

# THE CAMBRIDGE

No. 1 Plow.

Steel Beam.

Steel or Chilled Mould-  
board.

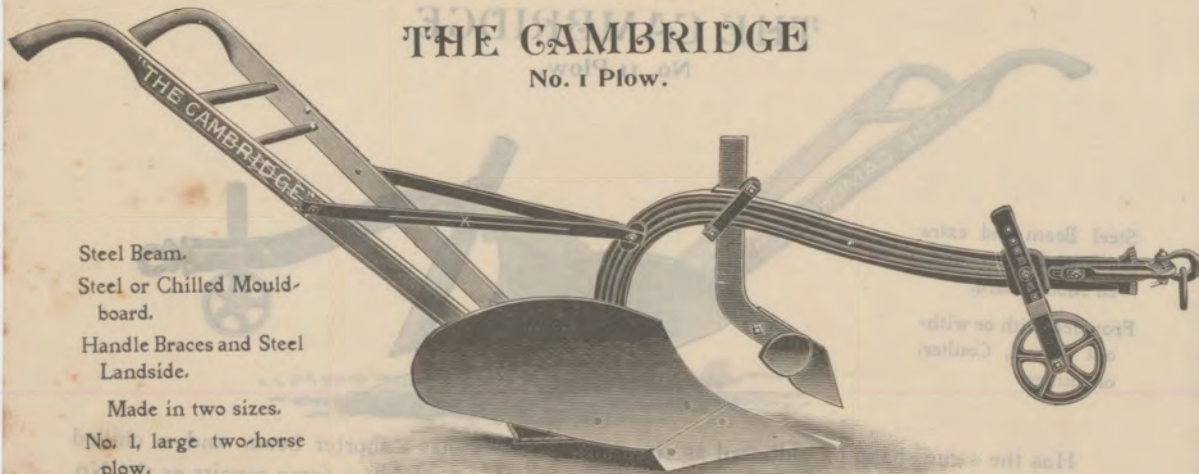

Handle Braces and Steel  
Landside.

Made in two sizes.

No. 1, large two-horse  
plow.

No. 2, medium two-  
horse plow.

With Wheel and Jointer.

# THE CAMBRIDGE

No. 2 Plow.

Same as No. 1 Plow, only this illustration shows this famous plow with wheel and couler.

# THE CAMBRIDGE

No. 10 Plow.

Steel Beam.  
Adjustable Handles.  
Shifting Clevis.  
Extra Quality Steel or  
Chilled Mouldboard,  
Automatic Coulter and  
Wheel.

This plow is provided with the best foot-latch in the country and is warranted to do good work on either level land or hillside.

# THE CAMBRIDGE

No. 10 Plow.

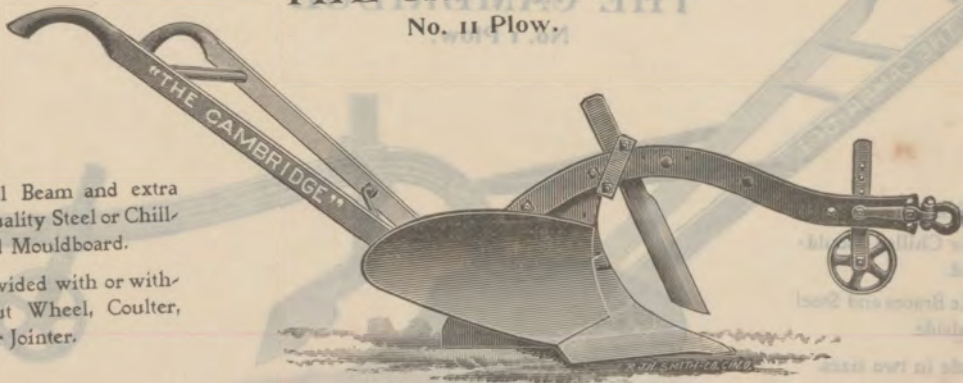

Same as plow referred to above, only without the automatic coulter. We also sell<sup>d</sup> this plow without wheel or shifting clevis, and with plain handles if desired.

# THE CAMBRIDGE

No. 11 Plow.

Steel Beam and extra  
quality Steel or Chill-  
ed Mouldboard.

Provided with or with-  
out Wheel, Coulter,  
or Jointer.

