Russell Pounds Named Model Cities Director

Council of Churches Petition on Race Relations of Police

The City Council approved the appointment of Dr. Russell Pounds, Iowa State professor, as director of the Des Moines Model Cities project Monday. The announcement of Pounds' appointment came from David Pickett, Model Cities representative. Pounds is a former Man-Power Development official.

Pounds told the Bystander that his duty would be to initiate a five-year project for the Model Cities area. He stated that he had high hopes for Model Cities and that much progress may be made in this area.

In other action the Des Moines Area Council of Churches has presented a petition to the City Council urging a study in police racial attitudes.

The petition, presented Monday morning by Dr. J. A. Leatherman, president, was signed by some 700 names, and Dr. Leatherman told the Council that he realized the names made up a small percentage of the population of the city. However, he said meetings conducted following the death of Dr. Martin Luther King, Jr. brought grievances by Negroes, not only concerning police and black folk confrontation, but other issues long ignored in the city.

Dr. Leatherman continued that the petition was not condoning violence of law breaking in any form, but that many qualified and just measures should be brought to give all persons equal treatment.

However Councilman Robert Scott objected to the proposal, stating that the Council had investigated allegations of discrimination in the police department, found none, and backed the department in good faith.

Last March 15, in Forrest County Circuit Court, Hattiesburg, a white man, Cecil Victor Sessum, was convicted of murder and arson in Mr.

Birchers Using King As Whipping Boy

Washington, D.C.—The John Birch Society and its allies are using the late Dr. Martin Luther King as a whipping boy to stir up racial animosities, Charles R. Baker, Executive Director of the Institute for American Democracy (IAD) charged last Friday.

Thus he has devoted the current issue of IAD's newsletter HOME-FRONT to exposing the mammoth sub-surface propaganda effort to equate Martin Luther King with Communism. "This device of dubbing all things progressive 'Communist inspired' carries the unpleasant odor of the McCarthy era, and is just as lethal," Mr. Baker observed.

Protest Bombing Of NAACP Member

New York — Gloster B. Current, national director of branches and field administration for the NAACP, has sent a telegram to Attorney General Ramsey Clark asking an investigation of a bombing in Hattiesburg, Miss.

The bomb had been planted in a 1962 Corvair owned by Kaley Duckworth who is a member of the NAACP and director of a Project Head Start Center. Mr. Duckworth was taken to Forest General Hospital in Hattiesburg with a fractured jaw and finger. There had been no known threats against him although there had been numerous threats against the NAACP. Also injured by the blast was Mr. Lillie M. Hullum who was in the car with Mr. Duckworth.

The blast from the bomb splintered the steering column and broke the windshield of Mr. Duckworth's car. He had won it just a few days before at a benefit raffle for a high school band.

Rights Director Cites Claims by Negro Inmates

ELEANORA E. TATE

Discriminatory

"I am not here to state unequivocally whether the Commission has or has not concluded that there is racial discrimination practiced in Iowa's correctional institutions. (It is) that many of the Negro inmates think that there is discrimination."

With these words David Mullin, Acting Director of the Iowa Civil Rights Commission addressed the West Central Warden's Association on Monday, May 20.

Mullins said he was to tell about the Commission's contacts with minority inmates in the state's correctional institutions, and urged officials that "you take deliberate steps to ensure that the correctional systems in your states keep pace with the burgeoning strides being made in many circles of society toward the elimination of discrimination and the diminution of racial, religious, cultural and intergroup tensions."

At Ft. Madison, he said, Negroes comprise approximately ninety per cent of the inmate population "belonging to a racial or ethnic minority group, and twelve per cent of the total inmate population . . ."

Mullins cited various grievances from Negro inmates who had visited with personnel of the Rights Commission and said he "expected you to do some constructive soulsearching afterwards. If you do not face these matters with an open mind, then you have wasted my time."

The most recurring grievance the acting director said, was that the parole system seems to be discriminatory, and that members of the state parole board must rely on the disciplinary records and other records and recommendations developed by staff members at Ft. Madison; that parole interviews are artificially integrated for window dressing, and that disciplinary records appear on balance especially to possess "a very real potential for prejudicial abuse. White society overall generally distrusts Negroes, and wrongly stereotypes them as being bad and untrustworthy."

Mullin said on job assignments, Negroes either did most of the dirty jobs and somehow missed out on such specialized work training areas as type setting and sheet metal work.

