Public Hearing on Civil Service Commission

Williams, Fonza File Charges for Monday, Fireman

Public hearing for the Des Moines Civil Service Commission has been set for May 22, Monday, 10 a.m. at the YMCA, it was announced.

Charges of racial discrimination were made by Mulford R. Fonza and Walter Williams, who were turned down twice by the Commission within the last year, against Wilton M.

WILLIAMS

Seymour, head of the Des Moines Civil Service Commission, Richard Hankinson, personnel director for Blue Cross-Blue Shield and Marion B. Cunningham, Iowa Power and Light Company supervisor.

Rejected

Fonza and Williams were rejected after oral interviews by the Civil Service Unit, although they had passed physical tests and satisfied all other requirements.

Fonza and his wife, who live at 1800 12th street, said that Monday's

FONZA

investigation "will prove that there is discrimination," but he couldn't predict the end.

Public Dumb

Mrs. Fonza said, "The public only knows what they read in the papers. The hearing will bring out both sides and let the public know of what's going on."

"Maybe Wilton Seymour may be prejudiced on his part. My husband said during his interview that he (Seymour) wasn't very friendly. Even his looks said Mulford wasn't supposed to be there."

U.S. Court Urged to Bypass A. Powell House Exclusion

New York, N. Y. — The American Liberties Union, its affiliated New York Civil Liberties Union and the American Jewish Congress will urge the U. S. Supreme Court May 12 to bypass the U. S. Court of Appeals for the District of Columbia and determine the constitutionality of the exclusion of Adam Clayton Powell by the House of Representatives.

Brief

The civil liberties groups will submit a friend of the court brief contending that a U. S. Supreme Court rule provides that the first level of appeal can be bypassed "upon a showing that the case of such imperative public importance as to justify the deviation from normal appellate processes and to require immediate settlement (by the Supreme Court)."

NEWS In A Nutshell

New York — Dr. L. Venchael Booth, minister on the Zion Baptist Church, Cincinnati, Ohio, has been elected a ministerial member of the board of managers of the American Bible Society.

Milwaukee, Wis. — The Rev. James Groppi, who serves as youth council adviser to the National Association for the Advancement of Colored People here, was arrested May 5 in a dispute with police, and charged with obstructing police and resisting arrest, accused the police of harassment and "bloodhounding." The arrest of Father Groppi and three youth council members followed a regular meeting of the council at Freedom House.

Baltimore, Md. — Harry A. Cole, a 45-year-old Negro Republican, has been appointed to be a judge on the Baltimore Municipal Court. The appointment was announced last Saturday by Maryland Governor Spiro P. Agnew. Cole will become the first Republican to sit on the sixteen-judge Municipal Court, which was created in 1961.

New York — Lewis G. Robinson, angry Black Nationalist leader in the Hough district of Cleveland, Monday predicted another summer of racial explosion for that city. He said, "The long hot summer started last December . . . Hardly a day goes by in Hough without somebody pitching a brick through a store window or setting fire to a house."

Master Builders Will Provide Jobs for 'New' Bricklayers

Richard Toon, an official of the Master Builders of Iowa, said Saturday four contractors have promised to take one bricklayer trainee each and he expects to line three more contractors who need apprentice bricklayers.

The Negroes are among 16 men in a federally financed seven-week class at Storm Lake. All but one of nine white trainees had jobs promised before they started training.

Problem

The problem in placing the Negroes —four from Des Moines, two from Waterloo and one from Council Bluffs —was that contractors in those cities hire mostly union labor.

Three

The Iowa Manpower Development Council, a state agency which controlled the federal money, wanted at least three Negroes in the union school.

Union trainees will start at about \$3 an hour and receive periodic increases during the four-year apprenticeship period. Most union bricklayer journeymen in Iowa are paid \$5 an hour or more. Non-union bricklayers usually make between \$2 and \$2.50 an hour.

Nephew Charged in Aunt's Death; Neighbors Say They Did Not Hear Noise

Davenport, Ia.—A 17 year old senior is being held in Davenport County Jail after he was arrested and charged with first degree murder and rape of his aunt by marriage, Mrs. Riley Fountain, 23-year-old pregnant mother.

