

The New Diamond Riding Cultivator

Manufactured by E. L. JONES & Co., Inc.
Dover Phone 2 Delaware

This cultivator has many imitators but no equals.

Large wheels, twelve spokes, wide concave rim,
removable bushing in hub.

Adjustment out to out of wheels, 48 to 54 inches.
8 flukes, pin break open sleeve, round shank.

Only one lever to work to adjust flukes up and
down. Quick dodging by foot of fluke and gauges.

Light running adapted for your section of country.

Does not require any special cultivator teeth, steel,
or tools.

The price is far below others. repairs are low.

Used as a **Marker, Coverer, Hiller, Fallow
Worker and Cultivator.** All changes can be
made in a few minutes, with no tools but a wrench.
