THE PLANO M'FG. CO.

CHICAGO, 1887.

Another season has passed and the continued popularity of the light running Plano Harvester and Binder and New Plano Mower is indicated by largely increased sales and testimonials of the economy and splendid working of our machines. Our conservative policy has in the past given to the farming public machines that are unrivalled, and our "All steel Harvester and Binder" for '88 will fully protect the reputation of the "Reliable Plano" of the past. We ask an examination of our machines. The points as to durability and perfect working will become apparent.
