Roy Wilkins Makes Address at Berkeley

Berkeley, Calif.—"The monumental task posed" by the report of the National Advisory Commission on Civil Disorders "is that of the re-education of white America," Roy Wilkins, executive director of the National Association for the Advancement of Colored People, said in an address prepared for delivery at the Centennial Charter Day observance of the University of California here, Saturday afternoon, March 23.

In this task, he told the students, faculty, administration and friends, "a great university has a role to play . . . not merely a role to add to its academic lustre, but one which could save the peace of the nation. Universities can spread the truth about race and racism to their students in classes and seminars, to the wider public of alumni and the general community of scholars."

Natural Bridge, Va. — "Bridging the Gap" between affluent and influential Negro leadership and the unorganized poor was the topic in a meeting last Saturday sponsored by Links, Inc., a national Negro women's organization.

Discussions focused on the gap between the haves and have nots, the gap between black and white citizens and the gap between government resources and public needs.

LINKS delegates from six Eastern seaboard states and the District of Columbia held their first regional conference since the national executive board adopted a policy of "maximum feasible participation" in the

NEWS In A Nutshell

New York, N.Y. — Thomas S. Thompson, senior vice president—marketing and development for General Foods Corporation, Mar. 20 recommended that more opportunities be opened for minority group performers in television commercials.

New York — Black poet LeRoi Jones takes a hard line in an interview in the Mar. 23 Guardian: of "white leftists" who claim to support the blacks, Jones says: "I'm not too concerned with them at all. I know if there was a rebellion and if the white left would organize and run in here and take some of these policemen's bullets I'd have more respect for them."

Washington, D.C. — "Unless the new Housing and Urban Development Act of 1968 (S3029) is specifically amended to provide Negro small business and workers with a 'piece of the action' in rebuilding their ghettos," charged Berkeley G. Burrell, President of the National Business League, "We may have an urban guerilla warfare commission in 1969-70."

Washington — Assistant Secretary of Labor Stanley H. Ruttenberg has announced the funding of pilot projects in seven cities to upgrade householding employment standards and opportunities. Others Are Hatcher, Stokes, Wirtz, Hawkins And T.V.'s Ed. Sullivan

New York — Three of America's new breed of Negro mayors, a Broadway star and a west coast athlete were among the 1968 selections for the annual Russwurm Awards of the National Newspaper Publishers Association.

The Awards, given annually by the association are "in recognition of outstanding achievement in making possible a richer conception of democratic principles and in tribute for upholding those highest traditions known as the American way of life."

The NNPA selected Mayor Carl B. Stokes of Cleveland, Mayor Richard Hatcher of Gary, Ind., and Mayor Walter Washington of Washington, D.C. Both Stokes and Hatcher were elected to their posts becoming the first Negroes in history to serve as elected chief executives of major cities. Washington, who had distinguished himself in the Nation's Capital, was appointed by President Johnson.

Also named by the Russwurm Committee were Pearl Bailey, currently starring in the Broadway smash hit, "Hello Dolly"; Secretary of Labor Willard Wirtz, who helped negotiate the current AFL-CIO pledge of no discrimination in craft unions; Ed Sullivan, for his consistent programming of high calibre entertainment without regard to ethnic

background; and Tom Hawkins of the Los Angeles Lakers.

Hawkins

Hawkins is founder of Athletes for Better America. This group utilized other famous athletes in staging clinics and other activities in the Watts area and other Southern California communities. Hawkins worked closely with the Los Angeles Police Department during the summer and was commended by the Los Angeles City Council and the Los Angeles County Board of Supervisors.

The Russwurm Awards presentations were announced by Howard B. Woods, editor-in-chief, Sengstacke Publications, and chairman of the Awards Committee. The engraved plaques will be presented during the NNPA's annual convention in New York in June.

Plan Job Exposition For Minority Youths

Two "Job Opportunity Expositions," geared at providing job information for all Junior and Senior High School students and their parents, will be held in Des Moines on Mar. 31 and on Apr. 21.

The purpose of the Expositions, sponsored by the Greater Des Moines Merit Employers Council, is to inform minority and disadvantaged youths of the variety of jobs available in Des Moines and qualifications needed to obtain some of the jobs offered by employers in this area.

This is the second year that the Merit Employers group has held a forum for the minority youth of the community.

