Project Equality is an interdenominational effort sponsored by the Conference to harness the purchasing power of religious institutions, behind equal employment opportunities for minorities.

On the Housing Front Across The Country

New York, N.Y. — Open housing legislation developments in recent weeks, according to the National Committee Against Discrimination in Housing, include eight states.

Detroit, Mich., Charleston, W. Va., and Topeka, Kan., provided adoption of ordinances, as well as a number of suburban communities across the nation. In Milwaukee there has been scheduled an Apr. 2 referendum, and in Springfield, Ohio, the defeat of an open housing ordinance referendum.

A court order in Dayton, Ohio, has prohibited implementation of that city's fair housing ordinance and a referendum test of both the ordinance and a city charter amendment barring adoption of similar ordinances in the future. Another referendum will test the Maryland open housing law, although the ruling made in a circuit court will be appealed by the state.

Inquiry into R.I. Officials' Silence

Davenport, Ia. — The Black Power Youth Council of the Davenport Branch NAACP has sent an inquiry about the silence of three Rock Island officials.

The Council sent their correspondence to John Haslach, Representative Army Material Command, Arthur W. Allen, Jr., Equal Employment Opportunity Officer, Department of the Army Adg., Albert Kransdorf, Director of Employment Policy and Grievance Review Staff and addressed the office of Colonel H. A. Snyder, Rock Island Arsenal.

Position

The letter demanded to know the reason for their silence to a proposal for peaceful, non-violent demonstrations; and asked for a "comprehensive description" of both Ray Reese, Equal Opportunity Officer, and member of the Human Relations Committee of Davenport, and from John Buckner on their positions with the installation, and for documented reports of the all of the specific cases in which Mr. Buckner and Reese were instrumental, in obtaining housing, hiring and upgrading minority employees during the past year.

Reese, while an officer, voted against the Davenport Housing Ordinance not long ago.

Earlier the Youth Council called for Reese's transfer to another position.

"Under certain criteria laid down by the FHA, the handicapped, those living in deteriorated housing, the elderly and those displaced by the freeway and urban renewal will have priority."

To Decide

Father Donovan said that in choosing tenants, the Area Council would decide from the list of applicants received who would be eligible, again, under the terms of the FHA. He said they would ask the Urban Renewal Board for help in locating persons for the project.

"Efficiencies, one, two and three bedroom apartments are not furnished, with the exception of a stove and refrigerator," he stated. 20 of the apartments are efficiencies, 50 one bedroom, 110 two bedroom and 120 three bedroom apartments are scheduled to be built.

Rejection

The project was initiated last year, Father Donovan said, after the public housing plan was rejected for the second time. If, as Monday night Jens Grothe, only returning councilman to the new ward form of government pointed out, another bidder submits a proposal to the Council for the proposed 16 tracts of land and wins it, the housing unit will be constructed elsewhere.

Members of the Des Moines Housing Committee are Ralph Norris, president of the Council; Dr. James Lenhart, past president; William T. Johnson; Father Donovan; Mrs. Gladys Hurt; Rev. Henderson S. Davis pastor of St. Paul's A.M.E. Church; Paul Grodt; and Reinhart Carlson

Rev. Roger Harless, executive secretary of the Presbyterian Inter-Racial Council, national headquarters in St. Louis, Mo., will speak here Wednesday, Jan. 17, at the Cottage Grove Presbyterian Church, 24th and Cottage Grove, at 8 p.m.

Rev. Harless, a graduate of Franklin and Marshall College in Lancaster, Pa., and of McCormick Theological Seminary of Chicago, was ordained as a Presbyterian minister in 1963.

Busing

The Presbyterian Inter-Racial Council, a national organization, is a backer of non-discrimination in housing, has released statements against de facto segregation in the schools, and supports busing of students to better their education. It also advocates the elimination of some schools in Des Moines, and build better, more progressive ones in their places.

President of the Des Moines chapter is Glenn Buhr.

Mayoral Elections May Lead to Summer Violence

St. Louis, Mo.—The recent mayoral elections in Cleveland, Gary, and Boston may in the long run bring more racial turmoil, three social scientists say in the January-February issue of TRANS-ACTION magazine, published by Washington University.