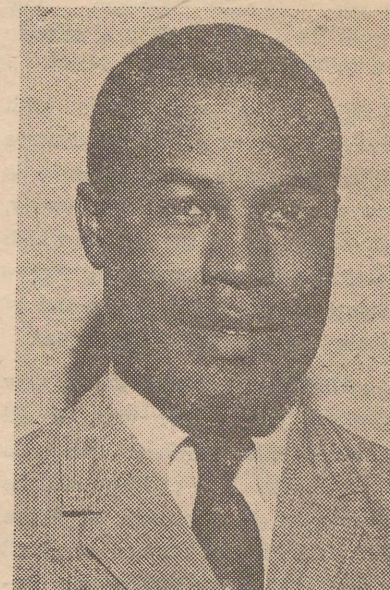

The incidence of ugly racial slurs was also a recurring grievance, Mullin said, such as "direct references to Negroes as 'you black bastards'."

Solution

Wardens should work toward eliminating the use of racial slurs, develop a policy of nondiscrimination in all phases, maintain equal opportunity, recruit qualified Negro potential employees, and expand case work services to include counseling of a Negro inmate's family to facilitate his parole chances by improving his family ties and potential environment.

I-TRY Funds Project for Community Employment Organizations in State

At least \$112,000 in funds from the U.S. Department of Labor has been allocated for Iowa to supplement non-profit employment organizations this year.

Not for Salary

Frank B. Robinson of the Manpower Development Council which has merged with the Office of Economic Opportunity said Monday that cities which have non-profit employment organizations, such as Des Moines' Community Improvement, Inc. for disadvantaged youths could apply for the Iowa Training Youth, Inc., or I-TRY for supplemental funds.

Robinson said that among other uses, the funds would go for the hiring of a counselor on a part-time

basis if youths need counseling beyond that of the employer's; for emergency health; and for field trips to various sections of the state to explore employment services offered. It will not go for salaries.

One-Year

The I TRY program was funded about three weeks ago, and is a one-year experimental program. Head of the state program is Ralph Sieger.

"Only those employment organizations running the full twelve months will be eligible for supplemental funds," said Robinson.

While Davenport has tentatively applied for the I TRY program, several other cities have indicated interest in it.

New Math For Whites Only, Says La. NAACP

New Orleans, La. — The NAACP here has accused the Orleans Parish School Board of discriminating against Negro students as it set up classes for instruction in a new mathematics program. The accusation was made a month ago in a letter to the Board. Arthur J. Chaplin, executive secretary of the New Orleans NAACP Branch, now charges the superintendent of schools with failure to answer the letter.

Eight junior and senior high schools have been named for courses in the new math. Each of these is predominantly white. "Strangely, not a single one of the schools which is attended predominantly by Negro students was included in the list of schools," the NAACP letter stated.

As the teaching program is now organized, only 4 per cent of all Negro students will have access to the new math. The program will be available to 19 per cent of white junior high school students and 12 per cent of white high school students.

Clean Up Time

Wherever there is a pile of trash, rotting boards, a pile of lumber on the ground, forgotten grass clippings or improperly stored garbage, there is much activity going on underneath and within. Flies are feeding and breeding by the millions, and rats and snakes are finding harborage, says the Des Moines Polk County Health Department.

HEALTH FOR ALL

According to past experience an outbreak of German measles can be expected in the early seventies. The usual cycle is about seven years, and the last epidemic occurred in 1964.

But the story may turn out differently this time. Research scientists have been busy with projects looking toward development of a German measles vaccine, and good progress is reported. Several strains of the virus, apparently capable of producing immunity, are now being tried out, according to Medical World News. Dr. John L. Sever, of the National Institute of Neurological Diseases and Blindness, has voiced the opinion that a vaccine will be ready for licensed use by the middle of 1969.

The conquest of German measles, if and when it comes, will be a particular boon to humanity. While rendered by Mrs. Herman Wadsworth.

Special guests will be Sen. Edward R. Danner of Omaha, Neb., only Negro member of the Nebraska legislature and Mrs. Alberta Kelly, Democratic National Committeewoman.

Harvey — remember Harvey — says he is so poor he can't even afford the Poor People's March . . . strange how the City Council can get so riled up about work of art but neglect the art of work . . . Cosby was stone cool Sunday night in the Emmy Awards, with his full moustache, Afro hairstyle and rimless specs, and didn't he sock it to 'em? Cosby will be in Des Moines Friday night, 7 and 9 p.m. at KRNT Theatre . . .

