Must Be United for Integration, NAACP Says

Convention Torn By Young Members

Atlantic City — The NAACP's rejection of any American-type apartheid was re-emphasized by the Association's executive director, Roy Wilkins, at the Freedom Fund Awards dinner which climaxed the 59th annual NAACP Convention here, June 24-29.

The award-winning branches and other units of the NAACP, Mr. Wilkins said in his address, Friday night, June 28, "are not working for apartheid, that hated policy of racial separation, ostracism and rigid control — actual and psychological — that marks the ever-wary and belligerently unhappy nation of South Africa."

Swept

Where, he asked, are the "spellbinders" going "with their calls to racial unity, to racial pride, to racial organization, to racial identity? Will they take us forward to freedom of body, mind and spirit in a nation and world of other men, or will they plunge us backward into the artificial separation, the strangeness, the hatred, the jealousies, conflict and envy of the dark years from which we are beginning to emerge?"

"We have a right to know. We have a right not to be swept on a wave of emotion back into a nightmare we have been trying to escape these many generations. We have a right not to have our allegiance to racial unity and dignity and pride and strength subverted into the sordid suspicion, conflict and death that goes with apartheid. Despite the sweeping statements which the extremists love so madly, the situation we face, as a minority and as a nation, is not the same as it was 40 years ago, or even 20 years ago."

Disruptive

The "historic policies" were reaffirmed by a resolution adopted by the NAACP Board of Directors at its quarterly meeting. Further the Board resolved "that, while jealously safeguarding the right to dissent and welcoming the dissenters in free and democratic debate, the Association cannot and will not countenance tactics which disrupt and obstruct the free working of the Association." The Board called upon the NAACP units "to govern themselves in accordance with the spirit of" the resolution, "in the conducting of all their affairs including, but not limited to, conduct of delegates at the national convention."

ELEANORA E. TATE
In preparation for the State Democratic Statutory Convention, many Negro delegates met Friday night in a Black Caucus at the home of A. June Franklin, Polk County Democratic state legislator, to set up resolutions for adoption by the Platform Committee last Saturday.

Resolutions

Madison; Jacqueline Taylor of Polk County; Mrs. Ellene Clinton, Mr. and Mrs. Joseph Wimberly, Leonard Hudson and Lee Ferguson, all of Polk County; and Charles McMillon, of Cedar Rapids.

Charles Evers: New Hope for Miss. Whites

New York—Charles Evers' position as a politician is not only acceptable to many white leaders in Mississippi, but some even believe that Evers—the brother of slain civil-rights leader Medgar Evers—offers their greatest hope, reports Robert Canzonieri in the July issue of Harper's Magazine.

Negro Teacher Is Installed as N.E.A. President in Dallas

Washington, D.C.—Mrs. Elizabeth D. Koontz, the first Negro to rise to the top post of the National Education Association will be installed as president of the 1.1 million-member organization on July 6, 1968, in Dallas, Texas.

She will take over the NEA reins at the close of the Association's 106th annual convention, succeeding Braulio Alonso of Tampa, Fla. The convention will be held in Dallas Memorial Auditorium, July 2-6.

Mrs. Koontz is a special education teacher from Salisbury, N.C., and her installation will mark the second time in four years that the NEA has had a president from North Carolina. Miss Lois Edinger, a professor of education at the University of North Carolina in Greensboro, was head of the Association in 1964-65. She is now a member of the NEA Board of Trustees.

Teachers to Control All Black Schools

New York City—The new National Association of Afro-American Educators (NAAE) has set black control of black schools as its goal. A first priority will be to attract Negro members away from national teacher groups like the National Education Association and the American Federation of Teachers.

Delegates to the founding session came both from public schools and from higher education. One of the speakers at the general sessions: Muhammad Ali. Conference workshops treated such topics as: "blackening" the curriculum, schools in a black community, materials of instruction, the black student, the black educator and higher education.

NEWS In A Nutshell

New York City — Hatred and contempt of black people has crippled the Negro character and enfeebled the black family. This finding underscores the consequences of white racism revealed in stark detail by two black psychiatrists, Dr. William H. Grier and Dr. Price M. Cobbs, in their book BLACK RAGE which will be published by Basic Books on July 26.