The campaign and vote that elected Carl B. Stokes as the first Negro mayor of Cleveland are analyzed by Jeffrey K. Hadden and Victor Thiesen, sociologists, and Louis H. Masotti, a political scientist, all of Case Western Reserve University, Cleveland. They also discuss the election of Richard D. Hatcher, another Negro, in Gary, Ind., and the defeat of Mrs. Louise D. Hicks, a white "backlash" candidate, in Boston.

Accelerated

"The elections have only accelerated the pace of ever-rising expectations among Negroes," they conclude. "If results don't follow, and rather rapidly, the Negro community's frustrations with the American political system will almost certainly heighten."

Their analysis of the white and Negro vote in Cleveland's wards shows that 90 percent of the Democrats who voted in the primary crossed party lines rather than vote for Stokes, a Democrat, in the November 7 election five weeks later. Racial bigotry combined with a strong campaign by Seth Taft, the Republican candidate, explain the

switch, the authors maintain.

Not Decisive

The authors also show that although Stokes' inroad into the white vote was not decisive in the primary, he did increase his white vote over what he had received the first time he ran for mayor in 1965, just enough to win the general election. "Stokes won by holding his black bloc, and increasing his white vote from 15 percent in the primary to almost 20 percent in the general. An enormous amount of the white vote was, whether covert or overt, anti-Negro," they write.

Not Pacify

The three elections will not pacify militant Negroes unless the new Negro mayors can meet their demands while increasing white support, and produce results in the face of the cities' overwhelming problems, the social scientists say. "Another clear implication of these elections is that white resistance to change remains large and widespread," they state. "Stokes and Hatcher won because black-voter power coalesced with a relatively small minority of liberal whites."

Failure

"It was not a victory of acceptance or even tolerance of Negroes, but a numerical failure of the powers of discrimination, a failure that resulted in large part because of the massive exodus of whites from the central city."

drawal of their racial designations."

Limited

The workers based their charges on grounds that the practices being attacked are unlawful under Title VII of the Civil Rights Act of 1964. Local 192, LDF attorneys assert, "has failed in its duty to fairly represent plaintiffs" and other Negroes and has "joined in the maintenance of a policy, practice, custom or usage of limiting these persons to lower-paying and less desirable jobs."

However, in another cigarette discrimination case, LDF was victorious.

Richmond — The U.S. District Court ruling against job practices of Phillip Morris and Local 203, Tobacco Workers International, AFL-CIO, here this week was called "sweeping and comprehensive" by the NAACP Legal Defense and Educational Fund, Inc.

"Negro workers may now transfer to higher paying jobs, previously reserved for whites, without losing years of seniority," said LDF Director-Counsel Jack Greenberg.

LDF attorneys charged in their complaint that Douglas H. Quarles, a laborer in the Pre-Fabrication Department of the B&L plant in Richmond, in a class action, sought to have Phillip Morris and those acting in concert enjoined from maintaining a policy of limiting its Negro employees to the lower paying jobs in

the Pre-Fabrication Department. Quarles also charged Phillip Morris with denying Negroes an opportunity to have an effective transfer to the Fabrication and Warehouse, Shipping and Receiving Departments where higher wage rates are generally paid.

and continued business. Johnnie Estes, jr., president of the Des Moines branch NAACP, said that the NAACP supported the project, but charged the City Council on one thing: not to weigh a man's dimensions by his value, because if they did, then they were defeating the whole cause of man's society.

Costs

Also on the agenda was approving payment of award and costs of condemnation as certified by Sheriff of Polk County in connection with condemnation of Rosenting and Mary Hardaway, 10-2-4-6 Center street, \$25,000; and Mrs. Pauline Humphrey, 1407 Center, \$27,950.

After more than a year since his application, Walt Williams was finally certified by the City Council to be a Des Moines fireman. Williams last year had filed a complaint with the Iowa Civil Rights Commission that he had been discriminated against in selection by the Civil Service Commission. It had been hoped (during the case) by various rights officials that Williams would not lose interest in retaining his ambition of being a fireman in the drawn-out affair.

