IT'S A RECORD

The fastest growing tree is the Eucalyptus saligna, which has been known to grow 45 feet in two years in central Africa. (Bamboo grows even faster but is technically a wood grass, not a tree.)

* * *

Among standard game birds, the fastest is the spur-wing goose. It has been clocked at 88 m.p.h. in level flight. The fastest recorded wing beat among all birds belongs to a male hummingbird: 80 beats per second.

THOMAS BRADLEY, NEW MAYOR OF LOS ANGELES

Thomas Bradley, 55, defeated incumbent Mayor Sam Yorty, Tuesday in a race for the job of mayor in Los Angeles, California. Bradley becomes the first Black mayor of the City of Los Angeles, a city with a population that exceeds three million. With 23 of the precincts reporting, Bradley had 55.5% of the vote. He won with a total of 56%.

Bradley joins the ranks of a handful of Black men in the U.S. to become mayors of large, metropolitan areas.

Mayor Bradley has fought long, hard and fair to reach this goal and we of the City of Des Moines wish for him supreme guidance. Kwame Nkrumah stated this: "Seek ye first the political kingdom and all things will come unto you." What better kingdom to reign over than the City of Angels?

Army Names Three Blacks As Generals

By National Black News Service

Washington—(NBNS)—The Army has nominated three black colonels including a Medal of Honor winner for promotion to the rank of brigadier general.

This action which was announced last Wednesday means that the number of black generals and admirals on active duty will be increased to 16.

Col. Charles C. Rogers 43 of Indianapolis who is currently assigned to Germany will be only the second of 508 Army generals now on duty who hold the Medal of Honor which he received for rallying his men to repulse three human wave attacks on his artillery battalion at a fire base in Vietnam in 1968 when he was wounded three times.

The other new nominees are Cols. Roscoe Robinson Jr., a 44-year-old West Point graduate from St. Louis who is now assigned to Ft. Bragg N.C., and Fred C. Sheffy Jr., 44 of McKeesport Pa., who is assigned to the Pentagon.

Fifty-five colonels had been nominated for Senate approval to be promoted to brigadier general.

Rev. Strickland Invited to West Africa

The Corinthian African Crusade Committee is announcing this week that their pastor, Rev. F. W. Strickland has been invited to participate in two weeks' preaching services in Liberia, West Africa, beginning November 23, 1973. He is invited along with fourteen other ministers from the United States in an African Crusade for Christ.

Corinthian Baptist Church is sharing this effort with the community due to the international scope of the venture, thus making the opportunity available to everyone who would like to have a part in this Crusade.

This may represent the first time the word of God is heard in some of the remote villages of Liberia, a country

where only sixteen per cent of the population is Christian. The missionary field there is ripe for harvest.

Fifteen hundred dollars (\$1,500) will be needed to send Rev. Strickland on this preaching mission. If your Church Missionary Department or other auxiliary would like to contribute to the Crusade, it will be greatly appreciated.

Please make your check payable to "Corinthian African Crusade," and send it to the Corinthian Baptist Church, 814 School Street, Des Moines, Iowa 50314.

They will be looking forward to hearing from you by July 16. Even though you may be unable to make a financial contribution, it will be inspiring to know that they have your prayers for the success of this Crusade.

Named Supervisor Northwestern Bell

Mrs. Betty Lou Smith

Mrs. Betty Lou Smith daughter of Mr. and Mrs. Todd Weston, Sr., of New Sharon, has been named employment supervisor for Northwestern Bell in Waterloo. In her new position, Mrs. Smith will be interviewing and selecting new employees, as well as discussing promotions and transfers with present employees.

A native of New Sharon, she graduated from Lacey

High School, and attended Capital City Commercial College in Des Moines. She joined Northwestern Bell in 1963 as a service representative in Waterloo, the job she now leaves.

Mrs. Smith is a member of the Payne Memorial African Methodist Episcopal Church in Waterloo.

Her husband, Frank, is a supervisor at John Deere Company.

2nd Region VII Minority Contractors Association Conference

The local Des Moines Minority Contractors' Association is privileged to be hosting the 2nd Region II Minority Contractors' Association Conference, June 1 & 2, 1973, at the Downtown Holiday Inn. We are bringing together the multitude of resources from within the four (4) state regions of Iowa, Nebraska, Missouri and Kansas.

The Region VII Minority Contractors Association is nationally known.

Alex Harris, the Region VII Executive Director, along with his noted staff of experts, numbering thirty (30) throughout the four state region, have made Iowa, Nebraska, Missouri and Kansas a shining example of what the Minority and the Industry populous can accomplish through a most unique comprehensive and demonstrative projection.

The Ford Foundation and the Department of

Commerce, along with all Federal Agencies, have recognized the abilities of the four (4) state Regional Contractors Association staff to provide the many facets of technical assistance.

"The present level of creditability and being named the Number One Organization in the country, cannot allow us to become complacent," says Alex Harris. His reason "being that even though we have been named the Number One Organization in the country, we have just begun to dent the massive economic structure of the construction industry. Harris travels throughout the four (4) states bringing about a total awareness to both the minority community and related industries that the once 'wild' dream that seemed impossible is now a reality.

Being a dedicated young man, Alex Harris has turned down many industrial and federal job offers, mainly because of his belief in a

friend, Samuel Cornelius, Region VII Director of OEO, who gave moral support during the trying days and contractual support from the Regional Office of OEO to develop.

The productivity level of Region VII Minority Contractors for the past year exceeded 50 million dollars, allowing for an economic growth unmatched among minority people anywhere else in the country.

