NMA Accuses AMA of High Medical Costs

Claims AMA Has Blocked Fee Reduction

In a statement released recently, Dr. John L. S. Holloman, Jr. of New York City, N.Y., President of the National Medical Association, accused the American Medical Association of having "consistently blocked attempts to reduce medical costs." Three allied medical groups endorsed the statements: Dr. James A. Catchings of Detroit, President of the National Dental Association; Dr. Quentin D. Young of Chicago, National Chairman of the Medical Committee for Human Rights; and Dr. Lytt Gardner, Chairman of the Physicians Forum. They were joined by Eugene Williams, a medical student at Howard University, representing the Student Health Organization.

Privilege

In a strongly worded statement, issued during the National Conference on Medical Costs (sponsored by the U.S. Department of Health, Education, and Welfare, June 27-28, in Washington, D.C.) Dr. Holloman also condemned the lingering "AMA view that health care is a privilege for those who can afford to pay the price."

Human Right

Dr. Holloman and his colleagues said that, "health care is a human right." "It is obvious," they said, "that the cost of medical care will continue to spiral until the present chaos in delivery care is replaced by a rational system." They said that they felt "the National Conference on Medical Costs has evaded this crucial conclusion because it would require confrontation with the AMA, many voluntary hospitals, the drug industry and other groups with vested interests in the health fields."

Card Party For YWCA New Building Fund

Night Hawks Did Fine Work At Sunday Disturbances

Eight persons were arrested Sunday morning after police dispersed a group of youngsters in the area of the Robo Car Wash on University avenue about 2:30-3 a.m. Seven were charged with loitering and one was charged with intoxication.

In another incident near the Brotherhood Hall, 13th and Center, members of the Night Hawks broke up a group of persons who had assembled after a fight broke out in the early morning of Sunday.

John M. Estes, Jr., who was called to the scene, said there was no need for the police department to arrive in their riot helmets. He felt that the police should work closely with Donald McKenzie and Robert Jackson of the Polk County Community Action Council.

Jackson is in charge of youngsters in the Council and works with disturbances within the community. "If he can't handle them, then the police should move in."

Night Hawks

There are about 18 of them, and they work all over the city. Some call them the Night Hawks, or the Night Riders. But whatever their name, the young men and women who work around the night hours are sincere in their job and in their goals and work to keep the word teenager respectable.

They were instrumental in Sunday morning's disturbance, these young people were, hired by the Polk County Community Action Council which is headed by Don McKenzie, and

James H. Meredith reached the final stretch in Mississippi.

His goal was the courthouse in Canton, a city of 9,700 and scene of several civil rights flare-ups in past years.

Meredith, 34, said he was glad the symbolic walk was over.

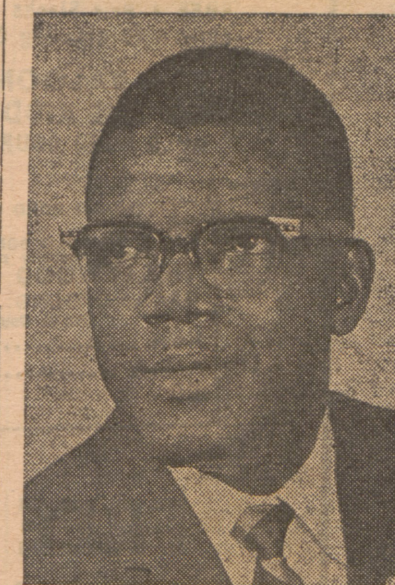

He has been bothered on the march by sore and blistered feet.

under the leadership of Robert Jackson.

Mr. McKenzie said their major job is to disperse young persons after a dance such as Saturday night's, to divert teenage minds from thinking of mischief.

Salary

Salaries of the Night Hawks are provided for by the OEO, Office of

JACKSON

Economic Opportunity, and is part of a proposal by the Federal Government not long ago.

McKenzie complained, however, about the tactics used by the police in handling the situation. "In the winter when someone calls to break up a fight, you can't get a policeman. But in the summer, let some guy look cross-eyed and the police are in on him."

First Black Bobbie Is On Duty Monday

London, England — London's first colored policeman went on duty Monday. He is Norwell Lionel Gumbs, 21, who was born in the West Indies and has lived in England since he was 9.

NEWS In A Nutshell

Nashville—The last Catholic Negro parish in Tennessee closed on June 11. The parish, St. Frances in Chattanooga, was established in 1948 to serve a growing Catholic population. It noted that "the progress made in human relations since that date has made such an arrangement unnecessary."

Cleveland, Ohio—State Rep. Carl Stokes, of Cleveland, Ohio, announced June 16 that he will run for the office of mayor of Cleveland for the second time. Stokes came within 2,143 votes of ousting Democratic Mayor Ralph Locher two years ago. He has not declared whether he will run as a Democrat or an Independent.