Cites Progress In Ending Military Housing Discrimination In U.S.

Washington, D.C. — The Department of Defense Dec. 31 issued a year-end report on progress made in eliminating housing discrimination against military families in 1,096,200 units near military bases surveyed between May and July.

Gain

At the time of the housing census, 646,700 units were available for lease or rental on an equal opportunity basis. Latest figures show that 802,200 such units now are available to military people, without regard to race — a gain of 155,500. The year-end analysis shows that whereas only 59 per cent of the surveyed units were open at the time of the census, this figure has been increased by 23.7 per cent to 73 per cent.

87 Per Cent

In California, the state with the

largest military population, there has been a gain in open units from 206,100 (71 per cent) to 253,800 (87 per cent). Actual listings have increased from 37,300 (.13 per cent) to 147,500 (.51 per cent).

Iowa

In the Washington Metropolitan area, the military housing referral offices processed 11,362 applicants, including 1,160 Negro servicemen, between July and December 20. Of the Negroes, 633 wanted apartments or trailer courts. Of this number, at least 287 were located in facilities which were segregated before the Department of Defense off-base open housing effort began.

Iowa's open housing law was a major influence. Of a total percentage of .2 per cent living off base, .04 were Negro.

Your Tax Questions

Q — Can I forget about the 4th installment of my estimated tax if I file my 1967 return early?

A — If you file your 1967 return and pay the balance due by January 31, there will be no penalty for not paying the 4th installment. If you do file early, don't forget your estimated tax declaration for 1968. The deadline for filing this declaration and paying the first installment of any tax due is April 15, 1968.

Q — I got a Form 1040A in the mail. Does that mean I can't use the long Form 1040?

A — You should file the form that best meets your tax situation and the requirements of the law. You received Form 1040A in the mail because that was the form you filed last year.

Q — When can I expect to get my W-2 statement?

A — The law requires employers to distribute W-2 withholding statements to employees by Jan. 31.

When you receive your W-2, be sure to attach it to your return when you file. Failure to do so delayed refunds on over 200,000 returns last year.

Q — When is the next payment due on my maid's Social Security?

A — The next quarterly report is due Jan. 31.

Also due by January 31 is a statement to your maid covering the total amount of wages paid and Social Security taxes withheld during 1967.

This report may be made in any form suitable for the employee to keep. It should show the employer's name and address, the employee's address and Social Security number, the total amount of wages paid, and the total amount of employee Social Security tax deducted.

For your convenience, IRS has prepared Form SS-14, that can be used to provide this information to household employees. Copies may be obtained by sending a post card to your district director.

Q — Can you take a deduction for clothing or furniture given to charity?

A — If you made the donation to a qualified charitable organization, you may deduct its fair market value as a charitable contribution on your return. In order to do this you must itemize all your deductions rather than take one of the standard deductions.

Q — The label on the tax return I received in the mail is wrong. What should I do?

A — Draw a line through the in-

correct part and put in the proper information. Return the corrected label with your return when you file so that your return will be properly identified and the needed correction can be made on your tax account.

Q — Are scholarships considered income for tax purposes?

A — Amounts received as scholarships may usually be excluded for tax purposes. There are certain limitations, however, which are described in Document No. 5575, "Scholarships and Fellowships". Send a post card to your district director for a free copy.

Your professional beautician knows the answer...

Can your hair be damaged from brushing, alone?

All hair becomes damaged from exposure to sun and natural elements. Certain greasy compounds and many chemicals, improperly used, also take their toll... not to mention simple attempts at beautifying the hair with any brush not made of natural bristles. The results are brittleness, breakage, dry and dull looking hair.

Your professional beautician knows how artificial bristles actually brush away a great deal of the "lubricants" of the hair that give it body, lustre and protection. And trained beauticians claim that nothing beats Clairol® condition® Beauty Pack Treatment for overcoming brittleness, dryness and breakage... leaving hair lively and easy to manage. condition® is an easy-to-work-with creme which can even be applied during a chemical straightening retouch to prevent drying of hair that has been previously relaxed. condition® is the ultimate in repairing deep-drawn damage. And, when time is a factor for their customers, hairdressers turn to new Clairol® Hair Dew® — the lotion conditioner that penetrates so fast many think of it as an instant conditioner. When applied regularly by your beautician, Clairol Hair Dew adds body, softens and gives a glowing new look to your hair that many friends will notice and admire.