Dalles L. Schroeder, Associate Secretary of Bankers Life Company, and chairman of the Expositions, said: "It is our hope to provide an additional means of communicating effectively with the minority community employment needs, the qualifications necessary for employment, and the willingness of local employers to hire qualified applicants without regard to race, color, religion, sex or national origin."

Council

Schroeder also indicated that the program had picked up significant participation by local employers. "In 1967 our first year, we had 15 participating companies; this year some 37 Des Moines area businesses are members of the Merit Council."

To Call It Afro-Am, Wk.

Washington — Rep. John Conyers has led a group of some 55 Congressmen in introducing a resolution to officially designate the week including Feb. 14 as Afro-American Week.

Membership is open to any employer who accepts and practices the policies and objectives of the Council.

The Sunday, Mar. 31 Exposition will be held at the Julia B. Mayer Community Center (801 Forest Avenue), between 1:30 p.m.-4 p.m.

The Sunday, April 21 Exposition will be at Logan Opportunity Center (1934 Easton Boulevard) between 1:30 p.m. and 4:00 p.m.

Success Motivation

May Help Negro Youth

Success Motivation, Inc., is actively seeking applicants to develop his potential.

Ed Taylor, Motivation representative, said Friday that the international organization is designed to help individuals to "develop their potential" by expanding three basic talents: to change their present attitude toward life; to change their habits for progress; and to initiate a plan of action toward a new goal.

Taylor said one of the problems facing him at the moment is gaining the interest of Des Moines Negro youth, whom he feels may be the most benefited for the course. After the course, youths will be better prepared in job interviews, in business and in generally getting ahead in life.

Taylor, who recently moved here from Flint, Mich., resides in the city with his wife, Juanita and four children.

SMI offices are located in the Merle Hay Plaza and at 311 11th street.

Methodist Churches to Bring Pastor Here for Inner City Area in 1969

ELEANORA E. TATE

Four Methodist Churches of the South Iowa Conference in the city will begin what they term a traveling inner-city pastor to concentrate on developing the ministry.

The four churches, Gatchel, Burns, Trinity and Grace, tentatively have planned for Rev. N. Walker, staff member of the Board of Evangelism of Nashville, Tenn., to come to Des Moines for two months, spending thirty days at Grace, and the next 30 days divided between the other three churches.

The minister, according to Atty. Robert Throckmorton, member of Grace Methodist, will be someone who can give leadership to the area. He said that the Official Board had approved a minister from the Nashville area to come in probably during February of 1969.

Meaningful

Revs. Dale Williams and Charles

Rinkel, of Grace Methodist, said last week that the minister will meet with groups and persons in the neighborhood of the inner-city to help make the church more meaningful.

Throckmorton said he hadn't seen any movement among white people beforehand as to Christian concern to remove "bias", and said, as Christians, this should be among their first concerns. Throckmorton said that he would like to see a white movement developed to initiate its own voluntary movement. It wouldn't be a dramatic thing, he concluded, but would evolve gradually.

Pastors of Grace Methodist are the Revs. J. Leatherman, Williams and Rinkel; of Gatchel, the Rev. Robert A. Griffin; of Trinity, Rev. John W. Darlington; and of Burns, the Rev. J. M. Shopshire.

Winston Becomes an Ottumwa Policeman

Ottumwa—On March 31, Jerry W. Winston, 22, of 509 Ogden street, will become a policeman to work in the city's public Safety Department.

Winston applied for the job and passed all exams with flying colors. He is married, and has one child. Prior to his employment as a policeman, he worked for Jon Morrell and Company, and is presently helping at a family restaurant in Mt. Pleasant while awaiting his new assignment.

Along with two other new policemen who started, Winston will spend six months with an experienced officer, and will be among the first policemen to participate in the new training which is in the final stages of planning.

Envisioned is a permanent police training academy in which area law enforcement agencies will be asked to participate.

Over 50 years ago George E. Taylor was on the police force, and William B. Downey was on from 1906 to 1908. There were reported to be five before these two.

TO THE EDITOR:

Whose Life????

One-fifth of the total food supply grown in the World today, it is reported, is destroyed by vermin prior to harvesting. This statistic is shocking, and not known to the average citizen. As a member of a rural community for twenty-five years, I have the most profound sympathy for the farmer, his growing problems, and interest in their solutions. With the NFO, a minority of this country's food producers have found "hope" and common ground to discuss and solve difficulties faced by the farm today.

