral of the story is that there should be no hesitation in making a decision if you wish to better your condition; or, if you have a family of boys that you wish to become settled on farms, it is a safe proposition to call upon the nearest authorized Canadian Government Agent, and get particulars as to most suitable districts and railway rates.

Lots of men who attend the races can't win even a little sympathy.

AGAINST THE PUBLIC INTEREST.

Overzealous Reformers Work for Law Against Proprietary Medicines. "Schemes to diminish or destroy the sale of proprietary medicines are constantly being devised by interested parties. Every now and then some zealous reformer comes to the front with the demand for a law to require every package of proprietary medicine to be labeled with a printed statement of the 'formula,' showing just how it is manufactured. The millions of people who use proprietary medicines seem to be satisfied; but the man with a mania for regulating the affairs of other people or who has some personal interest to serve is the one who agitates the proposition. To a person who has never taken time to consider it, such a proposition may seem reasonable enough; yet it is in fact nothing more nor less than a scheme to compel the manufacturers to put their trade throughout the entire country at the mercy of every commercial pirate who might choose to flood the market with imitations of their goods.

"Under such conditions the incentive for the original manufacturer to advertise his goods would be practically destroyed, for the money spent on advertising would inure mainly to the benefit of the pirates and imitators. Without advertising, the public would receive little information in regard to the medicine, and all future sales would be greatly impaired if not wholly destroyed. It is mainly by judicious advertising that the knowledge of proprietary medicines is brought to the public. Nothing is more certain than that millions of people have found relief at a comparatively small expense by the use of some remedy first called to their notice through newspaper advertising. Why, then, should the manufacturer of a meritorious proprietary remedy be compelled by law to practically destroy his business as a condition of being allowed to carry it on? Yet this is exactly what these formula bills mean.—Exchange.

POLICE FORCE A QUORUM IN OMAHA

The Aldermen Are Kept in Council Chamber By Force.

WHILE ORDINANCE IS PASSED

Entering Into Contract With Omaha Gas Company—Mayor Moores Makes Inflammatory Speech and Vice Epithets Are Freely Used.

Omaha, Neb., Oct. 12.—The most extraordinary scene ever witnessed in the Omaha council chamber occurred yesterday when Mayor Moores stationed a cordon of policemen at the doors of the room and prevented three members of the city council from leaving the chamber, thus keeping intact a quorum, which the majority used to pass an ordinance entering into a contract with the Omaha Gas company for furnishing illuminating gas to the city.

The council met in adjourned session, a quorum not being present at Tuesday night's regular meeting. After a roll call of the council was called President Zimmerman and Councilmen Nicholson and O'Brien started to leave, thus breaking the quorum. They found every door blocked by stalwart policemen and were forced to remain in the council room. A member of the majority made a motion placing the ordinance on its passage, but President Zimmerman refused to put the question. Councilman Huntington, a member of the majority, put the question, five members voting for it. The minority members declined to vote.

Mayor Moores was present and immediately returned the contract with the bond approved. The mayor made an inflammatory speech, and several vice epithets were passed between the executive and minority members of the council.

During the parley between Mayor Moores and Councilman O'Brien there occurred one of the most sensational scenes ever enacted in a legislative body in Nebraska. Threats of physical violence were made and a clash of fists followed between the mayor and O'Brien was on the point of being consummated when Councilman Nicholson, another minority member, interfered. Twice O'Brien attempted to leave the council chamber and was forcibly pushed back by policemen. President Zimmerman also was forcibly required to remain.

City Attorney Herdman declares it is illegal, while an attorney representing the gas company says the contract as approved is satisfactory.

The ordinance provides for a ten year contract with the gas company for furnishing street lamps at \$28.00 each per year. It is alleged by the minority that cheaper lights may be secured.

CZAR TURNS OVER JEWISH QUESTION

St. Petersburg, Oct. 12.—Emperor Nicholas has decided to turn over to the national assembly the final settlement of the question of the admission of Jews to the universities with other question relatives to the Jews.

