

BROTHERHOOD WEEK

Jackie Robinson, 1968 NCC Brotherhod Chairman

Children have to be taught hate, but they can be also taught understanding.

President Johnson's 1968 Message

During the past year our nation has been rocked by a series of riots and racial violence such as we have never before experienced. There can be no justification for such breakdowns in law and order and wanton killing and looting. The law of the land must at all times prevail—and be respected and obeyed—or the causes of freedom, equality, and national unity are lost.

Yet the causes of freedom, equality, and national unity might equally well be lost if the evils of poverty, apathy, ignorance and bigotry were allowed to prevail.

One hundred and ninety-one years ago our Declaration of Independence enunciated the principle that all men were created equal, and that they were endowed by their Creator with certain inalienable rights. These rights were later explicitly

guaranteed in our Constitution and Bill of Rights. We must live up to that guarantee and make these rights a reality for every American citizen.

I call upon all Americans to join the National Conference of Christians and Jews in the observance of Brotherhood Week, 1968, and in the support of its intensive year-round educational program in behalf of national unity. If unity is ever to be achieved, education for better human relations must continue not only during Brotherhood Week, but throughout the year in our schools and colleges, in our churches and synagogues, in our police academies and in our community forums.

Let us move swiftly and surely in the months ahead to insure that all Americans, in truth, are treated equally as partners in our National life, and as brothers in the human family.

The National Conference of Christians and Jews and Brotherhood Week

When thoughtful and concerned Americans formed the NCCJ in 1928, America was in the midst of a wave of anti-Catholicism which erupted in the campaign of Alfred E. Smith for the Presidency. Since then, the NCCJ has carried on a continuing educational program to combat bigotry, strengthen national unity and build interreligious and interracial understanding.

Protestants, Catholics, Orthodox and Jews banded together harmoniously in the NCCJ have blunted the force of anti-Catholicism and anti-Semitism in the last forty years. Interreligious harmony is becoming a reality. Thus, NCCJ's successful programs involving youth, teachers, clergy, police and civic and business leaders have proven the value of its educational approach to root out the prejudices that divide Americans.

