**BUFFALO PITTS
CATCH ALL
ATTACHMENT**

Something Entirely New in Threshing Machines At Last!

CATCH the grain flying from the cylinder, carry it to the ends of the grain belt cells, and you don't have to separate it from the straw. Do you understand? Of course, you can't help it. Perfected after three years of experiment, and found only in the old reliable Buffalo Pitts Machines. Send for catalogues, free.

Established 1851.

Incorporated 1877.