Mrs. Fountain was found by her husband Riley after he went to their apartment Sunday and found the door locked. He searched for a window to enter when he discovered a bedroom window open. Through it he saw his wife lying in bed which was stained with blood from facial injuries inflicted by her assailant.

Police arrested Clement Lee Bogan several hours later. The youth, who lives at 1423 Ripley, same address of the Fountains, was arraigned in Municipal Court Monday.

Children

Neighbor children said they left

Mrs. Fountain's apartment Sunday night when she told them to go to bed after watching the late movie. They said they did not hear any disturbance in the Fountain apartment.

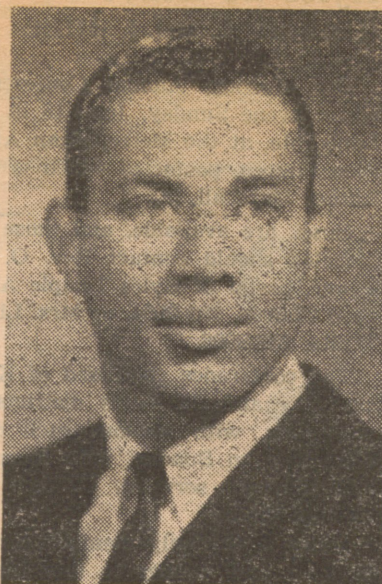

Scott County medical examiner Dr. R. M. Perkins said an autopsy revealed that the woman died of suffocation and indicated Mrs. Fountain had been beaten and raped sometime Sunday before the murderer held a pillow over her face.

Arkansas

Mrs. Fountain was born in 1944 and married in Murfreesboro, Ark., in 1965. Survivors include her parents, Mr. and Mrs. Savitts Skoggins, Murfreesboro, Ark., her husband, and a brother, Carl Skoggins, of Milwaukee.

Discuss Membership Opening To Negroes

Kansas City, Kan.—The Honorable International Fraternal Organization of Eagles of Canada and the United States of America will hold their annual convention here and one of the topics will be the opening of membership in the organization to Negroes in both countries.

George B. McClellan, Commissioner of the Canadian Royal Mountaineer Police, and a member of the Eagles Fraternal Organization will attend. McClellan is in favor of opening the membership to Negroes "in good standing."

Life Memberships in NAACP At Alltime High Says Wilkins

New York — The National Association for the Advancement of Colored People's \$500 life membership program has increased 72 per cent in the past three years.

Life memberships in the Association, NAACP Executive Director Roy Wilkins said, have "grown from 14,001 in 1963 to 22,147 by last Dec. 31."

Times

The Times article, published May 7, quoted Mr. Wilkins said the large increase is "an indication of the

readiness of middle-class Negroes to support financially, as well as actively, the struggle of Negro citizens of all classes to wipe out racial discrimination and segregation. The middle-class Negro has always been the backbone of the civil rights struggle."

Kivie Kaplan, NAACP president and organizer and former chairman of the Association's Life Membership Committee, is credited with making life membership payments an important source of NAACP income.

The NAACP has 450,000 members, including the life membership subscribers, who pay dues ranging from a minimum of \$2 to \$500. The goal this year is to enroll a half-million members. It is the oldest and largest civil rights organization in America.

"Where you been, Harvey?"
"I was in Omaha last week to see Lou Rawls."

"How was he?"
"He wasn't." And Harvey done drove all the way out there, got his school work finished, had his new suit out on installment plan, and Mr. Windy City didn't show up.

Hey! Everybody walk on eggs and help old ladies across the street, brush your hair one hundred strokes each night and maybe the Four Tops will show. There are posters all over.

Another way you might try for them is to contact Mrs. Beatrice Spivey at Forest Hills Opportunity Center. She personally can arrange for—yes—even the Supremes—to come if you give her the support. She says DM can get anyone it wants if it tries. So please, if you want these entertainers, give her a call. She can also get permits for street dances. This lady is fantastic.

I say, Harv, shall we "Thread the Needle" (Clarence Carter), but you'd better not "Tell Daddy," (C.C.), because he will surely call Otis Redding a tramp. Redding thinks he's a "Lover", but the Queen of Swing, Carla Thomas (When Tomorrow Comes), calls him country, wears overalls and needs a haircut.