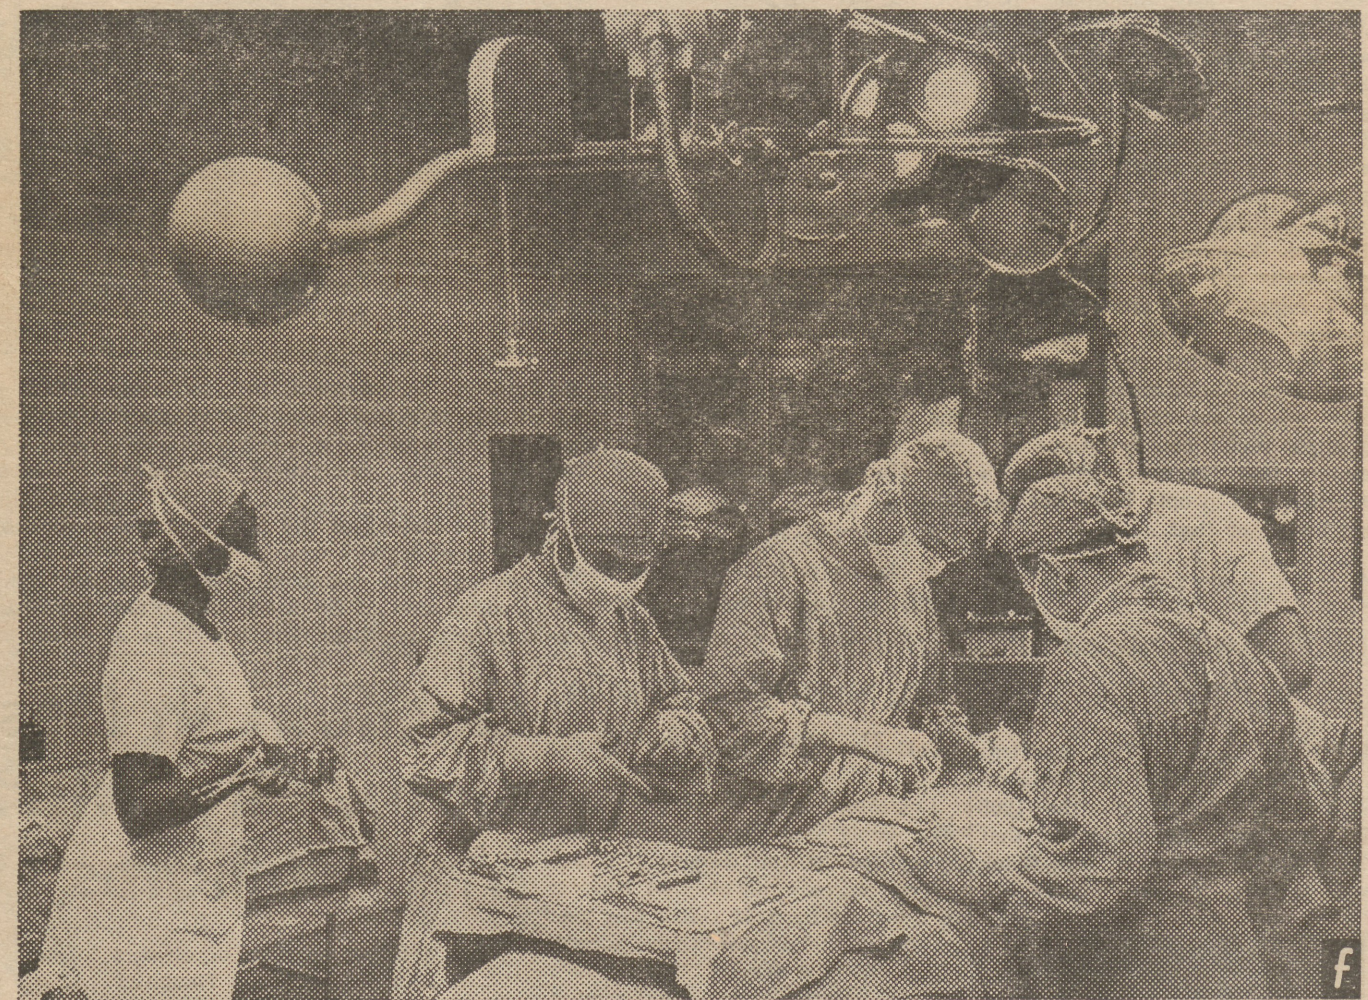

However, at this fortieth anniversary, we must do more than salute the past. We must face the challenge of the future. The central

fact of the contemporary scene is civic disruption as citizens rightly demand equal opportunity for all. This is not a Negro problem. This is not a white problem. This is a human relations problem. But it cannot be solved by riots and looting, an un-American and unacceptable form of protest! Catholics, Protestants and Jews must bring to bear with even greater vigor all of the educational methods available—teaching, dialogue, person-to-person communication and reasoned confrontation—to make America truly "one nation under God, indivisible, with liberty and justice for all."

The challenge to NCCJ in the future lies in assisting every American, regardless of creed or color, to secure through peaceful social change, equal opportunity—in employment, in education, in housing and in public accommodation.

I call upon all Americans to join in the observance of Brotherhood Week, a time for rededication to the values of the Judeo-Christian tradition.

Working together throughout the year, let us through education and persuasion provide for others the rights and dignities we desire for ourselves.

Equal opportunity in all phases of American life.

The Meaning of Brotherhood Week

Is there equal opportunity for all in your community?

- ★ **Housing** Is equal opportunity for adequate housing available to all groups?
- ★ **Education** Is there a school-wide policy which implements and supports continual improvement of intergroup relations in school and community?
- ★ **Religion** Is full opportunity for religious expression accorded to every individual on the basis of the dictates of his own conscience?
- ★ **Employment** Do people of all races, religions and nationality backgrounds have full opportunity for jobs on the and facilities?
- ★ **Public Accommodations** Are there fair and equal practices for all groups in your community's public transportation system, hotels, restaurants, theatres, cultural activities, etc?

- ★ **Community Organizations** What standards of exclusion are reflected in the membership practices of organizations in your community? basis of merit only?
- ★ **Health & Hospital Facilities** Are the best in health and hospital services available to any person living in the community?
- ★ **Recreation** Is full opportunity provided for all groups in your community's recreational and leisure-time program

All Can Join In Brotherhood Week

Brotherhood is a togetherness, a common interest with your fellow man. Children without prejudice accept this God-given concept. But too soon they are unwisely taught to discriminate. The National Conference of Christians and Jews has for the past forty years sought to counter this ignorance and prejudice through reason and appeal. It was therefore a great honor for me to accept the role as Chairman of the National Brotherhood campaign in 1968 and to be part of this effort to educate the public.

I am proud of our American heritage. And I see promise in its future. Because I have witnessed brotherhood in every phase of American life—in school, in sports, in business, I wish to share this feeling with others. Sadly enough, only a few know its rewards—this feeling of comradeship, helping your neighbor—no matter what religion, race or color. We must extend these rewards to all Americans.