Region VII Minority Contractors Association is within an eyelash of obtaining the height of minority participation comparable with that of the nation's major bargaining entities.

Q. Must I die to collect from my policy?

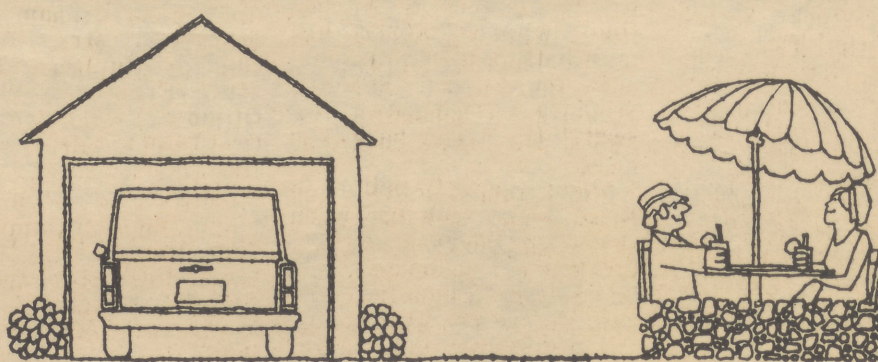

A. Not necessarily. Some life policies also pay benefits if you become totally and per-

manently disabled before a certain age, in addition to waiving the future premium or payments. And assuming average health you may wish to convert the policy, after your children are grown and self-supporting, to an annuity paying you or you and your wife a guaranteed income as long as you both live. Alternatively, after the insurance has filled its needs, you may surrender it for its cash surrender value.

More than half of the insurance benefits paid to policyholders last year went for these so-called "living benefits," such as annuities, matured endowments, dividends, surrender values and health benefits.

Q. You mean I can change my contract after it's in effect?

A. Yes. From your standpoint, it's the most flexible contract you'll ever have. It's one in which the buyer may have a wide choice of changes, but the seller none. It's as if you could buy a suit of clothes that a tailor would agree to alter for you as you lost or gained weight through the years. And with no extra charge.

Add On?

Put On?

It's that time of year to consider adding a room, fixing up that basement or putting on a family patio—or porch. Or even that new garage.

MARIA HOPSON who is always involved - never a dull moment in her existence - drove to Indianapolis, Indiana, the other week for a week's visit. She has a sister, a brother and three nephews there!

Her sister, knowing that Maria was coming, together with friends planned a chartered bus trip to Louisville, Kentucky, to the Kentucky Derby! The races, the races, THE RACES! They drove straight to Louisville, Kentucky, Churchill Downs. There were 30 persons aboard!

They had not arrived in time to enter the bleachers, but entered the fenced in area. Here people were in a gala mood! Some were in campers, Cadillacs, buses, were harnessed with sleeping bags, with motorcycles, however they came, this is how they were! Everyone had folding chairs or lounge chairs, making themselves comfortable. More than twenty television sets were anchored from the ceiling! Here they watched the races. They were in perfect comfort sipping their mint juleps and cold beer. The drinks were available for purchasing.

We must include the suspicious looking coolers some carried. These were searched for liquor! None is to be brought into the grounds.

Maria says: "You've never seen such positive thinking!" Everyone is certain that he or she is going to make a bundle. The Salvation Army was there with their cups as were a few other organizations. This was a good day for this as everyone was making money. When people are making money, they want to share it! To split their gains! The setting is like a great big World's Fair! The Salvation Army really was the only winners - they got their's!

Now for betting! Maria's boyfriend had phoned from Centerville, Iowa, asking that she place a bet on "Sham"; to place, to bet, to show. Of course, it was all confusing to her as it was the first time in her life! She bet \$2.00 on Sham - to win. This was on the Derby itself. She sat back with her friends and waited for her horse to come in. (He didn't win!)

Maria says there is something exciting about the Kentucky Derby. She just may go there every year! She added that the Blacks were the best dressed there.

So colorful. Such lavish attire. All in all, her stay in Indianapolis added to her trip to Louisville required a two week stay instead of the one week she had planned.

As the crowds were leaving The Derby, boys filled the streets, coming to the vehicles asking them to buy beer and mint juleps!

The John E. Johnson, Jr.'s household has a white cat as a pet! Mikel came in from working in the garden to find the snow white cat almost a charcoal gray - at least he had four charcoal colored feet! She wondered what he had gotten into in the basement that was that color!! She looked from "Stubble's four feet" to the kitchen floor which had matching spots of charcoal color all over - in a pattern! She marveled at this still wondering. Finally she spotted her bag of charcoal tumbled over and charcoal pellets all over the kitchen floor where Stubbles had been batting them around all over the kitchen. She and Stubbles exchanged a few swats! He strikes back, you know!

Mikel takes Brandie and Brian along with her when she goes shopping. As she finished her shopping at the Super Valu, a man flashed a card before her which read: "I am deaf and dumb. Please help me." Mikel gave him what change she had remaining from shopping. Wasn't much but was what she had. Brandie looked at the man and smiling said "Hi". The man responded "Hi". Mikel was all shook up to say the least!

On May 27, I had the pleasure of attending Macedonia's annual spring tea. It was a beautiful affair. The women had worked so hard to make an impressive event and they succeeded. What was outstanding about it, too, was the fact that many men attended. This is rare in any undertaking, but they succeeded in getting the men to participate.

It was a nice affair to attend on a rainy day. It was nice having some place to go rather than to remain at home on a rainy day.

