THE TUSKEGEE NORMAL AND INDUSTRIAL INSTITUTE

FOUNDED BY BOOKER T. WASHINGTON

FOR THE TRAINING OF

COLORED YOUNG MEN AND WOMEN

GEORGE W. CARVER

DEPARTMENT OF RESEARCH AND EXPERIMENT STATION

TUSKEGEE INSTITUTE, ALA.

March 5, 1924.

Dr. L. H. Pammel
Gulf Port, Miss.

My dear Dr. Pammel:

How delighted I was to get your good letter of yesterday. I am pleased to know that you got a copy of the Atlanta Constitution. I am trying to get some copies for myself. They are rather difficult to get, as every one wants to keep their copy. I have sent to the publishers for several copies.

I am sorry your pictures did not turn out well. I am sending you a picture of the large tree of which you spoke. I will do the best I can to secure the photographs you wish, but it is rather a difficult problem to get photographs, as our photographer is kept so busy at all times in work not connected with the various departments. I have not sent the pictures as yet that I am saving for you, but hope to get them off by the time you reach Ames.

Dr. Pammel, it is impossible for me to make you understand how happy I was to see you and see you looking so well.

Remember me kindly to Mrs. Pammel, and your daughter, Lois. With sincere good wishes, I am

Very truly yours,

G. W. Carver

Research and Experiment Station

P. S. I think this article in the Constitution is the best that has appeared, as it comes nearest to forecasting the possibilities in the work on clay of anything I have seen. I have always felt that the work on clay was really the biggest thing that I have been able to do, as it is far reaching in its possibilities.
