# Shadowboxing on Crime in M.C. Retracts Charges Against NAACP

### Bishop Tucker Retracts Charge

NEW YORK — Bishop C. Ewbank Tucker of the African Methodist Episcopal Zion Church, Louisville, Ky., has retracted the charge that NAACP officials "have been on the payroll of the national Democratic party for years." He made this charge during the Association's 61st annual convention in Cincinnati, June 29 through July 3.

The retraction was in response to a demand by NAACP General Counsel Nathaniel R. Jones who threatened to file a damage suit against the Louisville bishop unless he promptly withdrew the allegation which Mr. Jones called "false, malicious, defamatory, and libelous per se." Bishop Tucker made the charge, July 2, in a telegram to his fellow AME Zion Bishop, Stephen G. Spottswood, chairman of the NAACP Board of Directors, who in his keynote address at the opening of the Association's convention said that the Nixon Administration is "anti-Negro."

The text of Bishop Tucker's retraction follows: "With malice towards none and for the sake of peace I am hereby retracting the statement made by me in a telegram to Bishop Spottswood to wit that several national officials of the NAACP have been on the payroll of the Democratic party. I trust everybody is happy."

### Nixon Is Doing Well Says Life Magazine

New York, N.Y. — LIFE magazine says this week that President Nixon has done a better overall job in naming blacks to Administration positions than did Presidents Johnson and Kennedy.

Nixon has picked one black for an important policymaking job and two others for influential spots, the magazine says in its July 24 issue. "Their presence—plus the fact that Nixon has appointed twice as many blacks to office as any other President—does give him an overall edge over Kennedy and Johnson," the story contends.

If this surprises some people, LIFE says, then it may force a change of opinions not about Nixon but about his predecessors.

#### Equal Opportunity Employer

The story questions whether the Nixon Administration is an equal opportunity employer. The issue was raised by the White House when, in responding to the NAACP's criticism that it engaged in "anti-Negro policies," it claimed Nixon had named more blacks to policymaking posts than any previous Administration.

"On the face of it, the claim seems overblown," LIFE says. "Nixon has done nothing so dramatic as his predecessor did in appointing the first black Cabinet member and the first black Supreme Court Justice." Kennedy appointed Robert Weaver as Secretary of Housing and Urban Development and Johnson picked Thurgood Marshall for the Supreme Court.

### NAACP Demands Federal Intervention

NEW YORK — July 18, 1970. The National Association for the Advancement of Colored People called for Federal intervention to restore peace in New Bedford, Mass., which for a week has been embroiled in racial strife. In a telegram to U.S. Attorney General John N. Mitchell, with a copy to Massachusetts Governor Francis Sargent, William Carmo, president of the NAACP, and Jerry M. Guess, the Association's field director for New York-New England, asked for the action to stop "extreme acts" in that city.

### Des Moines Rights Secretary at St. Louis Conference

Allen J. Correll, executive director of the Des Moines Human Rights Commission, who is attending the Twenty-second Annual Conference of the International Association of Official Human Rights Agencies in St. Louis, Missouri, was elected to the Executive Board of the national association. Mr. Correll, who defeated Mr. Andrew Brown, director of the St. Louis Commission on Human Rights, will represent the entire Midwest Region and will be required to attend at least five Executive Board meetings during the coming year, as well as hold regional conferences.

The Midwest Region includes the states of Illinois, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, Michigan and Iowa.

### Gulf Oil Co. Employee Helps Black Economy

Pittsburgh, Pa.— When the Gulf Oil Company granted Raymond Clayton a leave of absence from his job, it helped open the way.

Mr. Clayton took on the challenging task of establishing and putting into operation a plaster figurine plant run entirely by black people.

for LIFE its black policymakers. The six highest were:

Samuel Jackson, assistant secretary of Housing and Urban Development; James Farmer, assistant secretary of Health, Education and Welfare; Ronald Lee, assistant postmaster general for planning and marketing; Robert Brown, a special assistant to the President; Arthur Fletcher, assistant secretary of Labor; and Samuel Pierce, general counsel of the Treasury Department.

LIFE says that Jackson of HUD emphatically does make policy and is responsible for \$1 billion a year, and that Lee and Fletcher are influential. Lee has a major role in reorganizing the Post Office and also has induced the department to deposit \$70 million of its funds in 25 black-owned banks. The magazine credits Fletcher as being "responsible for one of the Administration's few civil rights innovations, the Philadelphia plan which set nonwhite hiring quotas on federally-financed construction projects."

### American Jewish Congress Reports Libel of a Black Militant Student

NEW YORK, July 17 — The American Jewish Congress today charged that a "gross libel" had been perpetrated when a black militant student told delegates to the United Nations World Youth Assembly, on a tour of Harlem yesterday (July 16), that "Jews, predominantly" were the exploiting landlords of slum buildings.

In a letter to Neville Wade, the British youth delegate who asked about the ownership of the building he saw, Congress said the answer that slum housing was owned predominantly by Jews "is entirely unwarranted."