New York — The Nation's largest interfaith fair employment program was launched here Tuesday by Archbishop Terence J. Cooke in conjunction with other religious leaders. Fourteen religious bodies based in the New York area announced their participation in a program to commit their combined multi-million dollar purchasing power to equal opportunity in all aspects of employment by establishing Metropolitan New York Project Equality.

Dearborn, Mich. — Ford Motor Company has received approval from the U. S. Department of Labor to provide training and employment for 250 people in Detroit who do not qualify for other company core-city recruiting programs. The plan will provide jobs for men and women on welfare, high school dropouts, prison parolees, and persons who quit after being hired as part of the company's present inner-city recruiting programs.

Iowa City — The Institute of Urban and Regional Research, a new agency created July 1 at The University of Iowa, will devote some of its early attention to ways of cultivating smaller cities which provide the cultural and social benefits of big cities without the usual urban drawbacks. The Institute embraces several related academic disciplines which have a bearing on urban life, including business administration, economics, geography, law, political science, sociology and urban and regional planning.

and Operation Mainstream at 10,000. Stampley's employment becomes effective July 15.

Mayor Thos. Urban Gives Address; Asks Human Rights Com. Expansion

In an address to the city Friday evening, Mayor Tom Urban said that the Des Moines City Council will be asked to act on a revised fair housing ordinance. "Actions by the Federal Legislature and the recent Supreme Court decision on the 1966 Civil Rights Law should leave no doubt in our minds that the days of discrimination in housing are numbered. The revised ordinance sets forth procedures where citizens can obtain redress for legitimate discrimination grievances." Urban said he will urge the Council to act favorably on the ordinance when it comes up.

The Des Moines Human Rights Commission, said Urban, should be expanded to include members of the School Board and County Board of Supervisors and "designating it as their official body as well as ours. I believe this would indicate that all three taxing bodies are firmly and actively in favor of equal opportunities for all citizens of the area."

Police

The City Manager and the Police Chief should move forward in police recruitment program and he did not feel "we have approached the problem with the necessary sense of urgency needed."

"I have been concerned with minority rights and I will continue to be so," Urban said. "I firmly believe that prejudice must be rooted out of our society . . . and that the white citizens must be willing to live with, work with and go to school with their fellow man. Those members of our society who preach hate and fear of the black man or those Negroes who preach hate and fear of the white are not needed and not wanted . . . However, I am

Assn. of Afro-Am. Educators Is Formed

Chicago — "It was a most hopeful beginning. The Black educator is getting himself together," said Preston Wilcox in retrospect about the recent National Conference of Afro-American Educators held on the south side of Chicago, Illinois from June 6-9. More than a thousand Black educators, a group variously including school teachers, professors, community organizers and students dialogued and monologued about the crisis facing the Black community and sought innovative educational means for making their contribution to its resolution.

Bring 'Em Back Alive

Before leaving on a July 4th holiday trip, make reservations for the various overnight stops required, if at all possible. If advance reservations are not made, check into a hotel or motel at an early hour to avoid the last minute rush for accommodations. This can eliminate the possibility of pressing an extra twenty or fifty miles before turning in for the night, suggests the American Automobile Association.

becoming increasingly concerned with the movement toward extremes on both sides . . . the bombing of the policeman's home is one form of attempted assassination," and made remarks that the community will not tolerate that or window breaking and disruption of passage on city streets "whether it be on University or scooping the loop . . . We must make Des Moines a city of true equal opportunity if we are to achieve the greatness that can be ours . . . If the fortunate majority refuse help to the unfortunate minority because of selfishness and prejudice our institutions will decline and our society will falter and eventually fade."

Urban urged that minority groups be given equal opportunity in jobs, promotions and training and job experiences which lead to promotion.

Urban stated that "few citizens are really aware of the challenge that we have if we are going to make cities really decent places in which to live."

The Mayor said for the last three months the Council had worked to create Citizens Task Forces in order to achieve greater co-ordination of all activities in the city, and has the potential of helping to effect and guide change in the community.

