The Cheapest and Best
Riding Corn and Bean Drill
in the World.

Made by

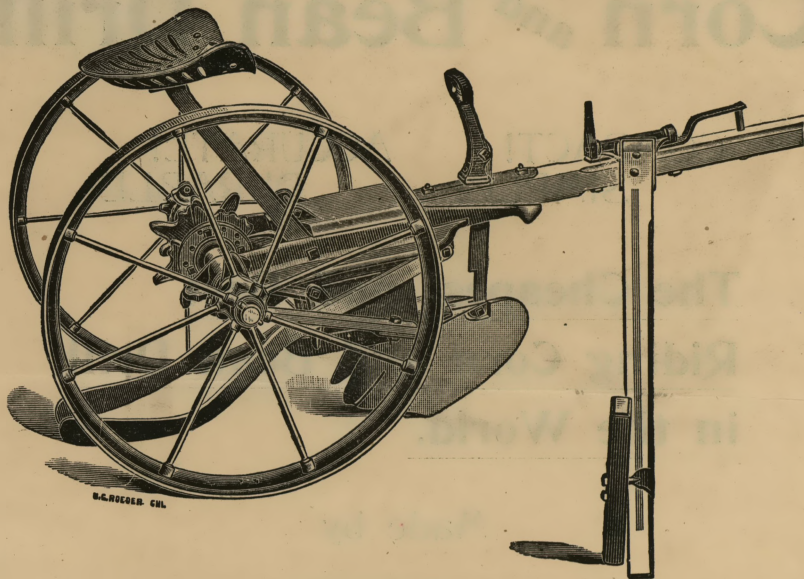

MANUFACTURING
ASPINWALL — COMPANY.

Also Manufacturers of

Potato Machinery.

JACKSON, MICHIGAN, U. S. A.

ASPINWALL CORN AND BEAN DRILL.

(Furnished with pole or shafts, as desired.)

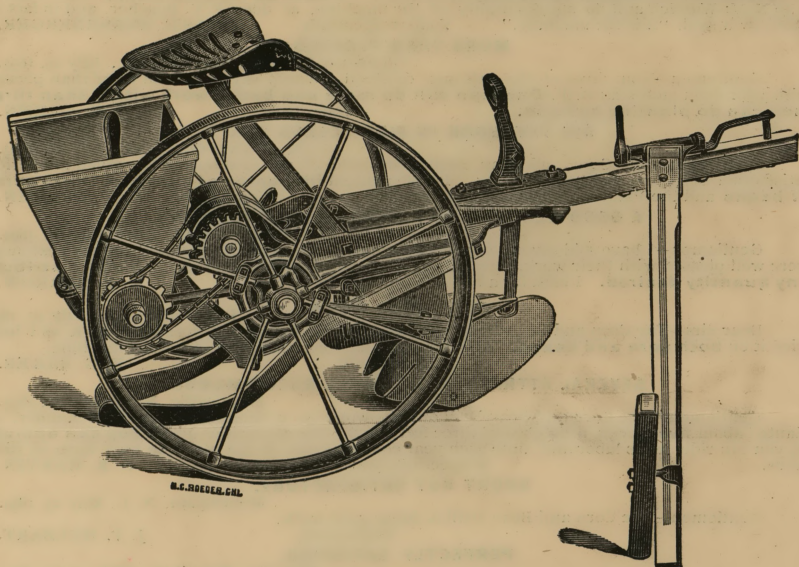

THE BEST AND CHEAPEST RIDING CORN PLANTER IN AMERICA. ALSO PLANTS BEANS, PEAS, ENSILAGE, ETC.

This faultless new machine commends itself to all who use it. Farmers have long been looking for a compact and perfect little Planter that can be procured at a reasonable price. The above machine fills all these requirements. It is the smallest riding Planter ever made. In style and perfect construction it resembles our Potato Planter. It weighs in the neighborhood of 200 pounds. It will plant Corn, Peas, Ensilage, etc., any distance apart, or in a continuous stream. It drops alternately a hill of corn and a hill of beans as desired. It is only a trifle heavier than the man-killing walking machines. The merits of our new Corn and Bean Drill are: **ITS CHEAPNESS, ITS ACCURACY, ITS DURABILITY, ITS ECONOMY.** It plants from ten to twelve acres per day, and slides are furnished free with the machine for planting peas, beans and ensilage.

Price of Aspinwall Corn and Bean Drill delivered on board cars, Jackson, Mich., \$20.00.

Aspinwall Corn and Bean Drill

WITH FERTILIZER ATTACHMENT.

