Jas Farmer To Speak At Bar Session 14 Arrested After Police And Panthers Clash; Trial April 29 And 30

Meeting At Holiday Inn North April 19

James Farmer, former head of the Congress for Racial Equality (CORE) and recently appointed by President Nixon as Assistant Secretary of Health, Education and Welfare, will speak in Des Moines on Saturday, April 19th.

The occasion of Farmer's appearance is the spring board meeting of the executive committee of the National Bar Association.

James Farmer

Judge T. Glanton, Jr. is chairman of the local committee which includes W. Lawrence Oliver, James B. Morris, Jr., Henry T. McKnight, Oscar Jones, Mrs. Willie Glanton, Nolden Gentry, James B. Morris Sr. and Robert Wright.

The National Bar Association was organized in Des Moines in 1926 by the late George H. Woodson. At that time Negro lawyers were not admitted freely to the state and national bar associations. It has not been active here for many years.

The program will feature a luncheon at the Holiday Inn North following the morning session. About twenty visiting lawyers and their wives are expected.

Mr. Farmer will speak at 3:00 P.M. at the Holiday Inn and the public is invited. This will be followed by a press conference.

Mr. Farmer will speak in the auditorium of Holiday Inn North, 3501 E. 14th St.

President to Honor Stevie Wonder

DETROIT, Mich., April 15 -- Stevie Wonder, blind since birth, and a Motown singing star since the age of 12, has been chosen to receive the President's Committee on Employment of The Handicapped's Highest Honor, "The Distinguished Service Award."

Stevie will accept the award on Thursday, May 1, at the International Banquet of the President's Committee Annual Meeting in Washington, D.C.

Congratulated by Governor

Among the first to congratulate Stevie was Michigan Governor William G. Milliken, who wrote the Motown Star, "We in Michigan are proud of you. May I join the many who are extremely pleased that you are being recognized so appropriately on this occasion. You have a fine talent and an ability which directly reaches countless numbers of young people in America today."

Regent Attacks Separate NIU Negro Facilities

CEDAR FALLS, IA. -- Reacting with a sense of refusing special privileges to groups, a member of the State Board of Regents complained Thursday that a black student organization at the University of Northern Iowa has been given private use of a room in the Student Union.

Board member William Quorton of Cedar Rapids said he understood a room has been set aside in the newly completed student union building for the Afro-American Society.

"Separate Toilets" Quorton said use of the room for the black students only is "going back to segregation. Maybe we should have considered building separate black and white toilets, too," he added.

U.N.I. President J. W. Maucker conceded that "somewhat of a deviation" in policy was made for the Negro student group, but he said the Afro-American Society does not have exclusive use of the room.

Maucker said the student union board has agreed to give the Negro students priority in using the room. When it is not used by the blacks, it is available to other student groups, he said.

He said it would be open to other students most of the time.

Maucker said the black students apparently intend to use this room "as kind of a base for operations."

He said they have decorated the room with African artifacts.

Other schools under the jurisdiction of the Board of Regents have followed with the same illegal trap.

Everett Newcomb Named To Central Bank Post

Everett S. Newcomb, who has been with the Central National Bank and Trust Co. here since 1937, Tuesday was elected customer services officer of the bank.

EVERETT S. NEWCOMB

His election by the bank's board was announced by B. C. Grangaard, chairman and president, who said Newcomb "will be in

involved in customer and community services, a continuation of his many present activities."

Newcomb is believed to be the first Negro to be elected an officer of an Iowa bank.

He is a past commander of American Legion Post No. 126, a member of Down-

town Kiwanis Club, a committee chairman of the Tall Corn Council of Boy Scouts of America and a member of the American Institute of Banking.

Newcomb recently was a "loaned executive" under the Concentrated Employment Program. A native of Des Moines, he attended West High School and graduated from North High School before attending Des Moines Catholic Junior College.

He served in the U.S. Air Force for three years during World War II.

Grangaard said the bank is "pleased and proud to add Mr. Newcomb to our official family."

Uggams To Replace Smothers Brothers

WASHINGTON, D.C. -- A musical comedy-variety hour starring singer Leslie Uggams will replace the "Smothers Brothers Comedy Hour" on CBS next fall, the network disclosed Thursday.

Producers for Miss Uggams' series will be Saul Ilson and Ernest Chambers, who were in charge of the original "Smothers Brothers Comedy Hour."