Washington, D.C.—It was announced by the White House that President Johnson intends to nominate Clifford L. Alexander, Jr., of New York, to be Chairman of the Equal Employment Opportunity Commission, succeeding Stephen N. Shulman, whose term expired July 1.

New York, N.Y.—The United Negro College Fund Wednesday announced the appointment of Thomas A. Bolden, Jr. as director of the Fund's activities for the State of Indiana and the City of Louisville, Ky.

Washington, D.C.—Elbert C. Robinson has been appointed Labor Attache in the Foreign Service of the United States. Mr. Robinson, who assumed his new position on June 26, will be assigned as Labor Attache to the American Embassy in The Hague, Netherlands.

Ford Makes Grants To Southern Negro Colleges Friday

New York — A series of grants totaling some \$1.1 million was announced Friday as the first step in a new Ford Foundation effort to meet specific needs of predominantly Negro colleges in the South.

Activities include efforts by the colleges to strengthen their programs through mergers, consortia, and other cooperative arrangements; cooperative links with nearby predominantly white institutions; project planning and development to obtain a larger share of Federal aid to higher education; self-studies to explore prospects for improved programs; and advanced study by faculty members.

Fifty-two Negro colleges will be included in some way in the actions.

Food Poisoning Is A Picnic Danger

It's no fun to get food poisoning and spoil that weekend or holiday outing. You'd do well to keep away from cream and custard filled pastries, meat and potato salads, cold egg mixtures, salad dressings, left-over poultry, creamed foods and cold meats, unless you know they've been properly prepared, protected from dust and flies and refrigerated.

Wright to Head Housing Workshop; Special Session For Minority Problems

New York — During the six days of the National Association for the Advancement of Colored People's 58th annual convention in Boston, July 10-15, delegates will have the

WRIGHT

opportunity to participate in two special sessions devoted to urgent problems of the nation's minority groups.

State president Robert Wright is Iowa's delegate.

On Tuesday, July 11, "Teamwork for Ghetto Self-help," will be the topic of the plenary session in the Grand Ballroom of the convention headquarters hotel, the Sheraton-Boston.

Southern Progress

"The Face of Rural Poverty" will be the focus of attention at the plenary session, Thursday, July 13. There will be a first-hand report by the NAACP observer-team of Alex Waites and Rollie Eubanks (New York City Dept. of Welfare Branch) on the Mississippi Food Stamp disaster. The Rev. Kenneth L. Buford, NAACP Alabama field director, and Billie Fleming, president of the Manning, S.C., Branch, will report on Federal agricultural programs in the South and the progress of tenant farmers in Panola, Ala.

Highlights of the convention will be the opening mass meeting Monday night, July 10, when Executive Director Roy Wilkins will make his keynote address. Delegates will be welcomed by John A. Volpe, Governor of Massachusetts and John F. Collins, Mayor of Boston. Kenneth I. Guscott, president of the Boston Branch, will preside at the meeting which will be followed by a reception for the delegates in the Prudential Plaza adjoining the headquarters hotel.

Mayne Vows Fight On Taxes By Knocking Model Cities, Rent

Okaloji, Ia.—Republicans in the House will continue to fight President Johnson's proposed income tax increase, 8th District Congressman Wiley Mayne promised in a speech here. "We've been able to head LBJ's 6% tax boost off for the first 6 months of the 90th Congress," Mayne stated. "We've done so by lopping a few hundred millions off the president's big spending programs here and there whenever we see an opening. For example, rent subsidies, model cities 'demonstrations' and some departmental appropriations have been cut."

Brooke of Massachusetts, will be awarded the Association's 52nd Spingarn Medal. The presentation will be made by the new Senator's senior colleague, Sen. Edward M. Kennedy. The medal is awarded annually to "the man or woman of African descent and American citizenship, who has made the highest achievement during the preceding year in any honorable field of endeavor." Sen. Brooke is the first Negro ever to win popular election to the U.S. Senate.

Delegates will be free to journey "The Freedom Trail" on Wednesday to visit historic sites in Boston. The proposed itineraries call for visits to the graves of Crispus Attucks and Prince Hall, and the Robert Shaw monument. Sites made famous by Frederick Douglass, Sojourner Truth, Wendell Phillips, William Lloyd Garrison and other Abolitionists will also be included on "tour day."

BROOKE

Keith Johnson, Consul-General of Jamaica in the United States, will make the key address before a mass meeting for youth delegates that evening.

At the Youth Freedom Banquet, Thursday night, there will be a special performance by the Voices Inc. Musical Theatre. Harold Eugene Woodson, president of the Oklahoma City Youth Council, will present the awards.

Workshops

The Freedom Fund Awards Banquet will be the highlight of Friday's activities. Mrs. Medgar W. Evers of Claremont, Calif., widow of the former Mississippi field director who was shot down from ambush will preside.