The recent "holding Action" or "slaughter", is a hindrance rather than a solvent to the farm problem in regard to prices. In many of our states, minority and under-privileged Americans are suffering from malnutrition and other associated diseases. If the NFO is truly a progressive and well meaning organization for the good of all, why then, was this great waste of swine not given away? County homes, hospitals, and other non-profit organizations, would surely have accepted this gift of swine at no cost to the organizations to help all Americans regardless of mode of life or affiliation.

With much of the world in complete poverty and near starvation, who, exactly, are we saving????

Suffers

Moreover, "the universities can keep a vigil and lose a cry over the trigger of practically all racial outbreaks: the police and their relations with the Negro community. Civil disorder is everyone's business because everyone suffers."

Mr. Wilkins warned that "the present trend toward a 'crackdown' with armored cars, personnel carriers, automatic weapons and other devices of so-called riot control is definitely not the way to peace in our cities. We can beat down disorders in this fashion, but we will emerge a police state in which not only black but white dissenters on any public policy—not just race—will feel the iron of suppression. Individual freedom will have taken flight from our nation."

"While campuses reverberate with insistent delineations of a combat 10,000 miles away, they cannot remain silent while a Congress indulges in unfeeling and naked political delay, in this election year, on civil rights legislation and on the other measures essential to racial justice."

Lots of people don't realize it, but there is an anti-TB medicine around that does a remarkable trick. Time was when a case of tuberculosis was considered an awesome threat to the whole community. People who had the disease were confined to a special kind of hospital—a TB sanatorium. Elaborate precautions were taken to protect doctors, nurses, hospital personnel and visitors (if any) from infection. And it's quite true that the TB germ was a get-up-and-go type eager to spread himself around.

Now all that's changed. In an untreated patient, TB is often still highly contagious. But once treatment starts, contagiousness is almost always knocked out very soon. Powerful drugs, mainly streptomycin

Cake of the Month

Happily for the modern homemaker, party cakes are speedily made with modern cake mixes. Speaking for itself is this special birthday cake accompanied by party cupcakes—all made with two packages of cake mix: one yellow and one devil's food. Top each frosted cupcake with a colorful candle to light the way to many, many more Happy Birthdays.

Marble Cake with Candle Cupcakes
1 package Swans Down Yellow Cake Mix
1 package Swans Down Devil's Food Mix
Chocolate Frosting
Butter Almond Frosting

Prepare cake mixes as directed on packages. Spoon half of the yellow batter into paper baking cups set in muffin pans. Use half of the devil's food batter in the same way.

Put large spoonfuls of the remaining yellow and chocolate batters alternately into two round 9-inch layer pans, which have been lined on bottoms with paper. With a knife, cut through batter in a wide zigzag course to marble. Bake in moderate oven (350°F.) 20 to 25 minutes for cupcakes and 25 to 30 minutes for layers. Cool cakes.

Spread Chocolate Frosting between layers, over top and sides of cake, and over tops of yellow cupcakes. Prepare Butter Almond Frosting. Put a little of this in a paper cornucopia to write "Happy Birthday" across top of cake. (If frosting is too soft to use in tube, add a little confectioners' sugar.) Spread rest of Butter Almond Frosting on chocolate cupcakes. Insert a candle in each cupcake. 1/2 Chocolate Frosting. Measure 6 cups sifted confectioners' sugar.

Nix-Tricks
Just remember to put the frosted cakes in the freezer to set before wrapping in freezing paper; and to remove this paper as soon as the cakes come out of the freezer, before they begin to thaw.

Your professional beautician knows the answer...

Is peroxide needed to color unwanted gray hair?

Hair care and beauty experts know that the first traces of gray hair—and even slight fading of natural color after chemical relaxing—can dull a woman's appearance and make her look older than she feels. While most women hate these premature aging effects, many are hesitant about using permanent peroxide haircoloring which may change the natural hair color while coloring gray.

Professionally-trained hairdressers know the importance of their customers' preferences when unwanted gray becomes a problem. These experts also know that Clairol created semi-permanent Loving Care® hair color lotion without peroxide... to color only the gray without changing the natural shade. They also find Loving Care blends back color faded by chemical processing. Because of its mildness, Loving Care maintains healthy looking hair and lasts through a month of shampoos.

Whatever a woman's reason for wanting Loving Care for her hair, she is always wise to consult a professional beautician. Hairdressers are equipped with a family of fine Clairol products and the training to promise each patron the loveliest and most personalized haircoloring effects every time she visits her salon. If you dislike gray, and want no peroxide, why not ask your beautician to glamorize it with Loving Care?