Nina Simone left New York City May 20 to perform concert and TV engagements for four weeks after just having had one of the most successful concert tours of the U.S. and Canada in her entire career.

She will be introducing her latest RCA Victor single, "Why (The King of Love Is Dead)," written as a tribute to the late Rev. Dr. Martin Luther King, Jr. to her foreign audience.

Stokely and Miriam Makeba got married last weekend. That makes her Miriam Makeba Carmichael. If Lorne Green married Lena Horne, HIS name might be Lorne Horne, but people would wonder about that setup, baby. If Mary Wells married William Tell, she'd be Mrs. William Wells Tell. If Faye Dunaway married Willie Mays and then Marvin Gaye, she'd be Faye Dunaway Mays Gaye. Ready for more? No? Too bad. If Gracie Slick (of the Jefferson Airplane) married Wilson Pickett, she'd be Gracie Slick Pickett.

ried William Tell, she'd be Mrs. Wil-
thing. If Harvey married Marcus

Notes from Jerry Bolden: "If anyone is paying attention to the director of the C.A.P. program, he should be aware of the one big thing that the director is trying to do. As we all know the city had a night patrol last year; that main function was to prevent the rise of big disturbances. At this it was very successful, and this is the main reason that it should be done again. Now the director of C.A.P. is afraid that it will take more than him to control the Blacks in the night patrol and is willing to expose the community to a sure riot or much larger disturbance than ever before, he intends to introduce the very thing people were against last year, the off duty policeman and the white helmet wearing auxiliary police who were the main reason that so many people got arrested by mistake the night of M. L. King memorial. These inexperienced people along with the police department should only be lacking in the white hoods. It will be my guess that the night patrol will be checking all cars for weapons and other things

. . . I am writing to the head of the poverty program in Washington to express my views that the director should be removed to prevent his causing the unnecessary conflict of the police force and the Black community. It would be good if some more people did the same, the head you save may be your own."

Getting started is often the hardest part of a job . . .

You can't plow a field by turning it over in your mind.

Did you hear about the father who fainted when his son asked for the garage keys and came out with the lawn mower?

This is the time of year when some colleges are lowering their requirements with an end in view — to say nothing of some guards and tackles . . .

When the mechanic told her she had a short circuit, she asked if she could wait while he lengthened it!

You won't have to wait for Spring pep and vigor. Get your vitamins now at Williams Prescription Pharmacy, 1103 University Avenue, Phone 243-1253.

MARINE LIEUT. GEORGE C. NORRIS whose name has appeared in this column with reference to many Drama Workshop productions was recently killed in action in Viet Nam. His burial services were held this week. George was a talented young man and shared his life and theatrical undertakings in a most generous way. He was a hard worker under the direction of others and equally so as a director! His death is a great loss to Iowans in the field of drama.

SPEAKING OF YOUTH, WILLIAM (BILL) FOWLER is in a strictly new role—new by most standards. He is one of our youngsters who, having expressed a desire to transfer from North was placed at Hoover High School. Though supplied with bus fare, Bill finds walking to Hoover simpler than riding the bus from his area. Many cold mornings since January, I've seen Bill striding along youthfully on Harding Road. Only recently was he traveling closely enough to my car for me to ask what school he attended and to offer a lift. His reply stunned me! From 11th and University Avenue to Hoover is a long trek, but Bill, a track man, has developed an admirable stride! At Hoover he is laying the ground work for a career in commercial art. A member of the Fowler clan, he is the son of Mr. and Mrs. Travis Fowler.

CONTINUING WITH YOUTH, AT PAULINE HUMPHREY'S CRESCENT SCHOOL OF BEAUTY CULTURE SCENE, I visited charming Teacher Faye Waterford who for so many, many years has taught and supervised:

THERE WAS DIANE THOMPSON, a night student, who underwrites her beauty culture training by working as a proof reader at the Iowa State Internal Revenue Office's Pre-Edit Department. A '67 graduate of Davenport's Central High School, Diane is the daughter of Mr. and Mrs. Tommy Walker.

THEN THERE IS BEAUTY CULTURE STUDENT, BARBARA L.

