Waterloo, Ia. — The Head Start Project here has been termed "unique", and speculation that Black Hawk county would be studied by the Washington, D.C. office as a pilot project.

This is the opinion given by Ralph Cregger, OEO field representative.

The Kansas City regional office of the Office of Economic Opportunity has given approval to a grant of \$368,118 for the program, which should affect 373 pre-school children from financially deprived homes.

#### Crowbar

Nothing else was tampered with, he said. "They took off the paneling with a crowbar, I guess and reached through to the bag."

A nightwatchman, Henry Prince, who lives at the tavern, was not there at the time.

Edmonds said not many people knew about the storage room. He said whoever did the robbery must have been watching him when he put the money away.

### Poll Shows Iowans Are Opposed to Open Rentals

The second bill to prohibit racial discrimination in housing was given special debate Wednesday into Iowa Senate.

The bill would outlaw discrimination in housing "based on color, race, religion, creed or national origin and spans sale, rental, lease assignment or sublease of real estate or housing accommodations.

#### Ready

Although Rep. June Franklin, (Polk County Dem.), said that Iowa was ready for a fair housing bill and would support it, in a poll taken, most Iowans objected to the bill in general. Approximately 58-60 per cent of those interviewed opposed it.

Rep. Franklin earlier this year had written to various pastoral presidents in counties throughout the state, urging them to have their citizens petition representatives from their area to vote for the bill.

#### Exempted

Exempted are owner-occupied duplexes; owner-occupied dwellings, with less than six rental units, and bona fide religious institutions.

Controversy arises in the definitions, however, with margin on "bona fide religious institutions. Exceptions could be made that.

#### Endorsed

Both majority political parties has endorsed the bill, but the Iowa Association of Realtors has attacked the measure as limiting the freedom of choice of both property owners and members of minority groups.

However, limiting the choice, seems to be a play on words. A dis-

#### Sponsors

Sponsoring the bill in the House are Reed, Franklin, Johnston, Palmer, Tapscott, McIntyre, Radi, Sorg, Renda, Beardsley, Damera, Gallagher, Anderson, Gannon, Bowin, Bennett, Pelton, Van Nostrand, Kilshalm; in the Senate, Ely, O'Malley, Denman, Reichardt, Frommelt, Cassidy, Condon, Hagedorn, Rayal, Klefstad, Riley and Stanley.

Also exempted are houses in which the owner has lived more than six months and is selling without help from a real estate agent.

The state Civil Rights Commission, created would administer the Fair Housing Law, and could have "cease and desist" orders backed up by the district court.

#### Complaint

Those persons would, who have been discriminated against could file a complaint with the commission, and have a consequent public hearing. A victory in the public hearing would result in the owner of a dwelling ordered by the court to open his doors. Failure to do so would end in a contempt of court charge.

In the proposal, some legislators feel the wording could also mean, (in a resist attempt), as making failure to sell or rent a misdemeanor, for which a fine of \$500 and a one year jail sentence could be imposed.

### Suspect Klan at Work in Cross Burning on Campus

Greenville, Miss. — The FBI is investigating a cross-burning at the headquarters of the National Council of Churches' Delta Ministry at

Mount Beulah, Mississippi—the latest in a series of incidents at the isolated rural site.

Four men, believed to be members of the Klan, chose midnight between Maundy Thursday and Good Friday to set the eight-foot cross afire at the former college campus near Jackson.

#### Witness

The night watchman, who was alone because the people who lived and work at Mount Beulah were away at meetings, said he saw four men erect the cross and set it ablaze.

He did not call the sheriff, a spokesman said, because the sheriff's office had refused to answer calls for help on previous occasions. The FBI, which is also investigating the January shooting incident, arrived at 1 a.m.—one hour after the men had first appeared.

#### Dead

The incident occurred the same night a Jackson newspaper article had declared that Klan activity was dying out in Mississippi. Staff members of the Delta Ministry and local Negro leaders, however say the Klan is more active than ever in rural areas.

In rural Hinds County, in which Mount Beulah is situated, Negro groups have been assisted by Delta Ministry staff in registering voters at a record rate.

#### Perils of Powell

New York—Adam Clayton Powell won easily Tuesday in the special election, polling over eighty per cent of the votes. The two other runners both received less than 5000 votes as the returns came in.

Rev. Jones

is pastor of Mt. Carmel Baptist Church here.