CIVIC BREAKFAST CLUB MEETS

The Civic Breakfast Club held its Annual May Day breakfast at the home of Mrs. Frances Johnson Monday, May 21st.

After a lovely breakfast was served, Mrs. Julia Proctor was guest speaker. She told about her recent tour and cruise in the Carribean.

Many souvenirs of the Islands were shown. Among them were woven straw purses, beautifully embroidered; beads made from seeds; silverware; straw dolls; also a charming silver bracelet set with a large pink stone was displayed. It was an anniversary gift from her husband. Mrs. Proctor had

taken many pictures of the places they visited. Her talk and display were a real pleasure to us.

The guests present were Mrs. Elizabeth Thomas, Mrs. Minnie Wilcots, Mrs. Mildred Otis, Mrs. Helen Lynch and Miss Bessie Lucas.

Mrs. Meleda Beck is president.

Andrew Brown Makes Announcement

Carrie Fry

Mr. Andrew H. Brown announces that we "will hear wedding bells." Apparently we will hear them soon and they involved Carrie P. Fry.

Brown, a man of few words, limited his announcement to the wedding bells reference and Miss Fry's beautiful picture.

Looking for all the minister's wives to worship in a body when Mrs. F.W. Strickland speaks on June 10, 1973 at 3:30 p.m. at Bethel A.M.E. Church for their evening Women's Day program.

There may have been a real Mother Goose, an Elizabeth Foster of Boston who was married to Isaac Goose. She sang fables in rhyme to her grandchildren around 1750.

Though Mother Goose lived to be 92, the oldest age at which a woman has become a mother is 58. That record was set by Mrs. Ruth Kistler of California in 1965.

THE RECORD INDUSTRY

(First of a four-part series on the record industry and how it works for a few people.)

Gone are the days of "overnight sensations" and "sudden discoveries." Recording stars are no longer the romantic figures who went from the Podunk Center Beer Garden to Winterland Ballroom in one easy step. Today, stars are created, made by a system of operation that often places real talent a rung or two below marketability. In the rock and roll or "acid rock" circuit, notice a so-called star named Alice Cooper. Alice Cooper is not a sweet young thing who croons her way into the hearts of her audience with her fantastically sexy voice. Alice Cooper is a painfully thin young man whose garish make-up and costuming is surpassed only by his absurd and often disgusting antics on stage. Alice Cooper can't really sing, but Alice Cooper sells many records. Alice Cooper is marketable, and today that characteristic is often of

more value than talent.

To move closer to home, consider Al Green as another example. We are fortunate in that Al Green has an abundance of talent, he overflows with it and we respond. But Al Green has been singing small-town clubs for more than 8 years. Nobody who sounds as good as he does was lacking that talent during those 8 years of relative obscurity, yet we never heard him. Other people had heard him, the star-makers had been hearing him sounding good for those 8 years, but they didn't bring him to us until a year and a half ago. Why? Because they determined that he wasn't marketable until that time. We know better, but then we don't have a whole lot to say about who turns us on, which is the point that this article attempts to make. A star is not necessarily a talented person, and a talented person is not necessarily a star. Next week's article will get into the people behind the scene - the people who make and sell stars.

Mich. Klansmen Guilty of Bombing

Detroit — (NBNS) — Five Ku Klux Klan members, including a former Grand Dragon, have been found guilty on charges of bombing school buses in a plot designed to disrupt a court-ordered school busing plan in Pontiac, Mich.

The case was heard by a federal judge, who rendered a decision since the defendants had been tried without a jury at their request. They maintained that they would not be able to receive a fair trial from a jury of blacks and Northern whites.

Ten empty school buses

which were to be used in the school desegregation plan were destroyed in the Aug. 30, 1971 bombing. Further acts of resistance followed the incident.

The defendants are Robert E. Miles, 48, of Howell, Mich., a former Grand Dragon of the Michigan KKK; Dennis C. Ramsey, 26, of Drayton, Mich., who was identified as the Exalted Cyclops of the state Klan; Wallace E. Fruit, 31, also of Drayton Plains; Alex J. Distel Jr., 24, of Clarkston, Mich.; and Raymond J. Quick, 26, of Lake Orion, Mich.

will be the subject of a panel for The Mother, Home and Child Department. Mrs. James Thomas, Sister Mary Toomey and Mrs. Catherine Williams will present the subject.

A reception for delegates and members will be held at the home of Mrs. Pauline Humphrey, 1434 E. 19th Street, at 7:30 p.m., Friday evening.

Mrs. Jaunita White Brown

of Washington, D.C., president of the National Association of Colored Women, Inc., a native of Indianola, Iowa, and graduate of Simpson College will be the guest speaker for the Banquet Saturday evening at 7:00 p.m. at Hotel Savery; the public is invited to attend.

THE SCOOP ON ICE CREAM

In the making and eating of ice cream, milk sherbet and sherbet, there are several small but interesting bits of information and helpful tricks. Here are some hints by Carolyn Anderson, author of "The Complete Book of Homemade Ice Cream, Milk Sherbet and Sherbet," just published by Saturday Review Press.

1. A fork is the best tool for digging into ice cream that is too firm to scoop. A cake breaker is good for slicing firm ice cream.

2. If no cooking is required, often the ingredients can be combined right in the freezer can, which means fewer dishes to wash.

3. If ice cream is to be hand-stirred during freezing, or if it is to be removed from one container to another, use a wooden spoon to prevent transfer of heat from the hand to the mix.

4. Always allow space in the freezer can for expansion of the ice cream when it freezes. Approximately one third of the can is needed for the swell.