#### Most Black Landlords

The letter, signed by Theodore J. Kolish, chairman of the executive board of Congress' New York Metropolitan Council, cited the recent city housing study by Professor David Sternlieb of Rutgers University, which found, according to the New York Times report of May 1, that black landlords own 52 per cent of the all-black buildings and 20 per cent of the buildings that are mostly black. Similarly, in Spanish-speaking areas, most of the buildings are owned by Spanish-speaking landlords.

Mr. Kolish asked Mr. Wade to distribute copies of his letter to the other youth delegates before the assembly adjourned; the American Jewish Congress sent several hundred to him at the United Nations by messenger.

In the letter, the Congress leader wrote: "Undoubtedly, some of the slum property in New York is owned by Jews, just as some is owned by members of the many other groups that make up the population of New York. It is plain, however, that

the statement that slum housing is owned predominantly by Jews is entirely unwarranted.

"I want you to know also that the organized Jewish community of New York has been among the leaders in the fight to correct the intolerable conditions in the city's ghettos. Knowing this, the great majority of the city's black population rejects the anti-Semitism expressed" on the delegates' tour.

"They recognize anti-Semitism as part of the broader evil — racism — that causes ghetto slums to exist."

Asserting that he was writing only to correct "the gross libel which was conveyed to you and those other members of the United Nations World Youth Assembly" on their Harlem tour, Mr. Kolish declared: "It was entirely appropriate for you to see Harlem in its unrelieved horror. You would hardly have had a true picture of our city or of our country if our grave shortcomings were not revealed together with our assets. But it is irresponsible and outrageous to suggest that those shortcomings are the work of the Jewish community or of any other small minority of the population."

### No Trace of Slayer of K.C. Mo., Legislator

KANSAS CITY, MO. — The brutal and senseless slaying of Leon M. Jordan, a member of the Missouri state legislature and powerful Democratic political leader, has not been solved, but members of the Metro squad said Thursday night that they are searching hard for clues that may lead to the three men who committed this dastardly crime early Wednesday morning, July 15.

Representative Jordan, founder and president of Freedom, Inc., the strongest black-controlled political organization ever developed in this part of the country, was shot and killed as he was about to enter his car about 1:10 a.m. Wednesday a few minutes after he closed his Green Duck tavern located on the northwest corner of 26th and Prospect Ave.

Witnesses have told police that three men riding in a 1967 automobile shot Jordan and then sped west on 26th street at a high rate of speed.

One witness said that the first shot, fired from the moving car, hit Jordan in the right hip, causing him to fall to the street. The witness said that one of the three men in the car then got out of the vehicle and fired two shots at Jordan as he lay on the ground. He then re-entered the car which sped away.

### Young Urges Blacks to Work Within System

NEW YORK, N.Y. — Echoing the position taken by the Whitney M. Young, Jr. executive secretary of Urban League, Clarence Mitchell, Jr., Washington Director of the National Association for the Advancement of Colored People, urged blacks Monday to work within the political system to pressure Congress for reform.

"We're all Americans first," Mitchell told the sixtieth annual convention of the National Urban League. "I am concerned about the incidence of racism that I see in our ranks — whether it is from black or white, it is always bad. I stand for a world in which all men are brothers, in which we don't separate ourselves into racial enclaves."

"The plan will be in the area of housing, employment, manpower, welfare, education, health, justice, environment and popula-

### NEWS In A Nutshell

NEW YORK, N.Y. (AP) — The Rev. Ralph David Abernathy, president of the Southern Christian Leadership Conference continues to reiterate his charge that President Nixon is not sensitive to the needs of the poor.

LeRoy Russell Swift, M.D., has been appointed to the new position of special assistant to Dr. Kenneth M. Endicott, Bureau Director of Health Professions Education and Manpower Training. Dr. Endicott has announced.

WAYNESBORO, GA. — Gov. Lester Maddox confirmed Sunday that he led a group of candidates in a walkout from a political forum here during a speech by an avowed white racist candidate for governor.

NEW YORK — Roy Wilkins, executive director of the National Association for the Advancement of Colored People, dispatched a telegram to President Nixon, July 16, urging emergency Federal aid for the city of Ashbury Park, N.J.

BOSTON, MASS. — The recent vote of the Unitarian Universalist General Assembly to cease all funding of the national Black Affairs Council (BAC), thus, reversing a 1968 vote to grant BAC \$250,000 a year, is interpreted by the Black Unitarian Universalist Caucus (BUUC) as "a timely opportunity for good people to do what is right and liberating."

tion," Young said.

#### 1964 Proposal

Young first proposed such a rehabilitation program on behalf of American Negroes in 1964, putting a \$10-billion price tag on it at the time. Nothing came of the initial suggestion.

Young said the group of 25 senators from both parties asked him to bring the original plan up to date, and that he hopes to have it ready for them within a few weeks.

### Des Moines NAACP

The Des Moines Branch NAACP will meet Tuesday July 28, at 8 o'clock in the evening at Wilkie House. Reports of delegates to the national and membership drive will be given.

### Efforts by Woods to Fix Penalties for Law Violators Fails 5 to 2

In a meeting at the City Hall Monday night, sparked by sharp debate between divergent views on how to solve the crime problem in the Model Cities, efforts to impose stricter laws on the area were defeated.