HEALTH FOR ALL

Lots of people don't realize it, but there is an anti-TB medicine around that does a remarkable trick.

Time was when a case of tuberculosis was considered an awesome threat to the whole community. People who had the disease were consigned to a special kind of hospital—a TB sanatorium. Elaborate precautions were taken to protect doctors, nurses, hospital personnel and visitors (if any) from infection.

And it's quite true that the TB germ was a get-up-and-go type, eager to spread himself around.

Now all that's changed. In an untreated patient, TB is often still highly contagious. But once treatment starts, contagiousness is almost always knocked out very soon. Powerful drugs, mainly streptomycin

and isoniazid, make the TB patient socially acceptable without danger to anybody.

Unfortunately, that doesn't mean there is no longer any danger of anybody's coming down with a new case of tuberculosis. There is; and thousands do every year. Whom do they catch it from? Somebody who has the active disease. But if he has the active disease why hasn't he been treated and made non-infectious? Answer: because in most cases, he doesn't know he has it.

That's how it is with tuberculosis.

Services Are Held For Helen Perkins

Miss Helen M. Perkins, 84, of 1619 Gillette street died Monday at Taylor Nursing Home, and services for her were Thursday, 1:30 p.m. at Community Baptist Church, with burial at Glendale Cemetery.

Surviving her are a niece, Mrs. Edna Wilson of the city, and two nephews, Sammie B. and Roscoe Love, of the city.

It's possible to go along for a time, feeling well, pursuing one's normal daily living routine, with no inkling that one is sick. But only for a time, before the effects of the disease begin making themselves felt.

How does one find out? A tuberculin test shows whether the germ has invaded the body. A chest X-ray can help determine whether, if present, it is damaging the lungs. The earlier these determinations are made, the better chance of early treatment and recovery. Your Christmas Seal association suggests a tuberculin test or chest X-ray as part of everyone's periodic medical check-up.

Declare All-out War For Blues King Title

Cicero, Ill.—Blues singing turned to blues shouting here recently when both Little Milton Campbell and B. B. King confronted each other at a Cadillac showroom here.

What began as a publicity stunt by press agents for Little Milton has reached the stage where pushing and shoving and calling of names is the order of the day for the two successful blues men.

"I think he is just being pig-headed," said Little Milton, after the

Your professional beautician knows the answer...

Is peroxide needed to color unwanted gray hair?

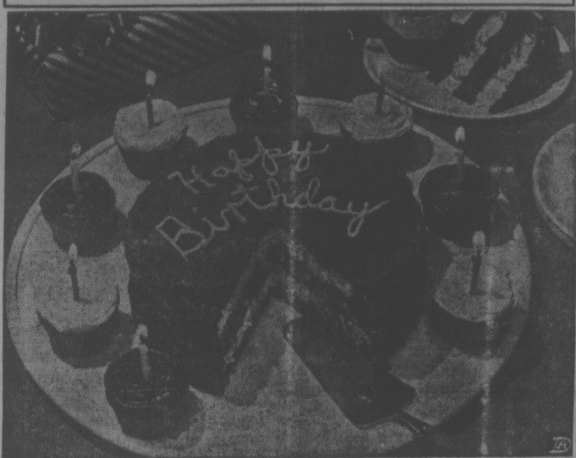

Hair care and beauty experts know that the first traces of gray hair—and even slight fading of natural color after chemical relaxing—can dull a woman's appearance and make her look older than she feels. While most women hate these premature aging effects, many are hesitant about using permanent peroxide haircoloring which may change the natural hair color while coloring gray.

Professionally-trained hairdressers know the importance of their customers' preferences when unwanted gray becomes a problem. These experts also know that Clairol created semi-permanent Loving Care® hair color lotion without peroxide... to color only the gray without changing the natural shade. They also find Loving Care blends back color faded by chemical processing. Because of its mildness, Loving Care maintains healthy looking hair and lasts through a month of shampoos. Whatever a woman's reason for wanting Loving Care for her hair, she is always wise to consult a professional beautician. Hairdressers are equipped with a family of fine Clairol products and the training to promise each patron the loveliest and most personalized haircoloring effects every time she visits her salon. If you dislike gray, and want no peroxide, why not ask your beautician to glamorize it with Loving Care?

