Alton Reeves Victim of Hit and Run Driver

Impact Knocks Shoes From Elderly Man

An elderly Des Moines resident became the victim of a hit and run driver Tuesday night.

Killed was 73-year-old Alton Reeves, of 1285 DeWolf street about 8:30 P.M. when a 1962 Pontiac white-over-red auto struck the man as he went on his way home.

Reeves suffered head and internal injuries and a broken leg when the driver hit him in the 1700 block of East University avenue.

Shoes

According to accident investigator Robert Rote, witnesses said the driver was going about 30-35 miles an hour when contact was made, probably knocking Mr. Reeves 20-25 feet, or far enough that his shoes were knocked 130 feet from him.

Rote said that the driver's car then went over a curb, hit a pole and sped away. One witness chased the car with his own but was unable to catch up.

The accident investigator said that the left front side of the car's bumper, from the front to the center, would be damaged, and also damaged beneath it.

Information

Charges stemming from manslaughter would receive at most, eight years. Any persons having information on the car or the driver should contact the police immediately. Services are pending.

Hard Core Training For Waterloo Ghetto

Waterloo—In an effort to reach the hard-core disadvantaged, an alteration tailoring course will be initiated in Waterloo under a program developed by the Iowa Employment Security Commission through the Manpower Development and Training Act. The Commission said that 30 trainees are being selected from the ghetto area for the program and training will begin as soon as equipment can be purchased and installed.

Community

The training program which will last 26 weeks is unique in several ways, the Commission said. First of all the program was requested by spokesmen of the Negro community including the Reverend Joseph Parker and Charles McMillan who were instrumental in bringing the desire for the program to the attention of state officials.

Surveys of the immediate Waterloo area have indicated that there is sufficient employment potential for trainees who are well motivated and who successfully complete the course of instruction. Wages after training should range from \$1.50-\$2.75 an hour.

Place Injunction on Case; Court to Decide Whether To Be Private or Open

Davenport—The Iowa State Civil Rights Commission has been temporarily halted from holding a public hearing on a case of discrimination in Bettendorf. A Scott county district judge issued the temporary injunction which will be in order until the court decides whether the hearing will be public or private.

James Thomas, director of the Commission said that first attempts to conciliate the parties involved—and no names or details involving the case have been released, according to the codes of the Civil Rights Commission—were unsuccessful.

Third

This is the third case of discrimination handled by the Commission involving unsuccessful attempts at conciliation. The first concerned Mr. and Mrs. Willis Haddix of Mason City versus a Des Moines mobile home operator. Although the Haddixes appeared to be successful, lawyers for the trailer court owners said they will appeal.

Milwaukee Council Demonstrations Backed By Nat. Board

New York — The 60-member Board of Directors of the National Association for the Advancement of Colored People strongly reaffirmed its support of the Milwaukee NAACP Youth Council in its efforts to secure open housing legislation in Wisconsin's largest city.

The NAACP's governing body said that one of the principal national objectives of the 58-year-old civil rights organization is "open housing and enactment of open housing legislation by local, state and national bodies." The Board reaffirmed its support at its regular quarterly meeting here Sept. 11.

Task Force Meetings Rake Ia. Race Problems

In a report released by the Cities Task Force of the League of Iowa Municipalities last week four committees cited various problems and solutions to correct grievances.

The educational committee specifically mentioned lack of counseling on higher educational opportunities, scholarships, loans, etc., and strongly recommended meeting the school superintendents, presidents of Boards of Education and representatives of private and the State Superintendent of Public Instruction from the five largest cities with Negro population.

Housing

In housing, James Thomas, chairman, cited basic problem areas: housing, discrimination in purchase and rental, obtaining mortgage loans and financing for home improvement and laws and enforcement. The committee suggested checking the Iowa minimum housing code, and that the League should encourage members to adopt strong policies of non-discrimination an equal opportunity.

Employment

Charles Toney, chairman of the employment subcommittee submitted a report calling for positive action in the city administration to assume "the leadership in establishing good race relations; to encourage the

Fireman

Second was the Civil Service Commission versus the absence of Negro fireman. The case was brought to public hearing, but details were not released. Milford Fonza became the first Negro to be hired as a fireman in decades, and Walt Williams is—or was—under consideration.