From Stan's—this is Radio Month—KAAY, Little Rock, you'll—Shake, by Otis Redding, recorded live; It's Not Fair, Bennie Lanamore; Why (Am I treated so Bad) by the Sweet Inspiration; you rock instinctively on that one. Cannonball Adderly also has it out; Show Me, by Joe Tex, the Thinker.

Remember: Carmie Stanley and Dean baby, especially, I love you, long hair, pierced earring and all.

For those of you wondering about the change of name, I do fables—a little bit of everything, so blue lemons is a good cover-all. Where are blue lemons grown? What do they look like? Well, sweets, they're shaped like sax notes in a g minor, about the size of the head of a drumstick, and sweeter than watermelon man. But the seed, a tiny black pearl, is all soul juice.

Saul Alinsky Downs C. R. Race Problems

Cedar Rapids, Ia.—Negroes were urged to organize themselves for freedom from the ghetto last week, by Saul Alinsky, national defender of the poor and underprivileged.

Alinsky said there were two kinds of power, "people power" and "money power", and that in ghettos where there is no money power the people power must be organized to attack the "establishment" and attain political and economic goals.

CORRINE ADAMS is the proud owner of Kitty Adams, a mother cat, and seven shining new kittens. Like their mother five of them are tigers, the remaining two, however, are tortoise shells! They are most beautiful. Wide-eyed and curious as they noted me kneeling beside their box. Their mother, Kitty, was at first most cautious but then relented and permitted me to pet them. A cat lover tells me that tortoise shells are always females (as are calicos) and if a tortoise shell cat happens to be a male (this is rare) he is sterile. Please drop me a note to the Bystander (no calls, please) if you would like a kitten. Okay?

Your professional beautician knows the answer...

Should every woman be a blonde?

Blonde hair is beautiful for those women whose natural coloring it flatters. But not everyone should be a blonde.

Expert beauticians know that complexion and hair color must complement each other to glamorize and bring out all the natural beauty that was meant to be. They also know that very coarse and dark hair often is resistant to drastic color changes. However, there's no doubt about slightly lighter hair adding excitement to a woman's appearance. And hairdressers know there is no better product to add a whole new appeal to every woman's look than Miss Clairol® haircoloring—extra rich Creme Formula or new extra easy Shampoo Formula.

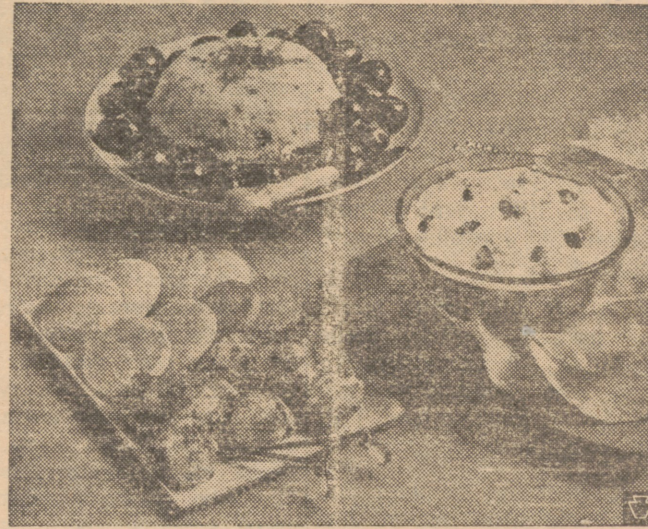

Both Miss Clairol products lighten and color at once, combining vibrant new color with the natural pigment of the hair. So even those shades that look blonde on white hair (as shown on most color selection charts) give a variety of flattering red-to-golden brown shades on women whose hair was black to begin with.

Beauty salons are equipped to answer questions and help with hair color selection. Depend on your hairdresser to have the professional skills and the total family of fine Clairol products to make every woman's experience with haircoloring completely personal and glamorous. Should you be a blonde? If you don't really know, ask your expert hairdresser.

SOME STATES
CAN'T BE TRUSTED

Under present arrangements and the provisions of the school bill pending in Congress, individual school districts receive grants directly from the federal government. Naturally, there are some conditions which must be met including compliance with desegregation.

Rep. Quie of Minnesota has a measure pending which would give each state a blanket sum for education which would be administered by the states. This would be terrible.