Councilman Woods introduced the following resolutions:

1. That the Council request all county judges to sentence convicted rioters to a minimum of 30 days in jail.

2. That the Council ask all residents of the city to write judges in support of the minimum 30-day sentence.

3. That the City install a siren or other warning device in the area of Thirteenth Street and University Avenue and adopt a policy of dispersing with clubs, guns, or any other method, anyone who doesn't get off the street after hearing the warning sound.

4. Establishment of what Woods called an "If you loot, we shoot" policy, in which any looter who does not halt when ordered to do so by an officer would be "apprehended in any manner deemed advisable" by the law officer.

5. That the City issue a warning that if crime is not reduced in the Model Cities area, the council will, in the future, consider

withholding Model Cities funds "until law and order are restored."

#### Wrong Approach

Opponents of the resolutions urged that the solution to crime in the Model Cities or other areas is more jobs, better housing and improved education. They felt that the resolutions were discrimination and aimed at the Model Cities area.

Woods resolutions were defeated by a vote of 5 to 2 while the watered-down resolutions passed by a vote of 7 to 0.

One of the accepted points declares that loitering around public buildings and bridges must be stopped and it urges all citizens to notify police when they see loiterers.

#### Mayor Cries Patience

Mayor Urban issued a prepared statement contending that intelligent methods were being used to solve the Model Cities problem concluding that "Great communities, like families, are not built on punishment, hate and fear, they are built on firmness, understanding and good sense. That is how Des Moines has been built and I fervently hope will continue to be built for that is the kind of city in which most of us want to live."

About 200 people attended the session.

### Combining for Lost Iowa Census Citizens

DES MOINES — July 22. Due to the growing concern of many Iowa cities and towns over the preliminary figures of the 1970 Census Gov. Robert Ray today urged every Iowan, who believes he was not or might not have been counted, to complete the "Were you Counted?" form prepared in this distribution.

Send the form or the original questionnaire, if you still have it, to: Office of the Governor, State House, Des Moines, Iowa 50319. They will be forwarded to the census computer center at Jeffersonville, Indiana, and checked against the preliminary census figures from Iowa.

"It is important to all Iowa that each citizen is counted, not only in the interests of accuracy, but also because much federal money is apportioned to the states on the basis of their population," the Governor said.

### Milwaukee Grocer Sues Pres. Nixon

MILWAUKEE, WIS. — The only Black man to run for mayor in the history of Milwaukee has filed suit against Spiro Agnew.

In addition to the Vice-President, restaurant operator Franklin Stribling, acting as his own attorney, sued Richard Nixon, Attorney General John Mitchell, Governor Warren Knowles and Wisconsin Attorney General Robert Warren for good measure.

His legal action contends that super market chains and franchise restaurant operations unfairly compete against smaller entrepreneurs through agreements which are used to supply large operations at cheaper prices, thereby preventing competition from independents.

### Ford Forms Institute to Upgrade Police

NEW YORK, July 23 — The Ford Foundation today announced establishment of a major national institution to support efforts by police departments to upgrade their performance in law enforcement and the administration of justice.

The Foundation will give \$30 million to the institution, called the Police Development Fund, over the next five years.

It will be the largest private agency in the country concerned exclusively with police work.

In announcing the Fund, McGeorge Bundy, president of the Foundation, said: "We hope that the Police Development Fund will be a major instrument to which police departments can look for help in improving their effectiveness."

### IPALCO Adds New Transmission Lines

A new 345,000-volt electrical transmission line, running from Cooper Nuclear Station at Brownville, Nebraska to Sycamore Power Center of Iowa Power and Light Company north of Des Moines, has been completed and placed into operation.

Stretching approximately 140 miles and costing more than \$8,000,000 to construct, the new power line forms an important energy link with other major utilities throughout the Midwest. Until Cooper Station goes into operation in 1972, the line will be used to feed additional energy from neighboring power systems into the Iowa Power area as needed.

Lyon also noted that once the Cooper Nuclear Station is in operation, Iowa Power customers in central and southwestern Iowa will be provided with an additional 400,000 kilowatts via this new line.

## Transportation Contracts to Minority Firms

Washington, D.C. — Transportation Secretary Volpe reports that 20 minority-owned business firms were awarded \$894,284 in service contracts by Transportation in the first six months of 1970. Noting that the contracts were made in support of the President's pledge to encourage minority entrepreneurs through the new Office of Minority Business Enterprise at Commerce, Mr. Volpe said the report was significant in view of the fact that few minority-owned firms had received Transportation Department contracts before the Nixon Administration took office. The business includes aviation parts and equipment, bouys, fuel supply and service, road repairs and building alterations.

## New Neighborhood Is Organized

The City of Des Moines has a program called the Neighborhood Improvement Program working out of the Department of Urban Development. This program is designed through neighborhood participation to help clean up the city.

The basic concepts of the Neighborhood Improvement Program are to act as a liaison agency between the municipality and its people; to eliminate the "old run-around"; and to provide technical assistance to neighborhood groups. We are here to help these groups form themselves into organized bodies and/or help them create and implement neighborhood projects.

## Three Tell of Purse Thefts

Beulah Dielfeld, 58, of 1448 Tichener St. suffered skinned knees when two men grabbed her purse in the 1800 block of Keosauqua Way pulled her down, took a billfold containing \$13 and fled.

