Captain J. B. Glennon, U.S.N.
Officer in Charge
Naval Ordnance Laboratory
United States Navy Yard
Washington, D.C.

Dear Captain Glennon:

In terms of your request of 26 July, I am extending Dr. John V. Atanasoff's leave to August 31, 1944.

The demands on the Iowa State College in Physics and in Mathematics are steadily increasing. Undoubtedly you know that our new Navy V-12 program was activated on 1 July. Nevertheless, because you have stated that your need for Dr. Atanasoff's services continues to be urgent, we are quite willing to extend his leave.

Sincerely yours,

Harold V. Gaskill
Dean
