Model Cities Program Struggles Charges Police Brutality in Arrest

Blood-spattered Apartment in Subduing Clark

Last week Mrs. Edward Clark, 740-16th Street, telephoned the police Department a report that she and her baby had been hit by her husband. Soon after, two officers arrived on the scene and attempted to arrest Clark who was lying on a couch. Mrs. Clark warned the two officers that her husband had a gun. When they attempted to arrest him he refused and it is alleged he made several attempts to hit the officers. In the meantime, more officers arrived and in the process of subduing Clark, they tore up the place and splattered blood on the walls and furniture.

Hospitalized

Edward Clark, 36, of 740 Sixteenth st. says he was beaten with a "sap" -- a weighted leather weapon -- by a policeman Friday night. He said he was taken to a hospital for stitches.

Clark was charged with aggravated intoxication and given a 30-day suspended sentence Saturday by Municipal Court Judge Ray Harrison.

Wants Apartment Cleaned

Rev. Orzealya M. Roberson of 1112 Ninth st., owner of the apartment building, complained about blood splattered on the floor and walls.

Mrs. Roberson, founder of Friendship City, a half-way house at 925 Ninth st., said she wanted the police to clean up the mess or pay for the cleaning job.

Chief Nichols said he is investigating the "brutality angle" and also the reason for the large number of police at the scene.

The Des Moines branch NAACP at its meeting Tuesday instructed its legal redress committee to investigate and take such action as the case required.

Thompson Suspended

Detective James P. Thompson has been suspended from the police department pending investigation of the possession of nude pictures found in his locker last week.

The pictures were seized on a warrant issued by Judge Ray Harrison to Sergeant Perry. The matter has been referred to Chief of Police Nichols for further action.

Flash -- Thompson submitted his resignation to Chief of Police Nichols in a letter submitted Thursday afternoon.

Gordy's a Heart-felt Hit with Inner City Students

DETROIT, Mich., March 24. -- Eight inner-city high school students discovered last week that Motown President Berry Gordy, Jr., and his family have hearts to match the company's vast collection of gold records.

Because of the noted family's personal interest in their future, the students will enter Wayne State University in the spring quarter.

Their tuition will be underwritten by Gordy Foundation, Inc., through the Louey Gordy Wakefield Scholarship Fund established three years ago in memory of the late sister of the Motown President.

The Gordy awards are administered through the Higher Education Opportunities Committee (HEOC), a program headquartered at

New Insure Accident Plan

A revolutionary new type of auto insurance plan offered by Preferred Risk Mutual Insurance Company has been approved by Iowa Insurance Commissioner Lorne Worthington, following a public hearing on the plan. Designated AUTOMATIC PAY, the plan provides for reimbursement of out-of-pocket expenses, up to \$10,000, \$11,000 or \$15,000 to injured auto occupants, regardless of fault.

Answer to Criticism

Bernard Mercer, President of Preferred Risk, stated that the plan is being offered to the public as a partial answer to some of the criticism which has been leveled against the present "liability" insurance system. The new "no-fault" coverage fills a real need for providing quick compensation to injured wage earners, particularly in accidents where the question of fault is in dispute. There are some cases where there is doubt on the question of fault, or where the driver himself actually was at fault. In these cases an injured party gets no compensation at all or sometimes encounters substantial delay. With the increasing accident frequency in our highly motorized society, this can impose financial hardship in many cases.

Coverage

The specific expenses covered are income or wage loss up to \$750.00 per month with a maximum of \$9,000.00 -- and medical expenses up to \$1000.00, \$2000.00 or \$5000.00 at the option of the insured when he purchases the coverage. Eligible for payment, is the insured as well as all occupants of the car. Each occupant is eligible to receive the full amount of the protection, again without regard to who was at fault.

It provides prompt payment on a no-fault, no-fuss basis. At the same time it does not eliminate the regular "liability" or fault portion of the policy. If there is an "at-fault" driver the right to proceed against him as ultimately accountable is retained.