Crime

Urban urged all citizens to participate whenever possible in the Model City program, since "Des Moines has a chance to show the rest of the nation how cities can survive under the strain of rapid change."

He pinpointed one of the most crucial problems in Des Moines—crime, and "while we have begun to take some steps in the direction of reducing crime much remains to be done. Part of our responsibility for crime prevention lies in active citizens participation," and he urged everyone to participate in the county-wide Crime Alert program which went into effect Monday.

Rap Brown, former SNCC chairman; Dr. Nathan Wright, organizer of the Newark Black Power Conference; John Wilson, National chairman of Black Anti-Draft and SNCC organizer; and Phil Hutchin, program secretary of SNCC; a number of African and Asian Ambassadors, representatives from other American minority groups, representatives from other American minority groups, representatives from the Black Panthers and other black groups as well as representatives from the board general black community.

What Really Happened At the Algiers Motel?

On Tuesday evening, July 24-25, three black youths were shot to death in the Algiers Motel during the Detroit, Michigan 1967 riots. Police and National Guardsmen dismissed the deaths as defense from sniper fire. Inside the hotel, however, no guns were found on either of the three youths.

In alarming, concise horror Pulitzer prize-winning author John Hersey describes his findings in the bizarre and still mysterious incidents surrounding the deaths of Aubrey Pollard, Carl Cooper and Fred Temple. The Algiers Motel Incident, published by Bantam Books and Knopf as told by Hersey relates the duplicacy of information told by the police: "Army under fire" according to dispatcher's phrase after a starter pistol (used for starting races) was fired; of Detroit policemen stating that "State police broke open the door (of the Algiers), while the state

troopers speak of following in the "train of Detroit policemen."

Cops Hersey retells the murder stories by speaking with policeman David Senak who had been implicated in one of the killings but later freed (he was suspended); policeman Robert Paille, charged with the murder of Temple was "walking the streets of Detroit without ball". Cop Ronald August was also free, on bail, but free.

Through Hersey's investigation, he places the finger on the reluctance of the police department in its failure to carry out orders of Riot Procedure, of beating the victims, two white girls and two other Negroes in the Motel in an effort to find the "sniper's guns", of playing a game which could be called, "Confess or die". The author also alleges that "violence breeds violence"—following the death of Dr. Martin Luther King, Jr., police shot and killed two looters, one accidentally, the police said: "an eighteen-year-old named Robert Baughan, who, with his hands up, backed into a cop's gun and died of carelessness."

Rockefeller Continues His Presidential Campaign

Governor Nelson A. Rockefeller continued his cross-country campaign to talk with delegates to the Republican National Convention last week with stops in New England and the Midwest, including Iowa.

Governor Rockefeller told audiences throughout the nation what he believed about America, its problems and their solutions.

The Urban Crisis—"I don't merely guess that Republicans can find solutions for the crisis. I know it. For we are finding them in New York. We have programs of community de-

velopment, urban reconstruction, mass transport, and school and hospital construction that dwarf the federal effort.

"And because they operate largely on a self-liquidating basis, they cost comparatively little to the taxpayer. Recently we established an Urban Development Corporation to overcome the inertia and red tape that afflict urban renewal projects. This corporation is designed to attract \$5 of private money for every dollar of public investment. Such programs can be devised by states across the country."

HEALTH FOR ALL

Doctors vs. smoking—Doctors in the California Medical Association, 97% strong, consider cigarette smoking a health hazard, a recent survey shows. Of these, 85% advise their smoking patients to quit, and a majority favor a ban on cigarette advertising.

Mumps in the dumps—A new mumps vaccine appears to have retained its effectiveness for two years in nearly 500 children who received it, according to a West Point, Pa., researcher. He also reports that 95% of the vaccinated youngsters exposed to the disease did not contract it, as opposed to 60% of a non-vaccinated group who did get mumps when exposed. (Today's Health Jan., 1968)

Doing something right—A drop in the U.S. death rate for the first half of 1967 was noted by Wilbur Cohen, Under Secretary of Health, Education and Welfare. He suggested it might be due to increased use of medical aid by the poor and elderly under medicare.

