Temptations Thrill 4,000 with Graceful Dancing, Harmony

BY FRANCES E. HAWTHORNE

If you wondered where the young people were Saturday night they were 4,000 strong—down at KRNT Theatre enjoying the rendition in "motionalized music" presented by the fabulous Temptations and company.

From the very first ripple of anticipation the evening was a success. Blast-off time came as Blinky Williams with bouffant Afro and shimmering blue and silver pant suit, let go with hits of Aretha Franklin and tributes to the late Billie Holiday.

Edwin Starr, in yellow cutaway bell bottom evening attire, shot the show into orbit. With audience by-play, lightning dance steps, and vocal suggestiveness, he gyrated his audience to a screaming pitch. From his capricious rendition of "Keep on Playing, Casanova," assisted by the members in the audience, he switched innocently to "All I Need Is You."

When he launched into his record hit, "25 Miles to Go Now," everyone knew the countdown for the Temptations landing on the KRNT stage was eminent.

The Stars
In graceful, synchronized motions, the Temptations—five young college images for any campus—glided on to the stage front center.

With the aplomb of veteran professionals, they held their audience with every dance step, every gesture, every harmonious tone, blending as one.

Golden Hits

They captivated, charming into capitulation, each one who had come to be captured, with such golden record hits, as "Sunshine of My Love," "Cloud Nine," "My Girl," "I Can't Get

Introduces Temptations

Next to You," and "I'm Losing You." They were backed up by a 14-piece band, The Motown Sound.

They were the lunar century combined—version of the Inkspots and The Step Brothers. And the audience, enjoyed it all, applauded frantically, sighed reluctantly at certain time, and went home slowly but wholly satisfied.

Kicked Off
Willie S. Black, chancellor of the campus Black Student Alliance, said the Negro players, including six who had been expected to be in the starting lineup, were "unceremoniously kicked off the team."

None of the black players was available for comment. Blacks reportedly had planned to wear black arm bands in the game to protest what they said was the "racist attitude" at B.Y.U.

with the Church of Jesus Christ of the Latter-day Saints (Mormon), which according to the blacks, does not allow Negroes to advance in the church hierarchy.

Closed Session

Your professional beautician knows the answer...

Is peroxide needed to color unwanted gray hair?

Hair care and beauty experts know that the first traces of gray hair—and even slight fading of natural color after chemical relaxing—can dull a woman's appearance and make her look older than she feels. While most women hate these premature aging effects, many are hesitant about using permanent peroxide haircoloring which may change the natural hair color while coloring gray.

Professionally-trained hairdressers know the importance of their customers' preferences when unwanted gray becomes a problem. These experts also know that Clairol created semi-permanent Loving Care® hair color lotion without peroxide... to color only the gray without changing the natural shade. They also find Loving Care blends back color faded by chemical processing. Because of its mildness, Loving Care maintains healthy looking hair and lasts through a month of shampoos.

Whatever a woman's reason for wanting Loving Care for her hair, she is always wise to consult a professional beautician. Hairdressers are equipped with a family of fine Clairol products and the training to promise each patron the loveliest and most personalized haircoloring effects every time she visits her salon. If you dislike gray, and want no peroxide, why not ask your beautician to glamorize it with Loving Care?

ROBINSON'S
APPOINTMENT IS
WELL DESERVED

When the present management took control of the Bystander in 1922, two Negroes were employed in the Des Moines post office and one railway mail clerk.

Today, Negroes are employed in all departments, their number is representative and only recently have two outstanding appointments been made in this postal region: Stanley Proctor and Frank Robinson.

Last week Harold Wagner, regional director of the postal service at St. Louis announced Robinson's appointment as Regional Equal Opportunity Coordinator. His area comprises 2,700 post offices in Arkansas, Iowa and Missouri.

Herculean gains have been made by Negroes in the postal service. On the other hand, there is constant pressure based on race against high promotions or even just ordinary jobs. The post office department recognizes this and therefore provides a department to help hold what has been gained and to prepare for higher promotions.

Frank Robinson is fitted admirably for this job. He has earned the recognition not by intimidating his superiors but by top performance and carrying out his responsibilities. It is the kind of advancement that will help provide other opportunities that await men of Robinson's ability.