Delta Pastor Here

"I came home from Mississippi and my work for civil rights with the Delta Ministry with an emotional instead of intellectual one," the Rev. Ned Gillum told NAACP members Tuesday evening.

The Delta ministry is sponsored by the National Council of Churches and supported by the World Council of Churches. The Rev. Mr. Gillum is minister of Fairfield First Christian Church and spent 28 days in McComb, Miss., aiding in rights work.

The minister lived with a Negro family in Algiers, a poor section of town where there were no sewers, paving or city services. "It was disturbing to sit on the porch and hear the white radio broadcast statements about freedom." A question period followed. The Christian Action and Community Service Committee of First Christian Church, with Mrs. Lena Blackwell chairman, were hostesses.

A son was born Feb. 10 to Mr. and Mrs. Mannie Holmes, 130 Newell. Span of life of Baby Mack Len Holmes was less than 6 hours. Committal services were Feb. 14 at Fairview Cemetery, with Johnson Funeral Home in charge.

Mrs. Ozella Nolan, 610 Glenwood is now home from hospital. She expects to celebrate her 90th birthday on Feb. 17. There are several birthdays this month. Next week we will tell of them.

HEALTH FOR ALL

How to help people help themselves can be a sticky problem. But finding the answer at least in one instance can be worth a quarter of a billion dollars or a major part thereof.

That's the sum now being spent on hospitalization of patients with active tuberculosis, Dr. Thomas Moulding, a leading specialist in the field, recently noted in *Medical Tribune*. Many such patients are still confined to hospitals for six to twelve months, although modern methods

have largely removed the need for bed rest and isolation, and in most cases reduced the need for hospitalization.

Months or Years

Years ago TB patients could look forward to months or years in the hospitals, but today many authorities believe that most patients need only a short period of hospitalization when treatment is started.

Anti-tuberculosis drugs, taken regularly, can render the patient non-infectious and put him on his feet in a short time. Continued drug treatment may be needed for as long as two, years, but this can be done through an outpatient clinic.

Then what's the problem? "Unfortunately," Dr. Moulding points out, "a large number of patients take their medication irregularly or discontinue it when it is given on an outpatient basis." The patient who doesn't feel very sick, or who has had a mild case to begin with, is tempted to neglect pill-taking and clinic visits.

48,000

Doctors, health departments and clinic administrators have tried many stratagems to cope with this problem. In any case, today's TB treatment is enormously simplified compared to a few decades ago. About 48,000 Americans still get the disease each year. Early detection and treatment increase the chance of good recovery. Your Christmas Seal Association suggests a tuberculin test or a chest X-ray as part of your regular medical checkup.

BROTHERHOOD WEEK
HELPS RIGHTS MOVEMENT

Following World War I and leading up to the elections in 1928, the rise of the Ku Klux Klan in America was alarming. Much of it was directed at Jews and Catholics in addition to the already antipathy toward Negroes.

This brought together the Klan opposition and they were joined by liberal Protestants all of whom felt that such a division among American citizens was harmful to the country.

The council of churches sponsored a committee of race relations which did much to rally the force of decency. It was headed by Dr. George E. Haynes. Much of their work was done on college campuses and among religious bodies throughout the country.

In the meantime, the National Conference of Christians and Jews came into existence, which engulfed many working the field of race relations. Its emphasis has been exhibited during Brotherhood week (February 18-25 this year) and the whole of February brotherhood month.

The work of these two organizations coupled with the aggressive work of the NAACP, was the moving force in the upsurge of the civil rights movement. A tremendous change has taken place throughout the country, reaching its apex in better attitudes when the civil rights rally was held in Washington and addressed by Dr. Martin Luther King.

Since that time, there has been a gradual upsurge of rioting, looting and burning by Negroes in some cities to the extent we have never had in this country. Such organizations as labor unions and farm organizations have been equally guilty of violence, but usually their demands are met before the strikes get out of hand.

The Brotherhood movement is directed toward helping citizens understand the constitution and the laws of the land are passed for the benefit of all people; that such laws should be respected and obeyed; that a spirit of good will should prevail, otherwise the very foundation of the country is in jeopardy.

SCHOOL DISTRICT SPENDS
TAX MONEY TO AID
HATE MONGERS

Last Sunday night radio station KSDP carried a one half hour program "in behalf" of former Governor Wallace of Alabama who has announced his candidacy for president on a third party ticket.

The program consisted of excerpts from speeches made by Wallace throughout the country in which he generally wound up by innuendo at least, criticizing and berating the Negro and the liberal forces who have helped to pull the race to its far advanced stage.

The program was broadcast under the guise of letting the people speak but in fact amounted to a campaign to help white people hate Negroes just as Congress and some others have howled about groups formed to teach Negroes to hate white people.