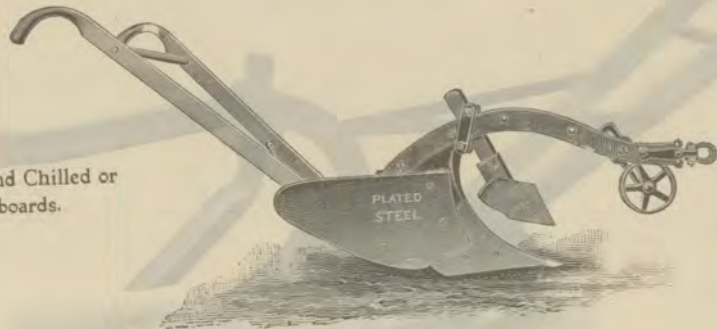

Has the same shape mouldboard as the No. 27 Plow; has a shorter beam and a chilled landside, and is more adapted for a general purpose plow. Takes the same repairs as the No. 12 Plow.

# THE CAMBRIDGE

No. 12 Plow.

Steel Beam and Chilled or  
Steel Mouldboards.

We have thousands of these plows in use and thousands of farmers say this plow is the lightest draught, most durable, and best general purpose plow made.

# THE CAMBRIDGE

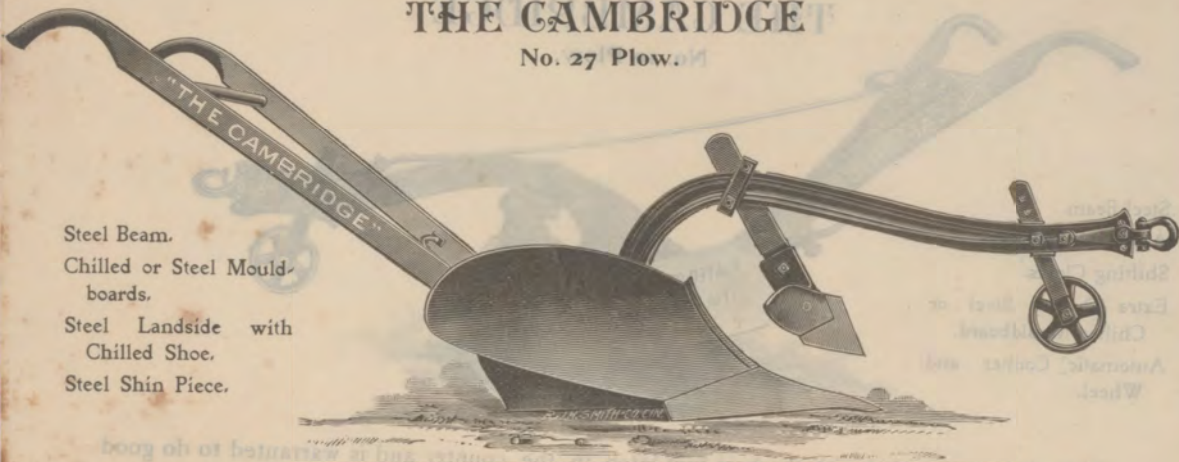

No. 27 Plow.

Steel Beam.

Chilled or Steel Mould-  
boards.

Steel Landside with  
Chilled Shoe.

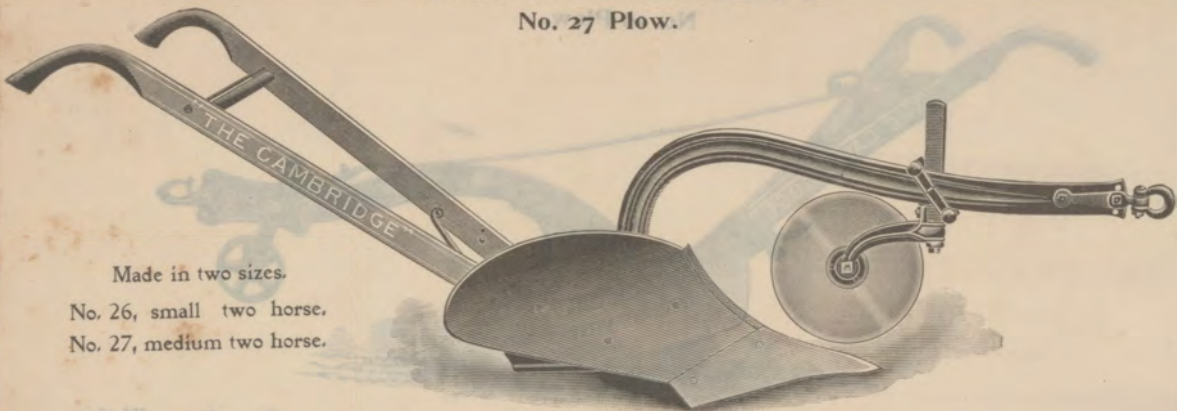

Steel Shin Piece.

With or without wheel, jointer, coulter, or our new adjustable handle device.

# THE CAMBRIDGE

No. 27 Plow.

Made in two sizes.

No. 26, small two horse.

No. 27, medium two horse.

This cut shows our celebrated pattern of Steel Plow, with steel rolling coulter.