PRESIDENT DUCKS
JUDGE HAYNSWORTH'S
CIVIL RIGHTS RECORD

It is apparent that in his support of Judge Haynsworth's confirmation, President Nixon has made a defense of the conflict of interest charges leveled against his appointee, but completely ignores the poor civil rights record.

In his decisions on school segregation, most of which have been reversed by the Supreme Court, Judge Haynsworth attempts to hold on to school segregation as long as possible.

The President says Judge Haynsworth's character, integrity and ability are above reproach. We don't believe anybody but the President has raised this issue.

However, trusted public officials are expected to execute their offices in the light of better human relations, better race relations and a desire to raise the standard of all people. It can't be done by those who would continue to postpone full citizenship to all of the people.

BETTER NEIGHBORHOOD
CENTERS NEEDED

The building which formerly housed the Oakridge Center in Des Moines was destroyed by fire last week. It had not been occupied for some time and no one was in the building.

The place had long been an eye sore in the community and yet it housed one of the neighborhood projects.

Too many of the places used by these agencies are housed in places that are a disgrace. In a way they are in competition with other agencies that provide comfortable surroundings and somewhat an improvement over what the users have in some of the unfortunate homes.

Now, there is always this brag that you don't need fine buildings to carry on a good program. And yet, at the same time, beautiful schools, centers and churches are built every day.

There is something of a better feeling to live in a nice house over a shack and that same thing applies in providing neighborhood centers.

Mrs. Morris made the presentation.

Duncan of Davenport, first vice-president; Charles Crooks, Des Moines, second vice-president; Miss Virginia Harper, Keokuk, third vice-president; Mrs. Swartz, Waterloo, secretary and William L. Bell, Des Moines, treasurer. Mrs. Cecile Cooper was re-elected to state board.

The scholarships are awarded annually on a competitive basis to outstanding high school graduates who are highly motivated toward a career in the active army.

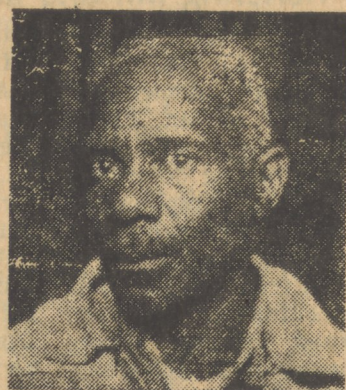

Each scholarship pays for the student's tuition, textbooks and lab fees and provides a \$50 per month subsistence allowance for the duration of the award except for a six-week summer camp period when the student receives one-half the pay of a second lieutenant.

Application closing date is 15 January 1970. Announcement of scholarship winners will be made in the spring of 1970. The scholarships become effective with the opening of the 1970-71 school year.

Good news: The boss says the firm is going to make money this year, despite the staff's best efforts.

SPORTS

With Allen Ashby

We thought the Hawkeyes might pull this one out although we had it listed as one they would lose. Maybe, in view of the arguments about where a knee touches the ground, there ought to be a minor clarification of that. Maybe the rule should read while an opponent has contact with the runner.

Sometimes a fellow can be in the clear and his knee might touch the ground. In the case of Smith of Iowa he could have barely touched the ground with his knee and not have known or his knee could have been a fraction of an inch above the ground.

We recall seeing things like that happen and the resulting call depended on the angle from which the officials saw it. We were glad that Levi Mitchell finally came into his own as a runner. The guy will give the fans some thrills whether Iowa wins or loses.

Cyclones

Now comes Michigan State. And this might be the week for the Hawks to have a bad game.

We knew Kansas State would score four or five touchdowns against Iowa State but we thought the Cyclones would get two or three. Well, they didn't. We wonder how Obert Tisdale's sub felt when he found he had to scamper for his life as well as did Obert. Some fellows were advancing the theory that the fellow up front would block better for Fontannini. But as usual they were wrong. Unless Iowa State can get some up front blocking to get their offense started they may not win another game.