The Director said that his staff was not represented at the court session when the injunction was issued.

In order to get the injunction, the party involved must prove that they would be "irreparably damaged" by publicity.

Sources feel that a subsequent private hearing would be doing "irreparable" damage to the Human Rights Commission.

Thomas said that there "was no question that we will have a hearing," but the issue was over whether it would be public or private.

"While we are challenging the injunction, we can't violate it," Thomas said.

NAACP Executive Director Roy Wilkins had earlier sent a telegram to Milwaukee Mayor Henry W. Maier deploring the Common Council's refusal to pass open housing legislation. He said the Council had "failed to give any indication whatsoever that it is aware of the need for this legislation."

Condemned

Wilkins also condemned Negro youths who vandalized the Mayor's reception room during a sit-in demonstration. He added: "The problems of the Negroes in the cities will not go away if Father (James E.) Groppi and his youth group remain silent and inactive."

Maier is in Des Moines as guest speaker of League of Iowa Municipalities.

Chamber of Commerce to conduct job centers in each city and town, and to encourage local news media to feature stories of local minority achievements."

The committee also recommended that methods should be taken to evaluate the effectiveness of the Task Force by "making a state-wide minority employment survey on Nov. 1, 1967 and again on Nov. 1, 1968 to determine the increase in Negro entry jobs and upgrading."

Law

James B. Morris, chairman of Law Enforcement and Community Relations sub-committee named problem areas such as law allowing after hour joints if they remain all black, insensitivity to minority problems and conditions by police and lack of minority appreciation for policeman and his position. The report also said that lack of communication between minority community and the city's power to lead to realization and appreciation of the fact that there is "no acknowledged leader to speak for all Negroes any more than any white speaks for all."

The Force met again Friday, Sept. 15, prior to the Annual Conference of the League of Iowa Municipalities Thursday and Friday, Sept. 21 and 22.

Housing Officials Probe D.M. Migration to Slums

by Eleanor Tate

An agent for the United States Housing Administration hit on integration fears Thursday. He was Madison Jones, of Washington, D.C., who told a group of gentlemen from the Human Rights Commission and Urban Renewal Office that: "the whole question of integration is not that a black person wants to live near whites. But integration is a reflection of a person who wants to live in an area with racial variety, to be afforded a life outside the ghetto."

Urban

Jones and Duane Ramsey of Chicago, Ill., were in the city to discuss urban renewal methods in the city Thursday and Friday.

In Friday's meeting with Urban Renewal director Max Krumley, Perry Hooks of the Des Moines Human Rights Commission and Silas Ewing, subcommittee members on housing, and urban renewal officials, Jones questioned the reasons why persons dislocated from their homes in Oakridge were moving to another area already designated as a slum, being under the standards of Model Cities, federal housing program.

56

Reasons given were that the average age in the Oakridge area was 56; therefore, these persons, having saved part of appraisal money for old age, would rather stay near the area of church, relatives and friends, although Ewing pointed out that had the residents been paid a fair price, they could move out of the area. Ewing dismissed ideas that the Forest Hills

area should not be called a slum. Then Ewing said that the problem of relocating families was a failure on the part of the city of Des Moines to provide low rent housing for persons displaced. "You've talked about sociological, psychological problems, which is beyond us. We talked half a day with the Urban Renewal office, reasoning, rather than by affirmative trying to eliminate disparities by action."

Mumble Jumble

However, in relocating, apparently no resident had filed a case of housing discriminating in the city, but Jones pointed out that "all of the procedural mumble jumble that one has to go through discourages persons from taking up housing complaints. Most complaints deal with middle class persons who are inquisitive. The more money they make, the more inquisitive they become."

Jones later attended a meeting with the Rev. Henderson S. Davis and various persons.