And a merry one?—Speaking of vital statistics, a space scientist named Theodore Gordon recently forecast that children born around now may have a life expectancy of 100 years. He based the prediction on the probable availability of artificial organs on a mass production basis, with millions installed (he hazards) by the end of the century.

Health drama—A dramatic film called "The Elusive Enemy," about the still-present hazard of tuberculosis and what can be done about it has been issued by the National Tuberculosis and Respiratory Disease Association. School and college teachers and members of social or civic organizations can arrange for showings of the film to their groups by contacting the local Christmas Seal Association.

David L. Mullin Is Named Civil Rights Director

David L. Mullin was named by the Iowa Civil Rights Commission as the executive director on June 26. Mullin, 35, has been serving as the acting director since the resignation of James Thomas on March 1, 1968. He had been appointed as the compliance director on Aug. 1, 1967, following his service since Nov. 14, 1966, as the Commission's investigator. The new director, who was born in Spalding, Neb., holds a B.E. degree in education from the University of Nebraska, and has done graduate work there in guidance counseling. He previously had worked for four years in the U.S. State Department's diplomatic courier service, and had worked prior to that as a junior business executive

and as a school teacher. His salary is \$11,100.

Compliance

Miss Dorothy P. Wilkerson, 24, was named by the Commission as the Compliance director on June 26. A native of Donalds, South Carolina, she is a recent graduate of the University of Iowa Law School and is a new member of the Iowa Bar. She also holds a B.A. degree in history and social science from Bennett College in Greensboro, N.C. Miss Wilkerson worked during the summer of 1967 as a legal intern in the civil rights division of the U.S. Department of Justice.

She began July 1, and salary is \$9600.

Begin Crime Alert Program: 283-4811

The Crime Alert program for the greater Des Moines area is underway. A special Crime Alert telephone number, 283-4811, is ready for anyone to report suspicious activities to the police. The post office box #4811 is in operation for citizens to write in information helpful to law enforcement officials. You need not give your name when calling or writing.

Information

In reporting remember and give as much information as possible. Report what is happening or has happened; the address or location of the incident; the description of the scene as to number of persons involved, their age, weight, height, etc. Where an automobile is involved, note the direction of travel, license number, make and color of car.

Citizens can be involved in the Crime Alert program immediately by adopting a lighting policy. Simply leave an outside light and an inside

light burning all night. "3¢ a night keeps everything right". It is a known and substantiated fact that criminals prefer to operate in the dark. Police statistics show that the crime rate is reduced in well lighted areas.

Meeting

The Crime Alert program is new. The committee urges all citizens to become involved. You need your help to make Des Moines a safe place for all citizens and with your help the fears of many can be erased. The next general public meeting on Crime Alert will be Wednesday, July 10 at 7:30 p.m. at the Y.M.C.A., Mott Auditorium.

Bring 'Em Back Alive

There is a better opportunity to "Bring 'Em Back Alive!" over the July 4th holiday weekend, if passing on the highway is minimized. It creates less tension and a lessening of tension reduces chance-taking, says the American Automobile Association. It is much more relaxing and enjoyable to maintain a position in the traffic stream and travel at the stream rate, maintaining a following distance of one car length of every 10 miles an hour.

Murphy Re-elected Pres. of Afr. Am. Newspapers

New York — John H. Murphy, III, publisher of the Afro-American Newspapers, was re-elected president of the National Newspaper Publishers Association at its convention which adjourned here.

On Friday, June 21, the annual coveted Russwurm Awards were made to Honorable Willard Wirtz, Secretary of Labor; Walter Washington, Mayor of Washington, D.C.; Carl Stokes, Mayor of Cleveland, Ohio; Richard Hatcher, Mayor of Gary, Indiana; Pearl Bailey, star of "Hello Dolly"; and Tom Hawkins, Los Angeles Lakers football star.

Gibson For Iowa House

Ben J. Gibson announced Monday that he will seek the Republican nomination for the Iowa House of Representatives from Polk County's 11th District.

Gibson is president of The Gibson Company, advertising, and The Book Store, Inc., both of Des Moines. Gibson said that as a result of the subdistricting act, "The voice of capital city Republican will be heeded by the state legislature for the first time in many years, co-operation and understanding will be improved, and all this will reflect to the benefit of the cities."