Workshops are scheduled on "Justice on the Job Front," "School Desegregation," "Membership and Fund Raising," "Battling Bias in the Building Trades," "Legal Attack on Discrimination in Employment," "New Paths in Expended Housing," "Consumer Education," "Community Organization" and "Democracy and Dissent" among others.

First Woman Named Director In Wash. EEOC Regional Office

Washington, D.C. — Mrs. Marie Poston, a career government employee and recipient of the "25-year-Honor Service Award," is the first woman to become regional director of one of 11 Equal Employment Opportunity Commission field offices.

Mrs. Poston is a member of the NAACP, the New York Urban League, the Detroit United Negro College Fund, and a member of the board of directors of the Detroit Grand Opera Association.

De Facto Segregation In America's Schools

This is the second of a series of articles concerning de facto segregation in the Public schools, written by John Estes, Jr., and Dr. Eddie Easley of the Des Moines branch NAACP.

Causes of de Facto Schools. The causes of de facto segregation are complex. To a large extent it has its roots in racial discrimination in housing patterns. The practices of builders, real estate brokers, and lenders often have been to exclude the nonwhite from the suburbs and confine them to the central cities. In addition to private industry, racial zoning ordinances, racially restrictive covenants, and private agreements, although no longer judicially enforceable, are still used to maintain segregated housing practices.

Patterns

Commenting on housing patterns as the cause of segregated schools, the U. S. Civil Rights Commission, in its 1967 report to the President of the United States, states that to take the position that we must have open housing patterns before we can solve the school problems assigns at least another generation of our children to racially imbalanced schools.

The Civil Rights Commission's report further points to school district organization, private and parochial school enrollment and the policies of School Board as contributing to school segregation. In the selection of new school sites, school size determination and the drawing of school boundaries, School Boards may maintain racial imbalance in the public schools.

Effects of Racial Isolation. Studies by educational specialists indicate that de facto segregation in the schools tend to lower Negro students' achievement, restrict their aspirations, and impair their sense of being able to affect their own destiny. Negro children in schools that are majority Negro often fail to do better than Negro children in all-Negro schools. Moreover, the greatest positive difference in achievement occurs when Negroes are in majority-white schools.

An important contributing element to the damage arising from more racially isolated schools is the fact that they often are regarded by the community as inferior. Students and teachers may sense that their schools may influence student achievement.

Racial isolation also appears to have a negative effect upon the opportunities of Negroes. Negro adults who experienced desegregated schooling tend to have higher incomes and more often hold white-collar jobs than Negro adults who attended isolated schools. These differences are traceable to the high achievement levels of the Negroes from desegregated schools, and, in part, to the fact that association with whites often aids Negroes in competing effectively in the job market.

Both from the standpoint of Negroes and whites, studies suggest that attendance in segregated schools reinforces the very attitudes and behaviors that maintain an intensify racial isolation.

Settlement Houses to Merge Under One Board

The city's three neighborhood settlement houses receiving funds from Des Moines United Community Services annual United Campaign will be

MRS. GOLDMAN

consolidated under a single administrative staff, as reported at the June

meeting of the U.C.S. board of directors.

The resulting Settlement House Association will merge the administration of the Julia B. Mayer Community Center, Roadside Settlement, and Willkie House, Inc.

Mrs. Kate Goldman, chairman of the settlement house study committee, told the U.C.S. board of directors

that the purpose of the consolidation is: —To develop a co-ordinated program approach among the three settlement houses; —to provide, where feasible, for the sharing of program personnel and equipment among the three; —to develop a co-operative approach to public bodies in providing needed neighborhood services; —to adopt a unified approach toward the budgeting and financing of the services of the three settlement houses, thereby eliminating some duplication in costs; —to provide for the maximum participation of neighborhood residents in the planning of programs at the three centers.

Board

Already named to the board of directors of the new association include Dr. Audrey W. Forrest, Dr. Eddie V. Easley, Edward Harris, James McDaniels, David Rhone and Mrs. Gladys Hurt.

Ray E. Cassell, 1966 President of the Greater Des Moines United Community Services began the project during his term as president. Val Schoenthal is the current president.

A committee met weekly from Jan. 25-March. Its members, in addition to Mrs. Goldman, are: Alan C. Braga, and Mrs. Charles E. Farr, representing Roadside Settlement; Donald Sherinian, and Lynn Vorbrich, representing Julia B. Mayer Community Center; Dr. Eddie V. Easley, and Raymond V. Johnston, representing Willkie House, and Mrs. George P. Comfort and Carroll Mann representing Southside Settlement.

THEY WERE THE CUTEST COUPLE ON THE FLOOR,
— ONLY IT WASN'T A DANCE, A HOUSE PARTY!

From Capital Hill

The Legislature, heeding two decades of public demand, has approved bills giving property tax relief and increased state aid to schools. Final approval to a package of bills and approaches came only after leaders from both parties and the governor worked out a compromise attack on the twin problems. The compromise does have its cost in terms of higher state taxes. The tax increases have been fully reported, but some of the benefits of the aid bills have not been as thoroughly covered.