Nick Kotz of the Register and Tribune Washington bureau has a series of articles describing deplorable conditions in some parts of Mississippi. He finds conditions in some of the backwoods counties terrible. And it is true. We have known it all along.

In her message to the Alabama legislature Gov. Lurleen Wallace recommended that the state cut off the annual appropriation which has been given Tuskegee Institute for years. She and he are mad because the teachers and students are standing up for their rights.

It is hoped that the bill will not pass for some of the states cannot be trusted to treat the Negro fair and equal.

Write your Iowa delegation in Congress and ask that they vote against the measure.

BRICKLAYER APPRENTICES
ARE MOVING UP

You can win if you stick and put up an intelligent fight—and generally someone or something comes along that will provide the final touch to attain the desired objective.

This is best illustrated in the long struggle Negroes have made to train and work bricklayers in Des Moines. Primarily, it was the unions which were able to block off training for Negroes or their employment if they appeared with a union card.

Under the apprentice training program sponsored by the Iowa Development Manpower Commission, some Negro boys are pursuing their apprenticeship training. They will be placed with contractors to finish serving their apprenticeship.

In this instance, the unions were bypassed so they were unable to control the program. Non-union contractors will be taking these men along with white boys. Eventually, they will be in the unions because their policy is to control the field as much as possible.

Here is one instance where officials in charge of a program have stood their grounds demanding justice for minorities and were able to secure their demands because they controlled the purse strings.

COMMISSION HEARING
ON CIVIL SERVICE

The Des Moines Human Rights Commission has been engaged in a running battle with the Civil Service Commission for years. The recent results of the fire department in examination and appointments have brought to light two cases where racial discrimination appears to exist.

It has been difficult for the local commission to deal with the situation adequately because it pitted one city department against another and because the city council has been weak in its position behind the commission when it made the charges.

However, it must be said that the council did open the way for the commission to secure evidence by making examination records of those involved available.

Fortunately, the city and state commissions have worked together on these common problems. In this manner the state has taken over the complaint, made its investigation and apparently finds that a public hearing should be held.

These are orderly methods of working out a complaint to the end that justice can be had. It is unfortunate that the opposition to Negro firemen will go to this in order to maintain their lily-white program. Today the tools to do the job are available. Let's use them.

Roy Campanella Says
Shut Out By Baseball

New York — Former Brooklyn Dodgers star Roy Campanella says that his crippling injury is unjustly keeping him out of baseball, according to an article in the current issue of SPORT Magazine.

Campanella, a quadriplegic since an automobile accident nine years ago cut short his active career, has become a successful liquor store owner in New York. However, Roy still loves baseball and is anxious to get back into the game, though all of his efforts have been rebuffed.

Coach

"Mr. O'Malley (Los Angeles Dodger owner Walter O'Malley) told me when I was playing that I would be a good coach or manager," says Campy. "So I told him one time lately: 'Mr. O'Malley has changed your mind about me but the chair didn't effect my mind, only my legs.'"

Campy also has approached the Mets and Yankees about a position but still has not been offered a job.

Types

"No one knows this but I've even gone to the Commissioner's office to talk to him," reveals the former Dodger great. "I feel I could do something in the Commissioner's office. Maybe in public relations. A lot of ballplayers have moved into club offices as personal supervisors, scouting chiefs and so forth. There's all types of jobs. Of course, none of the men holding them is a Negro." So Campy sits in his wheelchair and waits, but feels that the doors to the baseball world are closed to him.

Hawkeye Futurity
June 4, Top Drivers

The Fourteenth Annual Hawkeye Futurity for sprint cars will be held on Sunday afternoon, June 4, at the Iowa State Fairground track here.

The afternoon of racing will begin with time trial qualifications at 1 P.M. The first racing event, featuring the popular IMCA reverse starts, will get underway promptly at 2:30 (Central Daylight Time). Last year's winner was Jerry Blundy of Galesburg, Illinois.

The basic bill called for a new concept of state aid to local school districts. Under the plan, it was estimated that the state would be paying an average of 41 per cent of local school costs. At present in Iowa the state pays only about 13 per cent of school costs. The national average is about 40 per cent.

Under the plan, commonly known as the Peterson plan because its main author and sponsor is Rep. Leroy H. Petersen, R-Grimes, a school district would draw up its budget and levy a tax on property to pay 40 per cent of the cost. This would be used to pay for local costs.

