"The Hamilton" CORN PLANTER

Beside having the
it is shed
which can be
sired they can
the condition of
"The Hamilton" planter
also cultivate the soil, which
of the weeds.

Corn Planters,
RING HOES,
any depth de-
no matter what
unknown where
Covering Hoes
seed a start ahead

THE WHEELS ARE ADJUSTABLE, they can be run **over** the seed row same as all other Corn Planters, or they can be set to **run off of the seed row**, which is very desirable after light showers, or on mornings after heavy dews.

CLOD FENDERS that allow only fine soil to cover the seed, they push all clods, stalks and other loose obstructions out of the way.