Gibson has been active in the Republican Party in Iowa for a number of years and was the Republican candidate for United States Congress, Fifth District, in 1964. He served on the 1966 Republican State Platform Committee and was named "Outstanding Project Chairman" for his service as campaign director in Polk County in 1966. He currently serves on the Polk County Republican Executive Committee.

A native of Des Moines, Gibson, 46, attended public schools here and graduated from the University of Virginia in 1947 where he also did graduate work in American History. He served in the United States Marine Corps from 1942 to 1946 and was discharged as a First Lieutenant.

The Poor People's Campaign ended as a physical reality, but the impact of 3,000 poor souls, red, white and black living together in more harmony than that which is found in many metropolitan centers, will live on.

The very realization that poor people who have never had a voice in affairs of Congress, last month made headlines in every major newspaper, radio and television in the western world, is proof that it made gains.

Those who criticize the Campaign and look back to the old times when everybody was a good "Negro" should remember that this country's policies are such that a demonstration such as Resurrection City was an innovation which left many veteran demonstrators wishing they had thought of it first. . . . Let me know how you feel.

Black power has been here for a long, long time. . . . back then they called it "gettin' uppity" or "gettin' out of place" . . .

this—they will take over the presidency, and you'd hate to have Europeans talking about "the Chicken in the White House." The chickens know they've got it good. They sit around and lay eggs, eat worms and crow in the barnyard—they look honest, but go to a farm at midnight when everything is supposed to be still. You'll hear the chickens in their dirty chicken coop cackling and planning.

If the chickens went on strike the country would collapse. Women could not shampoo their hair because there would be no egg shampoo. We would have to rely on ducks and geese for feathers in our mattresses and pillows.

Out on the farm, look at a chicken pecking innocently at the ground, and you think the cat's after worms! False! He's got a map on the ground and he's picking out which cities to capture—peck peck—this one, and this one and this one . . .

As of now I am establishing the Anti-Chicken League to combat the deadly creatures. Slogan to make the citizens of this country waken to the Churlish Chicken is "Feathers away, support the ACL for a better life and avoid crime in the streets."

Take it slow and watch out as you tighten up.

Robinson Speaks

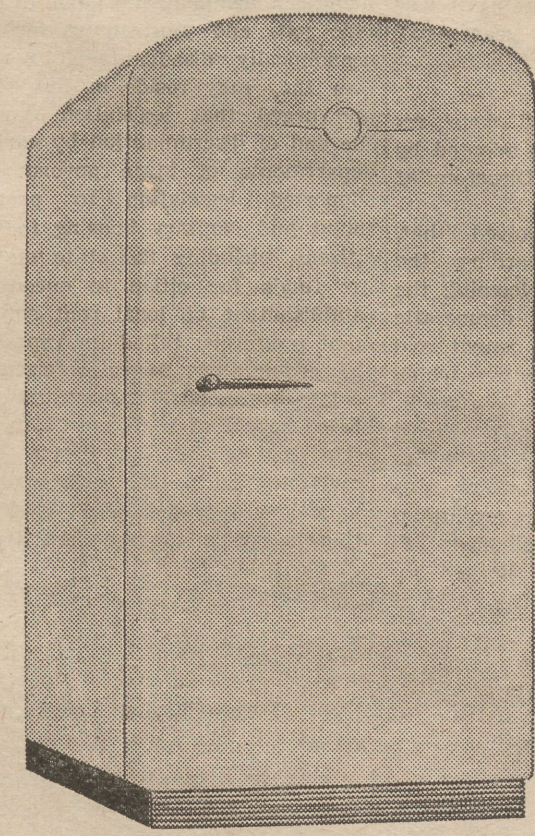

Against Dick Nixon

New York — "If Richard Nixon is nominated by the Republican Party to be its candidate for the Presidency, I am a Democrat." Thus spoke Jackie Robinson, the former baseball star and special assistant to Governor Nelson A. Rockefeller of New York, in speaking to delegates to the National Newspaper Publishers Association, which closed their annual convention here recently.