Explanation

As approved, the bills: —Increase state aid to schools from the present 13 per cent to around 36 per cent by spending about \$141 million a year of state funds; —repeal the personal property tax on household goods, ending this unfair tax on homeowners and renters in both urban and rural areas; —exempt from personal property taxes the first \$2,500 of assessed valuation (about \$10,000 actual value) on livestock, farm machinery and merchants inventories; —grant an additional homestead tax credit to needy homeowners over age 65 to help these persons with fixed incomes meet the demands placed on them by inflation; —increase the agricultural land tax credit base from 15 to 20 mills for school costs and make available a total of \$18 million to pay claims in full.

Shift

The major idea behind the entire package is the need to shift the ever-increasing costs of education from the slow-growing property tax base to the rapid growth part of our economy. Because revenue from state taxes reflects our economic growth more accurately than property values, it is believed the state will be able to continue meeting its share of school costs despite the expected increases in public education costs.

Taxpayers in most school districts will get some initial relief in the remaining part of this year, but most of the replacement of property taxes will come later when the money is made available and the distribution plan is in operation.

Sheet Metal Worker Apprentices End N.Y. Union Training

Brooklyn, N.Y. — 21 Negro and Puerto Rican young men had completed their first week as apprentices in a program administered by Local 28 of the Sheet Metal Workers Union.

These young men join a group of 13 Negro apprentices who are now entering their second year of apprenticeship. Scott Green, the first Negro to enter the union, is beginning his third year as an apprentice of the Joint Apprenticeship Program of Workers Defense League.

Dr. Benjamin Payton to Address Race Relations Institute on Thursday

Dr. Benjamin Payton, chairman of the Steering Committee of New York's Pre-White House Conference on Civil Rights, will speak at 8 p.m. July 13 at Drake University's Medbury Hall.

Dr. Payton was a member of the White House Conference "To Fulfill These Rights" in June, 1966, was part of the World Council of Churches Conference on Church and Society held in Geneva, Switzerland, in 1966, and in July of last year was co-ordinator to the formation of leading Negro church clergy which submitted statements in the New York Times and other news media on Black Power and other race relations.

On Thursday, July 13, lecture and discussion will begin at 10 a.m., lunch at Hubbell Hall at 11:30 a.m. At 2-4 p.m. will be seminar groups, and at 8 p.m. a public lecture will be held at the Medbury Hall. Hungarian Goulash

The Hungarian national dish is "gulyas" or "gulyashus"—meaning herdsman's meat. It is a mixture of beef, vegetables and, of course, paprika. The secret of the Hungarian gulyas is the paprika and the long slow cooking.

HUNGARIAN GOULASH

INGREDIENTS:
2 tablespoons fat or drippings
1/4 cup all-purpose flour
1 1/2 lbs. stew beef
(or ground beef)

1 cup water
2 strips bacon, coarsely chopped
2 1/2 cups coarsely chopped onions

3 tablespoons and 1 teaspoon paprika

2 teaspoons salt
1 No. 303 can tomatoes
1 cup uncooked white rice

2 cups water

METHOD: Melt the fat in a skillet. Cover the beef with the flour. (If ground beef is used, form into firm balls about the size of walnuts. Roll in the flour.)

Brown the beef on all sides in the fat. (If ground beef balls are used, start with 1 tablespoon of fat, adding more if necessary.) Put the beef in a large kettle or Dutch oven. Rinse the skillet well with the 1 cup

water. Heat if necessary to loosen the brownings. Add the water to the beef. Cover and cook slowly for 1 hour.

While the beef cooks, fry the bacon in the skillet. Remove the bacon. Add the onions to the skillet and cook until they begin to brown. Stir in the paprika and 2 teaspoons salt. Return the bacon to the skillet.

After the beef cooks 1 hour in the kettle or Dutch oven, add the onion and bacon. Pour the tomatoes into the skillet. Break the tomatoes into small pieces. Stir the tomatoes to loosen any remaining onion and paprika. Add to the beef mixture. Cover and cook slowly until the beef is tender but not soft, about 1 hour.

About 30 minutes before the beef is done, put the rice, water and 1 teaspoon salt in a 2-quart saucepan. Bring to a vigorous boil over a high heat. Turn the heat down low. Cover with a lid and simmer over this low heat 14 minutes. Remove the saucepan from the heat but leave the lid on 10 minutes.

To serve, arrange the rice on a large platter. Top with the beef and some of the gravy. If necessary, serve the rest of the gravy in a separate dish. This recipe makes 6 to 8 servings.

Questions and Answers

Q—I am a sole proprietor and want my son to work for me this summer. How should I treat him for tax purposes?

A—You may deduct as a business expense the salary you pay him for services rendered. The salary deducted should be what you would pay a person not related to you for performing the same services.