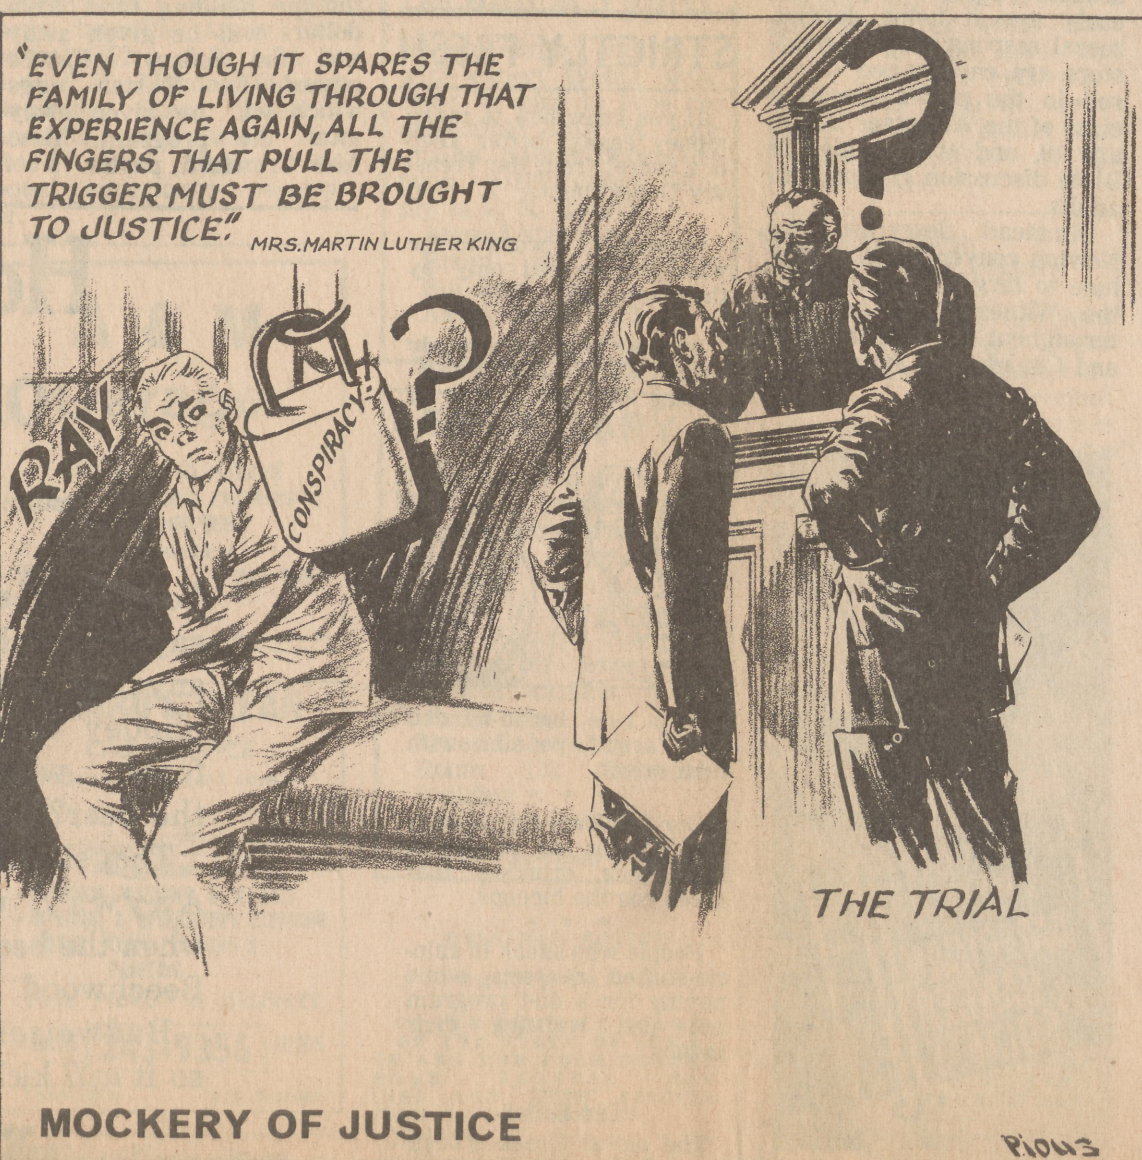

The retention of the traditional fault system, while at the same time providing prompt no-fault benefits is the significant difference between the Preferred Risk plan and other plans recently proposed for providing no-fault benefits.

The rate charged for the new coverage will vary depending on the use of the car and the territory in which the insured resides. In Des Moines, for example, for an adult driver using his car for pleasure use only, the charge for the \$10,000 basic limits is \$17.60 annually. This is a relatively modest charge for a substantial amount of protection.

WSU, and designed to mobilize community resources to enable inner-city youth with college potential to realize higher educational opportunities.