The occasion for the attack on Nixon took place at the Robinsons' ranch-style home in Stamford, Conn., where Jackie hosted a brunch for the visiting publishers. As Robinson spoke, Gov. Nelson Rockefeller was at his side, and many of his listeners wore "Rocky" buttons.

Appetizing Ways With Salad

TO SPARK AN APPETITE for the meal to come, California hostesses like to serve a bowl of crisp salad greens with a light and lively herb and spice dressing as a first course. This increasingly popular custom is finding its way to other parts of the country too now that appetizing salad dressings with just the right amount of herbs and spices can be so easily made from an envelope of Good Seasons salad dressing mix. Here is a typical Western recipe:

PARMESAN GREEN SALAD
1 package old fashioned garlic salad dressing mix
Vinegar, water, oil
2 medium heads romaine, cut into 1-inch pieces
¼ green pepper, sliced (optional)
1 cup garlic croutons
1 tablespoon Worcestershire sauce
2 tablespoons wine vinegar
6 anchovy fillets, finely cut
¼ teaspoon pepper
¼ cup grated Parmesan cheese
½ teaspoon salt
¾ cup mixed salad dressing

Combine salad dressing mix, vinegar, water, and oil as directed on the bottle or package.

Place romaine, green pepper, and croutons in large salad bowl. Chill. Combine Worcestershire sauce, vinegar, anchovies, pepper and cheese. Whip with a fork until smooth. Add salt and ¾ cup of the dressing. Whip again. Pour over chilled romaine, toss lightly, and serve immediately. Makes 6 cups, or 3 or 4 servings luncheon or entree salad or 6 to 8 servings side salad.

Conservation Comm.
Stand on Gun Law

The Iowa State Conservation Com-
mission has reaffirmed its stand on
gun control legislation. "We certainly
are not opposed to responsible gun
control," stated Chairman Mike
Zack, Mason City. "However, we
cannot support legislation that will
harass or place harsh restrictions on
honest sportsmen or gun owners."
"We do urge that lawmakers take
a very careful look at any proposed
gun legislation. Emotionalism or
mass hysteria does not have a place
in the formation of firearms legisla-
tion. There is no reason why gun
legislation should not be seriously
considered. But the citizens of Iowa
and the nation must also consider
the object and results of any legisla-
tion."

In considering proposed laws, the
State Conservation Commission urged
that any legislation concern itself
with the person not the weapon.
The Commission feels that prohibi-
tion of sales or ownership of fire-
arms to felons, drug addicts, habitual
drunkards and mental incompetents
is certainly proper and will support
it.

Your professional beautician knows the answer...

Is peroxide needed to color unwanted gray hair?

Hair care and beauty experts know that the first traces of gray hair—and even slight fading of natural color after chemical relaxing—can dull a woman's appearance and make her look older than she feels. While most women hate these premature aging effects, many are hesitant about using permanent peroxide haircoloring which may change the natural hair color while coloring gray.

Professionally-trained hairdressers know the importance of their customers' preferences when unwanted gray becomes a problem. These experts also know that Clairol created semi-permanent Loving Care® hair color lotion without peroxide... to color only the gray without changing the natural shade. They also find Loving Care blends back color faded by chemical processing. Because of its mildness, Loving Care maintains healthy looking hair and lasts through a month of shampoos.

Whatever a woman's reason for wanting Loving Care for her hair, she is always wise to consult a professional beautician. Hairdressers are equipped with a family of fine Clairol products and the training to promise each patron the loveliest and most personalized haircoloring effects every time she visits her salon. If you dislike gray, and want no peroxide, why not ask your beautician to glamorize it with Loving Care?

Quick-To-Make Holiday Favorites

When every hour means so much during the pre-holiday season—make these wonderful Chocolate Crisps with no fuss or effort.

Homemade Christmas candy brings a great deal of pleasure to all—young and old alike. However, candy-making is sometimes a tedious process which can take up many precious hours of your pre-holiday time. Well, now you won't have that problem to face—nor a messy clean-up job either—when you make these speedy simple candies. Chocolate Crisps are prepared so quickly and easily that even the youngsters can turn out several batches in one afternoon. And you need only two ingredients—candy-making chocolate and candy-coated puffed wheat—to make three dozen crispy candies.