In reply to a petition of the faculties of St. Petersburg and Moscow universities advocating the unrestricted admission of Jewish students submitted to him by General Glasoff, the minister of education, the emperor has notified the faculties of the above decision and at the same time pending the action of the national assembly, he has authorized the admission of Jews who are applying this year in excess of the legal percentage.

The ministry of education is elaborating a bill providing for the removal of the restrictions on the admission of Jews to the universities.

PAT CROWE'S BOND FIXED AT \$5,000

Omaha, Neb., Oct. 12.—When the preliminary hearing of Pat Crowe, alleged kidnaper of Eddie Cudahy, was called before Police Judge Berka yesterday afternoon Crowe walked that formality and was bound over to the district court in \$5,000 bail.

Attorney English, who represented Crowe, asked that his client be given a trial at the earliest possible time. It is believed that the prisoner will be able to secure bond. It is stated at the county attorney's office, however, that in case of securing bail on the shooting charge that he will be rearrested on the highway robbery charge, filed yesterday for the Cudahy kidnapping. The original charge was yesterday amended to cover the statute of limitation, by an affidavit showing that Crowe has been fugitive from justice since last spring.

Professor Behring's announcement to the International Tuberculosis Congress in Paris of a cure for consumption one of New York's wealthiest and best known citizens, whose name is withheld for the present, has authorized the Herald to announce that he will contribute \$50,000 to a fund to present to Professor Behring if he will reveal at once to the world his treatment, and not withhold it for a year. The only qualification is that the treatment must first be pronounced successful by competent physicians.

Many Firemen Injured. Chicago, Oct. 13.—Six firemen were injured, two probably fatally, in a collision yesterday between a hose cart and an electric car at Larrabee and Black Hawk streets. The car was running at a speed of twenty miles an hour when it struck the rear of the hose cart knocking the vehicle twenty-five feet. The front of the street car was slightly damaged. The hose cart was almost demolished.

AWFUL NEURALGIA

Mr. Porter Thought He Should Go Mad But Dr. Williams' Pink Pills Cured Him.

"It seems like a miracle that Dr. Williams' Pink Pills should have cured my neuralgia," said Mr. Porter. "They are certainly a marvelous medicine and I am always glad to recommend them. "For two years," he continued, "I had suffered almost unendurable pains in my head. They would start over my eyes and shoot upward most frequently, but they often spread over my face, and at times over every part of my head and face would be full of agony. Sometimes the pains were so intense that I actually feared they would drive me mad. "My eyes ached constantly and there was always a burning sensation over my forehead, but the other troubles varied, sometimes they were acute, and again they were dull and lingering. I could not sleep. My temper was irritable and I got no pleasure out of life. "I tried remedy after remedy, but finding no help in any of them, I began to despair. Mr. Porter lives at Raymond, N. H. He is one of many grateful people who have found that Dr. Williams' Pink Pills will cure diseases of the nerves that have stubbornly resisted every other remedy tried. Not only neuralgia, but sciatica, partial paralysis and locomotor ataxia yield to them. They are sold by all druggists, or may be obtained directly from the Dr. Williams' Medicine Co., Schenectady, N. Y.

You Have No Right to Suffer

From Constipation, Sore and Stomach Trouble.