No strangers to the Motown Sound, the students were each presented a copy of the album (LP) "IN LOVING MEMORY," a tribute to gospel selections recorded by Diana Ross and The Supremes, Marvin Gaye, Smokey Robinson and The Miracles, The Temptations, Stevie Wonder, The Four Tops, Martha Reeves and The Vandellas, Gladys Knight and The Pips.

All proceeds from the sale of this album are directed to the foundation.

NAACP Pushes Drive For Lower Voting Age

NEW YORK. -- Urging support of the National Youth Mobilization Conference in Washington, April 21-22, NAACP Executive Director Roy Wilkins this week cited the Association's long history of working for an enlarged electorate.

The NAACP Youth and College Division is rallying the conference in the Nation's Capital to bring together at least 2,500 youths from across the nation to present a strong voice in favor of lowering the voting age from 21 to 18 years.

Senator Edward Brooke has endorsed the conference. In his statement to James Brown, Jr., director of the NAACP youth and college division, the Massachusetts Republican said: "I have long

been in favor of legislation to lower the voting age to 18. Young people in America today have vast responsibilities. In most states they are held legally responsible for purposes of contracts and before courts of law. (They) are in a position to inject new ideas and a new spirit of participation in our government and economy."

"My best wishes are with the members of this conference in their endeavors." Delegates attending the conference are expected to contact members of Congress in person, and to participate in a series of seminars and meetings to be addressed by experienced legislative representatives and by congressional leaders.

Ford Makes New Grants

NEW YORK, Mar. 26 -- Minority business enterprise ranging from youth-gang-turned entrepreneurs to efforts to improve the status of household employment will be assisted by Ford Foundation grants announced today. They include:

-- Grants totaling \$221,000 to support the constructive activities of two Philadelphia community groups headed by former gang leaders.

-- \$100,000 grant to the National Committee on Household Employment, which seeks to upgrade household employment by helping to set up training programs, cooperatives, and businesses operated by maids or former maids.

-- Grants totaling \$883,325 for bonding programs to help minority building contractors bid on construction jobs in Cleveland, New York City, Boston, and Oakland, Calif. The programs were endorsed in a statement by Floyd H. Hyde, assistant secretary of the U.S. Department of Housing and Urban Development, whose office administers the Model Cities Program.

Story in Sepia Magazine on Kennedy Death

Millions of persons in the United States have never been satisfied with official explanations of the murder of President John F. Kennedy, and there are forces at work right now attempting to solve the murder.

In its April issue, SEPIA magazine quotes an Indianapolis astrologer as saying Mrs. Jackie Kennedy will "solve" the case -- and sometime this year. The astrologer points out that this is one of the reasons Jackie consented to marry Aristotle Onassis -- to gain a podium and financial power from which to carry on her investigation of her husband's murder.

In the same issue, Sepia unearths a shocking condition on the doorsteps of the United States that was believed to have been exterminated a hundred years ago -- slavery. The story points out slaves can be bought in South America for as little as \$5 a head.

Also, the magazine features a story on the newest racist threat to the world, an Englishman named Enoch Powell. Racism is catching on like wildfire on the tight little isle of Britain as thousands of immigrants flock into the country every year. Powell's political appeal is such that his ravings about black "interlopers" gained him up to 90 per cent of support of his white constituency.

This man Powell is obviously a dangerous man, for its demagoguery like this that sways men's minds, much as George Wallace has done in the United States.

Dahmer Murder Suspects Face Trial

HATTIESBURG, MISS. -- U.S. District Judge Dan Russell has set April 28 as the date for the trial of former Ku Klux Klan chieftain Samuel H. Bowers, Jr., and 15 other men on Federal conspiracy charges in the 1966 firebomb slaying of Vernon Dahmer, NAACP civil rights leader.

NEWS In A Nutshell

Washington D.C. -- Philip Pruitt, New York business man and small business counselor today was appointed Assistant Administrator for the Small Business Administration's Minority Entrepreneurship Program.

Pruitt, a 33-year-old Negro, took the oath of office from SBA's new Administrator, Hilary Sandoval, Jr.

Pruitt will supervise the agency's programs of assistance to the nation's small business minorities. These programs include financial aid, help in getting government contracts and management assistance.

Washington D.C. -- President Nixon has asked the Civil Service Commission to spearhead the Federal Summer Employment Program for Youth, and to provide leadership and direction for the employment, utilization, supervision, and counseling of summer employees.

The President has asked the heads of Federal departments and agencies to hire, as part of their normal summer employment program, at least one needy young person for every 40 regular employees on their payrolls.

