Would respectfully call your attention
to their

New Pat. Chilled Plow

Manufactured at

ALBION, - MICH.

This implement has been in use, now, more than two years, and has been subjected to some of the severest possible tests, some of the results of which may be found in the succeeding pages, and our facilities for their manufacture have been taxed to the utmost to supply the demand for them. The introduction of

CHILLED IRON,

in the manufacture of Plows, has marked a new era in the history of this Implement, and its superiority,