Rev. Jones is also the Representative of the Central District to the Board of Education of the Iowa Missionary and Education State Baptist Convention.

Rev. Jones is the son of Mr. and Mrs. Lloyd Jones, of 950 17th street.

#### Teacher Suspended For Osecinity In Negro Classroom

Philadelphia, Pa. — "Ennie meenie minie moe, Catch a Nigger by the toe."

These are the words which got a junior high school teacher suspended during a mathematics class.

23 year-old Miss Harleen Curtrie was charged by school authorities with using the rhyme during a black board drill to a predominantly Negro ninth grade class.

After complaints by parents, Miss Curtrie apologized, saying the rhyme was "an unintentional slip," something she remembered from childhood.

"I have checked into the matter and have been informed that there is no schedule for the Four Tops to appear in your city."

There are the words, my sweets, from Ed Pearle, publicity department of Motown. If the Tops come here, twill be through the radio waves.

Since Motown hasn't confirmed them, they may come for the Relays Apr. 28, but that means Drake fraternity sponsors them, and it's a closed dance, similar to the one in which Booker T. and the MG's appeared. None of you went to that one, did you?

Ramsey Lewis is scheduled for William Penn College next week. You can get tickets for that.

Ray Charles—I want to talk about you/Something inside me; the Raelets—One Hurt deserves another/Don't need no diamonds; Toussaint McCall Trio—Nothing takes the place of you; B. B. King—The jungle; Inex and Charlie Foxx—Tightrope.

My boys James Brown will be in Minneapolis, Mill, and Lou Rawles will be in St. Louis. . . Diana Ross, my girl of the Supremes, says she wants to do movies.

Mrs. Spivey, of the Julia B. Meyer Center, hopes to get some interested souls in joining the Center, for she, too, wants to bring in some big-time singers. She said that at least twice a month in Denver, somebody like Marvin Gaye, the Supremes, Jackie Wilson, Ray Charles were coming in. So there is one source, coming in. So there is one source of information on how to get the right talent here. All we need now are some good-time swingers to help us along.

Question of the week—will d.m. be like last summer? The only thing moving was the dust . . .

## Sen. Percy Rejects Rights Bill Sponsor

"It's pretty shameful. We thought he was all out on civil rights and now we'll have to revise our judgement," Clarence Mitchell, Washington representative of the National Association for the Advancement of

## HEALTH FOR ALL

Ninety-seven per cent is a healthy score in any game, and a positive triumph when the contest is against a pestiferous disease. Ninety-seven per cent is the measure of success achieved recently when 1,400 children in an area near Philadelphia were given a new vaccine designed to provide immunity against that historic nuisance—mumps.

## Test

It worked on all but three out of every hundred. The other 97, exposed to the disease—causing virus after inoculation with a new anti-mumps vaccine, came through the trial safely. Blood tests confirmed that their bodies had developed mumps-resisting mechanisms as the result of the vaccination.

## Sterile

If this performance proves the norm—and there's no reason to assume otherwise—another ancient antagonist to good health will be well on its way to oblivion. Although its typical victims are children between the ages of five and fifteen, mumps

## Swelling

The bug first attacks the salivary glands, with fever, headache, loss of appetite, and general discomfort appearing. Then a gland just in front of the ear begins to swell painfully. The swelling may be confined to one side, but more often is accompanied or soon followed by similar swelling on the other side. Swelling of a smaller gland under the jaw may also develop.

In short, it's an unpleasant deal—and good riddance! Your Christmas Seal association, devoted to fighting against all forms of illness including TB and other Respiratory Disease, suggests that you ask your doctor about anti-mumps protection for the members of your family.

—Information Service of Polk County Tuberculosis Association.

Colored People, said after the Illinois Republican turned down his request to come out now for the legislation.

## O.K.

So far, 22 Democrats and five Republicans have agreed to co-sponsor the bill. GOP Senators who have signed up as sponsors are Edward Brooke (Mass.), Clifford Case (N.J.), Jacob Javits (N.Y.), Hugh Scott (Pa.) and Hiram Fong (Hawaii).

"It seems to us it's not necessary to sponsor," an aide to Sen. Percy said "The Senator will vote for the legislation if it comes up in the Senate."