PRINCETON, N.J., Mar. -- Wanting young Negro women to be among the first group of coeds at Princeton University, admissions officers here have alerted organizations and individuals across the country who are in a position to make Negro students aware of this possibility.

Washington, D.C. -- Researchers and filmmakers will team up in a unique experimental effort to use educational motion pictures to build a sense of pride and self-confidence in minority group children, the U.S. Office of Education said today.

Under a contract with the Office of Education's Bureau of Research, the team will research, produce, and test a 25-minute color pilot film depicting the life of a significant but little-known figure in Negro history such as astronomer Benjamin Banneker or Explorer Matthew Henson.

New York -- A group of Baltimore banks will receive a \$100,000 credit guaranty from the Ford Foundation for use by the Ebony Development Corporation, a project of the Council for Equal Business Opportunity. The guaranty will enable the corporation to borrow the funds needed for purchase by black employees of ten inner-city supermarkets in Baltimore now owned by whites.

Under the 1965 Voting Rights Act, the 16 defendants, most of whom were identified by the FBI as past or present Klansmen, were indicted in March, 1966, for allegedly conspiring to violate Mr. Dahmer's civil rights because of his activities in aiding Negroes to vote.

Three of the defendants have been convicted of murder in circuit court and sentenced to life imprisonment. Another was given a 10-year sentence following an arson conviction in the state courts.

Competition by Boards for Control; City lags in Providing Leadership

Model City is a muddled term to most people partly because the federal government brought in the idea without much thought and selected cities to carry them out without much clear guidelines to go by. Consequently most of them are stalled, not because the local people would wish it ill luck but mostly because it is not easy to plan just what to do.

Thus one survey after another brings up the same results as were gathered recently showing when Des Moines was designated to participate in the Model Cities Program and the area selected, it was thought that improvements would be going on in every direction. However, a recent report by the Model Cities Planning Board (and there have been many preceding this one) states that: "Old and sick people living in old, decaying houses; old junk cars and furniture moldering behind tumble down backyard fences; old schools and old churches; lawns and playgrounds beaten bare by many years of tramping."

Same Old Conditions The report states that the following conditions still exist in the area: The report makes these other points about the 988-acre Model Cities area north-west of the downtown business district: It has 16,000 residents (16.4 per acre, as compared to 5.1 per acre for the city), 25 per cent of whom live in housing that is beyond repair or soon will be.

One-quarter of the families subsist on incomes of less than \$3,000 a year.

About 50 per cent of the households are headed by persons 55 or over, a group that cannot be expected to ever improve their economic position.

Thirty-eight per cent of the population is black (as compared to 5.3 per cent for the city), and while unemployment is not a consuming problem -- about 4.3 per cent -- underemployment (persons with jobs that do not match their capacity) is.

Plans have been prepared including costs of the program and are now in the hands of the city council. After they mull over it, the document may go to the district office and finally to Washington. When and what portion of the recommendations will be approved and sent back for putting it into operation is problematical. In the meantime, the average resident in the area is left in a quandry for how long, nobody knows.

Washington, D.C. -- Following extensive consultation with Federal agencies and interested organizations, the Civil Service Commission has issued regulations to place into force by July 1 a new plan for resolving Federal employee discrimination complaints.

St. Louis, Mo. - To alleviate the severe shortage of Negro economists in this country -- according to estimates there are only about 74 with a Ph.D. degree in the United States -- a new, innovative training program has been launched at Washington University, it was announced today by Chancellor Thomas H. Eliot.

Under the plan, ten Negro college juniors will be offered stipends of \$500 plus room board, and travel expenses at Washington University this summer to prepare for graduate study in economics.

Selected on a competitive basis, these students will undergo intensive training in economics from June 12 to August 8 in the first phase of a comprehensive Economics Internship Program.

Warren listed five purposes for "Buck Night": 1. To give everyone in the community an opportunity to invest in the party.

2. To give Republicans an opportunity to actively participate.

3. To raise money

4. To build party organization.

5. To disclose weaknesses in party organization so they may be corrected.

Warren said this year's "Buck Night" will be "kicked off" in a series of meetings in each of Iowa's seven congressional districts, dates of which are to be announced later.

NAACP Condemns Campus Discourtesy

ELMIRA, N.Y. -- In a recent editorial the Elmira Star-Gazette lauds the local NAACP youth council for its resolution, suggesting that lack of common courtesy is a major contributor to the tension at Elmira Free Academy.