Miss Uggams grew up on TV as one of the featured performers in the NBC series "Sing Along With Mitch Miller." She won a Tony award last season for her performance in her first Broadway musical, "Hallelujah, Baby."

CBS Thursday said, "We are confident that Miss Uggams will give us a program which can be enjoyed by all segments of the TV audience."

NEWS In A Nutshell

WASHINGTON, D.C. -- Eleven members of minority groups were among the thirty-two Junior Foreign Service Officers who received assignments to overseas posts on March 7. These Officers, who are part of the 85th Class of the Foreign Service, were sworn in on January 31, 1969, and have been undergoing basic orientation. All will receive additional training in the language and area of their assignment before reporting to their first post.

WASHINGTON, D.C. April, 1969 -- The millions of Americans whose favorite sport is fishing were cautioned by the American Red Cross to avoid the hazards that may result in tragic accidents, as another fishing season gets under way.

A special danger to early-season anglers is that of prolonged immersion in cold water. Fishermen who fall into extremely cold water will lose body heat rapidly, thus reducing their ability to move through the water and save themselves.

MOTORCYCLES

DES MOINES, IA. -- Motorcycle riders are more than twice as likely to be killed and three times as likely to be injured in an accident than other motor vehicle occupants, according to the Iowa Public Safety Department.

WASHINGTON, D.C. -- For the first time since enactment of Title I of the Elementary and Secondary Education Act of 1965, State institutions for neglected and delinquent children are receiving advance notification of Federal funding, the U.S. Office of Education reported today.

NEW YORK, April 2 -- The American Jewish Congress today protested a Civil Aeronautics Board decision granting permission to South African Airways to inaugurate direct flights between South Africa and the United States.

In a telegram to Representative Charles Diggs (Dem., Mich.), chairman of the Subcommittee on Africa of the House Foreign Affairs Committee, the Congress urged that the CAB ruling be reconsidered and that legislation be introduced "prohibiting the award of any future permits to carriers of any country which discriminates on racial or religious grounds."

WASHINGTON, D.C. -- The Rev. Ralph David Abernathy says he has informed President Nixon he will return to Washington, D.C., "with the poor people of America" to resume the demonstration staged last summer in the capital. No date was set in the letter for renewal of the Poor People's campaign in Washington, but the Rev. Mr. Abernathy told a questioner it would be this summer. The last one was a failure.

Following a meeting Sunday afternoon fourteen persons were arrested on charges of unlawful assembly after a disturbance at a Black Panther rally in Goode Park.

The arrest seemed to have triggered a series of incidents on University Avenue. A fire station was evacuated after a shot was fired through a window. Several motorists reported their cars were damaged by rocks or bricks as they drove through the predominantly Negro area. Windshields of two police cars also were shattered.

One woman was treated for a minor gunshot wound and one of the arrested persons also was treated for injuries.

The trouble erupted at a meeting at Goode Park sponsored by the Des Moines Black Panther Party. Neighbors had called the police department complaining of loud and profane language being used over the loud speakers.

When Police arrived they reminded the assembly that they had no permit to use a loud speaker in the park without permission from the city and in an attempt to stop the use of the loud speaker the scuffle ensued and arrests made.

Police Lt. Pearl Fever said three officers suffered minor injuries in a hail of debris thrown by persons in the rally crowd.

The dispute apparently resulted from a misunderstanding over the use of loudspeaker equipment.

The Black Panthers said they had asked Mayor Thomas Urban's office if they could hold the rally and were told they could. However Mayor Urban said the Black Panthers did not say they would be using loudspeakers.

Police said Knox was arrested when he defied their orders to stop speaking over a portable public address system at the rally.

Sgt. Ed Harlan said many persons in the crowd shouted profanities at police when they arrived at the park.

A fight started at that time, Harlan said, and when officers took Knox to a police car the crowd became unruly.

Two squad car windshields were shattered by chunks of concrete thrown from the crowd.

Throwing Rocks

Harlan said the crowd began moving down University avenue, throwing rocks at passing automobiles and parked cars. Two police vehicles were damaged by debris, he said.

At the corner of Eleventh street and University, near the Black Panther headquarters, another group of persons was arrested, Harlan said.

Blast

Several thousand dollars' damage was caused by an explosion about 1:50 a.m. Monday several hours after disturbances here.