Attend Confab of All Iowa Dinner

On May 9 in the State Room at Hotel Ft. Des Moines, the All Iowa Dinner and program was given by the Iowa Farm Bureau Women, dedicated to better understanding between the farm and the city. Different farm products were represented by queens, Miss Wool and Miss Pork.

Iowa Farm Women were speakers, and each city guest had a hostess from over the state who sat with them at the tables where 225 women were served at a sumptuous dinner. They were also presented with gifts.

Among those seen at the dinner were Mesdames Emma Turner of Cedar Rapids, state president of the Iowa Association of Colored Women's Clubs, Gertrude North, City Association president, Arlene Morris, Willie S. Glanton, and others.

Amos to Install New P.T.A. Officers

The Amos High PTA will meet Tuesday, 2:30 p.m. for installation of officers, Mrs. Claude Johnson, president. They are: Mrs. Levi McGuire, president-elect; William Robinson, first vice president; Miss Garwick, girls advisor, second vice president; secretary, Mrs. Mark Frisio; and treasurer, Mrs. William Fores.

Civics Breakfast Club Annual Brunch Mon.

The Civics Breakfast Club's annual May brunch was at the home of Mrs. Francis Johnson on May 20. May flowers and baskets highlighted the morning, and guest speaker was state legislator A. June Franklin.

Other guests were Mesdames Beatrice Bailey, Mae Wyatt, Ruth Baskett, Marie Brown and Irene Miller. President is Mrs. M. Beck. Next meeting with Mrs. Ruth Moore.

EWING Diane's buddy. The two have known each other since they were in second grade! Barbara, too, is employed in the Pre-Edit Department of the State Internal Revenue Office, and comes from Davenport. Both girls earned a part of their tuition at the Lux Candy Company, as they made plans to enter Crescent School. Barbara is a '67 Burlington High graduate and the daughter of Mr. and Mrs. Howard Ewing.

MET CRESCENT'S GRADUATE STUDENT, MARY LINCOLN. Enrolled in Crescent's night classes, she is now preparing to become an instructor of beauty culture. She is employed daytimes at Crescent Beauty Shop. Mary graduated from Richmond High, Richmond, Missouri, at 14 years of age. She has attended Drake University and is the daughter of Mr. and Mrs. Carl Lincoln; and the sister of Mrs. Herbert Hawkins of 2431 Garfield Avenue.

MET LILLY SMITH KEYES, A CRESCENT BEAUTY SCHOOL INSTRUCTOR, and formerly of Columbus, Georgia. A graduate of Kaigler High School, Georgetown, Ga., she met her husband Milton Keyes, when he was a corporal stationed at Ft. Benning. Soon after their arrival here Lilly enrolled at Crescent and graduated in December '60. Now a operator at Polly's Beauty Shop, she is also a part-time Crescent night class instructor.

DARNELL WILLIAMS, MARYLYN HILL, AND DAVID LEWIS were on North High School's stage this week in Kurt Weill's "Down in the Valley". Though quite sad, the play can be described as a bitter-sweet love story. At the time of this writing, I hear the young crowd plans to throng the show. Much luck to our stars!

THEN THERE IS JEANINE SMITH, a 17 year old employed in the Veteran's Administration Laboratory and part-time Drake University student. One of her greatest interests are her two horses: Psychic, a 4 year old Appaloosa mare and Sahdana, an Arabian yearling. Sahdana is nicknamed Venus' Vision, which is shortened to "V.V." When V.V. is about 3, the time to be broken, guess who'll do this? Jeanine, of course! Jeanine lives in Ora Labor and so has a small world for her pets!

EIGHT YEAR OLD TEDDY BRUBAKER pictured in last Monday morning's Register's story "Record Art Exhibit Ends", was an uncontroversial living proof that this Exhibit was unusual and the "no kids allowed" verdict a reality! Teddy is the son of Mr. and Mrs. Theodore Brubaker—his mother presents your "Mary Brubaker's Show" on television.

Your professional beautician knows the answer...

Why does some hair break off when combing?

Your hair is precious and delicate...and none of us like to see it break off for any reason. Scientists tell us that excessive use of hot combs and over-processing of hair with chemicals often are major causes of brittleness resulting in hair breakage. But hair that is naturally curly and tangles easily frequently breaks off in everyday combing. Notice how irritated your scalp becomes when you comb in contrast to the way your beautician does?