NAACP Monthly Meet

The Des Moines Branch National Association for the Advancement of Colored People will meet Sept. 26, 7:30 p.m. at Willkie House, 900 17th street. Membership meeting at large is at 8:45 p.m. Order of the evening is the election of delegates to the state conference. All board members are urged to attend and bring in as many memberships as possible. 1967 quota is one thousand. Bring committee reports. President is John M. Estes, jr.

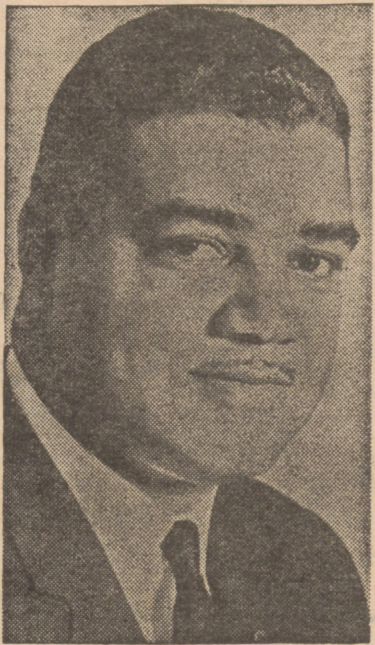

Says Poor Should Choose On State Abortion Laws

Washington, D. C.—Abortion, birth control and unwed mothers are frequently subjects of direct concern to the poor—and poor quite often means Negro. Many cities across the nation are taking steps to deal with these problems; most have done nothing except advance remedies out of step with modern thinking.

Legal

The Rev. Robert Drinian, dean of Boston College Law School, told the International Conference on Abortion that for the first six months of pregnancy, laws prohibiting abortion could be repealed. He said that legal protection for viable fetal life could be asserted after pregnancy had passed the twenty-sixth week.

Whitney M. Young, Jr., director of the National Urban League, appeared at the abortion conference and endorsed "abortion on request for poor people." "The option is available to people of means," he said, and went on to quote an 11-year study made in New York on therapeutic abortion.

Nationwide Survey Reveals Housing Bills States Passed

New York, N.Y.—If Congress has fiddled while cities burn, the state legislatures, nevertheless, have compiled a substantial record in civil rights legislation during 1967.

This is the major finding of an up-to-date nationwide survey conducted by the Anti-Defamation League of B'nai B'rith and revealed today in an issue of LAW, which regularly reports on legislation in the civil rights field.

Iowa

Bills banning housing discrimination got attention in many state capitals. Five states—Hawaii, Iowa, Maryland, Vermont and Washington—enacted such laws, with enforcement machinery, bringing to 22 the number of states now making it illegal to discriminate in the sale or rental of housing.

Further, according to the ADL report, Minnesota, Connecticut, Massachusetts and Pennsylvania all strengthened existing housing laws: Minnesota extended the coverage of its law; Connecticut provided for a damage suit to remedy those aggrieved by an act of housing discrimination, and Massachusetts and Pennsylvania authorized the suspension or revocation of the licenses of real estate brokers found guilty of discriminatory practices.

From Lee Dale: Mable John (Wait You Dog, from Stax) will leave the U.S. for appearances in England, Holland, Denmark, France, etc. Also on the "Memphis Sound" tour will be Arthur Conley, Percy Sledge, Sam and Dave and the Sam and Dave Band. Gone for one month. Everybody's going to Europe.

Name Game

Well, they tell me the Supremes are now Diana Ross and the Supremes, and Martha and the Vandellas are Martha Reeves and the Vandellas. Knock me down, but I like Diana Ross and think she's got the voice to be the leader. However, I agree that the Supremes name without the plug would benefit the rest of the girls. Something tells me that Miss Ross might strike out on her own.

Martha Reeves deal came as a shock, according to Lee Ivory. "The recent name-change of Martha and the Vandellas was a perfect example of what . . . artists have to go through. Rosalind Ashford . . . was not consulted before the billing was changed to "Martha Reeves and the

Vandellas", and Rosalind had had every right in the world to blow up about it . . . When the billing change leaked out, Rosalind refused to speak to Martha after the trio left the stage." So says Ivory.