Cake of the Month

Happily for the modern homemaker, party cakes are speedily made with modern cake mixes. Speaking for itself is this special birthday cake accompanied by party cupcakes—all made with two packages of cake mix: one yellow and one devil's food. Top each frosted cupcake with a colorful candle to light the way to many, many more Happy Birthdays.

Marble Cake with Candle Cupcakes
1 package Swans Down Yellow Cake Mix
1 package Swans Down Devil's Food Mix
Chocolate Frosting
Butter Almond Frosting

Prepare cake mixes as directed on packages. Spoon half of the yellow batter into paper baking cups set in muffin pans. Use half of the devil's food batter in the same way.

Put large spoonfuls of the remaining yellow and chocolate batters alternately into two round 9-inch layer pans, which have been lined on bottoms with paper. With a knife, cut through batter in a wide zigzag course to marble. Bake in moderate oven (350°F.) 20 to 25 minutes for cupcakes and 25 to 30 minutes for layers. Cool cakes.

Spread Chocolate Frosting between layers, over top and sides of cake, and over tops of yellow cupcakes. Prepare Butter Almond Frosting. Put a little of this in a paper cornucopia to write "Happy Birthday" across top of cake. (If frosting is too soft to use in tube, add a little confectioners' sugar.) Spread rest of Butter Almond Frosting on chocolate cupcakes. Insert a candle in each cupcake.

Chocolate Frosting. Measure 6 cups sifted confectioners' sugar.

Cream 6 tablespoons butter; add part of sugar gradually, blending well. Mix in ¼ teaspoon salt and 4 squares unsweetened chocolate, melted. Add rest of sugar, alternately with about ¼ cup milk, until of right consistency to spread, beating until smooth.

Butter Almond Frosting. Measure 2 cups sifted confectioners' sugar. Cream ¼ cup butter; add part of sugar gradually, blending well. Add dash of salt. Add rest of sugar, alternately with about 3 tablespoons milk, until of right consistency to spread, beating until smooth. Add ¼ teaspoon almond extract and blend.

MIX TRICKS: You can bake the cake and cupcakes a month in advance, freeze, and freeze. Just remember to put the frozen cakes in the freezer to set before wrapping in freezing paper, and to remove this paper as soon as the cakes come out of the freezer, before they begin to thaw.

POWELL AT HIS
OLD GAME AGAIN

A Clayton Powell, deposed Congressman from New York, who has spent the past few months ducking the courts, is back in New York. He seems not to have lost his popularity with the people in his district or his knack of saying cute things which enthrall the crowd but have no rhyme or reason.

Apparently, his friends have been pulling strings to lift the cloud on his appearance in New York, the powers that be reasoning that he will lend strength to the Democrat ticket.

Powell belittled any Negro who would run against him and says that when elected he will demand the post he left in the house as chairman of the house labor committee be returned to him.

All of these demands draw applause but have little chance of materializing. First, any man has a right to run for office; second, he will be elected but not seated as long as he refuses to clear up the money charges made against him; third, once a member of Congress who is defeated or is not seated and is later re-elected, he starts from the bottom. Seniority is a jealously guarded privilege with House members.

Powell would help himself and his constituents more if he did something for them to relieve their unfortunate plight rather than get elected and go off for pleasure instead of caring for his responsibility properly.

DES MOINES CITIZENS
SHOW THEY CAN ACT
AS WELL AS TALK

There has been a great deal of sentiment among the citizens of Des Moines to do something constructive to solve the racial ills that have beset this and other communities during the past few years.

Everybody has talked about injustices suffered by the Negro community, most people have recognized that something must be done but few do anything.

True, the Federal Government has poured billions of dollars in communities, but there seems little to show for it. Des Moines has been no exception to the rule.

It is difficult to place a finger on just what Negro youngsters want or what they are willing to do to help solve the problem.

Last year, a group of businessmen formed a pool which raised funds to give employment to young people. They struck a real chord for the youngsters turned out far in excess of what had been expected; the staff did an excellent job administering the program. Many business establishments cooperated.

We hope such a program will be available this summer.

In the meantime, the Des Moines Area Council of Churches undertook to set in motion a project designed to provide low cost housing in the urban renewal area. Nothing of the sort had been started before in Des Moines and yet it operates in one of the most needed areas of low rent family housing.

