

The Oliver No. 1 Sulky Plow

The Oliver No. 1 Sulky Plow

THIS Plow is designed and constructed along the same lines as the famous No. 1 Gang and it possesses all its valuable and popular features.

We wish to call your special attention to some of the many advantages the Oliver No. 1 Sulky enjoys over other plows of this type.

- (1) Note the extra high lift attained by an easy working foot lever.
- (2) The large furrow and caster wheels adjustable in and out of the axles insuring steady running.
- (3) The dust and sand proof boxes and caps and the practical oil retaining feature which is greatly liked.
- (4) Freedom of the wheels from cramping or sliding when turning.
- (5) The ease and quickness with which the different adjustments can be made.
- (6) The complete control which the operator has over the plow at all times.

With plenty of strength, wide range of adjustment in hitch, ample clearance and proper suction, the farmer has a plow that is sure to give complete satisfaction.

Examine this plow at our nearest dealer's store and convince yourself that our claims are true.