Damage can come from using brushes with artificial bristles. But damage to every woman's hair comes from so many other causes that all human hair (including wigs) needs to be revitalized periodically. Visit your professional beautician and ask this expert to check the condition of your hair.

Only your professional beautician knows the answer for sure.

Al Waples is a former dj of KATZ soul station in St. Louis, now with KIOA. Tis possible that things are looking up: he auditioned one day and they hired him the next!

HEALTH FOR ALL

Tar and feathers. A grisly, old combo. Nobody gets that treatment these days. Today there's another grim twosome. Tar and nicotine.

Cigarette smoking is the modern punishment self-imposed. The body takes a beating. What causes the strain on the system is not clear. Hot smoke itself, Tar and nicotine? Nobody knows for sure. But smoking plays havoc with the lungs, the heart, and the set-up for survival.

The Surgeon General says smokers should stop. Lots have tried. Some have succeeded. Quitting, for others, seems out of the question. And, unfortunately, many anti-smoking clinics attract the type of troubled smoker who is least likely to quit. A surprising number of smokers, a recent study shows, use cigarettes to avoid feeling down in the dumps. Many smoke to relax. Or to feel alert. Some smoke from compulsion. Breaking these patterns is not easy.

Psychological

Why are certain people more dependent on cigarettes than others?

Experts at the First World Conference of Smoking and Health, held last September, were undecided about the reasons why. Some of the factors are certainly psychological. But many Conference experts stated their suspicion that nicotine may be a factor in inducing dependency.

Flu Bug Is Around;

How Not To Get It

With the increasing number of influenza cases occurring in Des Moines, Polk County, Dr. Julius S. Conner, city-county health department, urges all persons to take special precautions to help prevent the spread of this illness in the home and the community.

"Unfortunately, vaccine developed to ward off influenza does not work against other viruses," Dr. Conner said.

To give protection against influenza, the vaccine has to be administered at least a month before you come in contact with the flu to allow immunity to build up.

Here are some basic precautions which will help prevent the spread of this illness:

What to do

1. Ill persons should avoid close contact with others to help prevent spreading the disease.
2. Persons coughing or sneezing should make sure they keep their nose and mouth covered when doing so.
3. Hands should be washed often.
4. Well persons should avoid getting overtired or chilled and lowering their resistance.
5. The private physician or clinic should be consulted for advice over and above the use of aspirin and bedrest.

GENTRY APPOINTMENT
WELL DESERVED

Gov. Hughes has appointed Nolden Gentry, Des Moines attorney, a member of the State Board of Education (not to be confused with the Board of Regents.)

During the past year more attention has been given to ways and means of improving the lot of Negroes so as to ease tensions. Gov. Hughes has busied himself finding out more about the problem and doing something about it.

He, along with right thinking people, realize that integration and participation in all fields go a long way toward affording Negroes an equal place in American life.

Gentry has a good background, holding degrees from Iowa University, was a basketball stand-out, a former FBI agent, assistant attorney general and now in the active practice of law.

Both the governor and Mr. Gentry are to be congratulated. We hope this appointment presages others in the future.

THE WAR IN VIET
NAM GETS WORSE

To date, America has lost over one thousand planes in the Viet Nam war. This is alarming in view of the manner in which we became involved in the conflict.

We started out as advisors and technicians in the South Viet Namese army, apparently unaware that the North Viets could put up such a formidable defense as to destroy planes every day and kill and maim so many of our soldiers. And while the South Viet army is in the field, Americans are carrying the war to the enemy.

Apparently either Russia or China is providing the North Viets with modern weapons that make a good showing against what we are using.

All of this prolongs the long war, particularly in view of the fact that this amounts to a civil war in Vietnam.

CIVIL RIGHTS CANNOT
AFFORD INFIGHTING

The cause of civil rights and equal opportunity requires a great deal of fight to counteract prejudice and ignorance and therefore those engaged in it Commission on Human Rights, among themselves.