Didn't Topple

Police said the blast apparently was set to topple the wooden pole onto the substation, but the pole remained erect and electrical service was not interrupted.

However, windows in many houses in about a three-square block area were shattered by the blast's concussion. No injuries were reported.

A garage and mobile home just east of where the explosives were set were severely damaged by the blast. Owner Lyle Fisher of 720 Fifteenth st. estimated his loss at \$6,000.

See Connection

Police believe the blast was connected with the earlier disturbances, which began at a Black Panther rally Sunday afternoon at Goode Park at Seventeenth street and University avenue, about seven blocks north of where the explosives were set.

Minister Launches Subscription Campaign For Omaha Paper

OMAHA, NEBR. -- Rev. John H. Wittington, President of the INTERDENOMINATIONAL MINISTERIAL ALLIANCE, stated that the time is far spent that we (as a community) give 100 per cent support to the OMAHA STAR Newspaper.

It is the only one we have, as a group, and it is the only one that we can depend upon to champion our cause. It serves as the 'Voice of Pronouncement' and is central media for unity among us. Where else do we receive these services to our Churches, Clubs, and Individuals?

We are hereby establishing, Sunday, May 11th, as the 'OMAHA STAR DAY'. We are asking that every segment of our community rally to this most worthwhile cause. Needless to say, that there are those who would like to silence our paper; but this must not be allowed to happen. It is in our power to keep it alive. It is also true that we don't have any power, if we do not have a press. So, we are calling upon all of our Churches, our 98 Civic and Social Organizations, our Public Schools and Teachers, and Citizens of the area to join with us in this much needed mammoth Campaign.

Our soldiers overseas, as well as our youth at home, should have access to this meaningful 'Voice-of-the-People'. Mrs. Mildred Brown, Editor of the OMAHA STAR, deserves this 'Vote of Confidence'.

West Point Berth To Iowa Youth

Ollie W. Allen, 20, whose mother, Mrs. Charlie Mae Green-Allen lives at 1009

Twenty-fourth st., has won appointment to the United States Military Academy at West Point through a competitive examination taken while on duty with the army.

Allen was inducted as a draftee last May and in August went to Fort Belvoir, Va., to attend a special preparatory school. He was recently notified that he had passed all examinations and had won appointment to the academy. Allen is a graduate of North High School and attended the University of Iowa before induction into the army. His father, Perry William Allen, jr., lives at Fort Worth, Tex.

Forced Resignation Of OEO Chairman Laid To Racial Bias

NEW YORK -- The target of the Republican attack upon Clifford Alexander, chairman of the Equal Employment Opportunity Commission, was primarily "government action to curb racial discrimination in employment," Roy Wilkins, executive director of the National Association for the Advancement of Colored People, charged in a statement released here, April 10.

Negro citizens, Mr. Wilkins said, will remember Senator Everett M. Dirksen's berating of Mr. Alexander in a Senate committee hearing and the White House announcement the next day that the EEOC chairman would be replaced.

The complete text of Mr. Wilkins' statement follows: A case of anti-Negro racial policy with a minimum amount of fuzziness has

arisen in the Nixon Administration with the resignation of Clifford L. Alexander, Jr., as chairman of the Equal Employment Opportunity Commission.

No matter how much gloss is applied, Negro citizens and their allies will remember that Republican Senate leader Everett M. Dirksen of Illinois publicly rebuked Alexander for allegedly "harassing" businessmen to secure conformity with the 1964 Act outlawing discrimination in employment and threatened to get him fired.

The very next day the Republican White House announced that Alexander would be replaced as chairman.

This adds up to a Republican attack on Alexander only incidentally, but principally upon government action to curb racial discrimination in employment.

Health for All

THAT JOLLY (?)
OLD COUGH

Science is simply splendid and all that, but sometimes it only tells us what we've already figured out for ourselves. Nobody replated any front pages when Newton announced that the apple would fall in a certain direction once it got loose from the tree; and nobody was stunned by the news that smoking cigarettes makes you cough. In fact, "cigarette cough" was a familiar part of the language long before the scientific proof arrived.

Just the same there is an advantage in knowing the reasons why, whether you're ducking apples or kicking cigarettes. Especially so in the latter case, because smoke from the little white cylinder can affect you much more harshly than a klunk from the weightiest fruit in the orchard.