Q. What is the beginning of sickness?
A. Constipation.
Q. What is Constipation?
A. Failure of the bowels to carry off the waste matter which lies in the alimentary canal where it decays and poisons the entire system. Eventually the results are death under the name of some other disease. Note the deaths from typhoid fever and appendicitis, stomach and bowel trouble at the present time.
Q. What causes Constipation?
A. Neglect to respond to the call of nature promptly. Lack of exercise. Excessive brain work. Mental anxiety and improper diet.
Q. What are the results of neglected Constipation?
A. Constipation causes more suffering than any other disorder. It causes rheumatism, colds, fevers, stomach, bowel, kidney, lung and heart troubles, etc. It is the one disease that starts all others. Indigestion, dyspepsia, diarrhea, loss of sleep and strength are its symptoms—Piles, appendicitis and asthma are caused by constipation. Its consequences are death to all physicians, but few sufferers realize their condition until it is too late. Women become confirmed invalids as a result of Constipation.
Q. Do physicians recognize this?
A. Yes. The first question your doctor asks you is "are you constipated?" That is the secret.
Q. Can't I be cured?
A. Yes, with proper treatment. The common error is to resort to physics, such as pills, salts, mineral water, castor oil, injections, etc., every one of which is injurious. They weaken and increase the malady. You know this by your own experience.
Q. What then should be done to cure it?
A. Get a bottle of Mull's Grape Tonic at once. Mull's Grape Tonic will positively cure Constipation and Stomach Trouble in the shortest space of time. It is a natural food, and is known to cure Constipation positively and permanently.
Q. What is Mull's Grape Tonic?
A. It is composed of 40 per cent of the juice of Concord grapes. It exerts a powerful strengthening, healing influence upon the intestines, so that they do their work unaided. The process is gradual but sure. It is not a physic, but it cures Constipation, Dysentery, Stomach and Bowel Trouble, and all other fruiting grape flavor. It is pleasant to take. As a tonic it is unequalled, insuring the system against disease. It strengthens and builds up waste tissue.
Q. Where can Mull's Grape Tonic be had?
A. Your druggist sells it. The dollar bottle contains thirty times the 50-cent size.
Good for Ailing Children and Nursing Mothers. A free bottle to all who have never used it because we know it will cure you.

A torpid liver is sometimes very valuable. If it happens to be the liver of a sperm whale. From this organ comes ambergris, a waxy substance, used largely in perfumery. There have been several instances when the ambergris from a single whale was sold for as much as fifty thousand dollars.

An automobilist who was touring through the country saw walking ahead of him a man, followed by a dog. As the machine drew near them the dog started suddenly to cross the road; he was hit by the car and killed immediately. The motorist stopped his machine and approached the owner. "I'm very sorry, my man, that this has happened," he said; "will five dollars fix it?" "Oh, yes," said the man; "five dollars will fix it, I guess." Pocketing the money as the car disappeared in the distance, he looked down at the dead animal. "I wonder whose dog it was," he said.

WOMEN'S NEGLECT
SUFFERING THE SURE PENALTY
Health Thus Lost Is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

Miss Kate McDonald

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness, leucorrhoea.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Kate McDonald, of Woodbridge, N. J., writes:

Dear Mrs. Pinkham: "I think that a woman naturally desires to make her troubles known to the public, but restored health has meant so much to me that I cannot help but tell mine for the sake of other suffering women."

"For a long time I suffered untold agony with a uterine trouble and irregularities, which made me a physical wreck, and no one thought I would recover, but Lydia E. Pinkham's Vegetable Compound has entirely cured me, and made me well and strong, and I feel it my duty to tell other suffering women what a splendid medicine it is."

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

DOUGHERTY IS IN THE COUNTY JAIL

Former Superintendent of Peoria Schools in Custody.

HE IS UNABLE TO GIVE BOND

Fixed at \$63,000 After Return of Many Indictments—School Board Announces Attachments Have Been Issued Against His Property.

Peoria, Ill., Oct. 10.—N. C. Dougherty, former superintendent of schools and ex-bank president, indicted for forgery, gave himself up last night and now occupies a cell in the county jail. He was unable to give the \$63,000 bail which was fixed by the court yesterday afternoon after the return of eighty-four additional indictments and his attorneys said that he would probably have to remain in jail until time for trial.

At a meeting of the school board last evening the directors announced that attachment papers had been issued against his real estate and personal property, amounting to \$50,000. This was done to further protect the school board funds.

PAT CROWE COMES BACK TO OMAHA

Omaha, Neb., Oct. 10.—Pat Crowe, shackled to Detective Helfield of the Omaha detective department and accompanied by Chief Detective Dunn, arrived in Omaha at 9 o'clock last night from Butte, where he was arrested a week ago. A crowd of 2,000 persons had gathered at the union station and they filed the station and approaches in every direction, intent on securing, if possible, a glance at Crowe.

Crowe was not inclined to talk of his past and refused absolutely to speak of his alleged connection with the kidnapping of Eddie Cuddey. He declared that much had been published on his alleged doings, confession, and other matters which was without foundation.