Bulldogs

Drake looks better each time out if you don't count the Northern Iowa game. That one has come to haunt the Bulldogs as they did Iowa State. The team is tough and they are always really up for Drake. Drake was about the same with Iowa State. Tough and sky high. Then Iowa State had to get ready for a couple of conference games that meant more than a win over Drake. So the Bulldogs were dropped unless they could played early before the conference games started. And Drake said no.

North - Lincoln

Our high school teams are having a tough time figuring who is going to be second to Dowling here in the city. The Maroon team rolled over an unlucky East team last week. But the real scuffle was that North-Lincoln deal won by the Polar Bears. There are times when North has five black players at once and nobody cares as long as they win.

World Series?

We can't qualify as an arm-chair quarterback but we would guess that big Hayman of the Railsplitters could be a lot more potent if they ran him more on quick hitters to the inside.

Oh, yes, how did the series suit you? We haven't met anybody who didn't know the Mets were going to win.

Got a note from a fellow saying we should write about sports in which Washington is engaged. Allright now, who or what is Washington? A boy or a school? And what sports is he or it engaged in? Maybe, the answer next week.

The problems of discrimination in recent years have moved to the fore-front in the minds of every American. Those who oppose and those support equality have taken positions.

Those who oppose say we don't understand the problem. Things are better than they have ever been before. The black is pushing too hard. Things are going too fast.

Can't Wait

Those who push for an end to discrimination say we can't wait. Things are going too slow. Freedom now. The question then is why the haste. Why now, and not later?

The answer lies in an examination of the young blacks. What does he see? What does he want?

Witnesses

The young black sees his mother and father living in deplorable conditions today. For many of the young, their parents are living witnesses to the fact that discrimination is bad. They see mothers and fathers who, in spite of changing times, increasing opportunities, and higher pay, are no better than slaves.

Mental Tasks

Why slaves? Because the parent of today must do as the slaves of days past. They must work until they drop. Their greatest jobs were such high paying positions as janitors, scrub women, and cooks.

All the mental tasks that no white person wanted. Their education has not served them well, if they were lucky enough to get an education.

PERCHANCE TO DREAM

The "rest cure" for TB went out with the pill age.

Today treatment for TB focuses on isoniazid and the other pills that fight TB germs. But rest, especially deep sleep, has benefits for everyone, whether sick or well. Benefits unsuspected until very recently.

Surprising

Research into sleep and dreams has turned up some surprising evidence. Some of it suggests that a special kind of emotional learning

It was learned this week that Wanda Bruce, a former Des Moines girl, has become the second tan woman to be accepted into the Professional Women's Bowling Association.

She is Wanda Bruce, daughter of Mr. and Mrs., Lawrence Jacobs of 917 18th street and the granddaughter of Mrs. Mable Newton, of 1402 2nd place.

Miss Bruce is very deserving of the honor reports a sports columnist for the Los Angeles Sentinel. Miss Bruce readily carries one of the top averages of the Southern California women bowlers in the 180 to 190 bracket. She just completed finishing in the league of the Greater L. A. Women's Traveling League.

Currently, she is high up on the Harry Grant 17th Classic Singles at Encino Bowl prize list and the Palm Springs Classic Singles also.

She is married to Richard Bruce.

cation. They worked long hours, made great sacrifices, earned little pay, and saved none. Since they cannot live off the Social Security they receive, they must continue to work. The young see this inequity, and they hate what they see.

Reality

We, who pursue equality and fair treatment for all with equal opportunities, just look with reality upon our parents. And as we see our parents, so will we see our children after us. And what hope is there? The old cannot rest. What sad blessing is it to know that if you are black you must die to rest.

Is it little wonder that the fight for freedom goes on. Is it little wonder that the fear of death does not exist for the young generation. They are born dead, for without freedom there can be no other solution but death. Patrick Henry's cry was give me liberty or give me death. The black man also cries, but he cries for liberty, death is his birth right.

Great Battle

The fight against discrimination is indeed a great battle, founded on hope, and dedicated by those who have made the supreme sacrifice.

There is a job for black and white in this struggle. Organizations have there place in this struggle.

The church has its place in the community and in the struggle for equality. Yet, what has the church done? What has been the image of the church through the years?

