57	Heavy Two-Horse, or Medium Three-Horse, 5 to 9	" 14 to 15 "

STEEL PLOWS.

We have lately put upon the market an assortment of Steel Plows combining all the latest improvements. These Plows we make with crooked steel beams, common steel and soft centre steel bottoms.

SPRING-TOOTH HARROW.

The frame and teeth of our Spring-Tooth Harrow are made of spring steel. Our frame bars are set at an angle so that they crush the lumps of earth instead of pushing them along in front. The connecting frame is raised so as to prevent clogging.