THOROUGHLY PRACTICAL, COMPACT AND SIMPLE.

(FURNISHED WITH POLE OR SHAFTS AS DESIRED.)

The above cut represents the Aspinwall Corn and Bean Drill, with Fertilizer Attachment.

This Attachment distributes the Fertilizer from 100 to 1500 pounds to the acre. It works perfectly in any soil, and it has no equal in the market. It is furnished with the most **perfect force-feed** ever presented to the public, and it is the greatest combined Fertilizer and Corn Planter ever invented.

It is Economical, Efficient and Cheap; a boon to the farmer who has heretofore fertilized and planted by hand.

Price of Aspinwall Corn and Bean Drill with Fertilizer Attachment delivered on board cars, Jackson, Mich., \$25.00.

WHAT THE USERS SAY.

THE CORN AND BEAN DRILL IS THE MACHINE.

Aspinwall Mfg. Co., Jackson, Mich:

Grantsville, Md., Aug 7, 1894.

Dear Sirs—I like your Corn Planter very much. **It does as recommended.** Have loaned it to Noah Warrick and he speaks highly of the machine, as does P. C. Boucher, and in fact all that saw it said, "it is the machine." Yours respectfully,

JONAS E. HERSHBARGER.

MORE THAN PLEASED.

Gentlemen—Your favor of the 14th inst. received. Would say that I am more than pleased with your Corn and Bean Drill. **One man will do more and better work with it than three men can do planting by hand.** Yours truly,

J. H. GLENN.

DID THE WORK IN FIRST CLASS SHAPE.

Gentlemen—The Corn and Bean Drill purchased of you last spring has given me perfect satisfaction as a Corn and Bean Planter. I have planted **fifty acres of corn and thirty acres of beans** and the Planter did the work in first-class shape. Yours truly,

Lyles, Reeves Co., Texas, July 20, 1893.

C. W. GRIFFIN.

A GOOD RECORD AND A STRONG ENDORSEMENT.

Gentlemen—I have sold several of your Corn and Bean Drills this season and my customers were well pleased with their work, especially with the fertilizer attachment, as **it will distribute any quantity desired.** I look for a big sale on them in 1895.

East Norwalk, Ohio, July 17, 1894.

M. T. MORROW.

DOES GOOD WORK.

Dear Sirs—The Corn and Bean Drill purchased of you last spring does good work, as I have tried it on **both corn and beans.** All who saw it at work pronounce it a No. 1 machine.

Plainsville, Ohio, July 17, 1893.

Yours truly,

H. G. BAKER.

SEVERAL ATTRACTIVE. WELL RECOMMENDED.

Gentlemen—The Corn and Bean Drill did its work in a thorough and perfect manner. It planted about **five acres a day**, rows three feet apart. The attractions are, **a boy can operate it**, you can ride, saves labor and time each year equal the cost of the machine on a farm of forty acres.

Middleville, N. Y., July 13, 1893.

Respectfully yours

D. R. MARTIN.

SHORT BUT SATISFACTORY.

Gentlemen—The Corn and Bean Drill is doing good work,

Monasquan, N. J., May 23, 1893.

Yours truly,

J. P. HULZART.

PERFECTLY SATISFIED.

I have given the Corn and Bean Drill a good trial and find it does the work satisfactorily, **I never saw a better and more even stand of corn.** I am perfectly satisfied with the Drill, and think can get you a few orders for next year.

Malvern, Carroll Co., Ohio, July, 1894.

R. A. WADSWORTH.

VERY SATISFACTORY, AND HIGHLY PLEASED.

Gentlemen—I hereby inform you that the Corn and Bean Drill is **very satisfactory** and **that I am highly pleased with it.** Think I have got the best planter in our section of the country.

Viola, Marshall Co., W. Va., July 4, 1894.

Yours respectfully,

WM. SPEARS.

ALL THAT IS CLAIMED FOR IT.

Dear Sirs—I have given the Aspinwall Corn and Bean Drill a **thorough trial** this season, having **planted all my corn, beans and peas with the drill**, and find it to be all that is claimed for it.

South Haven, Mich., July 29, 1893.

AUGUSTUS PORTER.

MORE GOOD POINTS THAN ANY CORN PLANTER HE EVER USED.

The Corn and Bean Drill I bought of you last spring has given me entire satisfaction. I have planted on my own farm and for my neighbors **over forty acres of corn.** It will plant the straightest row and work the best on a hill-side or in very stony land of any planter I ever used. The Fertilizer Attachment is a success.

Mt. Upton, N. Y., July 17, 1894.

Yours truly,

W. F. MOORE.