The advantage in finding out why is that you also find out how much. In the age of comparative innocence about tobacco's effects, "cigarette cough" was considered almost a fun thing. You took a puff, barked and strangled a little (or a lot), somebody sang out, "Cigarette cough," and you took a friendly bow. Only in recent times has it become widely known that it isn't all that friendly: the bark-and-strangle routine can be a portent of hideous disease and of years chopped off one's normal life expectancy.

World's Tallest Herb

Puya raimondii, the world's tallest herb, grows in the stony reaches of the Bolivian Andes. The herb, which attains a height of 40 feet when full-grown, blooms only once in 150 years and dies after sending a 30-foot flower stalk into the sky.

STRICTLY FRESH

Before you try to get in the social swim, be sure you're not out of your depth.

A good many college protesters would benefit from a kick in the pants before they tried to occupy a seat of learning.

There is never a shortage of help when you want to mind your own business.

Ask most any husband—homemade pickles are the easiest kind in which to get involved.

Friend of ours returned from shopping in complete shock. A woman actually thanked him for holding a door open for her.

Today, having a change of heart is more than a figure of speech.

BLACK AND WHITE DANCE The tension of racial conflict is expressed in dance by two students who contributed to the University's observance of Afro-American History Week. Julie Merritt, left, a freshman business student from Kansas City, Mo., and Kathy Foss, a sophomore in art from Moorhead, Minn., first performed "Black and White" in the mid-winter concert of Dance Theatre, of which both are members. Accompanied only by jazz

drums, the dancers show the development of white prejudice, anger and repression; show black suffering, anger and rebellion. When stage lighting blanks out their color differences, the two girls dance in unison, but conflict returns and the dance ends in uncertainty. The Afro-American History Week program at Iowa also included lectures, radio broadcasts, film, music, drama and poetry, all emphasizing the history of black people.

Women IN THE KNOW

By Jean Kingsley, Women's Consultant, The Travelers Companies
No husband will ever admit it—when his wife shows him the bills—but we live in an age when money is around in rather astonishing amounts. The New York Stock Exchange estimates that thirteen percent of the U.S. Population now owns stock. Or, about 26 million Americans are "having a flutter." There are actually *united-seven million* hundred dollar bills in circulation! So, why do you find yourself on the short end of the Affluent Society? A mean little genie called inflation.

Economists muddle and huddle over the dollar sea-saw—like so many surgeons pouring over the X-rays. And it's all just about as confusing to the man in the street. (And the woman in the super market.) The cold facts are that in 1939, the dollar bought one hundred cents worth of commodities. And at the present level, you take home forty cents worth of anything you purchase.

Despite the fact that products are bringing top prices... worker drawing top salaries... and there's a full roster of employment—the up, up, UP spiral can be dangerous. When it comes to discretionary income (the money left over, after the monthly bills are settled)—discretion can be the key! If you aren't sure just which channels your future planning should take, don't hesitate to turn up an expert and learn.

Ice Cream Pizza Pie in Cereal Crust

3 cups oat puffs, regular
3/4 cup light corn syrup
1/4 cup sugar
1/4 cup water
1/4 cup butter
1/4 teaspoon salt
1 quart or 3 pints vanilla ice cream, as desired

Whipped cream or topping mix
4 canned peach halves, drained
1/2 cup fresh or frozen blueberries
4 canned pineapple slices, drained and cut in half
1 cup sweetened fresh strawberry halves

Pour oat puffs into buttered ovenproof bowl (or large saucepan). Butter bottom and sides of 12-inch pizza pan. Place bowl of cereal and pizza pan in warm oven (200°F) while preparing syrup. Combine corn syrup, sugar, water, butter, and salt in medium-sized saucepan. Cook slowly, stirring constantly, until sugar is dissolved. Cook without stirring until syrup reaches the soft crack stage (290°F). Pour syrup in a fine stream over warm cereal. Stir quickly until cereal is evenly coated. Quickly spread cereal evenly over bottom and up sides of warm pizza pan. (It may be easier to work with 3/4 of the cereal mixture at a time, keeping unused portion in warm oven.) When crust is finished, chill thoroughly in freezer. Spoon ice cream into crust; press into an even layer. Freeze until hard, several hours or overnight. To serve, pipe or spoon whipped cream over ice cream to divide shell into 8 pie-shaped wedges. Return to freezer to freeze cream. Quickly fill wedges with one or more fruits. Cut; serve at once! Yield: 8 servings.