Among these he mentioned a confession said to have been signed by him at Butte, implicating young Cuddey in conspiracy with the kidnapping.

TROOPS END MOSCOW RIOTS.
Awe Strikers and Restore Order But Strike May Spread.

Moscow, Oct. 11.—Order has been restored in the streets by the police and military patrols, re-enforced by a regiment of dragoons. Work was resumed in some sections of the city, but the strike continues elsewhere. The street railway employees voted to accept the concessions offered by the employers, but it is persistently reported that the steam railroad employees will strike today. No one was killed during the disturbances of Saturday but seventy-five persons were wounded.

Los Angeles, Cal., Oct. 11.—Walter Scott, the Death Valley Croesus, who recently broke all railroad time records between Los Angeles and Chicago, has returned from his mine in the Funeral mountains with 100 pounds of gold ore and announces that he will immediately charter another special train and break the record between Los Angeles and New York by making the journey at the rate of a mile a minute.

HUGHES WILL NOT ACCEPT NOMINATION

New York, Oct. 10.—Charles E. Hughes, counsel for the insurance investigating committee, yesterday declined the republican nomination for mayor of New York City.

In stating his grounds for refusing the nomination, which was tendered to him by the unanimous vote of the city republican convention last Friday night, Mr. Hughes said:

"In this dilemma I have simply to do my duty as I see it. In my judgment I have no right to accept the nomination. A paramount public duty forbids it."

"It is not necessary to enlarge upon the importance of the insurance investigation. This is undisputed. It is dealing with questions vital to the interests of millions of our fellow citizens throughout the land. It presents an opportunity for public service second to none, and involves a correlative responsibility. This work commands all my energies. Its imperative that I continue in it. You have frankly recognized that it must continue unembarrassed and with unimpeded efficiency. But it is entirely clear to me that this can not be if I accept the nomination."

WRIGHT WILL RETIRE FROM GOVERNORSHIP

Washington, Oct. 13.—Because of dissatisfaction with the Philippine situation, Luke E. Wright, governor general of the Philippine commission will retire from that position about the first of December. General Wright is expected to arrive in the United States during that month and is entitled six months' leave of absence, prior to the formal relinquishment of his labors as governor general. It is understood that he expects to return to Nashville, Tenn., to resume the practice of law.

President Roosevelt and Secretary Taft, it is believed, practically have decided upon the successor to Wright.

ANOTHER WEALTHY PEORIA MAN HELD

O. J. Bailey Arrested in Connection With Dougherty Frauds.

WAS COMMITTEE CHAIRMAN

Forty-Three More Dougherty Indictments—Bond Will Be Raised to \$200,000 and No Attempt Will Be Made to Secure It.

Peoria, Ill., Oct. 13.—O. J. Bailey, chairman of the finance committee of the Peoria school board, was yesterday afternoon charged with malfeasance in office by the grand jury and by a vote of 16 to 7 it was decided to return an indictment against the school officer. The indictment will follow the investigation of the conduct of late Superintendent N. C. Dougherty, who is now in the county jail, under indictment for forgery and misappropriation of school funds. The grand jury will report this morning and will return forty-three additional indictments against A. C. Dougherty. It was figured up yesterday that the loss to the school board since January, 1903, amounts to \$280,000. The grand jury probably will raise the indictment to \$200,000 and its attorneys state that no attempt will probably be made to get bail.

Phoenix, Ariz., Oct. 13.—At the instance of the board of school inspectors of Peoria, Ill., the sheriff of this county yesterday attached 200 acres of farming land ten miles northwest of Phoenix, valued at \$100,000. The land is the property of N. C. Dougherty, president of the Peoria National bank, and for twenty-five years superintendent of the Peoria schools, who is now charged with the embezzlement of large sums of money from school funds.

MORE INDICTMENTS RETURNED

Grand Jury Returns Final Bills Against Dougherty.