The salary is subject to the same withholding requirements as your other employees if he is 21 or over. However, if he is under 21 his salary is subject only to income tax withholding and not social security withholding.

Q—I have two weeks duty with the reserve this summer. Will my military pay be taxed?

A—Yes, unless duties are performed in Vietnam for any part of the two weeks.

Q—I was audited for the past two years. Does that mean I'm on a list to be audited every year?

A—If your return has certain characteristics it may be audited and not because you were audited the past two years.

Computers screen returns and identify those which meet certain criteria. The identified returns are then reviewed by examiners who select those which are to be audited.

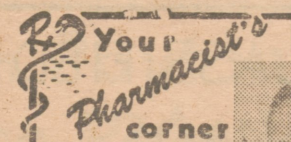

Q—I am retiring and will sell my home to move into an apartment. Do I have to pay tax on this money?

A—You may be liable for federal income tax on any profit you make on the home sale. This would be the amount by which the sales price less selling and certain other expenses exceeds the adjusted basis of the house.

Missouri St. Choir At New Jerusalem

KIM CARTER, one of our youngest Bystander salespeople was unsuccessful in selling her last five papers. Her goal has been to sell an additional paper each week! This she has done, too! We set out together Saturday night—going from door to door. Our house-to-house visits netted new friends. Among them were some of the following persons:

NORVELLE WHITE, 1425 University, who responded "Oh yes! We buy a Bystander whenever they come around with it!" I asked if he had anyone in service. His reply was a surprise! His two sons, Harrison Gay and Norvelle Norman, 20 and 18 years old, are Jehovah Witness ministers and were out of the city attending a Missouri Jehovah Witness Convention. Harrison is a jeweler at Plumbs Jewelry Store—sets diamonds, designs and makes mountings. This work was an outgrowth of Harrison's demonstrated artistic abilities while at Tech High. Norvelle works at the Register and Tribune—in the proofs and advertising section. His work involves travel. Mr. White praises Tech High's policy "of placing the boys on jobs they can handle" and he added "they didn't need college". He continued "I was going to send them to college. In fact the older boy is making almost as much as I am." I asked about his work. "I am a machine operator at Frye Manufacturing Company. I

make carbon paper and have been there 13 years." This, for me, was one of my prize interviews because the successes of Mr. White and his sons makes one feel that more adults and young people can achieve if we but persevere, and this I like to hear as well as write about.

ACY TAYLOR, SON OF MRS. MARTHA TAYLOR, and one of my favorite young people, freely bought a paper from young Kim. Though now a young adult—this January's Tech High graduate—Acy always lends the very young a hand and is an admirable big brother to Harold

Lee of Little League fame.

JAMES LEE, SON OF MRS. ROSA LEE, of 1420 University, cheerfully consented to buy from Kim, thus treating his mother. James is a former East High student and plans entering the army soon. Best wishes, James!

STILL WITH KIM CARTER? MRS. JULIA AMBERS, 1511 University, replied to our sales pitch of "Do you have your Bystander?" "Thanks! I got one this morning!" A Bystander isn't all she had—around her feet were two or three beautiful young children smiling pleasantly at Kim and me. (Hey, their mother's a cutie, too.)

MRS. MINNIE CLYCE, 1446 University, gave us a "Why yes, I'll take a Bystander!" And that she did! She has a son, William James Graves, who is attending summer school at Pella's Central College. Among his subjects are art, science, biology. William, 16-year-old, hopes to become a history teacher. This is the life, folks!

EVER VISIT A SMOKE HOUSE? I haven't but certainly hope to find St. Joe, Arkansas' Smoke House where one purchases "the original smoked hams" according to Deputy Sheriff G. B. Tucker, who just returned home with a smoked ham this week. He simply ordered, tucked the ham into his "Cad and "will be billed later"! I like ham and especially "being billed later".

ELDORA TRAINING SCHOOL so impresses one young executive that he feels his childhood was "deprived"!

AT A SATURDAY NIGHT DANCE one teenage beauty viewing a newcomer—of equal loveliness—asked "Where are you from?" "New Orleans" was the reply. Later, overhearing the newcomer answer a similar query with "I'm from Louisiana" our first beauty scornfully asked her "What became of New Orleans?"

WHERE ARE DES MOINES' MINISKIRTS? asks one Twiggy friend who feels "too alone" in her's.

Vacation Spent In Ark.; G. B. Tucker

G. B. Tucker returned Monday, July 3, from a vacation spent visiting relatives and the tombs of his father, mother and brother. He visited, too, his alma mater, Philander Smith College, Little Rock, Ark., where he met its current president.

His sister, Mrs. Mary Miller, gave a dinner honoring him and his two sisters, Mrs. Fannie Wyatt, of San Francisco, Calif., and Mrs. Susie Childress, of Crossett, Ark. Fifty guests attended.

He and his sisters were also entertained in the home of Mrs. Janet Helm Johnson.

