

**“JUST
ONE MOMENT
OF YOUR
ATTENTION”**

THE many and complex operations of Mines, Furnaces, Converting Plants, Rolling Mills, Manufactories, Counting-Rooms, and also of Field Experiments, which enter into the production of Harvesting Machines; with the management and operation of Rail Roads, Shipping, and other methods of transportation then involved in their delivery to the hundreds of thousands of Farmers the World over, are almost beyond computation.

The merest thought of the countless times that labor of hand and brain must be applied to produce, from the ore in the Mine a finished Harvesting Machine; will render it

MARVELOUS

to the Farmer, that such perfect machines can be supplied to him in return for so very small a percentage of the crops they harvest for him in his Field.

YOU cannot solve the problem suggested on the opposite page,
without the aid of volume upon volume, and months of study.

YOU CAN

with a little study, determine what Harvesting Machine to purchase,
to secure the

MAXIMUM

number of ADVANTAGES which are offered.

These few leaves are designed to direct your thoughts and aid you in

A RIGHT CONCLUSION.

That which gives the greatest service for the longest time, with the least
expenditure of time and money, is the

MOST ECONOMICAL.

The Machines, Implements and accessories herewith illustrated will

"FILL THE BILL."

THE ADRIANCE
BUCKEYE,

THE PIONEER
IN IMPROVEMENT.

G. & H. CO.

THE ADVANCE BUCKEYE

Embodies every device valuable in use.

Always the Leader,

Always Reliable,

Always Efficient.

Simplest,

Right Principles,

Best Construction,

Most Durable.

THE ADRIANCE BUCKEYE.

Width of Cut
6 feet, 5 feet,
4½ feet.

G.E.H. 64

BUILT THROUGHOUT
ESPECIALLY FOR ONE HORSE.

BEST PROPORTIONS.
LIGHT BUT STRONG.
Cuts 4 feet or
3½ feet.

G. & H. Co.

“ It goes against the farmers’ grain,” yet he prefers the

ADRIANCE BINDER

as the embodiment of

Simplicity

Utility

Economy

Portability

Beauty

Comfort.

Highest Award

In every European State Trial,
1894-1895-1896.

THE ADRIANCE BINDER

6 Feet or
5 feet cut.

THE UNIQUE ADRIANCE BINDER

Working parts move slowly, grain elevated only about 15 inches ; saves power and wear. No elevator aprons ; saves trouble and expense. Greatest capacity and range of work. Only binder suitable for hills ; it can't tip over. Separation the nearest to perfection of any. A round bundle ; remains most tightly bound. Saves at least one-eighth in twine over any other. Makes a clean delivery and close to the ground. Bundle always strikes on the butts. Saves grain.

ADRIANCE REAPER

BEST
OF ALL
REAPERS.

Most serviceable
and reliable
for satisfactory
work in all crops
in any
conditions.

GREAT
for

Ensilage
Corn.

THE ADRIANCE REAPER

FOLDED.

THE MOST THOROUGHLY
PRACTICABLE FOLDING
REAPER.

Saves time and wear,
Compact for storage.

G & H. C. B.

THE ADRIANCE TRIUMPH REAPER

LIGHTEST DRAFT OF ALL
The Leading Light Reaper.

FOLDS MUCH THE SAME AS ADRIANCE OPPOSITE

EACH OF OUR REAPERS

Has Automatic, at the same time perfectly Controllable Rake.

Has all other adjustments useful for securing the most perfect results in either lodged or standing grain.

Has Controlling and Adjusting levers within easy reach of the driver.

Is Simpler than any other in folding.

Is Perfectly Balanced, either at Work or Folded.

THE "NEW YORKER" SULKY HAY RAKE.

It Rakes,
does not Roll
the Hay.
Oscillating
Cleaner.
As full of
good points
as a Rake
can be.

G. & H. Co.

HARROWS MADE RIGHT,
TO DO THEIR WORK RIGHT.

Harrows big and little.

Harrows on which you can ride,

Harrows with which you must walk.

What style of Harrow do you want, and about what size?

Send for special Harrow circulars and see if we can fit you exactly.

THE ADRIANCE TWINE

Reliable,

Strong,

Uniform,

Full Length,

Pure and Mixed Fibers.

Full Weight.

You can't afford to use poor twine.

The Best is not too good for you.

It is the ADRIANCE.

A. P. & Co. SECTIONS ·
TO FIT ALL MACHINES ·

Smooth or Sickle Edge.

THE VERY BEST.

Just as made
for our
own Machines.

All
Oil Tempered.