Your professional beautician knows that curly hair mats and tangles so easily that it should be softened before combing. Otherwise, unnecessary irritation to the scalp and damage to the shaft and ends of the hair occurs. To achieve this needed softening and a temporary relaxing effect that prevents breakage on all human hair (including wigs), most beauticians rely on Clairol® Hair-So-New® spray-on creme rinse. For combing ease and for beautifying your hair in many other ways, trained beauticians stock a complete family of fine Clairol products for your specific needs.

Visit your expert hairdresser, who cares about your hair care and your comfort. Whatever the nature of your hair problems, only your professional beautician knows the answer for sure.

HELP THE STRICKEN
IOWA COMMUNITIES

Iowa has been struck again by devastating winds that leveled Charles City, Olewain and Maynard to the point almost unimaginable. Untold property damage was done and lives were lost.

There was nothing anyone could have done to prevent this disaster — a purely act of God. It left these communities the task of making a long painful recovery.

Iowa, like other states, has never left disaster stricken communities alone in their efforts to rebuild. This instance will be no different. Already appeals have gone out by every means of communication for help.

Churches, radio stations, business institutions, clubs and just assembled groups are soliciting funds to help these people. Judging from preliminary reports, the response is good.

Everybody can help some. It's a sign of good citizenship to help those who have met disaster through no fault of their own.

THE NAACP REMAINS
A BASIC GROUP

The Des Moines Branch NAACP is starting their 1968 membership drive officially May 26 with a special meeting at Willkie house.

The organization is in its 52nd year during which time it has served as a shield and protector of the rights of minority groups. It has been successful in securing laws and interpretation of laws which have proved the basis for the improvement that has taken place during its existence.

The local organization, with the cooperation of other groups has spearheaded the general improvement in the economic, political, civic and social life of this community. And although some have a different view every improvement that has come was the product of the policies pursued by this organization.

And that has meant law suits, protests before boards, commissions, city councils and the legislature. It has the respect and confidence of sane people black and white.

The quota this year is 1,000 members. That quota has been exceeded once but has not been made for several years. The Bystander believes the organization is still valuable and deserves the support of the community, particularly those for who it is designed and has helped over the years.

CALLUS ATTITUDES
BRING THE MARCH

The march on Washington, D. C., planned by the late Dr. Martin Luther King, Jr., has reached the stage where hundreds have entered the city and are camped in improvised houses and in the homes of local citizens.

It is unfortunate that such a demonstration should find itself in the capital of the nation. And yet while conditions about which the Negro has been complaining for a hundred years have changed but little, many of our law makers and business people scoff, saying that everything is rosey, people who are equeezed by these conditions attempt to break out. And this is one of their methods of doing it.

American soldiers, tabbed the bonus march, converged on Washington several years ago and were driven out by the police and the army when Hoover was president. He felt the wrath that it brought for many years.

This will not be done in this instance. And if the leaders can keep the followers under control free from the disregard for law and order, some good may come out of the effort.

Heretofore, we have witnessed the rise of the middle class by the use of sit downs, strikes, organized action and in some instances, force. They survived. The Negro is using these tactics to help the subjects of poverty, ignorance, jobless loose these chains. We hope it can be done without bloodshed.

TOO MUCH EMPHASIS
ON FUN AND PLAY

Businessmen and government in Des Moines are making every effort to provide young minori-

ties with employment—some in fields from which they have been denied apprenticeships in the past.

Earlier this spring, more than thirty requests were sent to young Negroes to participate in building trade apprenticeships. Only six responses were received.

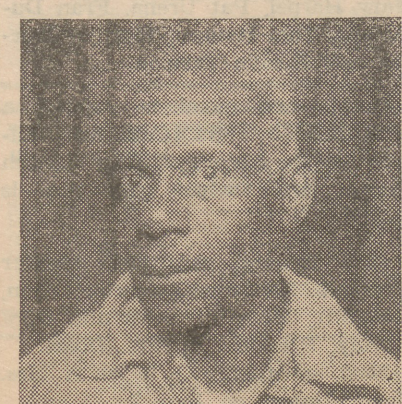

This week an apprenticeship center has been set up with facilities to encourage youngsters to take advantage of opportunities to raise their economic level.

These are sound opportunities which heretofore civil rights workers have complained bitterly were denied Negroes and added to the unrest of young people.

Somehow, the recruiting effort has been disappointing. Many of the same youngsters who complain of lack of opportunity, still spend their time attending centers of play and recreation.

