National Reversible Plows.

Plow Repairs, Etc.

JOSEPH BRECK & SONS

(CORPORATION)

Sole New England Agents - - 47 to 54 North Market Street
BOSTON, MASS.

NATIONAL REVERSIBLE SULKY PLOW.

This plow is not an experiment, having been placed on the market in 1885, since which time there have been several thousands sold. Unlike all other makes of riding plows, the National has been especially designed to meet the wants of Eastern farmers, and succeeds not only upon level farms, leaving them without tracks or dead furrows, but is equally adapted to stony, rough side hill farms, turning the land with the slope, and not up the hill, as is the case with all one-way sulky plows.

Neck Yoke, Evener, Whiffletrees, which answer for two or three horses abreast, are sent with each plow.

Mnfrs. Price, including Extra Points, \$55.00. Our Net Price, \$52.50.

Complete Descriptive Circular Mailed on Application.

THE "GENUINE" OLIVER CHILLED PLOWS.

No. 40 Oliver Chilled Plow with Wheel and Jointer.

Beware of imitation plows and extras, claiming to be the genuine Oliver or equally good. The genuine plows and repairs, direct from the factory, are for sale in New England only by us and our authorized agents. All others are spurious and cannot be relied upon to fit well or do good work.

Our Net Price List.

Description.	Furrow.	Weight.	Plain.	With Wheel.	With Wheel and Jointer or Cutter.
No. A. Light One-Horse	Furrow 4½ x 8 in.	50 lbs.	\$4.50	\$5.25	\$6.75
" B. Medium "	" 5 x 10 "	65 "	6.00	6.75	8.25
" 10. Heavy "	" 5½ x 11 "	70 "	7.00	7.75	9.25
" 13. Very Light Two-Horse	" 6 x 11 "	80 "	8.00	9.00	11.00
" 19. Light "	" 6½ x 12 "	100 "	8.50	9.50	11.50
" 20. Medium "	" 7 x 13 "	110 "	9.00	10.00	12.00
" E. Heavy "	" 7 x 14 "	125 "	9.50	10.50	12.50
" 40. Heavy Two or Three-Horse	" 9 x 16 "	130 "	9.50	10.50	12.50

One extra Share given with each Plow.

MOULDBOARDS. Junior, are intended for use where it is desirable to turn furrow perfectly flat. Interchangeable with regular Mouldboards. Used on Nos. 20 and 40 only.

SHARES. Common Shares marked "C" are intended for use when the soil is in good plowing condition, as in spring work. Used on all sizes Oliver Plows.

Deep Suction Shares marked "D S" are intended for dry ground, or when the "C" shares do not run deep enough. Used on Nos. 19, 20, E and 40.

Short Shares marked "S" are for use in very hard, baked soil, or in stony land where the "D S" shares will not run deep enough. Used on Nos. 19, 20, E and 40.

Steel Shares are for use in soil containing roots, etc., that must be cut off, where our cast shares are not sharp enough. Used on Nos. 10, 13, 19, 20, E and 40.

Full Chilled Shares marked "F C" are for use in soil comparatively free from stones, where the common cast shares will not scour. They are made with the same suction as the "C" shares. Used on Nos. 20, E and 40.

Marsh or Meadow Shares, made of cast cast-steel, are for plowing marsh or meadow land, and are the only perfect shares made for that kind of work. They cut 16 inches wide and have sharp edges. Used on Nos. E and 40 only.

**Wearing Parts.**

This cut illustrates the metal parts of the Nos. A, B, 10, 20 and 40 plows, and will answer for most of the other patterns. The numbers are explained as follows:

A, B, 10, 20 and 40	
No. 1.	Mouldboard.
No. 2.	Landside.
No. 3.	Standard.
No. 4.	Share.
No. 5.	Handle Brace.
No. 6.	Clevis.
No. 7.	Wrench.

In ordering extra parts, use these terms, thus avoiding mistakes.

OLIVER'S STEEL PLOWS.

General Purpose Series. "A Perfect Plow with a Faultless Record."
