

LE ROY GENERAL PURPOSE PLOWS

are guaranteed to do better work than
any other General Purpose
Plows made

We are making the Hardest and Strongest Plow Points

(OVER)

THESE ARE REASONS WHY THE LE ROY GENERAL PURPOSE CHILLED PLOWS ARE THE BEST

A REMARKABLE feature of advantage in the plows of this series over all other makes is the noticeable very light draft. If your horses get tired and sweaty, hitch on to a Le Roy and watch them cool off. Ask any farmer who has used one.

To obtain the hardest and strongest Plow Points possible, we are using only the best grades of iron, mixed with the utmost care, to insure strength and good wearing qualities. The Moldboards are perfectly chilled and will wear 12 years. Shin piece chilled. Landside extra long and chilled.

The superior work of these Plows is almost unbelievable until given a trial. They are well suited to plow sod, stubble, hard, gravelly or stony soils.

All farmers like the light draft Le Roy General Purpose Chilled Plows because they handle so easily, do such good work in a large variety of soil and stay in the ground where others fail. Perfect satisfaction is guaranteed in every respect. Ask your dealer for a trial.

NO. RIGHT	NO. LEFT	STYLE	FURROW	WEIGHT
