

"Oliver Gave to the World
the Chilled Plow."

The Genuine **OLIVER CHILLED PLOWS** and **REPAIRS**

FARMERS AND PLOWMEN,

Are the Best on the Face of the Globe.

There are Fifteen Reasons Why You Should Use Nothing but Oliver Chilled Plows:

FIRST—They are the **original** and **only genuine** Chilled Plows made.

SECOND—They are adapted to all kinds of soil, and will do first-class work in sod or stubble.

THIRD—The mouldboards are thoroughly chilled, have no soft spots in them, will scour in any soil, and will not wear out in ten years' plowing.

FOURTH—Oliver's Chilled Metal will not corrode. The heaviest coat of rust that can accumulate on it will be entirely removed by a few minutes' use, and the mouldboard will be as bright and smooth as before.

FIFTH—The Oliver has a thorough center draft, runs lighter than any other plow, and is under the direct and complete control of the operator.

SIXTH—The wood work being free from mortises permits easy, rapid and perfect adjustment, for either two or three horses.

SEVENTH—The Oliver is economical in repairs, and when your share is renewed you have an entirely new cutting edge.

EIGHTH—The Oliver Patent slip-nose share can be furnished when desired; a wonderful saving device.

NINTH—All parts of the Oliver Chilled Plows are fitted over templates at the works, hence are exact duplicates, and by simply giving the number and hand, you are sure of a perfect fit.

TENTH—The Oliver Chilled Plow has hundreds of imitators. No manufacturer will try to imitate an inferior plow.

ELEVENTH—For ease of management, adjustability and lightness of draft, it has no successful competitor.

TWELFTH—The Oliver has a record unparalleled in the history of plow making, from 1,500 in 1871, to an annual sale of more than 100,000.

THIRTEENTH—Your neighbors will tell you to buy the Oliver and take no other. They speak from faith born of experience.

FOURTEENTH—There are over 2,000,000 Oliver Chilled Plows in actual use, and many more are being sold at the present time than any other plow manufactured. They are warranted to do better work, and more of it, with the same amount of draft, than any other plows in use.

FIFTEENTH—Finally, these plows are better known, have reached a larger sale, have had a longer run, have proved more popular and given better satisfaction, than any other plows on the face of the globe.