We are inclined to believe that too much emphasis is being put on recreation and entertainment when the basis for improvement—work—is being passed up lightly. All work and no play is not good but without work no group is going to improve its lot to provide the things which go to make good, substantial citizens.

SPORTS

With Allen Ashby

Over the weekend Frank Massey and yours truly were among the three thousand or so fans who sat out in the rain and looked at the 1968 edition of the Iowa Hawkeyes unfold. We liked some of what we saw and were somewhat in doubt about other things we saw. We liked the pass catching and running of freshman named Green who has some very good moves and can really snag a football. The guy made a one-hand catch that resembled an outfielder catching a baseball. He runs hard and well. Another fellow Robinson, also had some very good moves including a good straightarm. This freshman also ran very hard. These two were the outstanding Negroes as we saw it. We were a bit disappointed with Wallace, who is expected to be a real go-getter this fall. The guy is big, 225, and fast, 9:07, but he lacks the moves we thought he would have. However, he is an excellent blocker and may make it because of this. Then, too, it was a wet, slipperv field, and some people can't handle themselves on such a field. Maybe he is one. The defense knocked down a lot of passes. Frank wondered if they could do it against experienced receivers. We wondered that also. The score doesn't mean a thing because some players went both ways, and the whole show was to give the public a line on the boys. Their chances for next year? Well, they have one heluva schedule, and they will do well to win three games. If they do that, and manage to surprise someone, they will have had a good year.

Don Avant reminded us that while we were watching football at Iowa City he was defending his state flyweight boxing honors at Cedar Rapids. Guess he was about the only Des Moines boy to win. Don said our heavyweight got robbed, or he might have won.

The people who saw the Olympic wrestling tryouts at Iowa State were surprised and impressed by the number of Negroes in them. One observer said that the Olympic team would likely be made up of half Negroes, and it wasn't long ago that experts were saying that Negroes couldn't wrestle. They didn't have the muscular structure for the sport. Biology sure plays funny tricks.

We recall our first appearance in a local wrestling ring. The sports-writers called the match between us two Negroes a novelty, and one wondered if that had ever happened before. Surely it must have, even if it wasn't in Iowa. Then there was

WANTED BY THE FBI

JAMES EARL RAY, also known as Eric Starvo Galt, Harvey Lowmyer, John Willard, James McBride, James Walton, W. C. Herron and James O'Conner.

James Earl Ray, a Missouri prison escapee, sought under the alias Eric Starvo Galt in connection with the gunshot slaying of civil rights leader Dr. Martin Luther King, Jr., is one of the FBI's "Ten Most Wanted Fugitives." FBI Director J. Edgar Hoover ordered the special addition of Ray to the "Top Ten" list to insure widespread dissemination of Ray's photograph and description to speed his location.

Ray has been intensively sought since the murder of Dr. King on April 4, 1968, as he stood on the balcony of a Memphis, Tennessee, motel. An exhaustive FBI fingerprint search, comparing latent fingerprints uncovered in the Dr. King case against fingerprints of over 53,000 persons on whom wanted notices were posted, determined that Galt and Ray are identical.

A Federal warrant, issued at Birmingham, Alabama, on April 17, 1968, charges Ray, under the alias of Galt, with conspiring to interfere with a Constitutional Right of a citizen. Ray, who escaped on April 23, 1967, from the Missouri State Penitentiary, is also sought for unlawful flight to avoid confinement for robbery. His long criminal record also includes convictions for burglary and forging U.S. Postal Money Orders.

A white American, born in Alton, Illinois, on March 10, 1923, Ray is 5'10" tall, weighs 163 to 174 pounds, has blue eyes and short brown hair. He has a nervous habit of tugging at an ear lobe and his left ear protrudes noticeably. Known as a "loner" and "drifter," Ray has worked as a baker, laborer and color matcher. He has taken dancing lessons and completed a course at a school of bartending.

Consider Ray armed and extremely dangerous. Report any information concerning him to the nearest FBI office.

Parolees Have Hard Way
To Go; Lots of Red Tape

A man who has worked with parolees for twenty-five years feels major laws now affecting them should not be changed.

