May second, 1917.

Miss. Ada Hayden,  
Houston, Texas,

My dear Miss. Hayden:-

I am in receipt of your postal card of April twenty-sixth and also the fine collection of grasses. The collection came in very handy for the advanced classes in grasses. I turned some over to the classes and had some pressed. The remainder was bundled together for the museum.

I made out the grasses to be; *Phalaris*, *Festuca tenella*, *Melica nutica*, *Agrostis hyemalis*, *Panicum*, *Melica nutica*, *Alopecurus genicalutus*, *Hordeum pusillum*. You may find a few more, if so, send them. Thank you again.

Yours truly.

LHP/EMT.