The state would determine the statewide average per-pupil cost of educating each student, and guarantee state aid to pay 85 per cent of this amount. This money would come from state equalization fund.

Another approach which was debated would call for doing away with the personal property tax on household goods and livestock, and, in addition, pay 35 per cent of all other property taxes, both personal and real estate.

This is called the tax credit approach, while the Petersen plan is known as the aid method. The second method aimed at the personal property tax majority, and all property taxes secondarily.

Both plans would be financed through increases in other taxes, such as sales, personal and corporate income, and intangibles.

Both approaches recognize that Iowa's structure is based too heavily on property, and that the time for

doing something about it is long overdue. The final result is not yet known, but action is underway.

The bill also appropriates \$45 million to help see the schools through current financial problems, which raised the controversy in the first place. The proposal also puts state aid payments on a current basis, rather than having the aid paid after the school year is over.

The number of allowable schools under the plan was reduced from 20 to 17, allow the area boards to set tuition rates at no more than \$150 a semester for Iowa students, and establish tighter budgeting practices.

Enroute to adoption of this plan, three other approaches were rejected. One called for a new board to oversee the schools, another sought to place the area schools under the jurisdiction of the Board of Regents, and a third advocated splitting the vocational-technical schools away from the community colleges, and turning the latter back to the local communities if they wanted them.

The approved bill goes to the House.

Nobody... But Nobody...
Should Skip Breakfast

YOUNG AND OLD, EVERYBODY NEEDS A GOOD BREAKFAST each day. And the nice thing about breakfast is that one menu does for the whole family. Especially when you base the morning meal on this Quick 'K' breakfast pattern of fruit, or fruit juice, crisp ready-to-eat cereal served with milk or cream, bread, butter and a beverage. It's hearty enough for the man in the house and yet has lots of appeal for children's fickle appetites.

If you have a problem getting your children to eat in the morning, try decorating the table with colorful, attractive dishes. Choose a cereal, such as Kellogg's Raisin Bran Flakes with plenty of plump sweet-tasting raisins included in every package. Or, perhaps one of the presweetened cereals, such as Sugar Frosted Flakes, is more popular in your house. Round out the menu with orange slices, or other fruit in season, bread, butter and milk. And feel sure that your children are getting the energy and nutrients they need to romp and play these sunny summer days. (ANS)

Make Room For Jesus

Young ones, old—all step right in!
How can we help with Integration?
With our men of God to guide us
and laymen to help all they can,
The bells will ring, lights softly gleam—

Doors of all hearts open wide will swing!
We will prove There Is Room For Our Jesus!
Come, let us all work together!
We will do all that we can.

Push ignorance and prejudice aside!
Christ's Room will continually grow.
In time—just a little more time
and Everywhere There Will Be Room
For Our Jesus!

—Mrs. Mary Gitt

HEALTH FOR ALL

It's getting so people no longer say "what?" when mention is made of emphysema. By and by they'll even be learning how to spell it. And that's all to the good, if anything can be good about an ailment that makes breathing a desperate struggle for untold numbers of people.

It's all to the good because emphysema is going to be around for a long time. And the sooner we can stop thinking of it as just a fancy foreign word and start recognizing it as a killer and a thief of the air men breathe, the better chance we'll have of getting it under control.

Swell

Emphysema means "inflation"—and that's just what happens to the affected lung. As the lungs swell they lose their elasticity, and the ability to breathe is impaired. In advanced cases the patient literally has to fight for every breath.

Emphysema has been known for ages, but only recently has it been taken seriously on a wide scale. Today, with cases on the increase, and with interest focusing more and more on environmental hazards to breathing, emphysema rates is one of the major health problems. Recently the U.S. Public Health Service and the National Tuberculosis Association got together and sponsored a joint task force to define the problem and draw up a program to deal with it.

Stop

A lot more is going to be heard about medicine's fight to stem the rise of emphysema and related diseases of breathing. Meanwhile, one simple rule can help guide the ordinary citizen. If you have persistent shortness of breath, it could be a symptom of emphysema or one of those other diseases. Don't wait—see a doctor. Ask your Christmas Seal Association for the free booklet, "Your Breathing Troubles—Understand Them, Face Them, Treat Them."