Last week, John Estes, Jr., president of the Des Moines Branch NAACP, lashed out against the State Civil Rights Commission and the Des Moines Commission on Human Rights accusing each of dragging their feet and/or mishandling some of the complaints of racial discrimination filed with them.

This, of course, is unfortunate and plays into the hands of some who wish to see the forces of goodwill fighting among themselves.

The Bystander has criticized the handling of some cases at times, and we are aware that under the civil rights laws, as they stand, the procedure provides for such drawn out cumbersome methods of handling a case that some die of their own weight.

But we cannot afford disagreement between these groups. They should and must get together and iron out their differences so that their energies may be directed at our enemies and not each other.

Several years ago, Dr. Edwin Byron Reuter, who headed the Department of Sociology at Iowa University, told a Des Moines audience that 90 percent of race prejudice is due to color. If this be true, those people who advocate that Negro pride is enhanced by allowing the hair and face to grow as black people do in Africa, intensifies racial conflicts.

We are inclined to take this as a fad which will wane and wear off as "black power" is doing.

RIGHTS COMMISSIONS
PRETTY WELL AGREE

Both the State Civil Rights Commission and the Des Moines Commission on Human Rights have reported that there is widespread discrimination in Iowa in housing, employment and education.

Certainly, they are in a position to know, for their job is to find out what goes on.

This does not mean that vast improvements have not come about but there remains much to be done in each field.

These commissions have their value; they STAND READY TO SERVE THOSE WHO have been denied their rights and victims should not hesitate to contact them.

With Allen Ashby

We missed last week with this stuff because we had to dash out west to see our older brother. The guy was really one of the great football players of his day, brother or no.

After we exchanged greetings, the talk got around to—you guessed it—football. How many of the fellows he played with could play today? He named a few linemen who were big and strong and fairly fast. The backs: could Curt Morton have made it? (Well, he was awfully fast and big enough. He probably could.)

Charley Howard? Not near enough. Big, fast, but just wasn't a mean bad guy in a football suit. Two of the best of a later era were dismissed as just being too small. The two best prospects he knew of were Jimmy Clark who could do it all and big Chuck McTeamy who could run through a board fence.

Now what about you? the guy said he thought he might have made it as a kick off or punt return man. He was too short to pass or punt, although he was good at both. Then he pointed out that he was deadly accurate as a place kicker from inside fifty yards. The longest he recalled was a fifty-five yarder that beat Central College. He thinks it was 1922.

Of all the linemen he knew, he thought most of them would have been too small. Maybe the late Leonard Anderson could have played today.

James Allen: maybe, but our old Bulldog line had probably those fellows who might have played.

Then we took up basketball and quickly decided that our biggest team, averaging about six feet, would even be able to get the ball in today's best competition.

But it was good to see the grizzled old vet again and we parted with both of us feeling better for having seen each other.

Now we don't have to ask if anyone saw the games New Year's day.

We might ask if there is anyone who didn't see them. But the big thing about these college post-season All-star games is the number of Negroes from Negro colleges who are

Don Smith: He's Won All
There Is to Win in B'Ball

Ames, Ia. — Greatest is a much abused word in the sports world but there can be no argument when it is applied to Iowa State's Don Smith.

Smith has been all-conference twice, voted the top Big Eight soph, named twice to the Region V All-American squad, named by the Helm's Foundation on its 1967 All-America team and on the second or third All-America team of all the other selectors.

Led

In his second game as a senior he took over the career lead in rebounds, running his total to 684 with 23 games to play. Long before the middle of the season he ought to have all of the career marks.

Better

Defensively, according to coaches, Smith is better this year.

Don "Kangaroo" Smith, is the son of Mrs. Jaunita Smith of Brooklyn,

playing, and looking good. There was a Negro quarterback from Florida A and M. The guy was a good passer, and could throw the football into the next country. There was a hard running fellow fullback from Grambling, and a couple of six-foot-five, two hundred and seventy pound linemen. One from Tennessee A and I and one from Texas Southern.