LINES

by
Mana Esther White
Guest Columnist

My friend Marri is attending a meeting in New Jersey; while good friends these lines will be somewhat different simply because of a busy schedule which doesn't allow for too much social activity.

It's nice to have HAZEL OLIVER back in town ... Chatted with her briefly after returning from a winter's vacation in sunny Mesa, Arizona and attending a family reunion at the home of her mother in Detroit ... all of which allows for a little reminiscing. Hazel's mother was my mother's friend, so, therefore, our friendship dates back to pre-birth. We remember what it was like to rear our children during the depression years - most of my Thursdays and Sundays were spent in their home on 13th Street where we vented our frustrations, our doubts, yet our hopes and dreams for ourselves and our children. These were days when her hubby, LAWRENCE (an outsider to many Des Moines people; was struggling with his law practice. Many weekends were spent with my dad in our backyard in Perry - eating grapes right off the vine and enjoying rhubarb pie (one of their favorites when baked by my Mom); To young leaders who are attempting to find and point the way it is men like Oliver who can be of real assistance. We had racial problems in Des Moines but they were worked out between white and Negro leaders; the Interracial Commission is a product of this type of leadership ... NW 72nd Pl. is bonafide evidence of what can be done with the right approach ...

Visited with DR. AUD REY FORREST, professor of Sociology at Drake ... this is a gal well worth emulating; she is an authority in her field - has paid the price through hard work and long hours of study; she does her thing where it counts - moves with a quiet dignity and grace which indicates security - is highly respected by Drake faculty ...

All of which is to say that whereas these young leaders have a real point - they are missing the boat by not AT LEAST trying to work with those who have laid the ground work where they CAN protest - 30 years ago this was unheard of and would NOT have been tolerated. And to the leaders of yesterday - may I quote from THE PROPHET

"And a woman who held a babe against her bosom said -

Speak to us of children; And he said: Your children are not your children - They are the sons and daughters of Life's longing for itself; They come through you, but not from you; And though they are with you, yet they belong not to you.

It's inexpensive
to RENT formal wear!

It costs less than you think to rent full dress suits, tuxedos, daytime formal or white dinner jackets. And they're so clean, so freshly pressed, so perfectly fitted!

You may give them your love but not your thoughts For they have their own thoughts; You may house their bodies but not their souls. For their souls dwell in the house of tomorrow, which you cannot visit, not even in your dreams.

You may strive to be like them, but seek not to make them like you. For life goes not backward nor tarries with yesterday."

The Neighborhood Centers are undergoing a different organizational structure - we should take a good look at what's happening ... Visited with two of my friends at the Woodland N.C. last night ... JACK ROLINGER AND BILL JOHNSON, coordinators for the D.M. Area Community College. They are in the process of reestablishing the typing and high school equivalency classes there ... check it out H.S. drop-outs; this is a chance to upgrade your earning capacity.

Visited briefly with some of the new students in the typing class ... of especial interest were YOLANDA DANIELS, formerly from Grenada, British West Indies - who came to America in 1967 - quite a sharp, attractive and ambitious young lady; wants to make America her home ... JUDY AND MARGRET RHODE, sisters, both holding down pretty good jobs with Bankers Life and Massey Ferguson (respectively) - realize that without typing they can't advance very far in the clerical field ... VIRGINIA BENHAM, married, children, disabled husband, is using the class to upgrade her skills so she can help with the family budget ... ETHEL BIBBINS, DOROTHY WILLIAMS, HENRIETTA HUDDLESTON and JAMIE HALL plan clerical careers including secretary and keypunch ...

I had the pleasure of visiting with several students from ISU last week - these were honor students and the meeting actually constituted a class in their seminar on foreign affairs - seems like a good approach: pass or fail, completely exploratory, creative, uninhibited by pressure or exams ... students from BIAFRA were guests of this group during an open Seminar this week - I understand they will be at Drake next week; mark your calendars - it will be a good chance to hear what is happening in Nigeria (from the Ibo point of view).

Sunday, Tuesday and Thursday nights are my CHANNEL 11 nights - although classified as an extreme conservative WILLIAM BUCKLEY at 6:30 on Sunday does a good job of interviewing subjects from a cross-section of the intellectual world. It was my first time seeing or hearing ELDRIDGE CLEAVER - I was pleasantly surprised and I believe Mr. Buckley was too ... DAVID SUSSKIND on Tuesday and Thursday as well as Sunday nights also bring to us programs from a cross-section of our society - recently he has exposed his viewing audience to some of the real problems facing Black and White Americans - by placing the problems in a context that allows exposure to all sides of the problem - all of which helps us to understand that the many-sidedness of social problems prevents a belief in a panacea of answers ...