Mrs. William Tallan of 1149 Sixty-seventh St. told police that a man reached in the window of her car and grabbed a purse containing \$10 while she was parked at Nineteenth Street and Carpenter Avenue.

Irene Rule of 3501 Third St. reported that a youth grabbed a purse containing \$30 as she walked across a parking lot at Thirteenth Street and Forest Avenue.

## Social Security

Health, Education  
Welfare

Q) Instead of making an estimated tax declaration, can I just increase my withholding?

A) Yes. To determine your additional withholding, use the worksheet that came with the estimated tax package.

If you did not get an estimated forms package, the Form 1040ES worksheet may be obtained at your local IRS office.

Q) My father died last year and my wife and I are now supporting my mother. Are her social security benefits counted as income?

A) Social security benefits are not counted in determining whether she had gross income of \$600 or more. These benefits are counted, however, in determining whether you provided more than half her support.

To meet the support test, you must provide more than half the cost of her food, clothing, shelter, medical and similar expenses for the entire year.

Q) I forgot to claim my Blue Cross premiums when I sent in my return. Is it too late to do it?

A) No. Generally you may make a change in your return by filing Form 1040X, Amended U.S. Individual Income Tax Return. Copies of this form and instructions are available at local IRS offices.

## Race Tension Eased In Michigan City

MICHIGAN CITY, Ind. — A series of eight demands to ease the tension in this riot-torn city was granted following a conference here with Mayor Conrad Kominarek and the NAACP and other civil rights groups.

Sydney Finley, the Association's quad-state field director, made it plain that these demands would be supplemented by a comprehensive proposal "designed to meet the needs of the entire community and all its people." Mr. Finley and officers of the local NAACP branch, of which Lee Birdsong is president, are drafting a statement "which will include virtually every aspect of the community."

## Barbara Spencer Awarded \$185.00

Minneapolis, Minn.-Mrs. Barbara M. Spencer, an

Barbara Spencer

employee here, has been given an award of \$185.00 for her suggestion of the program system to process combination of payment and dividend credit to pay premium and/or loan, considered in accordance with Manual MP-5, Part I, Chapter 451, and VA Center Circular 69-8.

This suggestion was forwarded to the Central Office for their consideration. The idea was accepted and a Department of Data Management Assignment 032-09A1-037 was developed and released to implement your suggestion. The target date for installation of this program change is November 30, 1970.

A Certificate of Appreciation was signed by John R. Murphy, Director. Mrs. Spencer is a former resident of Des Moines, Iowa and the daughter of Mr. and Mrs. Frank Hogan, Sr. of 821 28th Street.

Income from Schedule E should be entered on line 14 of your Form 1040 along with income from any Schedule C, D or F you are filing.

Q) Last year my teenager made about \$350 a year on his newspaper route. Is this taxable to him or me?

A) His income is not taxable to you. Your son should report this income if his total earnings from all sources amount to \$600 or more for the year.

If his total earnings were less than \$600 but income tax was withheld, he must file a return to claim a refund.

Q) How do I figure my tax surcharge?

A) If your tax is less than \$735, you may determine the amount of surcharge you owe from the Surcharge Tables on Page T-1 of the 1040 instructions package. For a tax of \$735 and over, multiply the tax by 10 percent to figure the surcharge.

## Senator Thurmond Sounds of Civil War Days

Washington D.C. — Demanding an eye for an eye and a tooth for a tooth, to quote the Bible, Senator Strom Thurmond of South Carolina, in a Senate speech criticized President Nixon for listening to his liberal advisors and reniging on his promise to go slow with school integration.

Senator Thurmond based his criticism upon a press story that 100 lawyers and marshalls were to be sent South to force southern schools to carry out desegregation.

### Tax Exempt Schools

He said that as recently as Feb. 19, "the President assured me positively that he supported the tax-exempt status of private schools."

The senator worked lining up southern delegates

to support President Nixon at the 1968 convention. Although a Democrat for years, he left the party because it had become too liberal in the cause of human rights.

### Reconstruction days Talk

And while he also harshly criticized what he called the carpetbagging invasion of Justice Department lawyers he said they are being sent to the South "for the purpose of assuring forced integration of the public schools."

Saying the two decisions

are of the sort he would only expect from a Democratic administration, Thurmond said they are a breach of faith with the people of the South and reveal a strong distrust of the entire region.

The White House had no comment concerning the Senator's speech. However, in his appearance on ABC Sunday, White House Counselor Finch said the Senator had no other promise that all parts of the country would be treated alike.

# An Appeal by BLACK AMERICANS For United States SUPPORT to ISRAEL

The crisis in the Middle East is a cause of great concern to all Americans—non-Jew as well as Jew, black as well as white. Our concern as black Americans is motivated not only by the threat to world peace which is posed by the Arab-Israeli conflict. We are also moved by the ideals of democracy and social justice, ideals which we have struggled to achieve in this country and which we firmly believe the United States must uphold in the Middle East. In our opinion, the United States can best stand by these ideals by unequivocally guaranteeing Israel's security.

