Dear Sir:

While in the market for anything in our line, we would be glad to have you examine our goods, or send to us for special circulars and prices. Wherever introduced our machines have become favorites, taking the lead of all others as economical and profitable tools. Believing it will prove the same in your case, and soliciting inquiries and correspondence, we are

Respectfully yours,

DEERE & MANSUR CO.

A. H. STURTEVANT,

GENERAL AGENT,
INDIANAPOLIS, INDIANA.

CARD

In the manufacture of Agricultural Implements, our aim always has been, and is, to build only such tools as farmers can use with economy and profit. Special care is taken to see that goods turned out excel in all respects, and no expense of time and labor, or quality of material, is spared to secure that result. To this fact, and to the readiness of farmers to recognize and appreciate superior merit in Farm Machinery, we attribute the favor with which our goods are received and the leading position they occupy in the trade. It shall be our endeavor in the future, as in the past, to furnish only such goods as will deserve so enviable a reputation, and as will enable farmers to produce their crops with the least cost.