Fan

I've always been a fan of Martha and the Vandellas, who, while the Chiffons and Sherryles and Ronettes were leaving, were able to keep the hits coming. But I think a little bit of animosity can be expected, since these girls are only human, and I am sure all work just as hard as the other.

This Monday morning, the temptation is to not write this column. A bit weary from a trip to Chicago and back in less than 24 hours, by bus, when already a bit fatigued, is responsible for this attitude.

Twenty nine members of Payne Memorial AME Church went by chartered Iowa Coaches to Chicago to give moral support to their support to their pastor, Rev. R. Joseph Parker. He delivered the anniversary sermon at Metropolitan Missionary Baptist Church. It was a one day celebration honoring 28 years of service of the Rev. E. F. Ledbetter and 47 years for the founding of that church.

Closing services of the 85th session of Chicago Annual Conference of AME Churches was attended at DuSable High School that afternoon. Our interest was to hear of pastoral appointments. Wish I could give them all to you. As I strained my ears from the second balcony of the huge auditorium was able to discern that Rev. R. Joseph Parker would be reassigned to Payne in Waterloo. Immediately Mrs. Lottie Berry, Mrs. Pearl Tolliver and I left, in order to get ahead of the departing crowds and to find my relatives waiting outside. Dr. William London, my nephew, and his wife Vernetta, who is recovering remarkably from a spinal fracture; Mrs. Chairman Thomas my niece were waiting.

We left Waterloo for Chicago at 2 a.m. Sunday, arriving there about 7:30 a.m. We then started for home approximately 6:30 p.m., reaching

here about 12:30 Monday morning. Mrs. Dorothy Richardson arrived from Omaha by Ozark Air Lines to visit relatives. She was here to celebrate the birthday of her father, Walter Pearson, who resides at Woodlawn Nursing Home. With an appropriately decorated 10-inch birthday cake, he shared with the patients and nurses on his floor.

While here Mrs. Richardson was entertained at dinner by Mrs. Gladys Anderson, 316 Charles and at the Downtowner Motor Inn for luncheon with Mrs. Leora Roberts. She spent a social evening with Mmes. Lucille McCormick, Calvin Jones and Gladys Anderson. She was house guest of Mr. and Mrs. Mogan Pearson, 1026 Ash. Other relatives visited are Mr. and Mrs. John Pearson and Mr. and Mrs. Elbert Pearson. She spent one week.

Miss Helena Tate has returned from a vacation of three weeks spent in New Orleans, La., with Mrs. Bertha Rogers. She was guest at a family reunion of Mrs. Rogers, whose relatives came from nearby country side, Garyville and Resever, on Labor Day. There was New Orleans jumbo, with filet as well as much other delicious food. She attended Union Missionary Baptist Church and was impressed by the size of attendance of adults as well as children. Did sightseeing in French Quarter, Rampart Street by one horse buggy and by car. She also crossed the largest and longest bridge across Lake Pontchartrain which was 24 miles long. Real southern hospitality proved for her to be many gifts and teas.

Mrs. Lennie Richardson observed a birthday Sept. 15.

Should you attend Dairy Cattle Congress this month, be sure to visit Black Hawk County Republican Booth. Hope to see you there on Monday afternoon, Sept. 25.

HEALTH FOR ALL

The brief attack of bronchitis that follows a severe head cold is a familiar fact of life to many people. The cough last awhile, goes away, and usually no great harm is done.

It's the bronchitis that doesn't go away or that keeps coming back—in other words, chronic bronchitis—that can mean serious trouble. Over

a period of years, if untreated, it can cause damage to the breathing organs. There are more than three million sufferers from this disease in the United States now. New cases in 1965 were estimated at 421,000; and the deaths have approximately doubled every five years since 1950.

Long Term

Chronic bronchitis is characterized by an inflammation of the bronchial tubes, which connect the windpipe with the lungs. Its causes are various, but chief among them is heavy cigarette smoking carried on over a period of years. This isn't a theory or a conjecture but a medical fact, clearly confirmed in the laboratory and in medical practice. A patient with chronic bronchitis who continues to smoke is gravely damaging his chances of improvement.