The program duplicates the old Chautauqua Circuit of years gone by which brought such men as Senators Tillman, Vandeman et al through the North telling the South's side of the race question, harm done which still lingers in many places today.

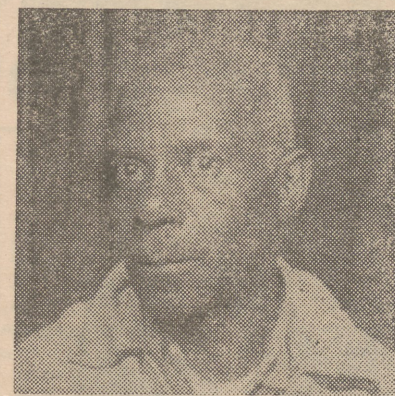

The station is supported by taxpayers money. Certainly there are many people who don't want their money spent for such rotten propaganda disguised in the cloak of education. We protest this "education" furiously.

Wilkie House News

Wilkie House, Inc., is planning in co-operation with the Extension Services a sewing class to begin on Monday, Feb. 19, 1-3 p.m. The program will continue for eight weeks.

The first meeting will have registration, and theme is "Plan Your Project". Guest speaker is Miss Lucille Ray, who has recently come to Ames, Ia. from New York. Miss Ray, a fabric specialist, will discuss new fabrics. Registration fee is \$2.00.

With Allen Ashby
Ashby Honors Toby
Huston of the Riders

Some guy asked us when we were going to forget football and realize that there is a basketball season on. Well, we guess, maybe the fellow was right. With a little luck and a few breaks, Drake and Iowa U. could make history by winning the titles in their respective leagues. That has never been done before. Houston, on the strength of the win over U.C.L.A. rates as number one team in the nation. But there is the matter of the Houston schedule. Sure, they beat Uclans, but that would have to rate as the only game on the schedule worthy of the team play. And even they, the west coast guys with their big guy half blind and shooting only thirty percent, nearly pulled the game out. We shall watch with interest to see if the two meet again in the N.C.A.A. meet. If they both live up to advance billings, they should meet in the semi finals.

Drake

But here at home a Drake team that won't quit has just about everything talking about how they hustle. Fellows who know say the Bulldogs have had better teams, but none that hustle and fought like this gang does. When one thinks of the high scorers Drake has had in the past on mediocre teams, one wonders what this team would have done with fellows like Willie Cerf and Red Murrell. They may not win the Valley, but nobody need be ashamed of this Drake team. And they should get a tournament bid from somebody.

The University of Iowa team finds itself on a par with Drake in the Big Ten Race. The Hawkeyes need a couple of breaks and they could win the thing. They seem to have found the scoring help for Sam Williams so opponents can't concentrate on the one man. So their opponents may be in for rough sailing from here on in.

Huston

And here in our high schools people are saying that if Toby Huston played on East High's team instead of Roosevelt, the Lee Township boys would be undefeated. The big fellow has to be the most improved player of the season from last year. He isn't clumsy any more, handles himself like a veteran in the post, and along with getting a fantastic number of points, manages to block a whole flock of shots. If he never scored a point, Toby would be valuable to his team because of his defense and rebounding. But he isn't playing with East and so Roosevelt is the number one high school team in the state. They could go all the way if they can withstand the pressure of getting behind for the first time when it happens, and it will happen. Maybe they should lose a game before the tournament time to ease the pressure. Otherwise, a bunch of guys named Joe may knock the Riders in one of the meets. East doesn't have a bad team, and neither does North, but they're playing tough teams who won't let them get started. And we never thought we'd see the day when Tech would lose all their basketball games, swimming meets and dual wrestling meets. Maybe the fellows who could play don't go out for athletics at the school. In just about every city we can think of the technical high schools have the best athletic teams because they usually get boys from all over the city. This was true of Des Moines Tech for a while. But something evidently happened. Maybe some of the fellows who go there could fill us in. We would sure like to know what it was.

Q—My company paid my salary while I was recovering from a serious operation in the hospital last year. Can you tell me whether I have to pay tax on my pay for that time?

A—It depends on how much you received in pay for the time you were out. If your company paid you over 75 percent of your regular salary while you were sick then there is a 30-day waiting period before any of your pay may be excluded from income. After the 30-day period, you may exclude up to \$100 a week from your income as sick pay.

If you received 75 percent or less of your regular pay, you will have no waiting period. Then you may exclude up to \$75 a week. After 30 days, you may exclude up to \$100 a week as sick pay. If you had not been hospitalized, you would have a seven-day waiting period.
