Dr. Geo. W. Carver,
Tuskegee Institute,
Tuskegee, Alabama.

Dear Dr. Carver:-

I have your kind letter of September 8th
and wish to say that I appreciate your very kind words.

I am proud of all of my students and am cer-
tainly proud of what you have accomplished. It is a
great thing to come in contact with students and then
later find out they have done such splendid and magnifi-
cent work as you have.

We often talk of you. Mrs. Pammel and I are
home all alone. The six children are scattered from the
Atlantic to the Pacific; one in Florida - Mrs. Seal;
one in California - Mrs. Needham; two in Washington, D. C.
Violet and Harold; one in Brookline, Mass., - Mrs.
Blundell; and one in Tacoma, Washington, - Lois.

With my personal regards and best regards from
Mrs. Pammel, I am

Yours very truly,

LHP.VV
