

IOWA BIRDS COLLECTED DURING 1934

by

Philip A. DuMont

Screech Owl	1	Clay County	Jan. 16
Redpoll	2	Emmet County	" "
Snow Bunting	8	Clay County	" 20
Lapland Longspur	1	Kossuth County	" 22
Magpie	1	Sioux County	Feb. 11
Song Sparrow	3	Clay	April 7
Shufeldt's Junco (first Iowa record)	1	Clay	April 10
Grasshopper Sparrow	1	Clay	June 1
Cormorant	nest with three young and two eggs Green Bay, Lee County, June 24. First Iowa nesting record since before 1890. Nest, eggs, and young to Iowa State College, Zoology Dept.		
Horned Larks	23	Kossuth, Emmet, Clay, Pocahontas, Sioux and O'Brien counties. January and February. This material is for a special distributional study. Specimens at Univ. of Nebraska for comparison at the moment.	
Several Chickadees and Tree Sparrows have also been forwarded to Prof. Swenk at the Univ. of Nebraska for subspecific determination.			
7 Shrikes, several "blackbirds" including a series of Red-winged Blackbirds, Brewer's Blackbirds, Rusty Blackbirds, and a Cowbird, all of which are unprotected in Iowa were taken during the year.			
Red-shafted Flicker	1	Polk County	Dec. 26

All of these specimens, except those which have been forwarded to other ornithologists for identification and study, are contained in an air-tight and moth-proof cabinet at my home 306 51st Street, Des Moines. All are labelled with complete data.

Respectively submitted,