Peoria, Ill., Oct. 13.—The third and last report of the grand jury which is considering the Dougherty case will be made this morning, when about thirty additional indictments will be returned against Dougherty. These thirty indictments include the embezzlement of \$18,000 through the use of the name of A. H. Andrews & Co. of Chicago, and in all will approximate \$250,000.

If bond is fixed at the same ratio as that previously used it will be about \$200,000, which will make the total bond which Dougherty has failed to give amount to \$249,500.

Dougherty continues to maintain the same calm attitude. Joseph Well, his attorney, stated that he would not try to secure bond. The case will come to trial next month.

SOUTHERN STATES STRONG FOR SHAW

Des Moines, Oct. 11.—A Washington special to the Register and Leader says: Secretary Shaw is likely to get the support of both the Kentucky and Virginia delegations. This is the information that reaches here on the heels of the secretary's return from his Virginia campaign. It is significant that Secretary Shaw is the only presidential aspirant who has been invited to speak in the Old Dominion. Representative Slemple, the only republican member in Virginia, and the head of the republican organization in the state, is the man who invited Secretary Shaw to speak and on Shaw will depend the delegation in 1908.

It is stated on good authority here that Slemple will turn the delegation over to Mr. Shaw and more than this, that Internal Revenue Commissioner Yerkes, who is now the head of the dominant faction in the republican party in Kentucky, will throw him the delegation from that state.

The secretary returned today from Virginia much pleased with his reception everywhere and the success of his meetings. He found awakened interest in national issues and is known to feel that if the republicans make a proper effort Virginia can be converted from a democracy to a republic.

The news of the travels Secretary Shaw is making in the way of getting southern delegations rounded up for 1908 has attracted notice here and created no little surprise.

BANKERS FAVOR SHIP SUBSIDIES

Washington, Oct. 13.—At yesterday's session of the American Bankers' association a resolution pledging the convention to send a delegation to congress to secure a joint commission of legislators, bankers and experts to formulate some plans of complete re-organization of the monetary system, was referred to the executive council.

Resolutions were adopted urging upon congress the passage of some measure to foster and encourage the up-building of the American merchant marine, and that the ship subsidy measure, which has received the consideration of congress, be favored.

The currency committee's report stated that if some plan of currency reform could be agreed upon congress might be induced to take action. The committee declared that such legislation should provide that United States notes or legal tender should be retired if possible.

St. Paul, Minn., Sept. 29.—The friends of one of the leading society young women of Webster City, Ia., are having a prodigious laugh at her expense. A few days ago, through curiosity as much as anything else, she answered a matrimonial advertisement, and if she ever had faith in this plan of match-making, she has now lost it all. Her correspondent, who represented himself as a prosperous young business man of Chicago, grew so ardent in his letters that a relative of the young woman made a trip to that city to investigate affairs. He found the "prosperous young business man" to be a Negro barber.—Ex.

Philadelphia, Sept., 24.—Sole heir of the richest Negro South of the Mason and Dixon line, Edward T. Cobbs, a Negro living in Germantown, has suddenly come into a fortune, said to be \$500,000.

Warren C. Coleman died in Concord, N. C., a few weeks ago, leaving an estate which included 400 houses of various sizes and a strong box full of railroad shares and industrial securities. He was known throughout the south as the richest Negro in that section.

When his executors opened the will it was found that Cobbs, his nephew was the sole heir to the fortune.

The latter, who is 30 years old, has been a day laborer. He did not have time to investigate the report, so he sent his wife. As he received a letter from her yesterday, telling him that he is surely the man, he will leave immediately for Concord to prove his identity.

Coleman was born a slave, and after the civil war started in business.

"Was St. Peter a black man?" This latest ethnological and religious theory is the product of Wm. S. Crowdy, a Negro, and he is the prophet and preacher of a new sect, with a large membership in Washington, D. C.

The religiousist hold that the black race dwelt first in Jerusalem and that they are the origin of Black Jews. One of the evangelists of the doctrine asserts that St. Peter was not only a black man, but that he had thick lips and a flat nose.

The sect observes Saturday as Sabbath and claims to invoke other Jewish customs.

"The Black Hebrews" regard their banishment from Jerusalem originally as one of the persecutions referred to in the Bible, and that slavery was the last persecution referred to in the Bible.