Chronic Cough

Conversely, medical science has established that the cessation of smoking invariably brings a reversal of the damage, and a discernible improvement in the condition of the chronic bronchitis patient. No matter how much one has smoked in the past, or how advanced is the disease, some benefit can be gained by quitting. There is no such thing as "too late to stop."

The most common symptom of chronic bronchitis is a chronic cough.

MANEUVERING TO BLOCK
HOUSING COMPLAINTS

When the housing measure was before the legislature last spring, some members were fearful that unfounded claims might be made against property owners charging racial discrimination; unfounded claims would put property owners to expense defending the charges. This led to the provision requiring the posting of a five hundred dollar bond when a complaint is filed.

However, little thought was given to the possibility that a property owner might throw up a lot of dust against a claimant without defending its merits. And this is just what happened in Bettendorf last week when District Judge Haverkamp of Davenport issued an injunction to prevent the Iowa Civil Rights Commission from holding a public hearing on a complaint after preliminary efforts had failed to secure compliance by the property owner.

Of course, the property owners are within their rights to go to court and contest this or any law they wish to avoid. It is the orderly way to get at what the law means.

However, we question the position of the court in the light of the enforcement of civil rights laws in recent years. Up until a few years ago, the U. S. Supreme Court placed such strict construction on all laws designed to alleviate racial discrimination and segregation that they were practically nullified. The Iowa Supreme Court was not much better.

But in recent years, the pendulum has moved in the other direction. The courts are more liberal looking at the substance of what the laws attempts to accomplish.

This Davenport ruling emphasizes that the diarchards will use every trick to water down and or nullify the housing law. They are willing to spend money to get the job done by high powered lawyers. For this reason the Civil Rights Commissions must prepare to meet them with experienced lawyers who are interested in upholding the law as well as earning a fee or carrying out an assignment.

The Bystander hopes that this injunction will be ably contested for if the "interests" win this test, they will be troublesome to get along with.

VOTE TO MOVE

DES MOINES AHEAD

Des Moines goes to the polls September 28 to vote whether the present council-manager system of government shall be retained. The opponents seek a council-manager system with four members elected from wards and two at large with the mayor running for the definite post.

The Bystander supported the council-manager program from the beginning. It has worked well in many respects. However, it has developed weaknesses that should be corrected. And for this reason, we believe that changes are in order.

First, the council is not representative of all areas of the city and won't be as long as all members are elected at large.

Second, the city has lost population since 1960 while progressive cities in Iowa like Cedar Rapids have gained. This hurts.

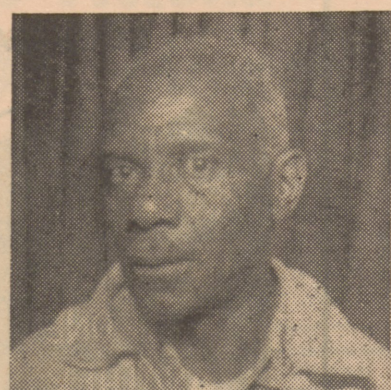

Third, the council elected at large is not responsive to get all sections equally as evidenced by the selection of successors to the council and important committees.

Fourth, less people vote each year because the same line of candidates run because of the financial loss involved in holding a poor paying job.

Fifth, since the elections are on a non-partisan basis, candidates run on their own and not a slate. It will be difficult to elect a Negro to the council. This is another instance where Des Moines is behind cities over the country even in border states.

We have had some able people on the council. We have some today. But we are convinced that we need a shake up, some new blood, some bold strokes which will get Des Moines moving ahead.

The Sports Today

With Allen Ashby

So now there is an idea that changing the city high school athletic contests to day games may eliminate some of the disorders that have been following the games. Of course, we can't see anything wrong with day games aside from the fact that they cut down on the gate receipts. We can recall when all the games, football and basketball were held in the afternoon. But after every East-North game as we recollect there were fights and beatings then and as the case now a lot of the trouble came from guys who had dropped out of school or who were past the school age. Most of them that we can remember were fellows in their early twenties along with a sprinkling of teenage dropouts.