Joan Carter Back From Omaha, Neb., Job Corps

Nineteen-year-old Joan Carter, home this weekend from Omaha Job Corps had this to say: "I like it real well, and plan to stay for a year." She felt that the job gave her a chance to meet girls from all over the States—some of them from the South—Texas, Arkansas, Missouri and Mississippi. She said they had opportunities to see Omaha—going all over Nebraska. Activities were planned for each weekend, with dances at the boys job corps.

The girls went to church, hikes, picnics, swimming and bowling. They study crafts, sewing, and sculpturing at night—until 10 p.m., at which time "we have to be in our rooms." Daytime consists of business schooling for eight hours.

Joan studies key punch operation (5 hours); home and family (2 hours); health (1 hour).

est past matron and Mrs. Edith Sharp the youngest. Although business meeting will be discontinued until September, plans are being made for the Chapter's Annual banquet Oct. 7 at Younkers Tea Room. Tickets may be obtained from any members of the chapter.

HEALTH FOR ALL

What's in a name? Hay fever isn't caused by hay and has nothing to do with fever. But those fascinating facts don't really help much when summer brings on the season of swollen nasal passages, teary eyes, and marathon bouts of sneezing.

Hay fever is an allergy whose symptoms often are caused by airborne plant pollen—usually ragweed. Other substances, such as animal dander, mold spores, or dust may also be guilty. These are allergenic substances—that is, they produce irritation which in turn produces the tears and sneezes.

Relief is sometimes obtained by the use of antihistamine drugs, but these don't affect the underlying sensitivity. Hay fever can often be controlled by injection of a desensitizing substance in gradually increasing doses. In some cases, injections repeated over several years have resulted in a permanent desensitization.

Irritant

Allegic asthma, like hay fever, is caused by a reaction to a specific irritant, and can be controlled if the substance is identified and injected into the body in a series of progressive doses. (In non-allergic form it is caused by a "non-specific irritant"—a substance apt to affect anyone but causing a more severe reaction in the asthmatic.)

Swelling

In bronchial asthma an acute attack produces swelling of the small passages that carry air from the windpipe into the lungs. The patient has a choking sensation, fights desperately for breath, and usually

coughs up a white mucus.

Medical care can bring substantial relief, and sometimes cure, to sufferers from respiratory allergy. Ask your Christmas Seal association for the free leaflets, "Hay fever, the Facts," and "Bronchial Asthma."

Your professional beautician knows the answer...

Can your hair be damaged from brushing, alone?

All hair becomes damaged from exposure to sun and natural elements. Certain greasy compounds and many chemicals, improperly used, also take their toll...not to mention simple attempts at beautifying the hair with any brush not made of natural bristles. The results are brittleness, breakage, dry and dull looking hair.

Your professional beautician knows how artificial bristles actually brush away a great deal of the "lubricants" of the hair that give it body, lustre and protection. And trained beauticians claim that nothing beats Clairol® condition Beauty Pack Treatment for overcoming brittleness, dryness and breakage... leaving hair lively and easy to manage. condition® is an easy-to-work-with creme which can even be applied during a chemical straightening retouch to prevent drying of hair that has been previously relaxed. condition® is the ultimate in repairing deep-down damage. And, when time is a factor for their customers, hairdressers turn to new Clairol® Hair Dew®—the lotion conditioner that penetrates so fast many think of it as an instant conditioner. When applied regularly by your beautician, Clairol Hair Dew adds body, softens and gives a glowing new look to your hair that many friends will notice and admire.

Damage can come from using brushes with artificial bristles. But damage to every woman's hair comes from so many other causes that all human hair (including wigs) needs to be revitalized periodically. Visit your professional beautician and ask this expert to check the condition of your hair.

Only your professional beautician knows the answer for sure.

It's Peach Jam Time

Put a little of summer's golden sunshine in jars in the form of jam made from fresh peaches. You can add your own special touch of spices in making Spiced Peach Jam, an elegant one for later gift-giving. The recipe is made by the short-boil method using Certo Fruit Pectin, and the jam is assured of a perfect set.

Spiced Peach Jam

Yield: about 11 medium glasses

4 cups prepared fruit (about 8 lb. fully ripe peaches)
¾ cup lemon juice (2 lemons)
7½ cups (3¼ lb.) sugar
½ to 1 teaspoon each cinnamon, cloves, and allspice*
½ bottle liquid fruit pectin
*Or use any desired combination of spices.

First prepare the fruit. Peel and pit about 3 pounds peaches; chop very fine or grind. Measure 4 cups into a very large saucepan. Squeeze the juice from 2 lemons; add ¾ cup to peaches. Then make the jam. Thoroughly mix sugar and spices into fruit in saucepan. Place over high heat, bring to a full rolling boil, and boil hard 1 minute, stirring constantly. Remove from heat and at once stir in fruit pectin. Skim off foam with metal spoon. Then stir and skim for 5 minutes to cool slightly and prevent floating fruit. Ladle quickly into glasses. Cover at once with ¾ inch hot paraffin. Note: Jam may set slowly—allow about 2 weeks.