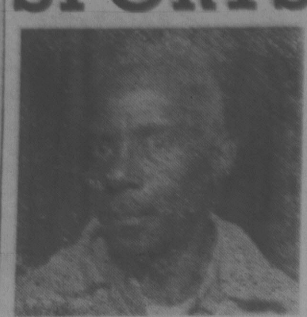

The federal government has agreed to loan \$2 million to help finance it; the city council has accepted their bid for the land, the Bankers Life and Equitable Life of Iowa have agreed to loan \$2 million dollars, and the member clearing house banks have agreed to do the interim furnishing without charge.

These are positive undertakings which are bound to produce some results and point out very clearly that the sponsors of these projects are concerned and show it in a practical way.

In the meantime, Des Moines firms are advertising for Negro employees (there are three in this issue of the Bystander) for both skilled and unskilled work. These are dreams come true in the nature of opportunities most Negroes never had. Surely the Negro himself has the obligation to take advantage of them and prove further that all he needed was a chance.

The city of Des Moines should be proud that it has such concerned citizens, that they have listened to the calls for action and have set about to do something about bringing to fruition some of the things that will further make the city a better place in which to live.

Speaks on Basketball

The basketball season has finally expired, except for the pro playoffs. About all one can say about the UCLA-Houston game is wasn't that smashing. Just about everybody we talk to now just knew the Uclans were going to kill em. We have some wonderful after the game prophets. Now the west coast boys are talking about three national titles in a row, and don't bet that they won't do it. The fellows who know what the game is all about had said they would play Houston's Hayes by assigning one man to him for the evening, and that is just what happened. So the great Hayes who usually got thirty five points per game didn't even get the ball that many times. Some guys say Alcindor didn't score too many points, but that is the trend of basketball for big men now. They don't have to score too many points. They can take at least two men to keep them from scoring, and then they can pass off to the open man and screen for him to shoot. Given a couple of tough outside shooters and any team with a big man is going to score a lot of points. Then, if you have to, you can always go to your big man for points if he is at all free. The only thing we hated about the whole thing was the fact that we have a young fellow with whom we differ, if he picked the angels in Heaven we would have to pick the other guys from you know where. So the fellow picks UCLA. And in spite of our pregame statements, we took Houston. Now we will have to listen to that fellow for a while year, and maybe nobody will beat those fellows then.

T.H.S.

Here at home we thought that Roosevelt's chances in the state high school meet rested on what Toby Huston could do. No matter what he did in the final game, if it were not for him, the team wouldn't be in the finals. We don't usually go along with some of the reasons advanced by some people for a team losing, but in this case, we would have to admit the daily paper was a whole lot right. For a fellow who has been always a hero all season to suddenly find himself the object of boos, well, it really does something to one. We have seen a chorus of derisive cheers turn a fine tennis player into a fumbling beginner who couldn't do anything right. We have experienced that with a basketball team that seldom lost to the local fellows. When they finally got behind and realized that their friends were actually cheering for the other fellows, the team went to pieces, and never did beat that particular team in about five encounters. Yes, that crowd antipathy does something to you that only a few kids can shake off. Even hardened old pros feel it, but they can come out of it because it isn't new to them. But then the kid is a junior with one more season left, and now he will have something to work for.

Track

And now we head into our track season with its potential showdown on the boycott that everyone is talking about. We shall watch developments with interest. Oh, yes, there is the proposed heavyweight title bout between Jerry Quarry and Jimmy Ellis sometime in April. This Frazier fellow will no doubt challenge the winner, and we think that if he gets hit by either fellow as often as Buster Mathis hit him, he can forget it.

Storm Lake Fights Back,
Beat Riders in Tourney

Des Moines fans' hopes for the 1968 Boys State Basketball title were dashed Saturday night in the AA championship when number-one rated Storm Lake fought back to overcome Des Moines Roosevelt Roughriders, 71-61.

But the underdogs charged back in the third quarter and went on to trample the Riders.

Bruins Stamp North
Carolina, Houston

Los Angeles, Calif.—With almost a catlike style Friday night, U.C.L.A. poured it on to a startled and then stymied Houston team who lost by over 30 points.

U.C.L.A., led by Lucius Allen, Mike Lynn and superstar Lew Alcindor with 19 points, outshot, out-rebounded and outmaneuvered Houston and gave them the worst humiliation by tying the hands of their top scorer, Alvin Hayes with their defense, 101-69. Hayes was held to 10 points.

The Bruins went on to keep it National Collegiate basketball championship by putting the same woes to North Carolina, 78-55. Alcindor scored 34 points.
