

SYRACUSE CHILLED PLOW CO.

SYRACUSE,
N. Y.

SYRACUSE

CULTIVATING TOOLS AND ROAD SCAPES

We manufacture a very complete assortment of Cultivating Tools, as enumerated below :—

SYRACUSE STEEL FRAME CULTIVATOR

This implement we fit up in four different styles:

- No. 1. Five Points, without wheel.
- No. 2. Same as No. 1, with wheel.
- No. 3. Five Points, with shovel point, and right and left wing points, to use as horse hoe, without wheel.
- No. 4. Same as No. 3, with wheel.

The frame and working parts are made entirely of steel, which makes them light, strong, and durable.

SYRACUSE WOOD FRAME CULTIVATOR.

We furnish this Cultivator with a variety of Points, including the Oval, Diamond, Thistle, Wright's, etc., and with Wing Points for hilling purposes.

SYRACUSE WING SHOVEL PLOW.

The blade and wings are made of steel, and can be adjusted to throw more or less earth.

WOOD AND IRON-BEAM SINGLE AND DOUBLE SHOVEL PLOWS.

These Plows are made of the best material, and combine all the latest improvements in the way of adjustment.