While we are aware that Israel, like any other nation, has its shortcomings, it is by far the most democratic country in the Middle East. What is remarkable is that the high degree of political freedom in Israel has not diminished despite the constant need to maintain military preparedness. In contrast, countries like Iraq, Syria, and Egypt are dictatorial one-party states where the press and the courts are rigorously controlled and non-Moslem minorities are severely persecuted. Moreover, Israel has made tremendous strides toward achieving an equalitarian economic order. Its sophisticated system of educational, health, and welfare services is more advanced even than in our own country and has enhanced the quality of life for Arab as well as Jewish Israelis. The incidence of poverty in the Arab countries, on the other hand, remains appalling. The income from oil has been used to sustain wealthy sheikdoms—and often terrorist organizations as well—but rarely to alleviate the suffering of the poor.

We are deeply concerned about the plight of impoverished Arabs, particularly those who have been made refugees as a result of the three Arab-Israeli wars. But we do not feel that the continuation of the conflict serves the real interests of these people. Prolonged hostilities and inflammatory calls for the destruction of Israel can only divert precious attention, energy, and resources away from an attack on the pressing social and economic problems of the Arab people.

Some Americans, including a small minority of blacks, have expressed the feeling that the Middle East crisis is fundamentally a racial conflict between nonwhite Arabs and white Israelis. We think that this point of view is not only uninformed but dangerously misleading. It ignores the fact that approximately half the Jewish Israeli population consists of immigrants from Asia and Africa. And it also implies that there is an inherent solidarity of nonwhite people. This notion should have been laid to rest not only by the tragic Nigerian civil war, but also by the continuing brutal persecution of black Africans by the Sudanese government which, it must be emphasized, is militarily allied with and assisted by the Egyptian government. We should add in this regard that Israel, with its impressive program of foreign technical aid, has contributed far more than any of its Arab enemies to the development of black African nations.

We, therefore, support Israel's right to exist for the same reasons that we have struggled for freedom and equality in America. And it is again for these reasons that we believe that only peace and economic development can bring real justice to the Arab people. The present crisis in the Middle East endangers both Israel's existence and a better life for the Arabs. We believe that the United States has a vital role to play in ending this crisis. If it does not stand firm in the Middle East, the Soviet Union will be encouraged to increase its intervention, thereby escalating the conflict still further.

We urge the United States government to use its great influence to help bring the Israelis and the Arabs to the conference table where they can work out among themselves a just and negotiated settlement. *We also urge our government to take steps to help guarantee Israel's right to exist as a nation.* For the present this means providing Israel with the full number of jet aircraft it has requested.

versatile shape is the large square. It can be folded into a triangle and wrapped around the hips to add dash to a matching sweater and slacks outfit. Or it can be rolled along with a chain belt into a sash for a patterned skirt, or worn around the neck and fastened with a ring over sweaters and shirts. Rolled into a rectangle and tied around the strap of a handbag, a scarf makes a debonaire pennant.

Very long rectangular scarves are worn wrapped twice around the neck with one end flung over the shoulder and the other pulled through the belt. Many innovators are even wrapping them around their heads low over the forehead, catching them with a buckle or clip and letting the ends fly free to the side.

### Lousy Excuses Make The Best Parties

WHAT does a potential hostess do when she can think of no excuse for a party? She gives a "No Excuse Party" and bills it as exactly that. Guests are invited to manufacture their own excuses to attend. For example, "It's my second cousin's anniversary," or "Today's the day the swallows depart from Capistrano." Award prizes to the most original excuse-maker. Ask guests to bring an excuse for the way they are dressed - or have latecomers sign a written excuse to gain admittance.

Refreshments at a "No Excuse" party should be simple. Each dish, although tasty, can be tagged with an excuse: "I forgot to add salt," or "I mistook rug dye for consommé." Serve flavorful favorites, such as a rich Mulligan stew, kept hot in an electric cooker (so the hostess won't need an excuse), hot coffee, chips and dips.

The guests' excuses will be icebreakers enough at this unusual party, so the hostess need not devise elaborate decorations. You might have one decorative sign: "I ordered fancy decorations, but they were lost in the mail."

not devise elaborate decorations. You might have one decorative sign: "I ordered fancy decorations, but they were lost in the mail."

The warm summer months are a wonderful time of the year. There are barbecues, pool parties and lots of outdoor activities. It also is a time to remember the salt.

Keep in mind that you lose salt by perspiring. Add a little extra to your food as salt loss can be quite serious. If your activities are strenuous, salt tablets also may be needed. For picnics you will find the miniature blue and white plastic containers of salt very convenient. There are matching pepper shakers, too. When you are having corn on the cob, try the special very-fine-grain salt for popcorn, which is in an appropriate yellow pack. Morton Salt Co., 100 N. Wacker Drive, Chicago 60606

One of the more pleasant family activities is to make your own ice cream. All you need is the freezer tub, the ingredients, ice—and salt. Complete directions can be found on the bright red, white and blue bag of ice cream and cooling rock salt. You can speed cooling of beverages and watermelons with rock salt, too, by sprinkling it liberally over the ice.

SUNDAY, July 18, from 8 p.m. to Midnite, UNIVERSITY AVENUE from 13th Street to 15th Street was roped off for the purpose of providing a space for Black teenagers to dance.