Old Bag

So you see this problem didn't crop up just yesterday. It has been with us for a long time. In spite of the fact that it can make it easier to get around now, there was a lot of walking done back in our days. If you went to a city series football game at the Drake Stadium and walked home your safest play was to put your school colors in your pocket. Roving bands of both Negro and white boys would give you a going over if you happen to have the wrong colors.

Kept To Self

But then we didn't report many of our beatings to the police. We got ready for the next time and there would be a next time. In these days of switch blades and pistols it is probably smarter to go to the police or there may not be a next time.

Most larger cities have their athletic contests in the afternoon for a number of years. We once sat in a crowd of eighty five thousand to watch a Chicago high school football game. Oh yes, the people will attend afternoon football games. But we aren't sure about basketball.

Our local season got under way last week. The East-North game was a jim dandy, but we can't see either team going far in around the state competition.

Tech took a beating and is now going for the first win. Roosevelt proved itself the team to beat, and Iowa City High School doesn't have much or Hoover got off to a heck of a start for a new school. Could be the players aren't new as the game.

Baseball

And meanwhile back in baseball the pennant races heat up and each player has dollar signs in his eyes when he goes to bat. The Cardinals are in and we were sure the White Sox were out. But those boys can really bounce back.

Manny McGuire Hero
At East-North Game

In the traditional East-North clash Friday, the Scarlet put on a tremendous rush and beat the Polar Bears 14-0. Manny McGuire was the hero of the night, bringing in a touchdown pass from Billy Turner and a fourth quarter td.

TRHS

Roosevelt's Robert Williams, replacing hurt Beadle Stewart, romped thirteen yards in the first half, and teammate Brent Walker fought for two more touchdowns to bring the Roughriders their opening season win, 21-14 over the Valley Tigers Friday night.

Tech

Ronald Davis made the only mark for Tech Friday night, as the Ames Little Cyclones knocked the Engineers for a loop, 54-7 in Ames.

East Beats West In
Kiwanis Palsey Game

Ron Davis added to his touchdown list a valuable 6 points to help Tech and the East win this year's East-West Kiwanis Cerebral Palsy football game Monday afternoon, 19-13.

The fourth quarter pass came with Roosevelt tied with Tech, 13-13.

Charger Lineup Promises Exciting Season . . .

San Diego, Calif. — "This is the year for Paul Lowe to thunder," say the coaches of the San Diego Chargers. The all-time leading runner in the AFL has a seven year total of 4,909 yards, and last year overcame a poor start to rank number six in the league with 643 yards and a 4.4 average.

The halfback from Oregon state, and number one runner for the Chargers began his fantastic football career by returning the 1960 opening kickoff in Los Angeles, Calif. 105 yards.

But football isn't Lowe's only business, he runs a retail liquor business in the off season. Lowe, no. 23 all league man in 1961 and 1963, is 6-1 and weighs 205 pounds.

An Iowa State alumus, no. 40, Joe Beauchamp, defensive back was drafted no. 6 in 1966. He is 6-1, weighs 185 pounds. Frank Buncom, no. 55, will be a potent force in the charger defense. He was an all-Big Five and honorable mention All-America at USC, "Most Valuable Player" in 1961. He's 6-1, weighs 240, a linebacker. Tom Day, 6-2, 262 defensive end from North Carolina, is one of the AFL's consistently top players. When he played with Buffalo, he became the fourth line-back in their long-yardage defense.

Leslie Duncan (Speedy), 5-10, 175 from Jackson State, was number one in the league in kickoff returns for 1966, ranks no. 2 in punt returns and no. 3 in kickoff returns in AFL career totals.

Foster

No. 37, Gene Foster, 5-11, 220 from Arizona state was the second leading ground gainer for the Chargers in '66 and '65. Tight end, Willie Frazier, 5-4, 225 hustler from Arkansas M and N, came to the Chargers from Houston as compensation for the signing of big Ernie Ladd by the Oilers. In 1965 he set the league record for tight end with eight touchdown catches. He's no. 83.

