

BIRD'S EYE VIEW OF THE

ALBANY AGRICULTURAL WORKS, OF EMERY BROTHERS,

Erected by them in 1848, for its present purpose. They having been engaged in the manufacture and sale of Agricultural Implements and Machines for the past TWENTY YEARS, and knowing the necessities of the farming public, as well as the requisite facilities necessary for manufacturing to the best advantage, they hazard nothing in stating that their present facilities, as also the character of their manufactures, (which latter have already acquired a world-wide demand,) are not excelled, if equaled, by those of any similar establishment in the world.

Their leading branch being the manufacturing the justly celebrated EMERY'S PATENT CHANGEABLE GEARED RAILROAD HORSE POWER, with the various machines to be propelled by it, as Threshing Machines, Saw Mills and Machinery generally.

These powers having been submitted repeatedly to the most severe TESTS and TRIALS, to determine their relative merit and utility with those of every other known manufacturer, have, WITHOUT EXCEPTION, been awarded the highest prizes for superiority,—among which are the following States trials:

*New York State Agricultural Society, 1854, 1853, 1852, 1851, 1850.
Ohio State Board of Agriculture, 1854, 1853, 1852, 1851, 1850.
Michigan State Agricultural Society, 1853, 1852, 1851.
Indiana State Agricultural Society, 1853.
Illinois State Agricultural Society, 1853.
Pennsylvania State Agricultural Society, 1853.*

*Connecticut State Agricultural Society, 1854.
Maryland State Agricultural Society, 1853.
Missouri State Agricultural Society, 1853.
American Institute, 1852, 1851.
New York Crystal Palace, 1853.
Canada Provincial Society, 1852, 1851.*

The public are assured that their demands will be supplied with articles warranted satisfactory in every particular. Terms liberal, and local agents solicited, to whom will be allowed a liberal discount in proportion to exertions made by them throughout the State.

N. B.—All articles bear the name of "Emery" in raised letters upon the cast iron parts of the same; and however much others may resemble them, none are genuine without this mark.

The public are solicited to visit their establishment, or to correspond with them before purchasing elsewhere. Descriptive and Illustrated Catalogues, with prices, terms, &c., sent gratis by mail, on application. Address

EMERY BROTHERS, ALBANY, N. Y., Proprietors, On Hamilton, Liberty & Union Streets.
