Geo. W. Carver
Director Department of Agriculture
And Experiment Station.

66-111
Tuskegee, Ala., Feb. 20, 1903

Prof. Curtis, Ames, Iowa
Prof. C. E. Curtis,
Ames, Iowa.

My Dear professor Curtis:

Answered to this as soon as possible
You will doubtless receive a letter from principal Lyman Ward, of Camp Hill, Alabama, asking for a few hop roots. I told him that I thought he would have no trouble in getting them if he would write you as most any of the students can find them. I believe they grow all along the railroad track, in fact, all over the grounds, and if you can accommodate him in this I am sure you will do quite a missionary work. Camp Hill is a school for white people patterned very largely after Tuskegee, and is doing a most excellent work.

Trusting you are quite well and that all goes well with you,
I beg to remain,

Yours sincerely,

J. W. Carver