Hurry home, Marri!

HOW WOULD YOU HAVE
IMAGINED THIS?

When students began the troubles on school campuses, few people thought that mob-like conduct would reach the old, fine schools long known for their formality and precise living.

They reached the climax when students at Harvard University took over buildings and refused to leave. They were finally ousted by the police.

And after this occurred, we thought the trustees would approve the action of the administration by calling in the police who put down the commotion. And while some backing was voted, the wild students are back as if nothing had ever happened.

No school has overcome these troubles - once started - by backing down on law and order. Some of the demands cannot be met even though some administrations have agreed to demands that are against the law.

At first we were shocked at the troubles at Harvard but on second thought we remembered that all these youngsters, Negro and white, have about the same problems among them and will react to the same condition presented in the same manner.

Maybe these incidents will run their course just as the sit down labor strikes did in Detroit a few years ago.

IT IS BAD TO BE
INCONSISTENT

We all deplore disturbances, rioting, rock throwing and blasting of other people's property. It should not be allowed to go on.

The chief of police has asked the residents in the area where the trouble occurred Sunday to cooperate with officers in the enforcement of the law. They should.

On the other hand, just how can they be expected to do so when young people in the relatively wealthy section of the town do the same things and are not arrested.

The Bystander suggests that the chief enforce the law equally in all parts of the town and the Negro neighbors in the University Avenue will feel more like cooperating with him.

The Bystander emphatically opposes riots by any group but it also believes that laws are made for everybody to abide by.

CITY REGULATIONS
MUST BE REASONABLE

The City of Des Moines is planning a revision of its apartment house regulations. Standards are high. This should apply to new construction.

It is proposed that tenants be given the right to withhold rent payment from landlords who do not come up to the standards fixed in the ordinance.

Ordinarily, reasonable conditions that exist prior to the passage of an ordinance would allow exceptions to be made. We are not so sure about this one.

The idea has some merit. It also has some demerits unless its enforcement is made reasonable and does not penalize a fellow who has relieved the city from some responsibilities which it has not met.

At the time property owners were dispossessed for urban renewal and freeway construction regulations required that these people should be provided adequate homes. This was not done so many of these people bought larger houses from nearby residents and converted them into apartments.

Some are well kept; some not. But none meet the standards set up in the proposed ordinance. Then too many property owners, white and Negro, near these same areas converted homes into apartments years ago which meet the same situation.

The city needs to make every effort to help people live in homes that provide decent living but it

The Ward Boys

The talk got around to the boy, Naomis Ward of Tech. Then as fellows talked we began to think. The guy is just another in a line of good athletes named Ward. The older Naomis Ward was a football and track star at Tech in days when victories were hard to come by. Even so, he was outstanding. Then there was Jim Ward. Jim could have been an outstanding high school athlete, but he and the coaches didn't get along. Football, basketball, boxing, track - you name it and Jim did it. He became a fine senior pro athlete for a number of years. Then way back when, there was a John Ward who used to play tackle for the football teams that played Sunday ball on the East side. John used to beg opponents to run plays at him, and when they did they very often wished they hadn't. Ye, the Ward boys were and are a fine bunch of athletes.

Tennis

Some of us older fellows were talking about how tough tennis is when a friend of ours illustrated his point with a story he swears is true. Two fellows he knew were walking home from the tennis courts one afternoon when a car containing three fellows came up. The three fellows began to taunt the two tennis players for playing a sissy game. They were ignored until they pulled their car around in front of the two players and jumped out to work them over. Well, the big tennis player was the heavyweight boxing champion of Iowa. The little one was an outstanding wrestler and a fair boxer at just about any weight. When the two of them got through with the bullies, the big guy loaded them into their car and drove them to where one lived. These guys were playing tennis as a conditioner.

But it is a tough game. You are out in a hot sun for from forty minutes to maybe three hours with no rest period. After three

Iowa Oaks Ball

Team Opens

April 27

By Larry Scarpino
Next Monday night, April 21, the cry "Play Ball" will once again ring out at Sec Taylor Stadium. The Iowa Oaks will open their season that night!