5. Cool the mix to room temperature or slightly lower before freezing. Churn-freezing a warm mix may cause a buttery texture due to an increased freezing period.

These and many other hints are included in Miss Anderson's book which also features chapters on the history of ice cream and sherbet, how to make home-made ice cream, milk sherbet and sherbet, and ice cream dieting and nutritive value, as well as hundreds of recipes.

When it comes to helpful advice on how to make the best ice cream, Miss Anderson really dishes it out. And, if the popularity of this treat is any indication, millions of Americans will happily be taking it.

Study black Americans

Students in school rarely hear about the contributions of the American blacks to our culture.

As recently as five or ten years ago amazingly little literature on Negro history was available to the general reading public or schools. Today that is changing. Much of the impetus has come from schools which have been asking for authoritative histories to use as supplements to regular American history courses. The state of Iowa now requires a unit of Negro history in the American history course.

The students in Mr. Terry Holdridge's history class are studying the unit on black Americans.

It is a far richer, fuller story than normally been told in standard history books of the United States.

The first Negroes to come to America arrived at what was later to become Jamestown, Va. in 1619, at the same time as the Mayflower.

"So began the history of Negroes in what later became the United States. It is a history that is now almost 350 years long - a turbulent history that includes some chapters that many would prefer to forget. For though the first 20 Africans at Jamestown weren't slaves but servants who later became free, the story of Negroes in America was hammered and pounded into many of its patterns by slavery and has yet to fully escape the ugly legacy of slavery."

The story of the Negro in the U.S. is also a tale of

great individual accomplishments, often in the face of incredible obstacles.

A few of the black individuals who made outstanding contributions are:

1. Benjamin Banneker who was a self-taught mathematician, astronomer, inventor and essayist. He was appointed by President Washington to plan the city of Washington.

2. Phillis Wheatley was a Negro poet. She won admiration for her poetry which was nonpolitical.

3. Frederick Douglas was a Negro abolitionist and eloquent orator. He was a crusader for Negro rights in the U.S. and abroad. He was also advisor to President Lincoln, and U.S. Minister to the Republic of Haiti.

4. Harriet Tubman was a

daring Negro "conductor" on the Underground Railroad. She led more than 300 slaves to freedom.

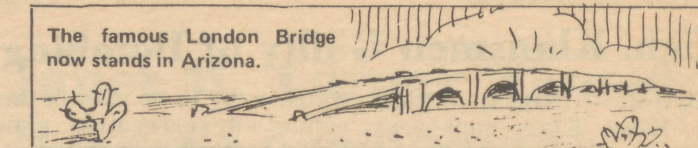

5. Booker T. Washington was an educator and prominent leader during racially turbulent years.

6. George Washington Carver was an agricultural chemist whose research helped the Southern industry prosper.

7. Edward Kennedy ("Duke") Ellington was a famous composer and orchestra leader.

8. Martin Luther King, Jr. was a civil rights leader and minister. He was a leading advocate of non-violence in effort to achieve legal rights. He was also awarded the Nobel Peace Prize in 1964.

"It isn't that the black Americans haven't made any contributions to our culture. We just don't hear

CLEANING OUR AIR IS EXHAUSTING TASK

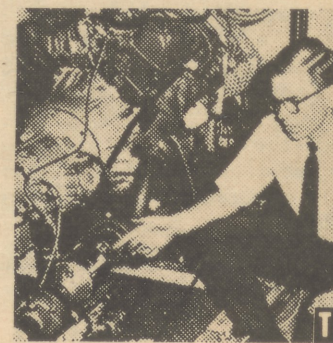

A newly developed emission control system for automobiles shows great promise in giving the world cleaner, purer air before the end of the decade.

STRAIGHT TALK FROM A FURNITURE PRO

In anything you do, there's no better way to increase your knowledge than to consult a pro. And in furniture, there's no more knowledgeable pro than Eric Schneider, furniture editor of *Home Furnishings Daily*, the trade newspaper that has been called the bible of the home furnishings industry.

Mr. Schneider recently discussed the terms and phrases used by manufacturers to describe case goods in advertising and labeling.

"Some of today's wooden-looking furniture isn't wood at all," he said. "These should be called *simulated* or *imitation* wood, but often they are not. Some manufacturers prefer to use terms that don't actually say 'this is genuine hardwood' but do give that impression to the uninformed consumer."

Here are the true definitions for these terms, and examples of how they are used misleadingly:

Veneer simply means "outer layer." Furniture made with genuine hardwood veneer will name the specific wood in a phrase like "oak veneer" or whatever hardwood is used. But "select veneers" means nothing other than that something—anything—has been selected and applied to the outside of the piece.

Finish refers merely to the final coat or surface appearance and indicates only the stain or color. Thus, "maple finish" is interchangeable with "maple color" or "maple tones," and a phrase like "in fine maple finish or select veneers" becomes ludicrous and empty. Any material (hardboard, particle board, plastic) can be stained to resemble the colors of the genuine hardwoods.

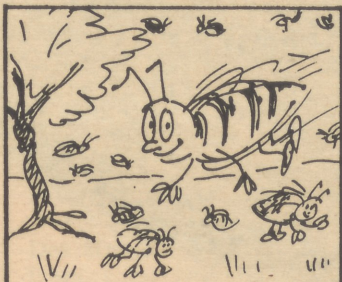

Plywood is not a species of wood, but a construction, a "sandwich" of thin layers of hardwood, bonded together for extra strength, with the grains of adjacent layers running at right angles to each other.

Solid hardwood means that the furniture is made of solid pieces of lumber of

fine cabinetwoods like cherry, oak, maple, walnut, mahogany, and pecan, among others.

