GLEANINGS FROM THE HARVEST FIELD.

BY PATRONS OF THE MINNEAPOLIS.

Minnie started right off about her business.
It never missed a bundle, or choked.
No other Binder can stand along side of it.
Not a break or a stop in cutting 550 acres.
Easy to manage, light on team; beats them all.
Am more than pleased; cannot praise it too much.
Performs large amount of work, with no delay.
On rough ground and in heavy grain it stands the trial.
Less trouble and expense than lumber wagons.
In the packer trip she has great advantage.
Saves grain, time and money.

nothing about the machine but what is No. 1.
Threshers find the binding uniform and better than others.
Am sure farmers wanting a Binder can find none better.
No nonsense about the "Minnie;" she is made to work.
Does not need experts, but experts herself.
After four harvests, runs as good as ever.
Runs in the heaviest down grain, and secures it all.
Don't forget it: "Minnie" always fills the bill.
