little friend for the whole year.

Slip the months, as used, from under the
"catch" and fold them down. **Do not tear
them off.** Two consecutive months will be in
sight at one time. Any month can be consult-
ed at pleasure, either backward or forward.

PATENT APPLIED FOR.

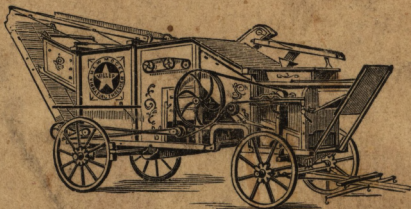

The BUCKEYE TABLE RAKE REAPER,
Manufactured by C. AULTMAN & CO.,
Canton, Ohio.

THE Reaper Frame is a model of beauty and power. Rake and Platform are right under the driver's eye. The Table Rake is the easiest Reaper to bind after, because it delivers sheaves in the best shape. In reaping tangled crops it has no equal. Light draft, no side draft, no weight on horses' necks.

BUCKEYE BINDER.
