STOP**L****LOOK****I****S****T****E****N**

THIS SIGN you are all familiar with and see it often, just before you cross the railroad track.

I want to simply call your attention to this same sign in our business.

STOP and think a moment. Thornton Barnes has been in business for over fifty years; he has made a reputation for honest dealings, which you see has stood the test for years. Those who have been buying from him, why should you go elsewhere and get inferior goods and pay the price for good goods? He always stands ready to make good any just claim, if you will only write him, if the goods are not satisfactory, or any errors, shortages, etc.

LOOK and read his price list over carefully; note the changes made recently; compare the quality of the goods and the prices charged to any one else. Even if you have paid a few cents over on an article to him, you can rest assured you received it over a hundred fold in comparison of the quality of the goods you would have received from the other fellow.

LISTEN. He is here in the business to stay, and his reputation stands not like a mushroom, grown in one night and the next day vanished, but conducting a business on a firm foundation of solid rock, brought about by honest dealings with every one. Were it not so, he would have been out of business long ago.

THORNTON BARNES,

Established 1865

223 N. Water Street,

Philadelphia, Pa.

If you do not receive a Price List regularly each month, kindly drop me a postal with your name and address and a list will be mailed you regularly,