Fred Augustine, of the Iowa Society for the Friendless said Tuesday that laws surrounding former prisoners are now so liberal he would not advocate new laws, but told of the red tape which former prisoners must go through when applying for jobs: "He should be accompanied by a parole officer or a friend

our quiet but stubborn almost 15 year battle to get Negroes on the local high school wrestling squads. Some coaches said the white boys wouldn't work with Negroes. Then we would go over to the school and usually end up working with the whole squad and showing them some tricks. Then we would ask the coach if we were a Chinaman.

It was either Paul Morrison or Harold Wolders who finally broke the bars. We aren't sure who came first. But these two were the first Negroes to wrestle in local high schools. And now there are so many Negroes on local wrestling squads that you can't tell them without a program, and then maybe you had better be there to make sure who is who. Of course before professional wrestling became a show, the rules for amateur and pro wrestling were the same. But now we would hate to see the kids have to put on the show that is professional wrestling today. And if you don't think amateur wrestling can be exiting just go to one of the local high school meets and watch the moms and dads as their son grunts and groans his way through a match.

during job interviews, and must place on job application forms that he was a former convict."

Deviate While society is helping these persons return to society, said Augustine, many jobs are not open to them. He said it was understood that persons who were jailed for forgery or "so-called sex deviate" would have harder times. Further, he is not employed at any business in which he must be bonded.

He took issue with claims that prisoners may be discriminated against in confinement, and said he had been told that prisoners could get along if they did their time and "tended to his business."

However, David Mullins of the Iowa Civil Rights Commission released a report telling of discriminatory measures against Negro prisoners at various penitentiaries around the state.

Augustine had praise for businesses which hired former convicts. "I appreciate persons in the city who hire parolees. They say they are steadier workers."

What's in a Name?

TO THE EDITOR:

What's in a name. Well there seems to be a lot if a careful observation of the newspapers, radio and TV news means anything. You can often detect an editorial point of view towards public figures just by the names they are called . . . and we don't mean the profane kind.

Take the name Muhammed Ali the former heavyweight champion. Anyone in this country has a right to change his or her name and it's done by professional people. Nobody calls Tony Curtis Bernie Schwartz. But when Cassius Clay decided to go by a new name it was a different story. Only now are some publications acknowledging Muhammed Ali. The reluctance of many to accept the change probably was influenced by Ali's religion, color and attitude toward the draft. Of course in some cases it may be carelessness. The Iowa Bystander, a Negro newspaper published in Des Moines, still uses Cassius Clay . . .

No one in printed or radio and TV news, when referring to a U.S. Senator, writes Bobby Byrd, Tommy Dodd, Jackie Miller Dickey Russell or Evy Dirksen. We don't believe it should be Bobby Kennedy either.

To Run for Sec'y of
Agriculture; Owen

Kenneth E. Owen of Centerville Tuesday announced his candidacy for the Democratic nomination for Iowa Secretary of Agriculture. Owen, who held the post from 1965 to 1967, charged the incumbent secretary with failing to maintain an adequate state meat inspection program and other consumer protection

Owen said he decided to run for his old office because much of the duties of the Department of Agriculture are "being performed inadequately, or not at all." Noting that his administration instituted the state's meat inspection, Owen warned that the program could eventually be taken over by the federal government if it is not upgraded.

The 49-year-old Owen, a three term member of the Iowa House of Representatives from 1955-1961, raises beef cattle on his farm in Appanoose County. He recently resigned his position with the Agricultural Stabilization and Conservation Service as a farmer fieldman for eleven counties. Owen is married and the father of two children.

Cooking Thermometer Shelf

THERE is a growing trend in American kitchens to keep many utensils out in the open where they are easy to reach. This is particularly valuable in the case of often-used instruments and those which are apt to be damaged if left to roll around in a drawer with a lot of other tools. For instance, if you have a fine set of cooking thermometers, as so many good cooks do today, it is a very simple matter to construct a small, handy shelf to display them and protect them.

First take a rectangular piece of one-inch board and two rectangular pieces of Masonite Presdwood. This is a par-

ticularly versatile material which can be used for innumerable jobs around the home. The dimensions of these pieces are up to you, depending on the available space and the number of cooking thermometers you wish to display.

These two pieces will actually make two shelves. Into the piece to be used for the top, drill two small holes, into which you can insert the stainless steel stems of your roast meat thermometer and your candy-jelly-deep fat frying thermometer. The round, clock-like faces of the thermometers will prevent them from slipping through the holes, and the thermometers will be always within easy reach if you attach your shelf to the wall or cabinet near the range.