NEW TAX MEASURE
FACES DIFFICULTIES

The Iowa legislature has adjourned after the longest session in history and productive of many laws some of which present problems.

Undoubtedly, the most far-reaching is the revenue measure which raised taxes in some instances, particularly the sales tax. It included many services in the sales tax.

We are not so sure that some parts of the bill will be contested in court for it was put together at the last minute without proper consideration of all angles.

The tax measure is aimed to pay more money to local schools and at the same time relieve real estate taxes. It will be interesting to balance the savings in real estate taxes to a family against the additional sales taxes and income taxes that are paid. If the bill has not provided relief of real estate taxes, it has failed to accomplish its purposes.

It will take a lot more employees to administer and enforce this measure. Ample machinery must be provided to collect the taxes which to be sure, will be a difficult job.

Of course, no tax measure is popular. But if this one accomplishes its end, the difficulties involved in making it work will be justified.

MOST GROUPS RIOT
TO CARRY THEIR POINT

During the emergence of labor power soon after the turn of the century, the campaign against some employers brought lawlessness unequalled by anything that goes on today among the riots in the streets.

An article in This Week Magazine about "Storms Over the White House" cites examples occurring in the administration of several Presidents.

In a section entitled "The First Roosevelt Revolution", he recalled that much of this transition in the rise of power in the labor movement occurred during Theodore Roosevelt's administration.

He states that "Despairing of justice, working men talked grimly of winning their goals by violence. Radicals such as the black-bearded ex-priest, Father Thomas J. Hagerty, roamed the country, preaching class hatred. Union leaders such as "Big Bill" Haywood, hero of the western miners, savagely declared that dynamite was the best possible answer to court injunctions and federal troops."

Haywood carried out these threats, many of which are patterns for what occurs in some labor-management controversies today. An example of this occurred in Harlan, Iowa, during the packing house workers strike earlier this year.

The only difference in the labor riots and Negro riots is that the former has the power to follow through with demands securing acceptance, in many cases, before too much violence erupts or soon after in order to stop it.

Then, too, labor has become so powerful that law enforcement officers and courts often fear to use the legal measure provided in such cases or dismiss criminal cases involving unlawful acts as a price for calling off a strike.

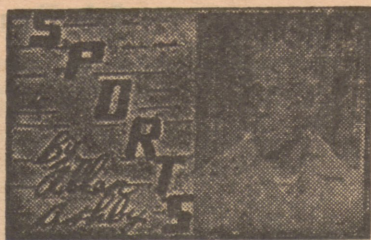

Lawlessness by any group should not be tolerated. Officials should take stern measures tempered with good judgment provided in the law to punish offenders. Its the best medicine for those who insist in following such practices.

Waterloo Visitors
Here For Holiday

Mr. and Mrs. Clarence Frazier and children, Debby and Denise, arrived from Waterloo Sunday to visit their sister, Mrs. Alma Berry, 1311 Jefferson and Miss Sadie Jones for the holiday.

Last week our mail bag brought us, among other things, a fine letter from Quentine Mease, who used to be executive secretary of the old Crocker YMCA. We thought you might like to read a bit of it, since it concerns a fellow we have been talking a bit about. He is with the Huston Professional and Businessmen's club of Huston, and the man they honored was Jimmie Hines of Texas Southern. The well setup program contained quotes from several national magazines and newspapers about their hero. When one takes a glance at the achievements of the fellow, well, maybe he deserves the honors, even though he hasn't reached his peak. We submit a list of the marks set by the guy who claims to be the world's fastest human.

Hines

Hines, in high school, which was McClymnd High, Oakland, Calif., won the 100 yard dash, 9.4—a national record, and the 220, in 20.7, a high school national record. At TSU he tied the Indoor 60 yard in the record of 5.9 three times this year in Kansas, twice and Albuquerque, N.M. In the Outdoor, he caught the 100 yard dash in 9.1 and was SWAC champ, May, 1967, 100 meter, 10.0 at the California Relays, May 1967, 220 yard 20.3, curve, NAIA championship May, 1967, anchored 440 relay in 39.6, tied existing world record, anchored 880 relay in 1:22.7, one-tenth second off the world record. Other honors were his selection as outstanding performer at the NAIA indoor Track Meet, the Border Olympics, Texas Relays, Modesto Relays, California Relays, Coliseum Relays, and NAIA Spring Championships. He was named to the 1967 AAU All-American Team, was Athlete of the Year by the Alpha

A Look at What the
AFL Offers This Fall

Strength: The reigning AFL champions have been thrown the above challenge, and the cast that will have to answer it is much the same as the one that brought Kansas City the 1966 title. The strike-from-anywhere offense revolves around quarterback Len Dawson, receivers Otis Taylor, Chris Burford and Fred Arbanas and running backs Curt McClellan, Mike Garrett and Bert Coan. The forward wall (tackles Jim Tyrer and Dave Hill, guards Ed Budde and Curt Merz and center Wayne Fraizer) plays a vital role in the success of the offense while the defense is led by four All-AFL selections—end Jerry Mays, tackle Buck Buchanan, linebacker Bobby Bell and safety Jonny Robinson.

