Professor G. W. Carver,
Tuskegee Institute, Ala.,

Dear Professor Carver:-

I wish to thank you for the splendid collection of fungi you have sent to the college. We will have these mounted and placed in the herbarium, marked from the herbarium of Prof. G. W. Carver.

Dr. I. E. Melhus has a Mr. Raeder in the department who is starting to arrange the collection of fungi. I may say that Dr. Melhus appreciates your kindness also.

Yours truly*

LHP/EMT.