## Kite Flying Is Fun...Keep It Safe

It's kite flying time again. Following these simple safety tips will make it more fun:

- Fly kites in open areas, away from traffic and electric lines. Electricity can sometimes travel down a kite cord—even if it's string!
- Use only paper, string and wood in your kite—never wire or metal. And don't fly it on rainy days.
- If a kite does get tangled in electric wires, TV or radio antennas, notify your power company. Never attempt to retrieve it yourself.

Serving a going, growing Iowa.

## ...BUT LONG DISTANCE RATES ARE LOWER!

Thirty years ago a Long Distance call was a big event for the average family. Putting the call through often took several minutes, and the cost could put quite a dent in the family budget. Today you can call anywhere in the nation in a matter of seconds. Your voice is carried across the miles as clearly as if you were phoning a neighbor. And as for cost—just look at these comparisons:

## CARMICHAEL ET AL ARE DANGEROUS CHARACTERS

Speaking before a student body in Mississippi a few days ago, Stokely Carmichael said to hell with the laws of the United States that prevented him from carrying out his program.

Apparently he delivered the same kind of speech at Fisk University in Nashville, Tenn., for riots followed shortly thereafter.

Unfortunately, the rabble-rousers among the civil rights leadership are tearing down what has been built up by long hard work of responsible people and in doing so are commanding a lot of attention.

All this silly talk against the government, against responsible Negro leaders, against liberal white people who over the years have helped to make the progress we have, is crazy, irresponsible and helps to tear down the momentum we have had over the years.

Responsible Negro leaders find themselves in much the position as the southern white man who has tried to improve conditions among the races. The former is looked down upon as Uncle Tom; the latter as a n----- lover.

These rabble-rousers are irresponsible, reckless, have little regard for the consequences of their words or deeds. They propose solutions for the race problem that are physically improbable and which only intensify the hatred of many and produce it in others.

Somewhat, these people must be relegated to their proper place, otherwise the civil rights movement will continue to suffer.

## MONEY HAS NOT BROUGHT FRIENDSHIP

Vice President Humphrey returned from Europe this week. President Johnson asked that he make the trip in an effort to better our relations with France, Belgium, West Germany and to further explain our war in Vietnam.

We seem to keep a delegation of roving diplomats at all times these days.

All of these countries owe much to America for the military and material aid they have received during the past half century. America was welcome to the rich as well as low at one time.

The news reported that eggs, paint and other debris were thrown at Mr. Humphrey. He was heckled by all kinds and booted to no end.

Somewhat, instead of making friends by our great contributions to one country after another, we have built enemies who don't even want us around.

## FREEDOM CAN GET OUT OF HAND

America, in its effort to assure freedom to its citizens, has allowed the excuse of freedom to get beyond anything its founders or sane men of today ever dreamed. They day has come when groups, representing every interest, have organized their forces, made demands and the ones which can exert the most pressure get what they want without regard to how it affects anybody or anything else or, as is the case of riots in the streets, reach the ridiculous or bring disgrace on themselves and the country they represent.

Unfortunately the governing officials fear to protect the rights of people and the courts are reluctant to do much to help.

While strikes have gone on over the years, the sit-down strikes in the auto plants in Detroit were the first to take the enforcement of their demands into their own hands completely and dare law enforcement officials to do anything about it.

This lawlessness has spread to practically every avenue of endeavor, setting examples that are exploding in our colleges all over the country. And that segment of the student body is doing things on and off campus which lower the dignity of the school and the students.

Now that this liberty seems to be getting out of hand, it is going to take courage for authorities to bring a halt to this lawlessness and turn this thinking back to normal.

Some blame the Communists for all this upheaval. Maybe some of it is true. But if they have succeeded in causing all the trouble we are having, the day

Getting around to the outdoor track season, the opening of baseball, the close of basketball and oh yes, the beginning of tennis. We read with interest a story in which a fellow had worked out a scoring system which would make tennis matches shorter and thus adaptable for television. Well, might as well change the thing. The things that used to make tennis a great sport seem to have given the way of all old things.

You didn't dare yell at a tennis match. Now some fellow stages a tournament and the spectators act like they were at a baseball game. You used to take a fellow's word without question on close shots and the score but being around the professionals has changed all that. Originally the idea behind the two game margin for a set and the two point margin for a game was to eliminate luck as a factor in the game.