When my two granddaughters (DENISE AND MAUDINE) expressed a desire to go, both my daughter (Mrs. MARGUERITE ENGLISH) and I viewed the idea with apprehension because of the image that has been projected out about 13th and University. The problem was resolved in our family meeting - do we or do we not trust our youth. Does being all-black necessarily mean that violence will evoke? We were on the spot - our youth won out. We not only took our two children but left them with the hope that our teaching and training had taken root. We lived with our guilt (hypocrisy of verbalization vis-a-vis actions) from 8:30 to 11:30 p.m.

HOW PLEASANTLY SURPRISED we were - when we returned at promptly 11:30 and found NO hysteria; NO wild shouting and screaming; NO fighting NO looting; - but the usual gyrations we see on television and other media by all youth as they danced to the strains of SOUL music.

The Affair was sponsored by GEORGE BREWER who is becoming more and more known for his interest in our youth and to whom we not only give our thanks but TAKE OFF OUR HAT as a promoter of fine activities in the so-called GHETTO. The Group that provided the music was MARVIN SIMM AND HIS FIFTH MOOD. I must say they were terrific.

On the way home it struck us: WHAT AFFAIRS ARE AVAILABLE TO TEEN-AGERS FOR RECREATIONAL PURPOSES; WHAT AND WHERE ARE SUCH FACILITIES; WHAT IS THE CONDITION OF THOSE THAT EXIST; WHAT TYPE OF SUPERVISION IS PROVIDED. WHAT ARE WE, as so-called BLACK LEADERS doing about this!

We observed youth of all ages, classes and backgrounds in the congregation. They seemed to have a sense of identity: thrown together for these few hours they DID THEIR THING in a manner and style all their own for it is my understanding that the YOUTH planned the affair and REQUESTED supervision. Supervision, by the way, was provided by adults who VOLUNTEERED their services.

THE D.M. CITY COUNCIL held its regular meeting MONDAY July 19 - and as I sat listening to the 9 Resolutions proposed by Councilman SCOTT and WOOD I was reminded of HITLER and his Mein Kemp. For without a doubt, implicit in the Resolutions was a threat to all black persons that reside in the area screened off for dancing by our black youth.

Immediately following the reading of the Resolutions, a member from the audience asked to be heard. I HOPE most of us were shocked when he offered the use of his DOGS to the Police Department in their attempts to CLEAN-UP 13th and UNIVERSITY. My thoughts reverberated to MEIN KEMP. To many present (who spoke later) it was part and parcel of a plan by a certain group or groups to BRUTALIZE the citizens in the area without thought to the many fine, respectable, Christian, law abiding people that live there.

PEOPLE in the area and in D.M. should be cognizant of the implications of the kinds of proposals made in the 9 Resolutions and

the Offering of Dogs by citizens to stop rioting in the so-called Ghetto.

All of us should be grateful that such Councilmen as VANDERLINDEN; OHLSEN AND GROETHE made their values known and felt in the hate-ridden audience; and that neither our MAYOR nor our CHIEF OF POLICE endorse such policies. The astute manner in which the very explosive situation was handled by all but the two Councilmembers who are the proponents of the Resolutions, prevented their passage and, I believe, served a larger purpose of quieting the feelings of persons who are already motivated to retaliate.

TO THE ANTI-NIXON; ANTI-REPUBLICAN NEGROES - recently \$3 million dollars has been appropriated to Des Moines Model Cities for their Urban Renewal Program. IT IS INCUMBENT UPON ALL BLACK PEOPLE IN THE AREA TO WORK WITH THE MODEL CITIES DIRECTOR AND ENSURE THAT THESE FUNDS BECOME AVAILABLE TO DES MOINES AS SOON AS POSSIBLE. DO NOT LET POLITICS PREVENT THE RELEASE OF THESE FUNDS TO YOU. It is my understanding that SENATOR JACK MILLER HAS DONE MUCH OF THE WORK TO GET THESE FUNDS APPROPRIATED. THINK before you accuse any administrator look behind the facade and the noise that is often played up to prevent BLACK PEOPLE FROM KNOWING WHO THEIR REAL FRIENDS ARE. LOOK AT THE ACTION rather than the WORDS that we have been living with for the last 20 years.

Saw BEA and FRANK ROBINSON recently. The first time in a long (too long) time. Bea and I grew up together in PERRY and in a sense we were for many years almost like sisters for we were in and out of each others house daily. All of our activities included the Eaves (her maiden name.) She tells me that she is retiring from the D.M. Board of Education for whom she has worked many years. FRANK, who is busy traveling about the country in his new position, grows better with age (to use a cliché.) Both looked great and seemed to feel great. It was good to chat with them.

EUGENE (better known as HUMMER) BROWN, a professional motorcyclist in to engage in a 30-day racing Circuit throughout the United States. EUGENE is the only BLACK person who has been accepted in this activity in Iowa. He is the proud possessor of many trophies he has won over the years. GOOD LUCK, EUGENE!

