Dr. L. H. Pammel,
 Iowa State College,
 Ames, Iowa.

My dear Dr. Pammel:

I wish to thank you for your kindly favor of some days ago. I have been intending to answer before now, but so many things have transpired to prevent it. However, I am delighted to know that you and the family are well, and that all is going well with you.

I certainly consider it a distinct honor to have been a pupil of yours, and as I have said to you a few times and to others many times, you influenced my life possibly more than anyone else, for which I am far more grateful than my words can express.

With kindest regards to Mrs. Pammel, I am,

Yours very truly,

G. W. Carver

Director Dept. of Research
 & Experiment Station.

P. S.--In a previous letter, you spoke of sending me a copy of your recent publication on "Poisonous Plants". As yet I have not received it, and hope it has not gone astray.

I am sending you, under separate cover, my latest bulletin, which deals with the food situation as it applies to the tomato.

THE TUSKEGEE NORMAL AND INDUSTRIAL INSTITUTE
