

OVER

Manufactured Only by The J. I. Case Plow Co., Racine, Wis.

SOD AND STUBBLE STEEL BEAM CENTER DRAFT PLOW.

This Plow, as the name indicates, is adapted to either kind of plowing. The Mouldboard in form is modified from the bold turn for stubble and the long sloping turn for sod, and possesses the adaptability of both to such a medium as to make it the most desirable for general purposes.

They are made in 12, 14 and 16 inch cut, Right and Left Hand, and Double Shin only. (15)