In fact tennis is rated as having the lowest percentage of luck as a deciding factor. It is said that tennis is about ten per cent luck, three cushion billiards about five per cent luck. Team sports such as baseball, football and basketball rate at least forty per cent luck. By luck in those games we mean keeping your key players in the game at crucial times and avoiding the big penalties at those same crucial times, then last but not least would come the bounce of the ball. Now if this new scoring system involving a one game, one point margin should become general do you think it would make luck a more potent factor in the game? It just could.

And don't forget that spring football is just around the corner. We hope to get to see some of the college drill this year, so we can get a line on what to expect next fall. And while we are about this whole thing, don't forget the Drake Relays Apr. 28-29.

A lot of people who knew the late Charles Woods who died last week didn't know that he was one of the state's best half milers in his high school days. We can't remember if he held the state mark, but we are sure he held the city record for this event.

## Tax Questions and Answers

Q—My wife is filing her own return. Can I still claim her as a dependent?

A—No. When she files her own return she takes her own exemption. You may not take an exemption for her unless you file jointly.

Remember that when separate returns are filed, each must handle his deductions the same way. If one itemizes so must the other. If standard deductions are used, both must use the same type, either the 10 per cent or the minimum. The use of the 10 percent standard deduction by one spouse obligates the other to do so.

Also, be sure to use the tax table or rate schedule for married couples filing separately. An error frequently made on separate returns is to compute the tax using rates for married couples filing jointly.

Q—I received a sizeable amount of severance pay last year. Is this taxable?

A—Yes it is. However, if this abnormally boosted your income for year, then you may be able to reduce your taxes by taking advantage of income averaging. Drop a post card to your local IRS office and ask for Schedule G of Form 1040 to get full details.

Q—Where should I send my return?

A—Page 10 of the 1040 instruction booklet and page 8 of the 1040A instructions show you where you should send your return.

Mistress of ceremonies was Mrs. Mitchell.

The church is planning the pastor's 16th anniversary, Apr. 16.

On Apr. 23, the Usher Board and Departments will be in charge, with the Rev. Calvin Hightower, of Peoria, Ill.

On Apr. 30, the Pastor's Aid Committee will climax services with the president, L. J. Jordan, of Waterloo, Ia.

At 3 p.m., the Usher Board sponsored the program for the Rev. Harmon Webb of Mt. Zion Baptist Church and congregation of Cedar Rapids.

Mistress of ceremonies was Mrs. Eddie Morrow, giving the welcome was Mrs. Martha Polite and president is Warren Williams.

The Usher Board reached their goal on the building funds.

Miss Robinson was one of Mrs. Eular Rhodes Red Circle Girls.

Q—Is a prize considered income?

A—Yes it is. If the prize is not cash but is merchandise instead, use the fair market value at the time received as the amount to report on your return.

Q—I moved last year because I changed jobs. Can I take any deduction for my moving expenses?

A—You may be able to deduct some of these expenses if certain conditions are met. The rules for claiming these expenses are covered in the 1040 instructions.

A copy of Form 3903, which may be obtained by dropping a post card to your local IRS office, has information on this deduction. It must be filed with your 1040 if you are qualified to claim this deduction.

Q—From time to time I help my married daughter out by making payments on their mortgage. Can I deduct these payments as contributions or take a deduction for the tax and interest portion of the payment?

A—No. Gifts to individuals are not considered charitable deductions and only the person legally responsible for making the mortgage payments is allowed to take the interest deductions permitted.

Q—Does a common law marriage entitle you to file a joint return?

A—If you are living together in a common law marriage which is recognized by the state where it was entered into, you may file a joint return.

Mr. and Mrs. Lonnie J. Robinson, 1016 14th street, announced the engagement and coming marriage of their daughter, Jeanette Marie, to Sp/4 Van Y. Flowers, son of Mrs. Beverly Johnson, 1511 10th avenue and Calvin Y. Flowers, 714 10 street.

## THINKING

If you think you are beaten, you are.  
If you think you dare not,  
you don't.  
If you'd like to win but think you can't,

It's almost a cinch you won't.  
If you think you'll lose, you're lost;  
For out of the world we find  
Success begins with a fellow's will—  
It's all in the state of mind.  
If you think you're outclassed, you are;

We've got to think high to rise.  
You've got to be sure of yourself  
before  
You can ever win a prize.  
Life's battles don't always go  
To the stronger or faster man;  
But soon or late the man who wins  
Is the man who thinks he can.
