

THE
ALLEN HAY PEDDER.

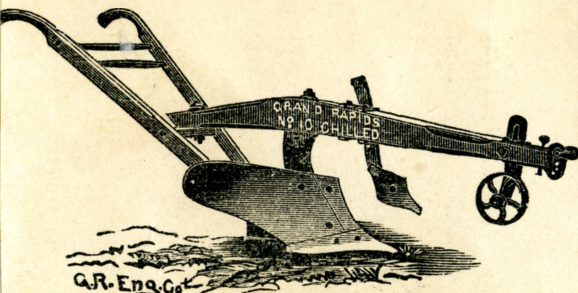

THE KING OF THE HAY FIELD.

plow, light weight, fully trimmed, under 130 lbs.) and easily handled. Mould Board of best "Iron Centre" Steel, highly polished and warranted to scour in any soil.

To suit many of our customers, we also furnish with extra long handles and brace rods, making it a great favorite with the Canadian trade and those used to plowing with Scotch pattern plows.

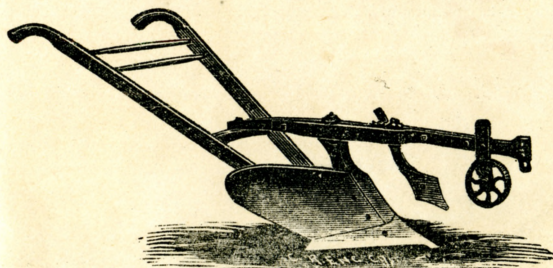

THE GRAND RAPIDS No. 10 CHILLED.

Also trimmed as above, ranks second to none in the market, in some respects similar to several of the standard Chilled Plows in the country, but possessing merits of its own found in no other. Cuts a $1\frac{1}{2}$ inch furrow.

OUR LATEST.

THE GRAND RAPIDS No. '83 CHILLED PLOW.

For Wrought Iron or Wood Beam. This plow is the outcome of over thirty years practical experience in building and using plows and it is with pleasure that we present to the trade our latest effort.

After thorough field tests in all kinds of soil, stones, sod and stubble we pronounce this, one of the best "general purpose" plows in the market, equal to any, excelled by none. The

wrought beam, making it very desirable for new land and heavy work as it cannot be broken. Wood beam designed more for cleared farm land. Cuts a 12 inch furrow, light and easily handled. **Jump** plows for new land a specialty. Ask for cut and prices of our "Currie" Gang Plow. 87V

CORN TOOLS AND CULTIVATORS.

These tools we manufacture in large quantities. Single Shovels, Double Shovels, Three Tooth Cultivators, Five Tooth Expanding, Diamond Tooth Cultivators, with end or centre wheels, Wing Shovel Plows (see cut) with adjustable wings a specialty. We make the best Five Tooth Cultivator in the market, (see cut,) wrought iron standards and braces.

FIELD ROLLER.

The reputation of our "Patent Flexible Head Roller" (see cut) is increasing every year, being a favorite wherever used. A most valuable tool to every farmer. Staves are of two inch white oak, each bolted in place at each end separate, so that any one can be removed. Cast iron heads and frames. Weight from 800 to 1000 lbs. Adjustable to uneven surfaces.

OX YOKES.

We are the largest manufacturers of Ox Yokes in the 'West.' Keep on hand a full assortment of Freighters' and Lumberman's Yokes, four sizes, furnished plain, ironed or complete. Large stock selected Bows, all sizes.

FALLOW CULTIVATORS.

We are sole manufacturers of the "Carter Fallow Cultivator," one of the best in the country. Write for cuts and prices.

FEED CUTTERS.

We manufacture six different styles of Lever Feed Cutters, at prices that cannot help but sell. Farmers who cannot afford to purchase power cutters will find these a very valuable assistant in feeding stock, with but small outlay.

The Valley Drag Saw Machine,

WITH CIRCULAR SAW ATTACHMENT.

The best in the World. This may seem like boasting, but it is but putting into print, what we are hearing daily from those who have given them the test of years of service.

We keep them in stock for quick shipment Hand or Self-Feed, with or without power. Also designed for steam power, provided with 6 inch face pulleys and Band or Balance Wheel, also with loose pulley for line shafts.

Write for our large Saw Machine Circular giving full description, prices, terms, weights and capacity.

Also have nearly ready, a small, one horse power and jack that can be operated on a 14 foot barn floor, suitable for running Power Feed Cutters, Fanning Mills, Cider Mills, Churns, Circular Saw Mills for Cord Wood, and other light work.