MARRI JOHNSON has been hospitalized. It won't seem right not seeing her little SAAB buzzing up and down the streets and she darting here and there gathering news, assisting the sick and disabled, helping the downtrodden, and being USEFUL whenever and wherever she can. There is only ONE Marri - let's hope her situation is not serious and that next week LINES will be written by her.

Don't throw away screw-top jars. Instant coffee and peanut butter jars especially make wonderful storage containers for leftover paints. Be sure to fill the jars to the brim. Then screw the lid on tightly. By sealing out the air, you can keep your paint fresh until you're ready to use it again. The clear glass jars enable you to see exactly what color the paint is.

NO BIAS IN  
ALL STAR GAME

Organized baseball has used three systems in the selection of participants in the annual all star game: 1st, by a vote of the managers; 2nd, by a vote of the players; 3rd, by a vote of the public. The third system was used this year.

Each has had some criticism but in the end, with few exceptions, the top players are selected.

There were more Negroes on the teams than ever before. It was strong evidence that people who like sports do so for the game. They look for a winner putting aside any others that, at times, warp their thinking.

SENATOR THURMOND  
POSES NO CHANGE

Senator Strom Thurmond (R) of South Carolina in a speech before the U. S. Senate that last week accused President Nixon of reneging on his promise to go slow on desegregation in the South. He also said the President had reversed his position in favor of allowing tax exemption to private schools that have been formed to take white children out of the public schools.

He reminded the President that the South would not vote support for him in 1972 as in 1968 when the senator was instrumental in lining up delegates - he said - for the Republican convention.

Senator Thurmond is, in fact, a Henry Wallace type man. He left the Democrat party, his love, because it too had become liberal.

He toyed with the idea that the Republican party in the South would offer him a sanctuary so he could continue to dispense patronage in South Carolina.

All Presidents do some trading with the South because they are a part of the nation. But it is foolish to expect a President to violate the Constitution to suit the whims of a group of unreasonable people when people on the other side only insist that the law be enforced.

LITTLE TO COME OF  
COUNCIL DEBATE

Periodically, the Des Moines City Council engages in a debate about crime in the Model Cities area. It was hot and heavy Monday night as attempts were made by the hard core members to push through a set of resolutions aimed at harsher punishment for those who disrupt and terrorize people in the neighborhood.

All recognized that conditions are bad but were divided on the question of whether adequate means were being pursued to put a stop to complaints and conditions or whether the right steps were being taken.

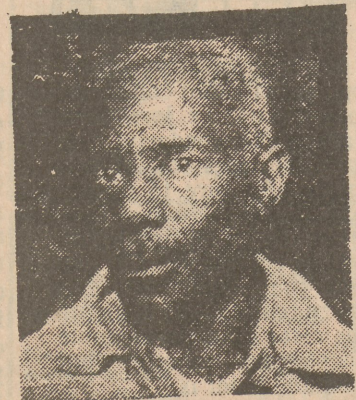

During the debates between the tough and the moderate members, Mayor Urban presented a document explaining that progress was being made in combating the evils which breed bad conditions exhorting the people in the neighborhood to cooperate in helping remove the source of trouble.

We do not believe the efforts being made to cure the Model Cities troubles are directed properly. Local citizens in the area should not be called on to do the work of policemen no more than those in any other area; law enforcement officers make little effort to clean up the bad spots; that no effort had been made by officials to work with Negroes who have lived and worked peacefully in the community over the years.

A lot of plays are being made about the big job being done in housing, in employment and training in the area but the proof of these gains is woefully lacking.

Of course, one must realize it is different to interest or train people in late years. We have had good schools, training facilities and what

## SPORTS

With Allen Ashby

It is about that time for our annual Hilltop Open tennis tournament. This year things will be somewhat different. Mrs. Esther Myers, who always did all the preliminary work, ordering the balls, trophies, filing the entrants according to groups, and getting out the pairing sheets, probably won't be around this year. We had thought for years that one day the lady was going to find herself unable to make the trip from the Twin Cities here and spend enough time to get the tournament off.

## New Co-ordinator

So, Cecil Brewton finally contracted yours truly and we are going to give it the old school try to run the thing. In recent years it has been largely Cecil, Esther and I, so now it will be just the two of us. We could use all the help we can get. There are enough Hilltop club members, that if each one would give a little of his time, we could put the thing over without any strain on anybody. But it hasn't always been like that. Kizzie Strothers has helped out a lot in the past when she wasn't working, and so did Chet Williamson until last year.

## Late Start

With the late start, we don't know how many entrants we will have, nor who will be favored in what division. Cecil is busier than a man caught in a swarm of bumble bees with his two jobs, and we don't know how much help he can give us, but we are sure it will be his very best. So you can see that we are working ourselves up to a big loud cry for help and a lot of it. In times past, we used to do all of the jobs, but we didn't have so many entrants and we had a little more time to get into gear. But, if we can get the thing off the ground, we shall see you at the Birdland tennis courts come July 30.

## Morrow Doing Well

While we are on the subject of tennis, young Mark Morrow has been doing all right in these tournaments around here. Last week at Ottumwa he won the boy's 14 year singles title and teamed with another local lad to win the doubles honors in that division. We haven't seen where Harold has been doing much. Maybe he has been working. He had a busy time during the school year, and may be a little bit tired of the game for a while.