Wood grain (or "oak grained" etc.) means that a print—a picture—which resembles wood (or the species of wood named) has been applied to the surface of the furniture.

Any questions on hardwood? Write to Linda Forrest, Hardwood Institute, Suite 1422, 551 Fifth Ave., New York, N. Y. 10017.

UN Still Stuck on Namibia Issue

United Nations, N.Y. — (NBNS) —As far back as 1966 the UN voted that South Africa's continued rule over Namibia was illegal. The former German colony which came under South African control after Germany's defeat in World War I, is also called Southwest Africa. Since the workers strike in Namibia a year and a half ago, the UN has been increasing its efforts to resolve the situation there.

The UN and South Africa have been engaged in a "dialogue over Namibia. South Africa, which got possession of Namibia under a League of Nations mandate, has been arguing that the UN has no jurisdiction over the territory. The UN has argued back that the League of Nations authority was transferred to the UN when it was established in 1945.

In recent weeks, South Africa has been claiming that it is making concessions on mineral rich Namibia. Although the "concessions" seem vague and meaningless, the UN feels that they must be considered because South Africa can only be made to yield Namibia voluntarily. The fact that South Africa has offered any concessions at all seems to indicate that it wants continued dialogue, most likely to relieve growing pressure on it around the Namibia issue.

UN Secretary-General Kurt Waldheim was promised by South African Foreign Minister Hilgard Muller last month that South Africa would respect "the wishes of the whole population of the territory." He qualified this however, by saying that he did not envisage any "sudden" independence.

Muller, after making these statements, instituted a "bantustan" program, similar to that which operates in the Republic of South Africa, that confines Africans by tribe into certain geographical areas. Significantly, he arrested tribal leaders in Namibia who opposed these government imposed divisions.

"It might", Muller said, "not take longer than 10 years for the population of Southwest Africa to reach the stage where it will be ready to exercise its right of self determination." This did not, however, mean a concrete promise for self

determination in or within ten years.

A circumscribed "political freedom" was agreed to "subject to the requirements of public safety."

Since the strikes a year and a half ago, Namibia has been sealed off, especially Ovamboland in the north, which has been the center of much resistance to white rule in Namibia. Hundreds of Africans around the country have been jailed since the strike.

The UN has been opposing South Africa's plans for Bantustans in Namibia and wants a specific date set for Namibia's independence as a whole unit.

The Organization of African Unity which is meeting in Addis Ababa this month is expected to adopt a position on the situation which will be used in UN Security Council discussions on Namibia in June.

A telephone that not only lets you talk to people, but also gets talked about.

Our *Electra* decorator phone is as much a piece of decor as it is a telephone.

And because it's so beautiful, it becomes, you should pardon the expression, a conversation piece.

After all, anyone can have a room decorated in a period style. But now you can have a phone done in a period style.

The design is a traditional French cradlephone. The delicate styling

is executed in a tasteful white color with gold trim and a cameo inset in the dial. Bonus: The *Electra's* compact size allows it to be placed just about anywhere.

Editor's Note:

We at The Bystander have heard many opinions expressed about the news we print. Some people say we're too small. We agree, we are presently too small. We definitely hope to add more pages to the paper, and we hope to do this soon. We need one very important thing however. We need news from you, about you, and for you.

We have a very small staff at the Bystander. There are just not enough of us to cover all of the events, meetings, and social occasions that take place each week throughout our community. We need your help and cooperation to make sure we print news you want to read, news about yourselves and our Black community. Please help us by writing, calling, or coming to the Bystander office with your news. Tell us of your club meetings, style shows, house guests, marriages, births, and parties. We want to print good news, constructive news, and pleasant news of our people to balance all the negatives that abound in this day and time. But we can't do it alone. Our phone number is 277-8736. We're open Monday thru Friday from 9 to 4, and we want to hear from you. If you can't call or visit, write. Our address is 140 4th Street, West Des Moines. We want to make the Bystander a newspaper with something for everyone. Until we know what you're involved in, we won't be able to meet our goal. Call, write, or visit us today with your news. We're standing by!

NATIONAL BLACK NETWORK STARTED

The National Black Network, the first black owned and operated Radio News Network, will go on the air by July first.

The announcement was made here today by Eugene Jackson, president of Unity Broadcasting Network, Inc., the corporation that will operate the black network.

Headquarters of the network will be at 1350 Avenue of the Americas and will occupy the entire 24th floor in the MGM Building.

Mr. Jackson said the National Black Network will provide a full network news service. Eighteen daily reports will provide news, public affairs programs, interviews, panel discussions and news of major sporting events of special interest to the black community. A Washington, D.C. Bureau of the Network will have

full-time journalists covering the capitol. The news services of The Associated Press and Reuters will also be available and utilized for the benefit of The National Black Network and its affiliates.

About fifty black-oriented radio stations in major markets will receive the services at the beginning, according to Mr. Jackson. In areas where there are no black stations, The National Black Networks News Service will be made available to The General Market Stations.

The nation's top black journalists and news broadcasters have been recruited for the news staff by National News Director and V.P. Roy Wood. Wood is the former news director and award winning editorialist for WVON Radio in Chicago. He also was a Professor at Malcolm X College in Chicago and most recently an Associate Professor in the school of communications at Howard University in Washington, D.C.

Other National Black Network Officers are: Sydney L. Small, Executive Vice President, Administration: Del Raycee, Executive Vice President, Station Relations: and Sammie T. Aed, Director of Engineering.