All the decorum and color befitting the return of professional baseball will be obvious. It is hoped that Des Moines and Iowa fans give the new citizens a solid sendoff.

Game time is 7:35 this coming Monday night. The Oaks will be home every night until April 27. The opponent on opening night will be Oklahoma City.

The Oaks open their season on the road at Indianapolis this Friday night. After this three game series, they return to Des Moines and the grand opening on Monday night.

Bargain book tickets are on sale at: Bodin Van Dorn's two stores, Frankel's two stores, Johnson's Clothing, Newburn's downtown, and Iowa Des Moines National Bank. All are good locations for convenient purchase of bargain books.

If you had seen Sec Taylor Stadium last January when all the work started, you would agree it was impossible to be ready by April 21. But, here we go with fresh paint and scrubbed floors and what we hope is an interesting baseball team.

Seasons tickets, bargain books, opening night tickets and game tickets are all on sale at the Sec Taylor Stadium box office. Write Iowa Oaks, Box 398, Des Moines, Iowa 50302 or call 243-6111.

sets in a man's match there is a short rest period, but those three sets may take a couple of hours. This is in a five set match. There is no rest period in a three set match which could last all day. Some of our friends have just not begun to realize what a fine conditioned athlete a tennis player who plays constant matches is. When we used to try to get the fellows we knew to get in shape for their games, we told them they didn't know what it was to really be ready. Came World War II and our most pleasing correspondence was from soldiers and other service men who would tell us they finally realized what we had meant and how they wished they could play their games while they were really ready.

QUESTION: I am 55 years old and my husband recently died. He had very little insurance and I am unable to work because of crippling arthritis. How am I going to live between now and the time I am old enough to qualify for reduced widow's benefits at age 60?

ANSWER: The 1967 amendments to the Social Security Law provided for reduced widow's benefits to widow's who are severely disabled and are between age 50 and 60. For complete information and assistance in filing a claim, contact your social security office.

QUESTION: I am over 65 and have doctor bill insurance. I owe several hundred dollars in doctor bills. I cannot afford to pay them. What can I do?

ANSWER: Get itemized bills from your doctors, and file your claim with Medicare. If you need assistance with the forms, go to your social security office. After Medicare sends you the money, you can use it to pay on your doctor bills.

QUESTION: I am over 65 years old and will not earn over \$1680 in 1969. I do not plan to quit working until I earn the \$1680. When should I apply for benefit payments?

ANSWER: Even though you intend to work until you earn \$1680 you can apply immediately for benefit payments. Also, you may be eligible to receive some retroactive payments for 1969 and possibly for 1968 depending on what your 1968 earnings were.

VETERANS

Q -- I am a veteran of World War II and will soon reach my 65th birthday. Will I be entitled to a VA pension?

A -- You may be eligible for a pension from the Veterans Administration at age 65 if your income from all sources does not exceed \$2,000 a year if you are single, or \$3,200 a year if you have one or more dependents. A wife's income and the size of your estate are factors which must also be considered.

For further information and assistance, check with your nearest VA office.

Q -- My husband has a heart condition which developed in service. He was able to work until three months ago when he had a heart attack and the Veterans Administration awarded him 100 per cent disability.

The doctor says that he will never be able to go back to work. With two children in college, I will have to work to help support us but I don't have any training. Can the VA help me?

A -- Possibly. VA education assistance is available to the wives, sons and daughters of veterans who are determined by the VA to be permanently as well as totally disabled. For a maximum of 36 months, the VA will pay a wife, son or daughter up to \$130 a month for full-time institutional training.

Since you indicate that your husband has been rated totally disabled, you should check with the VA regional office where his records are on file to see if his current condition is

considered permanent by the VA.

Q -- I recently received my National Service Life Insurance dividend check. I am now drawing 100 per cent service-connected disability compensation and, because of this, the premiums on my policy are waived.

Since I do not pay anything into the insurance fund, should I return the dividend check?

A -- No. You need not return the check since you are entitled to this dividend.

However, you should understand that the waiver of NSLI premiums is not due to your 100 per cent disability compensation rating. Rather, it is due to the fact that your disability meets the premium waiver requirement of "any impairment of mind or body which continuously renders it impossible for the insured to follow any substantially gainful occupation."

If you become employed, your NSLI premium waiver may be terminated.