## An Omission

And last week, when we were talking about people with tennis pupils, we somehow omitted the name of Myers. This lady had the Holt brothers, the Knox brothers and a couple of promising girl players. But, they got off the track, and now, where are they? One year she brought the whole gang to the state meet in Cedar Rapids, and they did all right. A young girl named Bell teamed with Esther and they got quite a ways in the women's doubles. And

not all along. Now, there is more of an effort to get prepared in that a lot of people have made their way in spite of difficulties and some feel they can do so.

We can only try to keep the lid from blowing off while we train fifth and sixth grade youngsters where the effort will really count.

we think all the boys got past the first round in the junior singles, that is, boys fourteen.

## Gateway Track

And now, getting away from tennis, a fellow named Bill Taylor, Jr. called us and told us about his Gateway track team that has been winning track meets around here all summer. We told him to write us and tell us on paper just what his team had done and we would be glad to print it. So we will have that next week, along with our fusing about our Hilltop tennis.

## Little League Football

And then there is big Gary Fletcher, who ran into us on the street the other day and told us of his plans for Little League football that he has in the making. If he can get them to us, we shall see that scores and a rundown of who did what will be in each week.

One more item. Young Don Avant, our favorite amateur boxer, even if he can't fight a lick, said he saw a young middle weight boxer in Omaha last week who will be heard from in the near future. Don says the kid has all the moves, and even though he lost that fight, he has great potential and wants us to keep watching for the fellow. Maybe he will get on some cards here, say, in Sioux City or Council Bluffs.

THE COMMON COLD-  
FACTS AND MYTHS

More people catch cold in the winter. But a summer cold can be a real problem, too. Time to review some facts, folk remedies and superstitions of this nagging illness.

A cold is the name given to virus infections of the nose and throat. They are highly contagious and have similar symptoms. A scratchy throat to start, then stuffy nose, vague discomfort, and usually sneezing. Within 48 hours, the deluge - teary eyes, runny nose, difficult breathing, smell and taste dulled. A cold peaks for several days and can last from one to two weeks.

There is no cure for the common cold. Exposure to frigid weather or cold baths won't build resistance, nor will vitamins (unless you have an unbalanced diet). Wearing garlic in a sock around your throat or wrapping it in flannel will only

make you pungent or a bit warmer. Hot milk and a laxative don't really help a cold.

You can relieve the symptoms. Aspirin for headache and general aches, a vaporizer to ease congestion, hard candy to soothe the throat, cough syrup, nasal spray to unclog breathing. Liquids - fruit juice or water - make you feel better, though no one is sure why.

Colds in themselves aren't dangerous - but can lead to more serious respiratory trouble. If other symptoms develop - lasting fever, severe headache, chest pains, hard coughing spells, earache, or rusty-looking sputum - call a doctor. For more information, contact your local tuberculosis and respiratory disease association. It's a matter of life and breath!

Q - I am a veteran rated 100 per cent for service-connected disabilities incurred during peacetime. Am I eligible for out-patient treatment of ailments not related to military service?

## STILL FULL OF PEP

There was a report a few months back that ex-fighter Willie Pep was dead. A story in the current issue of SPORT Magazine tells what happened when the story was check-

ed out.

A reporter, calling the Pep home, was surprised to hear Willie answer. "There was a report that you died last night," said the reporter.

"Nah, I wasn't even out of the house last night," answered Willie persuasively.

## BLACK MAN'S PRAYER

Now I lay me down to sleep  
I pray my color I will keep.

I pray for my brotherly love.

And as I lie awake tonight  
I pray that all brothers will see the light.

To worship the heavy loads,  
That have brought us so far along the road.

We will fight until we reach our goals.  
Then, brothers, we can remove these heavy loads.

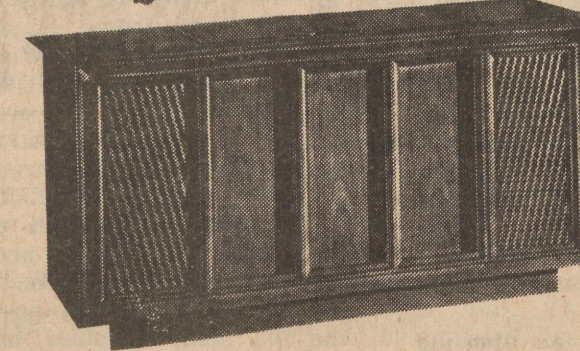

AMEN.

ATLANTA, GA., July 15, 1970 - Superstars Hank Aaron and Orlando Cepeda, and Dick Cecil, vice president of the Atlanta Braves, were recipients of the Southern Christian Leadership Conference's Dr. Martin Luther King, Jr. Medallion, for their participation and contribution to the success of the Dr. King Major League Baseball Classic held earlier

this year in Los Angeles. Shown here following the presentation are, left to right, Wally Levis Prather, Staff Representative, Public Relations Department, The Coca-Cola Company; Aaron, Cecil, Cepeda, and Andrew Young, representing the SCLC, who presented the Medallions. Hank Aaron, the major leagues' fourth leading extra-base hitter of all time, has been an All-Star Game bust, according to an article in the current issue of SPORT
