FIELD CHECKING LIST

The following list of 284 species represents birds that have been reliably reported from the State of Iowa five times or more within the past twenty years, 1942-1962. Another some 60 species, which are of rare occurrence, have not been included. Species names, as used, conform to the A. O. U. Check-list, 5th Ed., except that some have been shortened by the removal of the first word, which word is unnecessary in a list restricted to Iowa birds.

LOONS

X Common

GREBES

...Red-necked
...Horned
...Eared
...Western
X Pied-billed

PELICANS

X White 9/15/79

CORMORANTS