Needs

The Chiefs' defense has two questions: Phil Alpha Fraternity of TSU.

He recently was the guest of honor at a luncheon with Mr. Mease where the news media, university coaches and local high schools honored him.

Baseball

And now the talk shifts to baseball where everyone is talking about those fantastic Chicago Cubs. We claim if they can break even on the road, they can't be counted out. The other day we heard a couple of fellows say Ernie Bank's can't hit with men on bases. Well, we looked up the fellows' batting average, including RBI. He is batting .308, with 44 RBIs. We would think that some of those hits of his must have come with men on bases. What would you say? And out of 44 runs batted in, some of them surely had to be important runs. A Chicago world's series isn't very likely, but don't think it couldn't happen.

Then the next big news was Willie Mays being left off the National league all star team. They picked three good men, but, man you don't forget Willie Mays!

Softball

Locally we were involved in a dis-

tion marks—left tackle and right end. The holdovers at tackle are Andy Rice, a rookie last year who does not have the size Stram prefers, and veterans Ed Lothamer, out most of the season with injuries. At right end Chuck Hurston is the incumbent. Aaron Brown, a No. 1 choice in the 1966 draft, also will be tried there. The need for a back-up center to spell Fraizer was satisfied with the acquisition of Mike Hudock from New York but a place kicker is needed to replace Mike Mercer, traded to Buffalo.

New Faces

Two of the top candidates for jobs are Gene Trosch of Miami, Fla., the No. 1 choice in the 1967 draft, and Ed Pope of Jackson State. Both fit Stram's height and size likes (Trosch is 6-7, 277 and Pope 6-8, 300) and could be battling for berths at the defensive left tackle and right end spots. Jim Lynch of Notre Dam and Willie Lanier of Morgan State could push Sherrill Headrick for the middle linebacker's job while Tom Brooker out last season with injuries, and rookie Jan Stenerud likely will battle for the job vacated by Mercer.

discussion as to whether we would rather see a local Negro softball team or the guys playing as they are on a number of teams. Well, an all Negro club had its advantages as being a drawing card, and the people who set up tournaments knew it. They always managed to get the local Hot-

entots into a meet whether they qualified or not. They sometimes had to make special rules for them, but they got in. Some fellows argued that all Negro teams should be done

away with because that was segregation. It would be if they couldn't play on any other team, but if they want to band together and play as a group, we wouldn't see anything wrong with it.

Oh, yes, get ready. The first football game will be coming up this weekend. And on television, too.

Wilt Chamberlain
Refuses \$250,000

Philadelphia, Pa.—Wilt Chamberlain rejected a \$250,000 offer from the Philadelphia 76ers last Wednesday. He said he was currently negotiating with several American Basketball Association teams.

Owners of the National Basketball Association's 76er team have been quoted as saying Chamberlain was committed to next season under a three-year pact negotiated in 1965.

but Chamberlain said: "I'm in a free position to negotiate other contracts, and this is what I am doing to the best of my ability."

The Philadelphia Bulletin said that 7-foot-1 star reported that a three-year agreement had been torn up at the beginning of the previous season, and he had signed a new contract to play one year, no more.

Plan All-American
Football Game Sat.

Thirty-five players drafted by American Football League clubs are listed on the rosters for the Coaches All-America Game at Atlanta, July 8, and the College All-Star Game at Chicago, Aug. 4. Ten will play in both games.

The Denver Broncos will supply more talent for the two games than any of the other eight AFL teams, with seven of their players on vief. Five will be in Atlanta for the game between East and West All-Star squads and four in Chicago on the College All-Star squad that will face the Green Bay Packers of the

National Football League. Two of the Broncos rookies, running back Floyd Little and receiver Tom Beer, will appear in both games.

To the Editor

The various Centers in D.M. are going all out to help the youth have a pleasant summer, with many and varied activities being carried out all day and more being planned . . .

Let us as parents give of our time and energy to help the volunteers carry out these plans, even two hours per week would help . . . Find out what we can do to help these people help our children. Our teenagers can be molded into fine young adults and responsible citizens of tomorrow . . .

Where are the parents of these 2, 3 and 4-year-olds who are playing in streets? Are they too busy to look out the window or step out in the yard to see where their

children are? Why don't the parents band together and clean off a weed-grown, vacant lot or two and make neighborhood playgrounds for the youngsters in cases where the city parks and playgrounds are too far away? . . . They are our future, so let's protect them today . . .