Funding for the new news network has been provided by Manufacturers Hanover Trust, Chase Manhattan Bank, The Bank Of America and other venture capital funds. Also included in financial backers are the Equitable Life Community Enterprises Corp. and The Opportunity Capital Corp.

The National Black Network was formally announced a year ago, and since that time has been seeking capital and working out minute personnel and technical details of the undertaking.

The president of the new network said: "It's been a long time coming. It's the first cohesive unit to bring all of Black America together".

ALCOHOLISM?... WE'RE HERE TO HELP

Mr. Harold E. Simmons is Program Director of the South Omaha Alcoholism Counseling Program, located at 2922 "R" Street.

Mr. Simmons, a native of Des Moines, Iowa, graduated from East High School and attended Drake University after serving in the military.

Before coming to Omaha in February of 1972, he spent several years in Los Angeles where a course at U.C.L.A. on Counseling on Alcoholism and Related Diseases

H. E. Simmons ... counselor

He has attended Central States Institute on Addiction and Alcoholism, De Paul University in Chicago, and alcohol Seminars in Lincoln at the University of Nebraska. He is presently a student at U.N.O., majoring in psychology. Mr. Simmons is the father of four children, attending Central and Mammoth Park Schools in Omaha.

Mr. Simmons has been with the organization for one year as a counselor and was promoted to director two months ago. He was previously employed as a Rehabilitation Counselor-Evaluator for the

Eugene Epply Foundation and Goodwill Industries for the handicapped, which he feels has broadened his scope in the field of counseling thereby enabling him to counsel the whole total person in any problem area of his life.

Even though the Alcoholism Counseling Program is based in South Omaha, Mr. Simmons states that it is not structured only to serve that area. There has been much work done in counseling and referring clients in all areas of the city.

The Program is primarily geared to help the individual or family that is plagued with this dread disease which is classified as the third most deadly killer in the nation, headed only by heart disease and cancer. It is a progressive disease and

if not treated, eventually consumes the total body and mind.

The office is staffed by a director, three counselors — Melvin Beeks, David Janda and Jane Madgett — and a receptionist who are ready to serve wherever and whenever they are needed. Whether it be in the office, the community, hospital or treatment center.

It has been necessary, at times, to work closely with the police department to aid the sick alcoholic.

Our office provides individual counseling, group counseling and family therapy which is very necessary. We have come to believe that the family of an alcoholic parent or parents is a sick family and that the total family requires help, perhaps medical, psychological and educational. Mr. Simmons states that if our office cannot help the person or persons fully, we have vast referral sources: Douglas County Hospital, Epply Complex, Salvation Army, Alcoholics Anonymous, Island of Hope, Immanuel Hospital, Veterans Hospital, St. Joseph Hospital and many others.

Mr. Simmons has appeared on KETV Channel 7 and KOWH and hopes to be able to further spread the word that there is help for the problem drinker or sick alcoholic at this address and phone number: 2922 "R" Street, 734-3000.

Round City Hall

By Ken Warren

This week I'd like to deal with an agency which is having its second Annual Conference in our fair city. Namely, the MOKAN Region VII Minority Contractors Associations. This group is comprised of six local association offices covering a four state area. These offices are located in the following cities: Omaha, Nebraska; Topeka, Kansas; Waterloo, Iowa; Des Moines, Iowa; Wichita, Kansas, and Kansas City, Missouri.

There are expected to be approximately 175 contractors, staff, and resource people who will converge on our city for the purpose of focusing attention on the plight of minority and disadvantaged contractors in this area. This group is unique because it has dedicated itself to the concept of self help rather than the handout theory.

The administration has, thus far, shown a lack of concern for minority and disadvantaged folk. Recently this same administration showed its utter contempt for this organization that has the gall to want to be self sustaining, and to preach the philosophy of "But, Oh, Great Bwana, I want to do it myself," by refusing to allocate monies for technical assistance to minority contractors, although it is written in the guidelines of their proposal for federal monies. This free wheeling, unconcerned group of backwoods conservative politicians would not even

consider the proposal being submitted to the proper sources for consideration of its merits.

The MOKAN Region VII Minority Contractors Association is so successful it was the object of national attention by the Ford Foundation, but unfortunately, it is not good enough to warrant the attention of our illustrious City Council.

Now, my good people of Des Moines, you have allowed programs and agencies of all kinds to go down the drain without your active participation. Citizen Participation is now a very bad joke. Black people have had their jobs ripped off. We have suffered unresponsiveness in the governmental processes, the rape and ravishing of our black business endeavors, and the presumption of stupidity of our black community as a whole. Are you ready to stand up and be counted or are you just going to continue to lie down and play dead? Are you tired of playing the man's game and shuffling along to his tune? If so, start to support your own thing. Join your disadvantaged brothers and sisters, both ethnic and economic, in their quest for dignity, and for those freedoms guaranteed by the constitution of this country that most of you have fought for, and many of our loved ones died to preserve. Now is the time to stand up, if you are ever going to do it.

Call the Des Moines Minority Contractors Association for more details of how you can participate, at 288-6073. IT IS NOW OR NEVER AND THE KEY WORD IS PARTICIPATION.

Summer Workshops at Simpson College

Indianola, Ia. - Eight workshops covering a wide range of topics will be conducted for elementary and secondary school teachers during the summer on the Simpson College campus.

The workshops and the dates they will be held are:

June 4-8 - Contemporary Approaches to Teaching of Reading.

June 11-15 - Humanities in the Public Schools.

June 18-22 - Language Arts Skills in Creative Teaching.

July 16-20 - Behavior Modification in the Classroom.