The newspaper states, "In a school where racial tension seems to be a frequent visitor, some Negro students have pointed the way to a better future."

"As a guide to students, the recommendations refer to the need for courtesy in the hallways, cafeterias, and assemblies and for a more respectful attitude toward teacher aides."

NAACP Joins In Memorial For Martin Luther King

NEW YORK. -- Roy Wilkins, executive director of the National Association for the Advancement of Colored People, has called upon local units of the Association throughout the country to co-operate with other groups in a "fitting observance" of the first anniversary of the assassination of the Rev. Dr. Martin Luther King, Jr., on April 4.

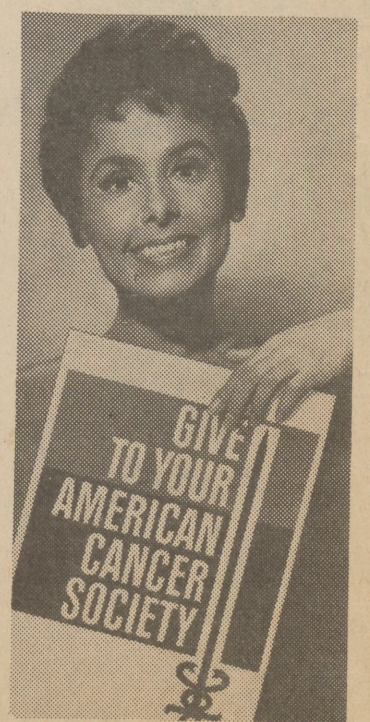

The recommendation was in response to a request from the Southern Christian Leadership Conference for cooperation in nationwide sponsorship of "appropriate memorial programs" for the martyred leader of SCLC.

Jehovah's Witness' Anniversary Assembly

"The conventioningest people in the world" is a phrase used by one editor to describe Jehovah's Witnesses. This would seem to apply to the Des Moines congregations as Loy Olmstead, city supervisor, announced a three-day circuit assembly of Jehovah's Witnesses will be held at the Highview Roller Rink at Newton, Iowa, April 4-6.

The effectiveness of the method of worship employed by the Witnesses is reflected in the low incidence of delinquency among young people in the organization. Olmstead theorized that because young people are taught to assume responsibility at an early age it helps develop moral responsibility. Youngsters are encouraged to enroll in the public speaking class of the Witnesses before age 10, and are included in Bible discussion groups with adults.

Olmstead described the Newton convention as a prelude to larger assemblies of the Witnesses to be held throughout the United States and Canada this summer.

To Church Reporters and Pastors

Please see that only one person reports the news as it is confusing to have material coming from more than one source.

Do not list meetings of the choir, clubs and organizations unless some special feature is reported.

Don't run advertising as news, and additions to the church or visitors unless from out of town. The sick should include only those in hospitals, which should be separate from the church news.

Dead-line for news is Tuesday at twelve noon and dead-line for advertising is Tuesday at 5 o'clock.

PHILADELPHIA SDA CHURCH NEWS

The Health and Welfare Society of the Philadelphia SDA church wishes to thank all who helped make their King and Queen contest a success.

The contest was held with a musical on Sunday afternoon, March 16. A lovely crowd was present to see little Mr. Harold Welch as King and little Miss Charlene Harper as Queen.

The program committee is happy to report the final count of the proceeds revealed the sum of \$345.00 as the complete total of funds received. This amount has been placed in the emergency funds of the Welfare center. This will be used in the purchase of sheets and other needed supplies for emergencies or disasters.

ST. JOHN BAPTIST CHURCH NEWS

The Pastor's Aid and Young Adult choir are sponsoring an Appreciation Service for the pastor, Rev. John W. Pope, on Sunday, March 30. The day will be called "Pope's Day". The Rev. Jacob Reed of Community Baptist will deliver the message at the morning service assisted by the senior choir. At 3:30 P.M. Rev. Harden, choir and congregation from 1st CME will be in service with St. John's with Rev. Harden delivering the message. The program will conclude Sunday evening at 7:30 with a talent program with city-wide talent.

There will be a roast beef and turkey dinner from 11 until 4 at the church on Saturday, March 29. Call 262-7415 or 265-5446 for delivery.

Rev. J. W. Pope and wife, Glennie, and four children and foster child reside at 1715 Walker Street.

SEVENTH DAY ADVENTIST CHURCH NEWS

Here's to those who have nothing to say, and who can't be persuaded to say it.

Diner: "Do you serve crabs?"
Waiter: "What'll you have? We serve anybody."

