

AFTER HARVEST WITH DEERING BINDER.

OH! WHY DIDN'T I GET A DEERING BINDER.

SHOBER & CARQUEVILLE CHICAGO

THE GREAT HOPE!

Of the Farmer with a crop of grain
in the ground, is in the

Famous Deering Twine Binder.

Simplicity itself, when compared with all other Binders. For the season of 1883 the **Most Radical and Advanced Improvement** has been made. Fifteen pieces taken out of the knot-tying device. **Three Springs Removed.** No plunger-bolt. Every motion positive. No chance to get out of order. **No more Experts.**

Anyone wanting a Binder should **Call on the Deering Agent** and see this improvement—the greatest that has been made since the introduction of Twine Binding.

The Deering Twine Binder, first introduced in **1879**, has always been ahead in

**IMPROVEMENTS, SIMPLICITY,
DURABILITY, LIGHT DRAFT,
and GOOD WORK.**