French Cocoa Balls, also quick and easy, are a soft, fudgy type of candy made with a new sweet cocoa mix. They can be rolled into various shapes with many attractive variations such as chopped walnuts, ground pistachio nuts, toasted coconut, etc. Economical, too, when every batch makes three to four dozen French-type chocolates.

CHOCOLATE CRISPS

1/2 package (4 squares) candy-making chocolate
2 cups candy-coated puffed wheat

Heat chocolate over boiling water until partly melted. Remove from water and stir rapidly until entirely melted. Add candy-coated puffed wheat and mix well. Drop

from teaspoon on waxed paper or press into greased 8 x 8 x 2-inch square pan. Cool until firm. Makes 3 dozen clusters or squares.

FRENCH COCOA BALLS

1/2 cup 4-in-1 sweet cocoa mix
4 tablespoons butter
2 tablespoons milk

Combine cocoa mix, butter, and milk in saucepan. Place over low heat only until butter is melted and cocoa mix is dissolved, stirring constantly. Remove from heat. Add 1 cup of the sugar and the vanilla, mixing well. Blend in

2 cups sifted confectioners' sugar (about)

1/2 teaspoon vanilla

remaining sugar gradually until mixture is stiff enough to knead with fingers. Knead for 2 or 3 minutes. Shape mixture in 40 small balls, and roll in breakfast cocoa.

THIS VALUABLE PROGRAM WILL HELP

One Nation Indivisible, a 3½ hour television show Monday night, was a novel program in furthering a better day for solidifying America in its quest for racial peace and understanding.

We doubt that its producer was trying to display very much that news media and right thinking people have been saying all along. But the novelty was that the field was pretty well covered and produced in such a manner that more people could learn about and build on the effort being made to offer equal opportunity to the Negro and in such manners that he can fully use it to the best advantage.

Hundreds of thousands of dollars were spent bringing this program to the people much of which was provided by the Meredith Corporation of Des Moines. They are to be commended for participating in the venture just as they are doing along with other large employers in Des Moines which is moving rapidly in providing equal opportunity for minorities.

We are inclined to say that too many excuses were offered in answering questions rather than face the issue and say what is rather than we would like to have it or nothing.

Emphasis was placed on how and where concerned citizens might offer their services in helping to solve the problems faced by Negroes. This is especially helpful in that there are those who want to become involved but don't know where to begin.

All in all it was a good program built up to promote the solution of a problem in the same manner as advertisers use to publicize a product. Its influences will be felt far and wide.

FRUITS OF POOR

LAW ENFORCEMENT

To the old time citizens in years gone by, Center Street was the core of rowdiness among Negroes in Des Moines. There were good business places conducted by good citizens; there were joints that were a disgrace, bringing to the area, and the city for that matter, many hoodlums. And in spite of the fact that public officials knew about it, they did little to correct the situation as long as white people were kept out.

Urban renewal has taken over the area now which forced these people to move and they have concentrated on University Avenue where conditions have become pretty miserable for people who travel the street and many who live and work there. Autos have been stoned, some business placed closed or boarded up.

In an effort to restore law and order to this community, the police department has kept an extra force on duty in the area.

We are surprised that requests have been made that the police patrols should be removed. These people have the car before the horse. When did it ever become sensible that law violators should be allowed to molest people with no protection given by the police department? This is unfair to the taxpayers and the public which use the street.

Law enforcement officials have allowed rotten places to operate with their knowledge. This situation is a part of the fruits of tolerating poor law enforcement in Negro areas all along.

SCHOOL'S OPEN

SPORTS

With Allen Ashby

In the controversy between the Iowa State Athletic Council and the Black athletes we would think the Council would do the athletes the favor of meeting with them instead of arguing through the newspapers. We don't know how right the Negroes' sides are, but a confrontation should be in order. Perhaps the athletes could be persuaded to remain if they were talked to. We aren't surprised at the statements of a few that they aren't leaving. No movement is usually one hundred per cent and these fellows are only human. Each man looks at the thing in his own light as it affects him. But if half the fellows leave it will be too bad.