There were a lot more. We just can't recall now, but they all didn't come from the big schools up North, but they looked as good as did any of the fellows from the big name schools.

Don't give up hope. We will soon be into nothing but basketball.

Uphold Expulsion
Of Grambling Youths

Shreveport, La. (Special) — The expulsion of 18 Grambling students who disrupted the operation of the college and exceeded the constitutional rights of peaceful protest was upheld by U.S. District Judge Ben C. Dawkins here last Wednesday in Federal court.

Judge Dawkins also granted the requests of eight other students for a restraining order which allowed them to return to school.

Restraining

The 26 plaintiffs in the case were requesting a restraining order for immediate reinstatement.

They were expelled initially in late October for their part in demonstrations which resulted in students blocking all doors of the administration building and completely disrupting the school's operation.

Units of the Louisiana National Guard were mobilized and moved to Grambling to provide protection for life and property during the heights of the demonstrations.

Wrongs

During day-long hearing Tuesday, witnesses for the defense testified and cited numerous wrongful acts of the plaintiffs.

The 26 students and their attorneys claimed that their expulsion had caused injury to their education, draft status and right to free expres-

sion. Initially, their protest allegedly was against over emphasis on athletics and a lack of academic excellence.

Smith, graduated from John Jay high in 1964 with four letters, three in basketball, one in baseball. In 1967, 6-8, 225 pound senior, scored a high 1,068 points for the total season, twice as high as the second contender, John McGonigle. Not only that, but he led the scoring in conference games and in the conference season.

First Win

Not to be ignored is Bill Cain, an all county, all-tournament, all-league performer from White Plains, N.Y., whose top thrill was winning the State Section I AA and A basketball championship and making the all-tournament team.

The Cyclones, even with the duo, were on a four game losing streak until last Friday night they beat Nebraska 85-70 in a Big Eight Conference win. Smith was good for 39 points, Cain with 4.

Monday, they lost to Kansas, 68-

47.

Ah Winter comes, Alas

Ah—but winter has come alas, with dark cold rain, snow and sleet. When all things crawl deep into retreat.

To seek shelter in the warmth of night and escape winter's bitter bite

Ah—but winter to be more than this, there's a beauty one shouldn't miss.

Chiefs Set Nine Team
Records For Year

Kansas City, Mo. — The Kansas City Chiefs didn't repeat as American Football League Champions in 1967. However, they did have a winning season with a 9 and 5 record, finishing second to Oakland in the Western Division.

Chiefs players set nine team records in 1967. Second year man Mike Garrett and rookie Noland Smith topped the record department. Each established three new standards. Garrett's most notable was his season rushing total of 1,087 yards, third best in the league. His other records were: most yards gained in a game (192), a league high, and most carries in a season (236).

Smith

Smith set a team and league record for the longest kickoff return (106 yards) and also established team records for the most kickoff returns (41) and the most yards on kickoff returns (1148). The latter was also the top yardage figure in the league.

To the Editor:

Ice shining on the barren tree, clinging with a life like glow
It's Clear, deep clean white snow;
A fireplace in the quiet of cozy room, and the love of another's arms
Joys of the seasons the winter brings
The strength of the bell that chimes, it's God who be another form
For with knowledge of his blessing one's always warm;
Ah—but winter has come alas, so many things have come and pass
Bridges built early spring stand firm and the frozen river that use to sing.
Togetherness of all things seem to

1967 has been a frustrating year to many of us who have tried to make some sense out of our life. I have found that my knowledge has only made it harder for me to accept my second class placement. I don't know whether to give up or fight to the death.

I have looked many places to find the "Equal Opportunity" that does

be in the air, so all be pure, when the crisp winds of winter blow; One has a special kind of glow, that this to be the hand of God.

not exist. Have you ever really compared yourself to the world around you? I find little if no comparison. But just imagine 22 million and still find no relationship. Just what am I in this vast land? Where is my mind that it can't rationalize my or any blackman's existence anywhere?

There's no place to hide and no place to go, for we have a label and there is no escape except in death. Must we continue this lie of living or will we face the truth, if there is a truth to living? There is no tomorrow or even yesterday. For I am invisible. But so is the wind.