Authorities: public officials who, at critical times, always claim they have no authority.

Sign in a laundry: "We soak the clothes -- not the customer."

Many self-made men should deny it.

One thing you can't deny: at Williams Pharmacy, 1103 University Ave. Phone 243-1253, there's always a pharmacist who is ready to provide prompt service.

THELMA CLARK GUEST COLUMNIST

The latest news on the Model Cities is that the elected interim committee met on March 24, 1969, at the Model Cities Building and plans were made toward the election of the Planning Citizens Board on May 10, 1969. Decisions are to be made on the polling places, the time, also requirements of candidates and the filing dates on petitions of the candidates.

Anyone who wishes to be a candidate of the Model Cities Board must be a resident of the area, 21 years of age, property owner or business person in the area and must get 50 signatures on their petition, to run in their precincts. To run at large 100 signatures on their petition and 5 signatures from each of the 10 precincts and 50 signatures elsewhere.

CANDIDATES: Nomination papers must be submitted by the candidates no later than 6:00, Wednesday April 16, 1969.

Mrs. Ellaree Clinton was elected to be the publicity director for the group.

Another meeting will be held on March 29, 1969 at 2 P.M. This is for the Youth representation.

Youth representatives are to be elected in each of the 10 precincts and 3 of their number will be on the Citizens Model Cities Board. So all youth are invited to come to the Meeting on Saturday, March 29, 1969 at 2 P.M. Model Cities Bldg. 703 7th Street.

VOTERS: All voters should be 16 years of age or over, a resident or a property owner or business person in the Model Cities area to be eligible to vote in this election.

Ronald La Vern Scott Receives Associate of Arts Degree

Minneapolis, Minn. - On March 15, 1969, in the Northrop Memorial Auditorium of the University of Minnesota, surrounded by parents, relatives and friends, with gowned regents, faculties and United States representatives present, Ronald La Vern Scott, son of Mrs. Melba Hubbard Camacho of Minneapolis and Peter John Scott of Gary, Indiana, and grandson of Mrs. Helen Wheeler Hubbard of Minneapolis, was conferred with the Associate of Arts Degree.

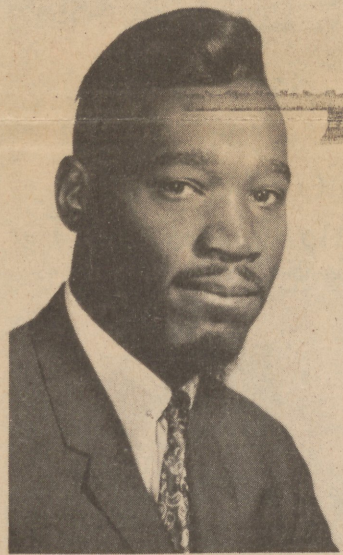

gramming Institute in Minneapolis, after which he entered college.

While in training at Ft. Benning, his Commanding Officer commended him for his good conduct which he attributed to his formative years, his neat appearance and his general ability as a good soldier.

At Vietnam, an Air Medal for meritorious achievement while participating in aerial flight during the period of September, 1965, to March, 1966, in the Republic of Vietnam was awarded him.

At the General College of the University of Minnesota, he was on the dean's honor roll.

Scott plans to enter the College of Liberal Arts at

Prepare for Fashion Fair

Tawasa, Beautiful World of Fashion Fair set for Easter Sunday featuring the J. P. Models of Des Moines will make its appearance at Hoyt Sherman Place from 5:00 P.M. until 7:00 P.M. Making their debut in Beautiful World of Fashion as J. P. Models where many a winner has been chalked up. Chalk has that certain something that not only calls attention to the fabulous clothes they model, but to themselves, as a model and poise, beautiful women, handsome men

as they brighten the stage with Beautiful World of Fashion of 1969 styles. One would think that they took a leave from Hollywood to make a guest appearance as Fashion Fair Models.

Stepping into the Beautiful World of Fashions spot light for the first time is Pat Johnson who's girlish smile will capture the audience. Appearing under the glorifying light of the stage, beautiful and confident, is Wanda Griffith.

Mary Hobbs displays her

mastery of the modeling profession as she glides across the stage with confidence and the agility of an Olympic star.

Model
Model of the month is alluring Muriel Boggs. She also has a leading role in the play "Raisin in the Sun".

Jodie Brown, the girl you see smiling from the television screen, a glamorous model coming down the ramp in exciting designer creations. Radiant and beautiful are charming Pennv Springs.