With Allen Ashby

One can't help but compare the tennis as it was say twenty five years ago with the game today. In fact you might go back thirty years. Most of your tournaments took a week to play. You started on Monday unless you had a preliminary round and played through to the next Sunday. Your semifinals were always on Saturday. And your semifinal and final matches were the best of five sets. You might go out there and stay from forty minutes to five hours. Now with all the dough in the game it is geared to television as are so many sports. You know that ninety nine percent of the tennis matches will be over in not more than two hours so they can be shown on the tube. There are no longer any duce games or sets that might last all day because they have come up with the tie breaker in sets and there is talk of playing the games to a certain number of points to eliminate the duce games.

When the game was a club game, with most black players excluded, it was supposed to have the finest sportsmanship. You expressed sympathy if your opponent got a bad break and if you thought he got a bad call from a lineman or umpire, you heaved the next point. I can still hear the surprised murmurs from the crowd when a player in one of the state meets here got a bad call. Everyone expected his opponent to throw the succeeding point. But the guy knocked it for a winner. Later when he was asked what made him do that, he replied that he had read that Ellsworth Vines had done it

A look at sports in retrospect

in a match, and if a famous player could do it, why, he could. Then you didn't talk to your opponent, or do anything that would keep him from playing his best game. Black players were few and far between and the appearance of one was nearly always cause for comment. There wasn't too much concern about black players because only players from USLTA sanctioned clubs could get into some meets. Back in the early twenties there was a promising young black player named Reggie Wier. Reggie became the ATA junior champ, and later became a doctor in the State of New York. Never did know how he managed to get in, but he got into some club, and for years was well up in tennis among the better white players of New York.

Dr. Weir was three times USLTA senior singles champion, 1956, 1957, and 1959. This was indoors, and he teamed up with a George Ball to win the senior indoor men's doubles titles. So you would have to call him a first in USLTA tennis, but people outside of the state of New York never heard of him. There must have been some more like him that we probably never heard of. I am not familiar with the doctor's record in the ATA meets, but I bet he had nothing to be ashamed of. But if we had played in a lot of meets then, there would have been the matter of housing, and other accommodations at clubs. Then there was the lily white policy of the USLTA that it took a long time to break down.

But to get back to tennis as a game. The only color allowed on the courts was white and almost the only

players allowed on the courts were white, too. I remember when we formed our Hilltop club. I wrote to towns in Southern Iowa like Shenadoah Villisca and Red Oak, where I knew they had club tennis teams. We wanted to play team matches and they never even answered our letters. But now we can get more matches than we can handle from teams anywhere we want to play. And we are not curiosities either. Here in the city we black players nearly always got paired with the ultimate champion in the first round of singles or doubles and if there were too many of us we played each other and then played the champ. But then again that was due to the tennis setup of those days. When we became part of the Des Moines Tennis Association, doors really opened to us. Bill Ashby was the first to play in the Missouri Valley meet, even if he did draw the number one seed in the first round. I don't think there was a court in town, private or otherwise, that didn't play on after we got into the circle. But if people had known then how much money was in tennis, do you suppose they would have let us in?

Benefit for Development Center

An "Old Fashioned Ice Cream Freeze - Off" will be held Sunday, June 10th at 4:00 p.m. as a benefit for the Martin Luther King Human Development Center.

Participants in the ice cream-making contest must register at the Model Cities Library, 920 Washington, by June 6th (telephone: 282 4087). First, Second and Third prizes will be awarded to the best ice cream maker and the home-made ice cream entries plus donated cakes, hot dogs and beverages will be sold after the judging at a "Quarter Party" (all items to sell for twenty-five cents each); the event will take place on the front lawn of the King Center at 1000 College.

Ultimate goal of the fund-raising is to accumulate money for the purchase of the Center.

THE FOLLOWING
DESCRIBED REAL ESTATE
SITUATED IN POLK COUNTY,
IOWA, TO WIT: Lot Five (5) in
Sklar Place, an Official Plat,
now included in and forming a
part of the City of Des Moines,
Polk County, Iowa, subject to
easements and restrictions of
record, and locally known as
5309 South Union, Des Moines,
Iowa; and all heirs, spouses,
assigns, grantees, legatees,
devisees and beneficiaries of
each and all of the above named
defendants.

Defendants.
TO THE ABOVE NAMED
DEFENDANTS:

YOU ARE HEREBY
NOTIFIED that the petition of
the plaintiffs in the above
entitled action is now on file in
the office of the Clerk of the
District Court in and for Polk
County, Iowa, claiming that the
plaintiffs are the absolute and
qualified owners in fee simple of
the following described
property, situated in Polk
County, Iowa, to wit:

Lot Five (5) in Sklar Place, an
Official Plat, now included in
and forming a part of the City of
Des Moines, Polk County, Iowa,
subject to easements and
restrictions of record, and
locally known as: 5309 South
Union, Des Moines, Polk County,
Iowa, and that the plaintiffs are
credibly informed and believe
that the defendants make some
claim adverse to the title of the
plaintiff in said property and
that the said unknown to said
premises claim some interest in
or to the said real estate as the
plaintiffs are informed and
believe but the plaintiffs have no
knowledge or information and
do not know how said interest as
claimed by the said unknown
claimants was derived, or
the method of obtaining the
same and the plaintiffs over
therein that the names and
residences of the unknown
persons are unknown to the
plaintiffs and that plaintiffs
have sought diligently to learn
the same and the plaintiffs in
said petition set out certain
instruments of record which
cloud the title of these plaintiffs
to the said real estate and to the
pretended claims or questions
which have arisen with
reference to said title. You are
referred to said petition for
more particular statement
thereof. The plaintiffs in said
petition state that none of the
said defendants or unknown
claimants have in fact any right,
title or interest in or to the
above-described premises or
any part thereof, or any color of
right, title or interest therein
and that the plaintiffs and their
immediate grantors have been
in the sole, complete, open,
notorious, actual and undisputed
adverse possession of the said
premises for more than ten
years last past under claim of
title and ownership thereof, and
have been the undisputed and
unqualified owners thereof for
over ten years, and that by
reason thereof and of the lapse
of time and the laches of the
defendants in failing to assert
any pretended claim thereto,
and in permitting valuable
improvements to be made
thereon, relying upon such
possession and ownership, the
defendants are estopped from
asserting any right, title, claim
or interest therein adverse to
the plaintiffs. The plaintiffs in
said petition pray for the
establishment of their estate and
title against the adverse claims
of the defendants and that each
and all of them, and all unknown
claimants, and all persons
unknown having or claiming any
right, title, or interest in or to
said premises and all persons
claiming, by through, or under
them, be barred and forever
estopped from ever having,
asserting or claiming any right,
title or interest in or to the said
premises or any part thereof
adverse to the plaintiffs and that
the plaintiffs' title to the said
premises be quieted, established

and confirmed and that the
plaintiff have all such other and
further equitable reliefs as to
the court may seem just.

YOU ARE ALSO FURTHER
NOTIFIED to appear before the
District Court of the State of
Iowa in and for Polk County,
located at the Polk County Court
House, Fifth and Court Avenues,
Des Moines, Polk County, Iowa,
on or before the 28th day of
June, 1973, and unless you so
appear default will be entered
and judgment and decree
rendered against you for the
relief demanded in the petition.

THE COLD HARD FACTS

As much as anything, individ-
ual habits push up the cost of
air conditioning. It's easy to
waste large, costly chunks of
cooling energy without ever
thinking about it.

- Don't keep fiddling with the controls. Find a comfortable adjustment and stay with it. You'll get better dehumidifying and — in the long run — less power consumption.
- Don't make extra heat for your air conditioner to get rid of. Keep unneeded lights off, and avoid unnecessary use of ranges, hot water, irons, television and other heat producers.

Iowa Power isn't worried about running out of energy ... but we can't see any sense in wasting it either.

KEOKUK

By Mrs. B. H. Toomes
1002 Franklin Street

Funeral services for the late William Barker were held on Tuesday, May 22, at 11:00 a.m. in the Greaves Mortuary with the Rev. John Varne officiating.

Survivors are Mrs. Robert (Verona) Williams and eight grandchildren and one great grandchild.

Burial was in Oakland Cemetery.

The group packing for Attalla County Mississippi are packing each week to take in early June.

Mrs. Mable Brooks is visiting at the home of Mr. and Mrs. B. H. Toomes. She motored to Keokuk with Mr. and Mrs. Charles Watson of Chicago and friends from New York, N.Y.

After sightseeing for two days the Watson family left for Chicago, Illinois, on Friday, May 25. Mrs. Brooks remains in the City.

Mrs. A. C. Anderson, formerly of Keokuk, and now of Kansas City, and her grandson are visiting in Quincy, Illinois, Fort Madison, Iowa, and Keokuk.

The Annual Street Fair is certain to be held on Main Street June 11 through June 16. Due to the flood, it could not be held in Victory Park as in previous years.

BLACK BLOOD USED TO STOP CANCER IN WHITES

Melanoma is potent cancer that rapidly invades the skin tissue; a disease occurring most often in white people. Its cause and cure are unknown, but hope lies in the blood of black people. Melanin, the substance that determines skin color, acts as an "unblocking" factor and allows the body's defense system to fight tumor cells in malignant melanoma.

Two doctors, a husband and wife team, Karl and Ingegerd Hellstrom, working at the University of Washington at Seattle, are using blood plasma taken from black donors to fight the rare disease, which occurs in about 4,000 Americans a year. It can kill a patient within six months, or a patient can live 30 years. It rarely hits blacks, and when it does generally affects only the palms of their hands or the soles of their feet, which are often a lighter shade than the rest of their body.

Rx Dr. Hirsch
Calling
Dr. Hirsch...

Chairman Harry D. Hirsch of Leader International Industries has always maintained, like 18th century writer Georg Lichtenberg, that "the feeling of health can only be

gained by sickness." For years Mr. Hirsch has built his reputation as a "doctor of sick companies," making them healthy and valuable.

Several years ago, he took faltering 97-year-old Mullins Manufacturing Company, maker of the "Youngstown Kitchen" line of sinks and related products, and rescued it from

virtual bankruptcy. He also saved Hall Lamp Company of Detroit—the nation's oldest manufacturer of headlamps, taillights and parking and back-up lights for the automotive industry—from a similar fate.

By combining these two firms in 1969, Mr. Hirsch formed Leader International Industries, a holding company that specializes in taking over sick firms and making them well and valuable.

Mr. Hirsch's deftness in turning around a sick operation has lately been reflected in Leader's takeover of a 188-unit motel in Cocoa Beach, Florida, which has been described as the "space capital of the nation." There, too, the operation was virtually

bankrupt; then Mr. Hirsch came along, provided it with a new lift and a Ramada Inn franchise and, helped by a strategic location near Disney World, it too has been restored

to financial health. As a result of Mr. Hirsch's rescue efforts, he employs today thousands of people, and his operations are running at the rate of approximately \$40 million