Olympics

And in the meanwhile the black athletes dominate the Olympic trials in the short races, hurdles and jumps. They will have made up their minds by the time you read this whether to boycott or not.

We wonder if the football, baseball and basketball players are thinking in terms of boycotts? Can you imagine Willie Mays at \$125,000 or Frank Robinson, at \$100,000 boycotting anything that will cost them that much dough? There weren't so many black players on the all star baseball teams this time. Last year the National League had an all black outfield. This year there will be two. And so it goes.

Sifford

And while we talk of other team sports the guy who deserves all the credit in the world is golfer Charlie Sifford. He plays alone. People don't crowd to watch him. He must be the loneliest golfer in the various meets and yet he always finished in the money, rarely winning less than a thousand dollars. That takes courage and skill. The guy has his share of both. We wonder why somebody hasn't done a real feature story on him?

Edward Robinson, father of Rene Robinson tells us Rene plays third base for the Athletics in the University Little League. So far this season he has hit seven home runs, the most in his league. Rene plays third base, but also catches and plays short stop.

Robinson filled me in on the whole lineup—there are five Negroes on this team, Jim Kirby, Mark Bailey, Rene, Glen Fugate and Walter Matlock. Playing good ball, Robinson said. They came in second in their league in the first half and tied for first in this second half.

In both tennis and golf we have just one name. Yet we have probably had a number of tennis players who could have made it big if they had got to play the circuit. But we don't know about golfers. We were never a golf fan and our knowledge of good black golfers is limited. There may have been a few of them. Oh yes, there was one, Ted Hayes.

AFL-NFL Schedules 23 Games With Each Other For This Fall

New York — American Football League teams have completed a record 36-game pre-season schedule that runs from Aug. 1-Sept. 7 and includes 23 games with National Football League clubs, AFL President Milt Wodard announced Monday.

The record schedule — 29 games were on last year's program—begins Thursday night, Aug. 1 at Houston with the first professional football game ever to be played in the Astrodome as the AFL's Eastern Division champion Oilers meet the Washington Redskins of the NFL.

A three-game program on Sept. 7, highlighted by the New York Jets' appearance at Cleveland in the first game of a doubleheader against the NFL's Detroit Lions, closes out pre-season action one day after the regular season opens Friday night, Sept. 6 with Cincinnati at San Diego.

AFL-NFL

Besides the Houston-Washington game, the opening weekend program shows Baltimore (NFL) at AFL champion Oakland, Kansas City at Cincinnati and San Francisco (NFL) at San Diego on Saturday night games and Detroit (NFL) at Buffalo in a Monday night game. The Kansas City-Cincinnati game marks the Bengals' AFL debut.

The other four AFL teams—Bosmove into action the following weekend. Boston is at New Orleans (NFL) and Denver is home to Cincinnati on Saturday night, Aug. 10; Miami meets Buffalo at Rochester, N.Y., Sunday afternoon, and New York is at Houston Monday night.

Houston, Kansas City, Miami and San Diego each will meet three NFL opponents. Boston, Buffalo, Denver, New York and Oakland will meet two NFL clubs. The new Cincinnati team will meet one.

Soccer Greats Tour

Chicago — The Middle American Sports Foundation, Inc. (MAS), kicked off its 1968 series of 64 intensive international sports clinics in Central America and Panama, Monday, July 1, when two Brazilian

soccer greats take to the field in San Salvador, El Salvador.

Vincente Feola, former coach of the Sao Paulo Soccer Club, and Jose "Zito" Ely Miranda, of the world-champion Santos Soccer Club, will be on a two-week tour of Central America and Panama, teaching coaches and players some of the refinements of soccer play as practiced in Brazil.

Bring 'Em Back Alive

Don't wait until the gas tank is hovering around zero to decide to

take on another load of gas. It doesn't hurt to fill the tank whenever you stop for a rest or a break, and at the same time have the radiator and oil checked, and check tire pressures and the spare tire as fre-

quently as possible, suggests the American Automobile Association. An out-of-gas problem on a busy highway can create serious difficulties for yourself and for others which could have been easily avoided.