Joan Baker and Laura Josby gracing the floral stage.

For whom do we women desire dressing beautiful? Our men. Here giving blend to fashion are two gentlemen, the suave and debonair Mr. Don McKee and Mr. Eddie Thomas.

Mrs. Lora Warden is president of the Tawasa Federated and Mrs. Alberta Daniels is chairman of Beautiful World of Fashion.

Tickets are available at Williams Pharmacy.

Your professional beautician knows the answer...

Why does some hair break off when combing?

Your hair is precious and delicate...and none of us like to see it break off for any reason. Scientists tell us that excessive use of hot combs and over-processing of hair with chemicals often are major causes of brittleness resulting in hair breakage. But hair that is naturally curly and tangles easily frequently breaks off in everyday combing. Notice how irritated your scalp becomes when you comb in contrast to the way your beautician does?

Your professional beautician knows that curly hair mats and tangles so easily that it should be softened before combing. Otherwise, unnecessary irritation to the scalp and damage to the shaft and ends of the hair occurs. To achieve this needed softening and a temporary relaxing effect that prevents breakage on all human hair (including wigs), most beauticians rely on Clairol® Hair-So-New® spray-on creme rinse. For combing ease and for beautifying your hair in many other ways, trained beauticians stock a complete family of fine Clairol products for your specific needs.

Visit your expert hairdresser, who cares about your hair care and your comfort. Whatever the nature of your hair problems, only your professional beautician knows the answer for sure.

REWARD THE BOYS
WHO BROUGHT GLORY

The State of Iowa, and particularly Drake University, has every reason to be proud of the excellent performance of the Drake basketball team in the tournament at Louisville last weekend.

Almost unknown by the national sports writers and pollsters, Drake went to the tournament, not only with a string of wins behind it, but also the know how, the guidelines and the mental attitude that they could win and they almost did it.

One of the fine things about these boys is that not only have they been good athletes, but also they are serious men, dedicated to their work and did not let their success "go to their heads" as often happens with individuals who are showered with flattery.

They have demanded no rewards. On the other hand, we have given them praise, praise, praise.

Some of these boys are seniors; some will be following professional basketball careers while some will join up with companies or institutions for life's work.

We have trained them. We should try to keep some of them in Iowa.

It happens all too often that we here in Iowa educate and develop men; other communities take them. And while some of this is inevitable we should make definite plans to retain as much of our product as is possible.

The boys from Drake with approximately 5,000 enrollment, have shown that individually they can compete with schools with 30,000 enrollment. And it demonstrates that, with proper training and application to the job at hand, men can do most of the things they desire.

The Drake boys have done their job. Iowans, what about rewarding them?

ALL SHOULD BE
DEALT WITH ALIKE

The U.S. Civil Rights and H. E. & W. laws and regulations made pursuant to the form guidelines for recipients of federal education funds.

Some southern school districts have refused to abide by these laws or displayed no effort to do so for the future. The department had no other weapon to secure compliance than withhold funds until satisfactory plans had been made to comply.

Civil rights leaders feared that President Nixon would not approve this course believing that his support by southerners was a condition that this not be done. But it turns out that Mr. Nixon through Secretary Finch has gone further than even President Johnson in seeing that the law is enforced.

Of course, in view of Mr. Nixon's campaign for law and order, he could not very well renege in this instance.

Laws governing payment of federal funds to students contain the requirement that they refrain from lawlessness and-or criminal actions such as to disrupt the orderly administration of the schools.

President Nixon feels that this part of the law should be enforced but believes that school authorities should be left to administer the provision rather than the federal government.

It is often said governments are formed to do for the people what they cannot do for themselves. But present days require that governments must do for the people what they won't do for themselves.

Much of the disorders in school could have been prevented had school authorities taken a firm stand and required that students observe law and order.

But instead many have vacillated, cringed and backed up as demands were presented, many of which have no merit in the least. Many have not had the courage to stand

SPORTS

With Allen Ashby

Of course, everybody who is interested in basketball had something to say about the Drake team and the NCAA meet. The score they gave the defending champion was really something. Then they went out and demolished a good North Carolina team which made believers out of a lot of people who had thought maybe they were lucky to play UCLA that close with the greatest of respect for Drake and remembering the two games last year with Houston, we are glad the Bulldog's didn't have to play those guys twice.

A lot has been made of the Drake speed but do you realize that those fellows have been playing the same type of basketball for two years and most of their winning streak they were passing the ball not to men but to spots and the man would be there.