NEWSLIP COVER
UPHOLSTERY?

Our slip cover upholstery is not actually new, but it is the proper method of covering upholstery stuffings with muslin - before applying the fabric - we reglue loose frame with hardwood kiln dry wooden dowels - in this way having tied springs from 2 ways to 8 ways in a diamond tie, having sewed down ¾ of the stuffings and using edge roll on all sharp edges of the wood frame - doing all steps - not leaving out any - then covering with muslin prior to putting on the fabric with our superior custom construction of any chair, sofa, footstool or ottoman.

This is why when you may want to change your fabric, you use fabric only, because our basic construction in upholstery is so well made nothing but the fabric need be changed within 5 years under normal use - in fact, based on your frame being good - a good fabric - and our work being done properly, your chair or sofa done by us should last for 20 years - that is, the fabric will wear out, but your basic construction will outwear many fabrics - all work done by hand, the old fashioned way - jute webbing and coil springs used whenever we can - no steps left out - we take and have all the time we need to do only the best upholstery construction work.

Secret! At the first sign of wear, change fabric - do not let base muslin covering wear through stuffings - muslin is your fabric pre-foundation. We produce low production, high quality upholstery. The truth is: True custom upholstery can not be done overnight - a chair may take 2 or 3 days, a sofa a week or more.

Be wise, don't buy outside appearance and style - buy inside basic construction - he truth is - your old chair or sofa is much better than a cheap new chair or sofa - see our new doel hardwood constructed frames if you want good new upholstered furniture - True custom upholstery is slow but thorough. Good upholstery takes time - it can not be rushed.

This I pledge - you must get the very best workmanship that I can produce with basic upholstery - for the ingredients mixed in that can't be bought are: honesty, consideration, integrity and truthfulness - we work slow but thorough - the job is our first consideration - our pay comes later - after you are 100% satisfied. If we can't buy our own job, neither will we sell it to you - for we truly live by Christ God's rule - Do unto others as you would have them do unto you.

NIGERIAN FIELD HIT
BY BIAFRAN PLANES

BENIN, NIGERIA - Four Biafran planes strafed Benin airport with rockets Friday, damaging nearby houses but causing no damage at the airport, military authorities said. One man was injured in the raid, believed to be by Swedish-made Minicons, which flew in at tree-top height.

Ramon Greenberg, of the Veterans Administration Hospital in Boston, showed a gruesome film of an autopsy to two groups of subjects. Then he measured the emotional tension caused by the viewing. He allowed one group to get a good night's sleep that night. But he awakened the second group each time their brain waves indicated they were about to dream.

The next day all subjects were shown the film again. The first group, who had been allowed to dream, were much calmer the second time. But the other dream-deprived group showed just as much anxiety at the second viewing as at the first. Dreams, it seems, help digest the past.

Regular

Dreams occur during sleep at regular intervals, about every 90 minutes. The electrical waves of the brain become as active as when the sleeper is fully awake. These periods-called REM sleep because of the rapid eye movements that take place-last for 20 to 30 minutes at a stretch. They are now considered so important that ads for sleeping pills in medical magazines tell physicians how much REM sleep the pills will produce.

Rest alone does not cure TB. But deep sleep and dreams are part of healthy living.

THIS N THAT -

When the talk turns on religion I have notions of my own. Have my version of the Bible and the things I think alone. And I've found them satisfying, found them comforting to me. But I'll never lose my temper if you chance to disagree. For religion, as I view it, is a pathway to the goal. And is something to be settled between each man and his soul.

Now I'm not a Roman Catholic, but I wouldn't go so far. As to fling away the friendship of the folks I know who aren't. I have lived and neighbored with them, come to love them through and through. I've respect and admiration for the kindly things they do. And I've come to the conclusion, though the bigots think it odd. That it makes no difference to me how a good man worships God.

I know Methodists and Baptists, Lutherans, Scientists, and Jews. Whose friendship is a treasure which I wouldn't want to lose. And I honor and respect them, and I wouldn't dare condemn. The form of prayer and worship which is comforting to them. So when bigots talk religion, I just settle back and see. The helpful friends and loyal every church has given me.
