MANUFACTURERS OF

THE CELEBRATED ROOT PLOWS,

And all Descriptions of Plows, Cultivators, Harrows, Corn
Shellors, Rollers,

MOUNTVILLE, PENNA. [OVER]

IMPORTANT TO FARMERS.

Did you Know?

That the Lancaster County **ROOT PLOWS** are the **BEST** Plows on the market—steel, wrought or cast iron. That we could not begin to fill our orders. That agents of other plows come to us every week for the agency. That our Plows are the cheapest in the end—others sell cheaper to get the repairs that will follow. That you must not let agents put any other plow on you because they don't have ours. That for hard ground, or dry plowing, our Plows last the longest. The demand for them is greater than ever before, and are now the favorite Plows. Our Cast Shears are two pounds heavier than those sold for a few pennies less. No scrap iron used in ours. Will last longer and be the cheapest in the end. We now also make the **MOUNTVILLE CHILLED PLOW**, for which we only ask a trial.

We have the best **HAY TEDDER**—Kickers outside of wheels, and flexible frames—all latest improvements. We sell Disk Harrows which cannot be beat.

OUR CULTIVATORS are the best and do not pull out of shape in hard ground.

OUR CORN PLANTERS AND CORN SHELLERS cannot be beaten. Think of it. One bushel of shelled corn in a minute.

Our Rollers, "**THE BOSS**," are the best on the market. If your dealer don't keep the **MOUNTVILLE IMPLEMENT** buy nothing else; write to us for catalogue and prices.

Facts are stubborn things. High grade goods of any kind cost money to produce, and cannot be sold at the price of common. We make nothing cheap to sell, and **dear in the end to the farmer**. The best is the cheapest. Examine our exhibit and try us but once. All kinds of Implements Repaired Promptly.