Oh yes, we qualified as an expert on the basis of our predictions in the last two meets. We didn't call a single game right.

High Schools
We watched the Iowa high school meet and were a bit disappointed that the games were not real close. Then there just were not any good black players around. The fellow who would have been good was home with a broken foot. He was the fellow Rick Williams from the winning school at Cedar Rapids. Our Des Moines schools had some pretty good boys, but they didn't get to the meet.

Boxing
We wonder what the boxing commissioners will do about the disposed heavy weight champion Cassius Clay of Mohamed Ali.

Probably nothing, but he should be given a chance to fight the pretenders for his crown and if he does beat them should have his full rights restored. Do you

up for what was right or tacitly encouraged the anarchists and trouble makers.

Of all people, we have been the group which has criticized unequal law enforcement. We should be the last to condone it even when we are involved.

POINTING IN THE
WRONG DIRECTION

The latest survey, and there have been many, shows that crime, poverty and poor living conditions prevail in the model cities area. We are not surprised.

But we were shocked to see that art was being taught in the area and little about how to live.

LOOK, MOM, NO CONTAGION!
In a time when assorted revolutions - social, technological, medical, astronomical, familial, what have you - are almost a major industry, some of the most hallowed old notions can get revolutionized.

"Nowadays," a group of experts has declared, "most tuberculous patients can return to their old occupation and housewives can resume the care of home and children while continuing drug treatment."

Bang goes the image of the TB victim languishing for years on a sanatorium bed - one of the classics of medical history and romantic literature. But all that, like skirts way down to the kneecap and airplanes moping along at a mere ten miles a minute, is pre-revolutionary.

Now, according to the same group of TB experts, "the overwhelming majority of patients are non-infectious within days, weeks, or at most a few months after starting effective treatment."

The key to the revolution in tuberculosis treatment lies

in modern drugs, first effectively employed in the early 1950's and by now improved to a point where the TB patient under proper therapy can be no more a public health menace than a newborn babe.

The experts who proclaimed this new state of affairs were members of an investigating task force sponsored by the City of New York, the National Tuberculosis and Respiratory Disease Association, and the New York State Council of Tuberculosis and Health Associations. Their findings on the TB treatment revolution apply not to any one locality or region, but to people everywhere. Now that control of the disease in most patients is so much quicker and simpler, there is less excuse than ever to neglect your periodic tuberculin test or chest X-ray. Make it a part of your annual medical checkup.

think that will happen? We agree with Clay when he said all this business of taking away titles by boxing commissioners has turned the game into a farce. Under these fellows who rule the game now, there certainly would have been no Jack Johnson, Jess Willard fight because they would have taken Johnson's title. Bet the guy lost it where he should have done so, in the ring. Jack Dempsey would have been stripped of his crown during W. W. I. And a lot of other champs, Max Baer and Primo Camero among them, would have never had a chance to be beaten as they were. They might have taken away the title from Jim Braddock so he could not have fought Joe Louis and then we couldn't have had that great champion. Oh well, so much for the dickers of the fight game.

The Refugee from
Alabama

So this is the panorama of a human drama, In the state of Alabama.

I was born and lived in the Alabama land.

But there's one thing that I cannot understand...

For there will never be a reasonable cure.

Between the rich and the down trodden poor...

I occasionally ran around in that town square.

But my friends, I could never find there...

They made me feel like a darn fool.

And I was also kept out of school.

The teacher told me to learn my ABC.

POST EXCHANGE

Letters from Our Readers

A bit of prose . . . a line or two of poetry . . . a letter now and then to express thoughts in the minds of our many readers.

Send Yours Today

And that would be more than enough for me.

But one thing, I was so much in need.

Was to learn to write and read.

I wandered through the pages, look and look...

For I didn't even know the title of the book...

I felt like a worn out blade...

And the teacher told me I'll never make the grade...

With disgust I left the school and went to swim in the dirty water pool.

Then a white man came and gave me a lesson.

That even now I still feel the impression.

He chased and chased me with that long lashing whip,

As the sweat and blood from me began to drip,

I counted each . . . blow until seven

And then the Lord was with me from heaven.

I ran and ran to escape his whip, I fell down and broke my hip.

I ran so fast losing my

breath, For I saw in that man's eyes nothing but death.

He shouted and shouted I want you to understand.

That this is precisely the white man's land...

I looked over the situation back and forth.

And I packed my grip and traveled north...

I've found the climate cold, but their hearts warm.

And I'll never go back to the land I was born.
