

72.

May thirty-first, 1922.

Prof. Geo. W. Carver,  
Tuskegee, Alabama.

Dear Prof. Carver:

Thank you for your recent letter. I have just returned from New York and Washington, where I attended the Second National Conference on State Parks at the Palisade Park which is a magnificent institution, most beautiful trees and plants, Cornus florida just in bloom; also the tulip tree.

Yours truly,

P/T.
