

Disc Harrow.

Insist on getting the "LEHR" Disc Harrow and save yourself from the troubles which are found in using old style machines.

Ours is very simple and can be easily put together in a few minutes by any one without help.

All steel and iron except the tongue, neckyoke and hitch rig. It has stood the test of years and we are now selling more of them than ever before.

Fully adjustable in all its parts.

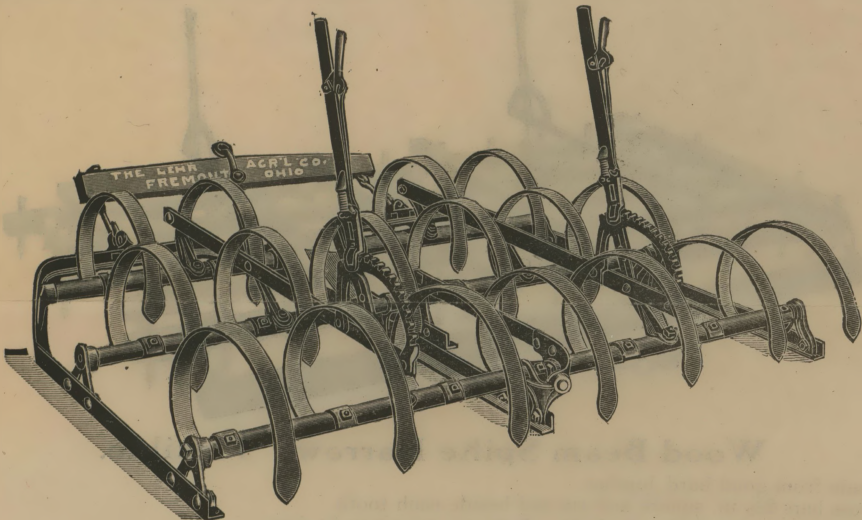

Neckyoke and hitch rig are always shipped with this machine.

Cutting width 5, 6, 7 or 8 ft.

No. of blades, 10, 12, 14 or 16.

Hitch rig, 2, 3 or 4 horse,

Size of blades, 16, 18 or 20 inches.

The Lehr Spring-tooth Harrow

Has 17 teeth. Weight complete 245 lbs. Frame of angle steel protected on bottom by heavy steel shoes which can easily be renewed.

Teeth have re-enforcing clip which prevents breaking at the bolt hole. Tooth bars are of tubular steel.

The Lehr Agricultural Co.
FREMONT, OHIO.

[OVER]

Steel Frame Harrow.

Spike Tooth Lever Harrow. Flexible.

Teeth are diamond shape $\frac{5}{8} \times \frac{7}{8}$ inch, bolted to steel cross-pipes, and can be set forward or back or turned free from the ground. Furnished with or without shoes.

The protected ends prevent the bars from catching.

Draft hooks are made with drop links which cannot become open in use.

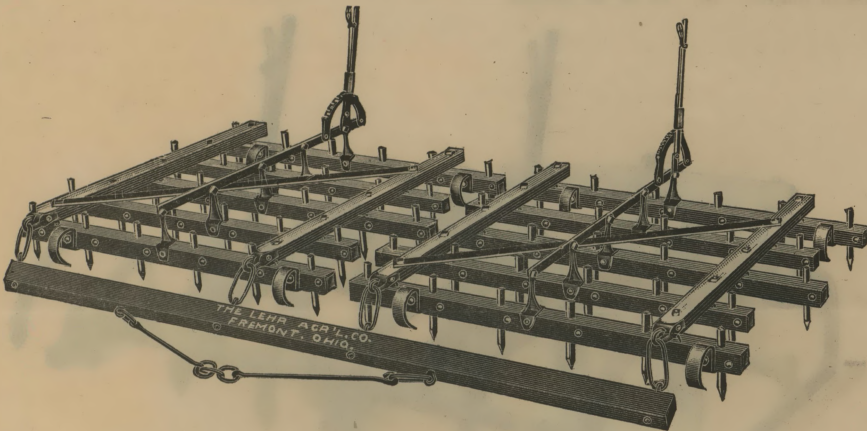

SECTIONS MADE IN THREE SIZES.

25 tooth sec.	Cuts 46 in.	Wt. 80 lbs.	Furnished in 2, 3 or 4 sec.
30 tooth sec.	Cuts 55 in.	Wt. 100 lbs.	Furnished in 2, 3 or 4 sec.
35 tooth sec.	Cuts 64 in.	Wt. 120 lbs.	Furnished in 2 or 3 sec.

The cross bars are slotted steel tubes, which are much stronger than U bars.

We make a similar harrow with open ends and with teeth $\frac{1}{2}$ inch square, teeth 8 inches apart on bars, 32 teeth per section.

WOOD BEAM HARROW.

Wood Beam Spike Harrow. Flexible.

Made from good hard lumber.

Cross bars $2\frac{1}{2}$ in. square and riveted beside each tooth.

Teeth $\frac{5}{8}$ in. square, $9\frac{1}{2}$ in. long. Runners are wrought iron.

Top bars are 2 in. square and fastened to each tooth bar by an eye bolt.

Size, 60 tooth, 2 sec. Weight complete with evener 250 lbs.

1 section cuts 56 inches.