Backing these Charger stars are no. 33 Kenny Graham, defensive back, 6-0, 195, Jim Griffin, defensive tackle, 6-3, 265 from Grambling, no. 77; no. 60, Ed Mitchell guard, 6-2, 285; Dave Plump, split end, 6-1 from Fresno State; No. 80, Houston Ridge, linebacker, 6-4, 245 of San Diego State; Jim Tolbert, defensive back, no. 43 6-3, 207 from Lincoln, who has been plagued by injuries; they call him the "Rabbit". Big Ernie Wright, 6-4, 265, offensive tackle, is an eight year starter. He is All-Big Ten and honorable mention All-America. He's no. 75. Nat Whitmer, Defensive back, 5-11, 180, from Washington. Whitmer hasn't had his chance yet, having played in only two games in 1966. He was a starter for the Los Angeles Rams before being injured.

Drake Opener Closed
By Louisville; 46-7

Drake University opened its season with a trouncing by Louisville's Cardinals of Kentucky, in a 46-7 smash-out.

Drake's only touchdown came in an interception twenty five yards out with one minute, 43 seconds left in the game.

Ben Mayes, 270, 6 feet, four inch giant from St. Petersburg, Fla., can be credited with halting the Cardinals from gaining more ground than they did from Drake. Mayes was in on most of the tackles.

Erv Williams, tail back from Chicago, Ill., said the reason for his short stay in Saturday's game was that the holes weren't there for him to get through whenever he had the ball. "There were a lot of injuries, too, and I made a lot of personal mistakes."

Drake plays North Texas State Saturday.

September revisited

Again to school. And no more day-long rambling across the moors, to Ovenhope or Haworth, apple and sandwiches in blazer pocket, hair up from forehead in a Pennine gale, brogues gripping hungrily the Roman road, the rutted landmark for two thousand years. Back to the school yard now and

to the bounce of basketball on stone flags, of the sharp whistle of gym teacher, to the thump of tennis ball on racquet, thud on lawn fresh-cut, sweet-smelling. To the leap of short, box-pleated uniforms, the tangle of shinguards and pink knees madly contesting for hockey ball in slippery, muddy field.

Back to the acrid chalk dust in the nostrils as teacher's felt pad wipes the blackboard clean of diagram and algebra equation; to iron filing gritty on a bench in laboratory, and the lingering odor of gas on rod of Bunsen burner—

To worlds unopened, still to be explored; still unimagined, wonderful, unknown!

Sayers Runback Did
Not Help Bears Win

Chicago, Ill. — The Chicago Bear's Gale Sayers raised Bear fans hopes Sunday with his 103 yard kickoff return, adding to his seven games of 100 yards or more rushing.

Sayers has, so far, set four NFL records, tied a fifth and established eight Bears' team marks. But even this could not keep the Pittsburgh Steelers from running over them, 41-13 at Pittsburgh.

The 198 pound Kansas running back took the ball two yards deep in the end zone. Sayers is called running back, instead of half back, to include so-called half backs and fullbacks in the same grouping.

Your professional beautician
knows the answer...

Why does some hair
break off when combing?

Your hair is precious and delicate . . . and none of us like to see it break off for any reason. Scientists tell us that excessive use of hot combs and over-processing of hair with chemicals often are major causes of brittleness resulting in hair breakage. But hair that is naturally curly and tangles easily frequently breaks off in everyday combing. Notice how irritated your scalp becomes when you comb in contrast to the way your beautician does?

Your professional beautician knows that curly hair mats and tangles so easily that it should be softened before combing. Otherwise, unnecessary irritation to the scalp and damage to the shaft and ends of the hair occurs. To achieve this needed softening and a temporary relaxing effect that prevents breakage on all human hair (including wigs), most beauticians rely on Clairol® Hair-So-New® spray-on creme rinse. For combing ease and for beautifying your hair in many other ways, trained beauticians stock a complete family of fine Clairol products for your specific needs.

Visit your expert hairdresser, who cares about your hair care and your comfort. Whatever the nature of your hair problems, only your professional beautician knows the answer for sure.