Dr. Sew Arntz

Des Moines, April 13, 1905.
J. A. Kinney, the pioneer harness maker of Des Moines, one of the best, and most favorably known men business men of the city, wishes to let his friends and the public know that his eyesight is better today at the age of 66 years than when he was a boy of 18.

For the welfare of friends, acquaintances and the public at large I herewith wish to make a public statement relative to the regaining of my eyesight after being almost blind for thirty years in my right eye. Of late years I paid but very little attention to that eye, as some of the most expert specialists in the country had years ago pronounced it incurable. I tried for a good many years to build up the left eye, which was to a certain degree successful, but which of late years would yield to no treatment, and I labored under the impression that blindness in the near future would be sure to follow, as I tried in vain to get help or encouragement from eye doctors by their use of medicine and eye glasses. But notwithstanding all these discouragements and sufferings my eyesight is restored, not only to its former condition, but better than ever, as I can now use the right eye and see better out of it than I formerly could out of the left. I am now 66 years of age, and can see more perfect than when I was a boy of 18. I shall here make a brief statement of how I got my eyesight restored. I first noted in the Christian Worker certain testimonials from members of the church, whom I hold in high esteem and whose words cannot be disputed, who had suffered from eye troubles similar to mine and had gotten relief by using Dr. Arntz's special ground glasses. I made further inquiries and also got a copy of Dr. Arntz's testimonial circular, containing the largest number of testimonials I ever saw, which are given by the very best and most reliable citizens of this city and surrounding country. This, coupled with the doctors' general good reputation and reliability, I concluded to give him a trial. The doctor took great care in diagnosing my case, his method of diagnosing being far different from those used by other specialists. In making the examination he soon discovered that perfect sight could be brought out by proper refraction, not only in the left eye, but also in the right, which was almost totally blind. He prescribed glasses which have restored the sight to a normal condition, not only in the left eye, but also brought perfect sight to the right eye which was thirty years ago pronounced blind and incurable by one of the most eminent St. Louis specialists, upon whom I called at that time for treatment.

J. A. Kinney, the pioneer harness maker of Des Moines, one of the best, and most favorably known men business men of the city, wishes to let his friends and the public know that his eyesight is better today at the age of 66 years than when he was a boy of 18. For the welfare of friends, acquaintances and the public at large I herewith wish to make a public statement relative to the regaining of my eyesight after being almost blind for thirty years in my right eye. Of late years I paid but very little attention to that eye, as some of the most expert specialists in the country had years ago pronounced it incurable. I tried for a good many years to build up the left eye, which was to a certain degree successful, but which of late years would yield to no treatment, and I labored under the impression that blindness in the near future would be sure to follow, as I tried in vain to get help or encouragement from eye doctors by their use of medicine and eye glasses. But notwithstanding all these discouragements and sufferings my eyesight is restored, not only to its former condition, but better than ever, as I can now use the right eye and see better out of it than I formerly could out of the left. I am now 66 years of age, and can see more perfect than when I was a boy of 18. I shall here make a brief statement of how I got my eyesight restored. I first noted in the Christian Worker certain testimonials from members of the church, whom I hold in high esteem and whose words cannot be disputed, who had suffered from eye troubles similar to mine and had gotten relief by using Dr. Arntz's special ground glasses. I made further inquiries and also got a copy of Dr. Arntz's testimonial circular, containing the largest number of testimonials I ever saw, which are given by the very best and most reliable citizens of this city and surrounding country. This, coupled with the doctors' general good reputation and reliability, I concluded to give him a trial. The doctor took great care in diagnosing my case, his method of diagnosing being far different from those used by other specialists. In making the examination he soon discovered that perfect sight could be brought out by proper refraction, not only in the left eye, but also in the right, which was almost totally blind. He prescribed glasses which have restored the sight to a normal condition, not only in the left eye, but also brought perfect sight to the right eye which was thirty years ago pronounced blind and incurable by one of the most eminent St. Louis specialists, upon whom I called at that time for treatment.

Respectfully,
J. A. KINNEY.
